What is the content you’re designing?

—> event poster re-design for
International Forum on Clean Energy (Macau)

What is the intended form of your project?

—> I want to find and follow a certain rule, and generate various patterns that would cover all topics of the forum.

Why is this done in code?

—> Based on one certain visual design language
to create a bunch of different patterns.
—> Grid system
—> Dynamic design
—> Randomization
—> Repetition
