

**White side up**

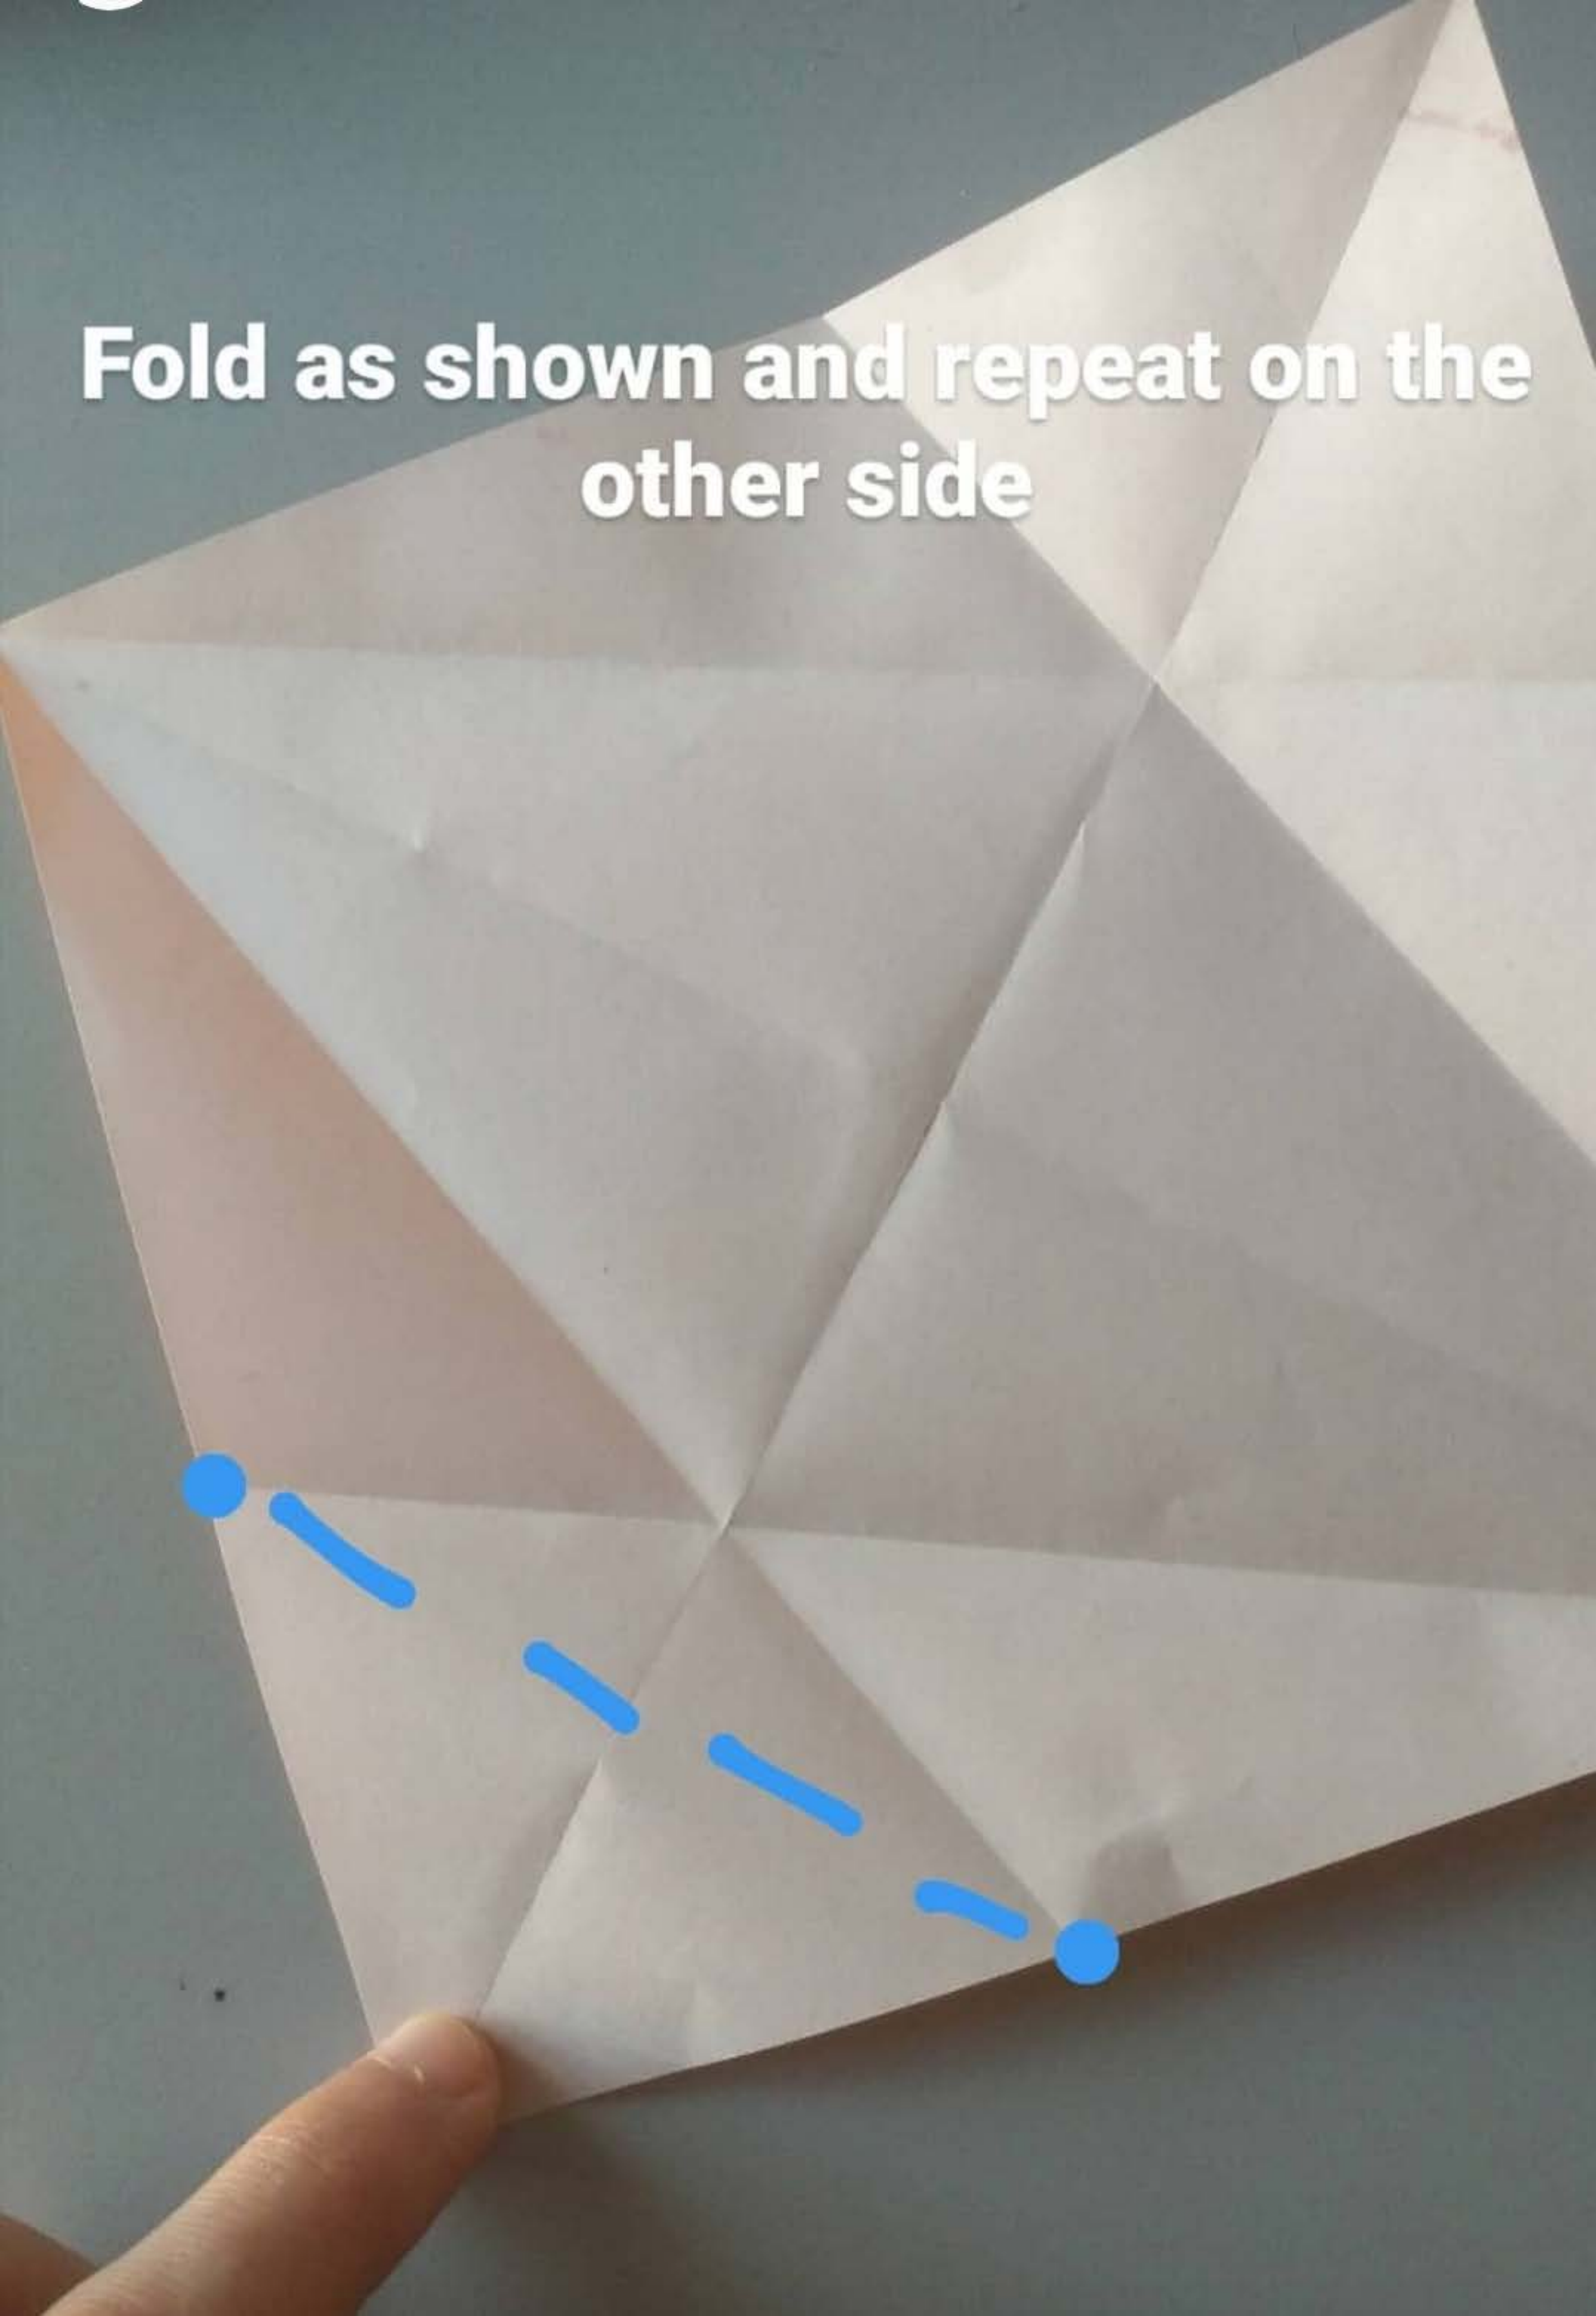

**Fold both diagonals and unfold**

**Fold bisectors of marked  
angles and unfold**

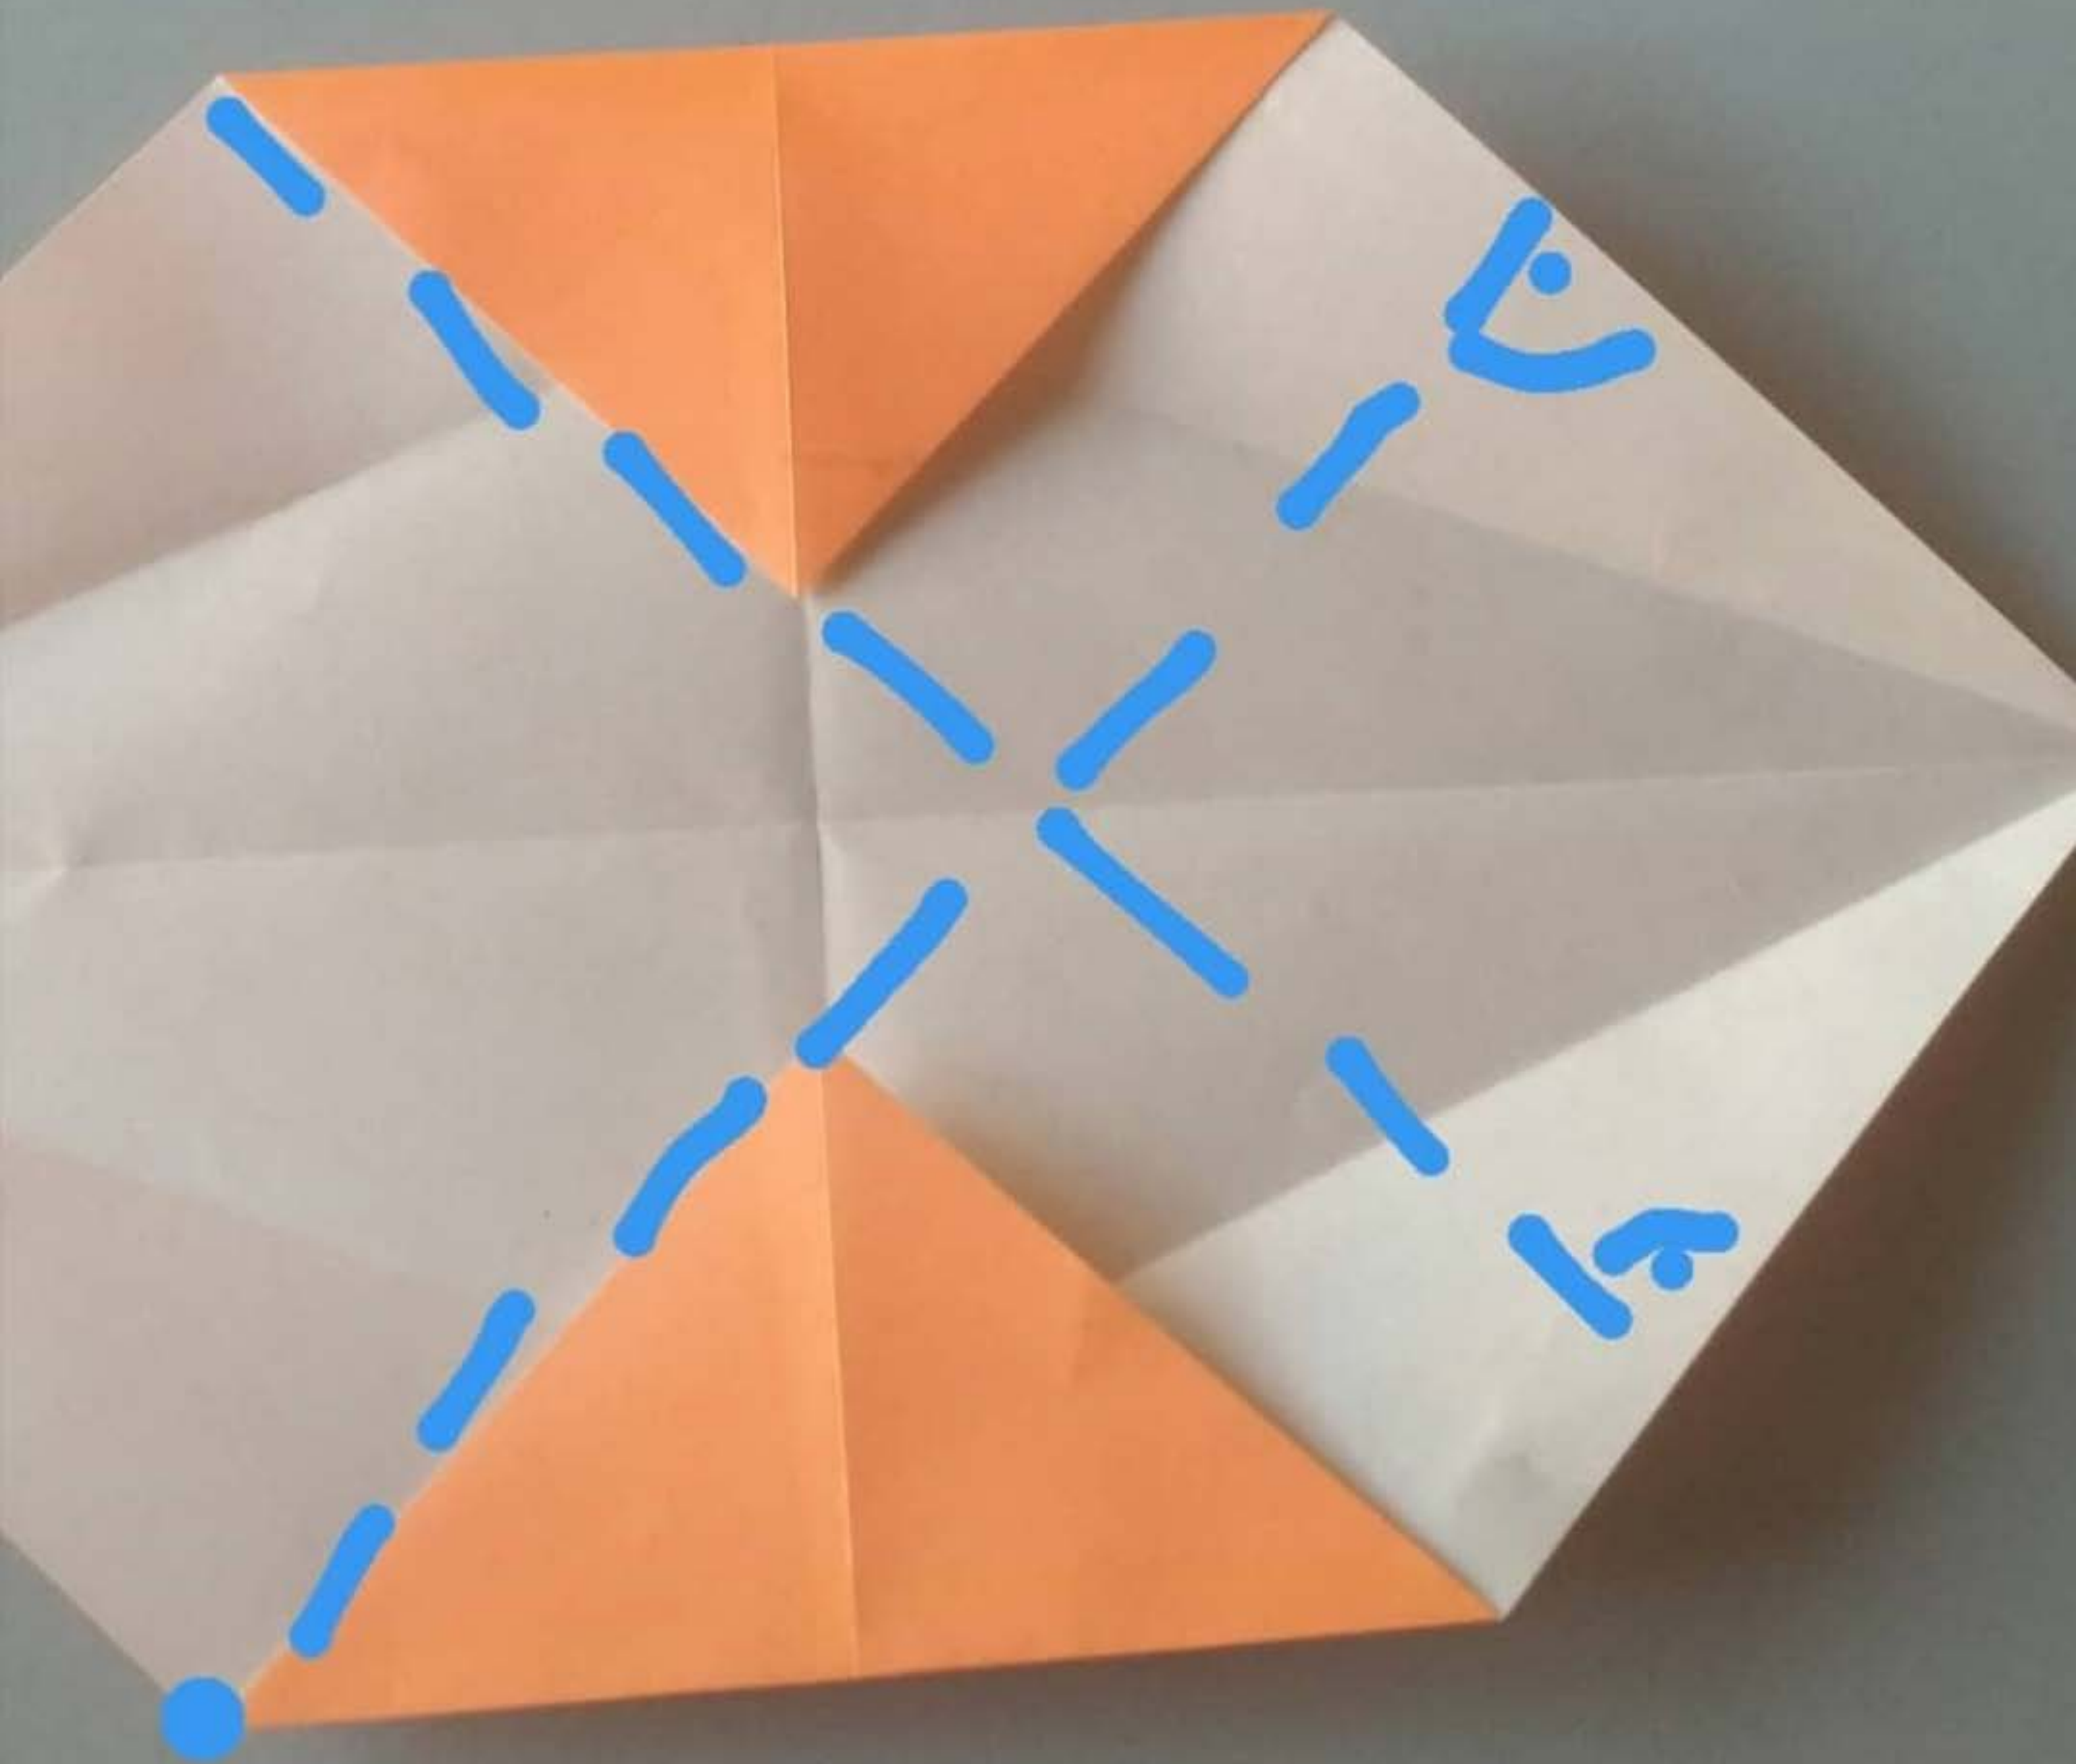

**Fold as shown and repeat on the  
other side**

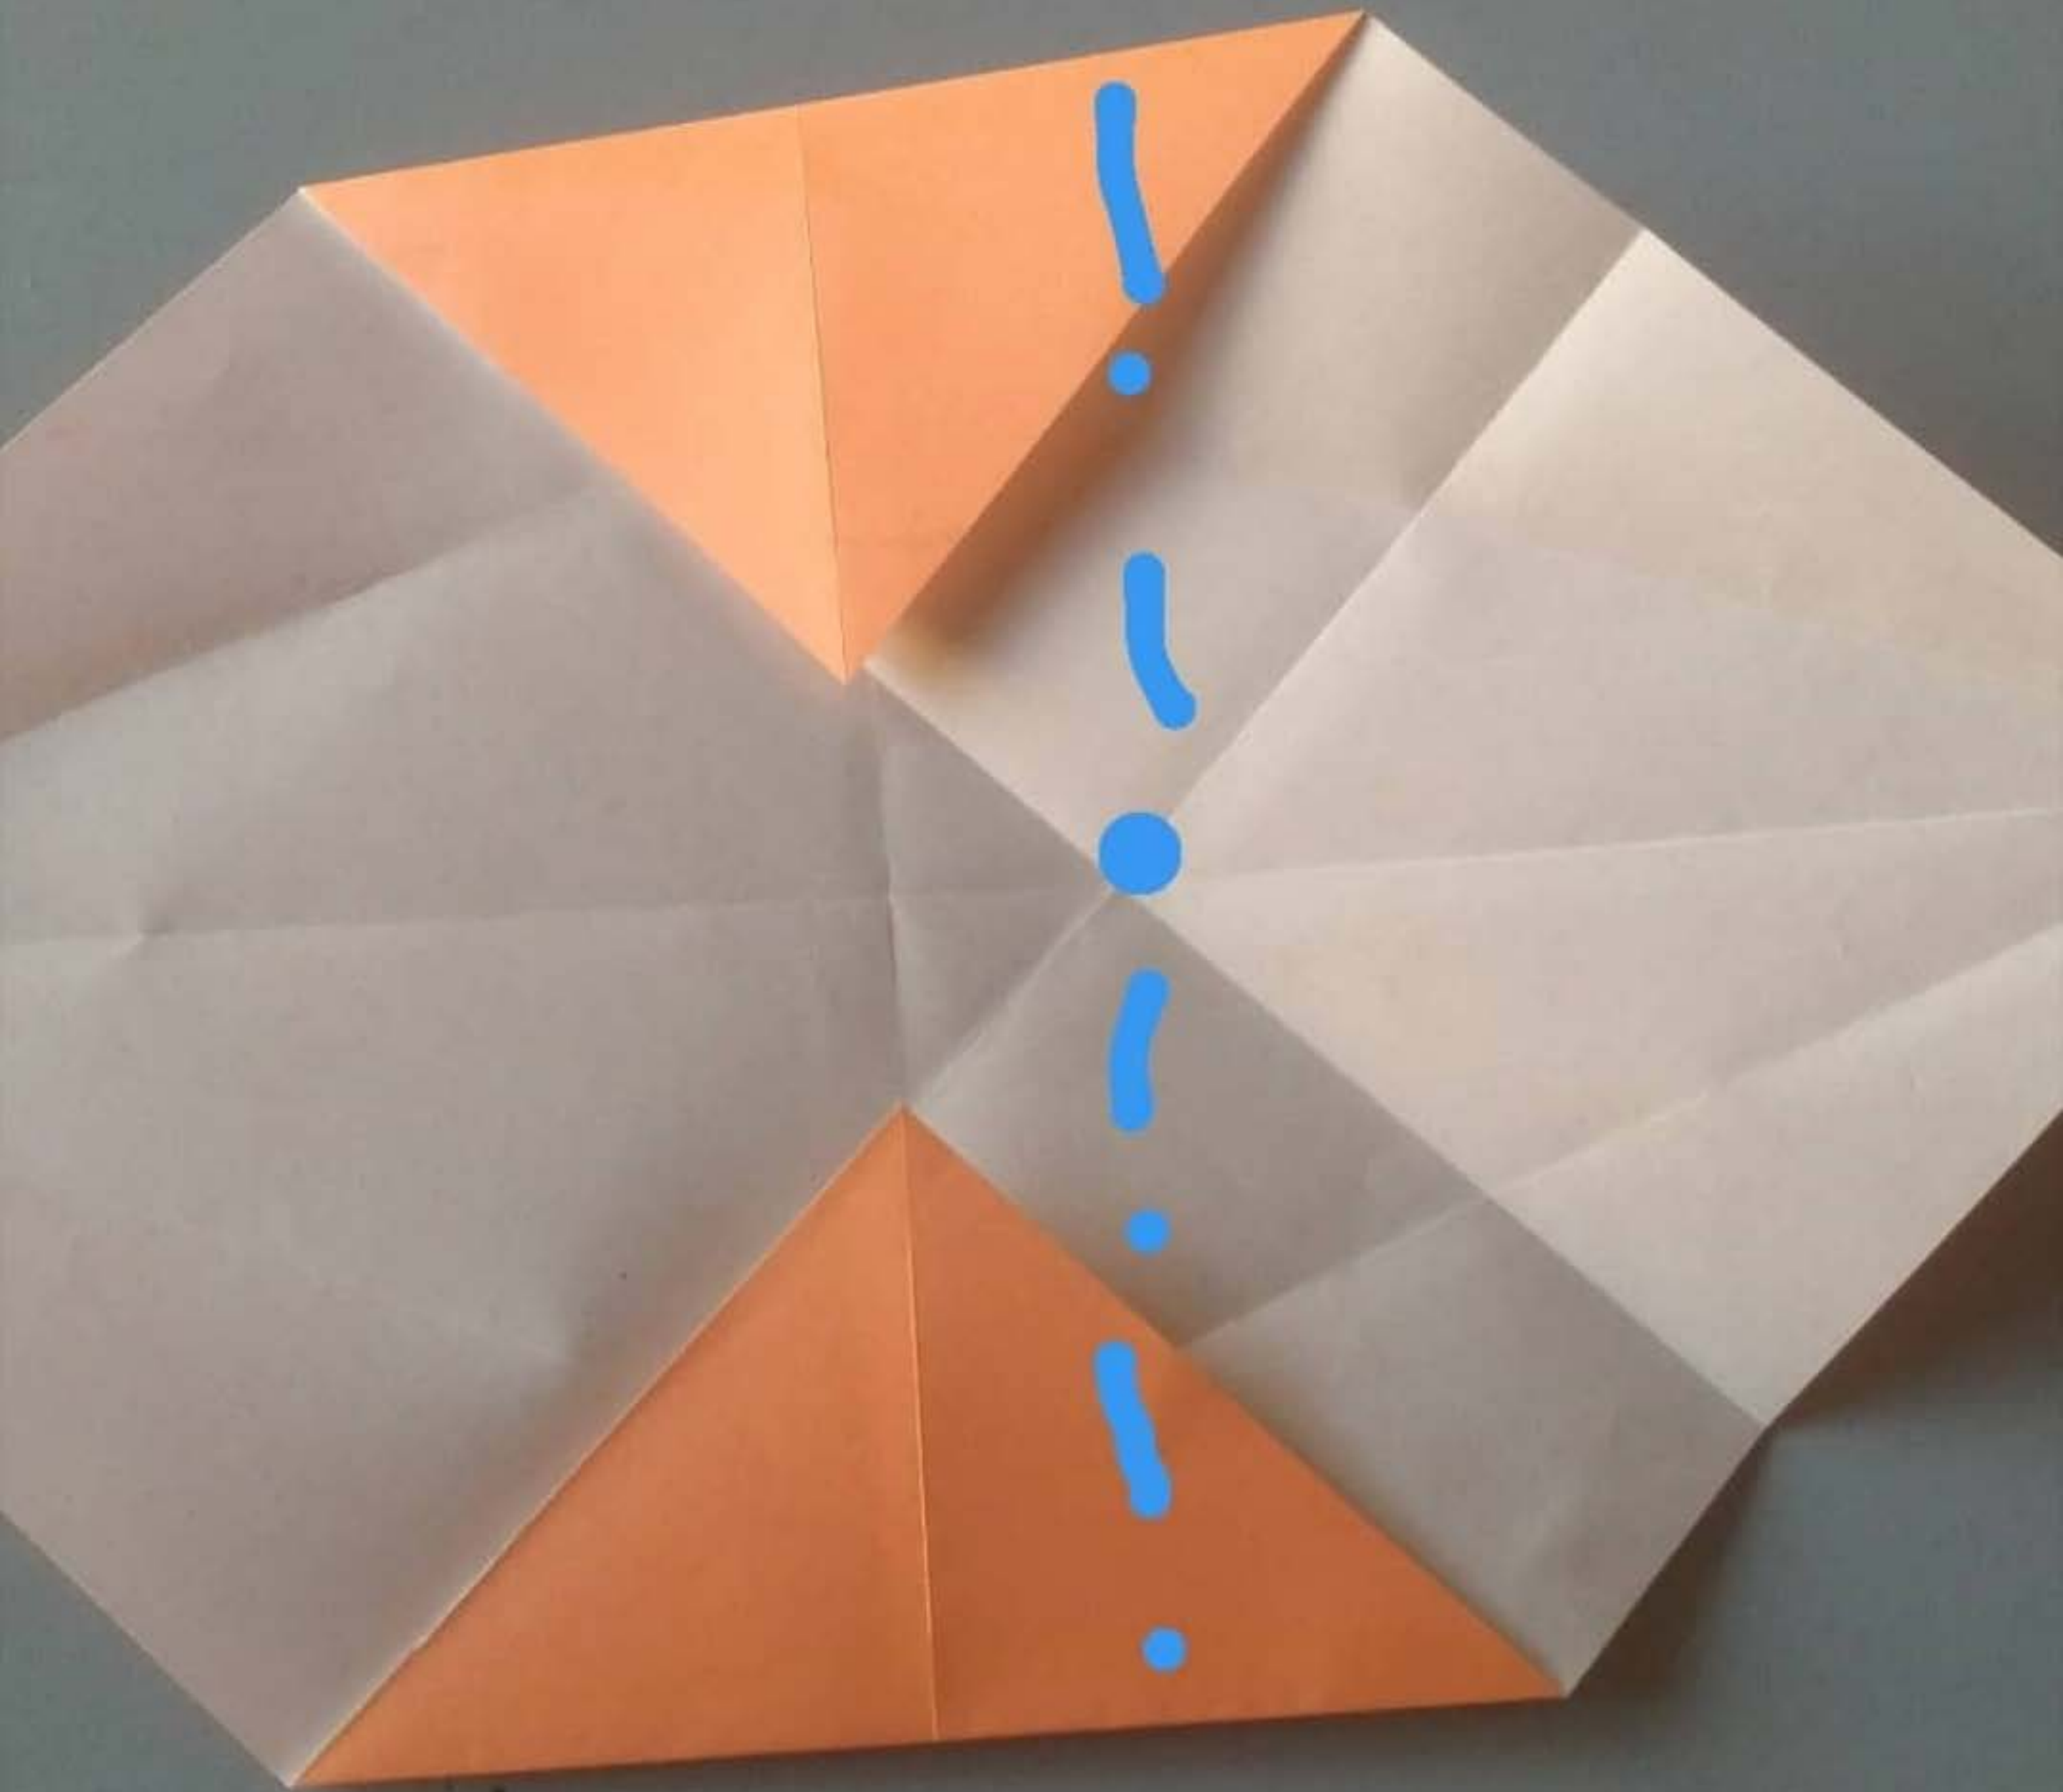

**Fold as shown and unfold**

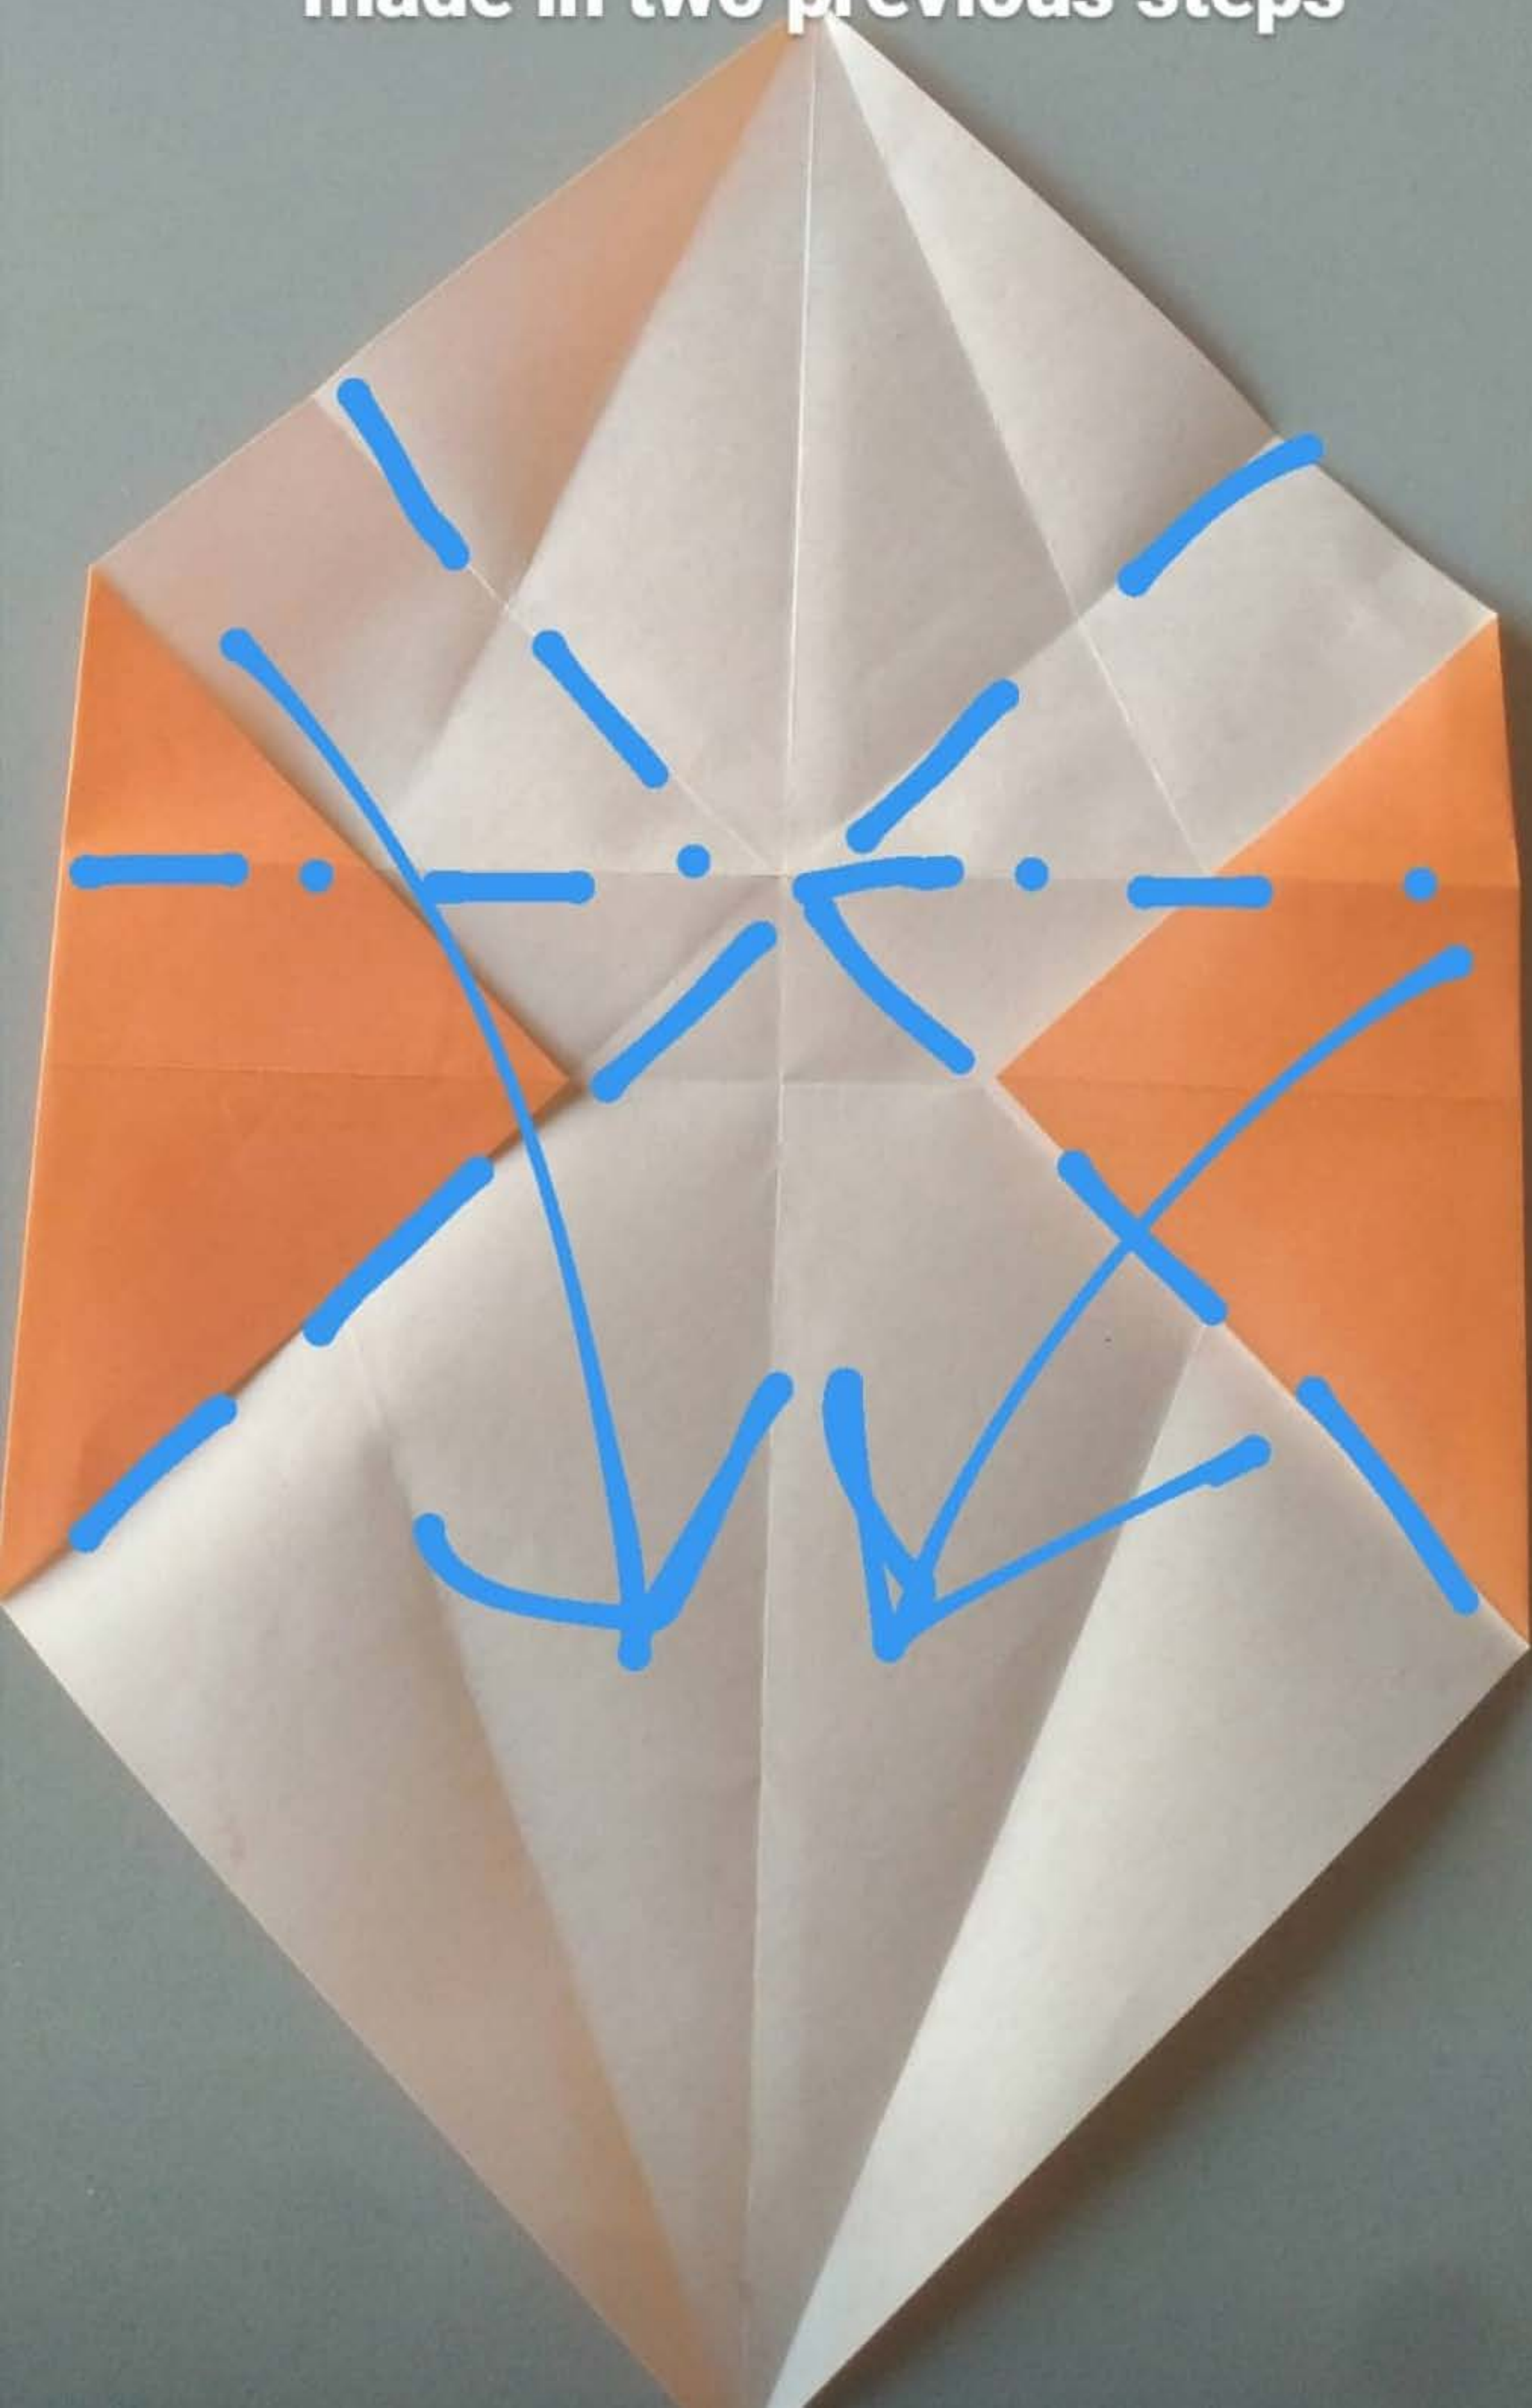

**Make a mountain fold and unfold**

**Fold a "rabbit-ear" using the creases  
made in two previous steps**

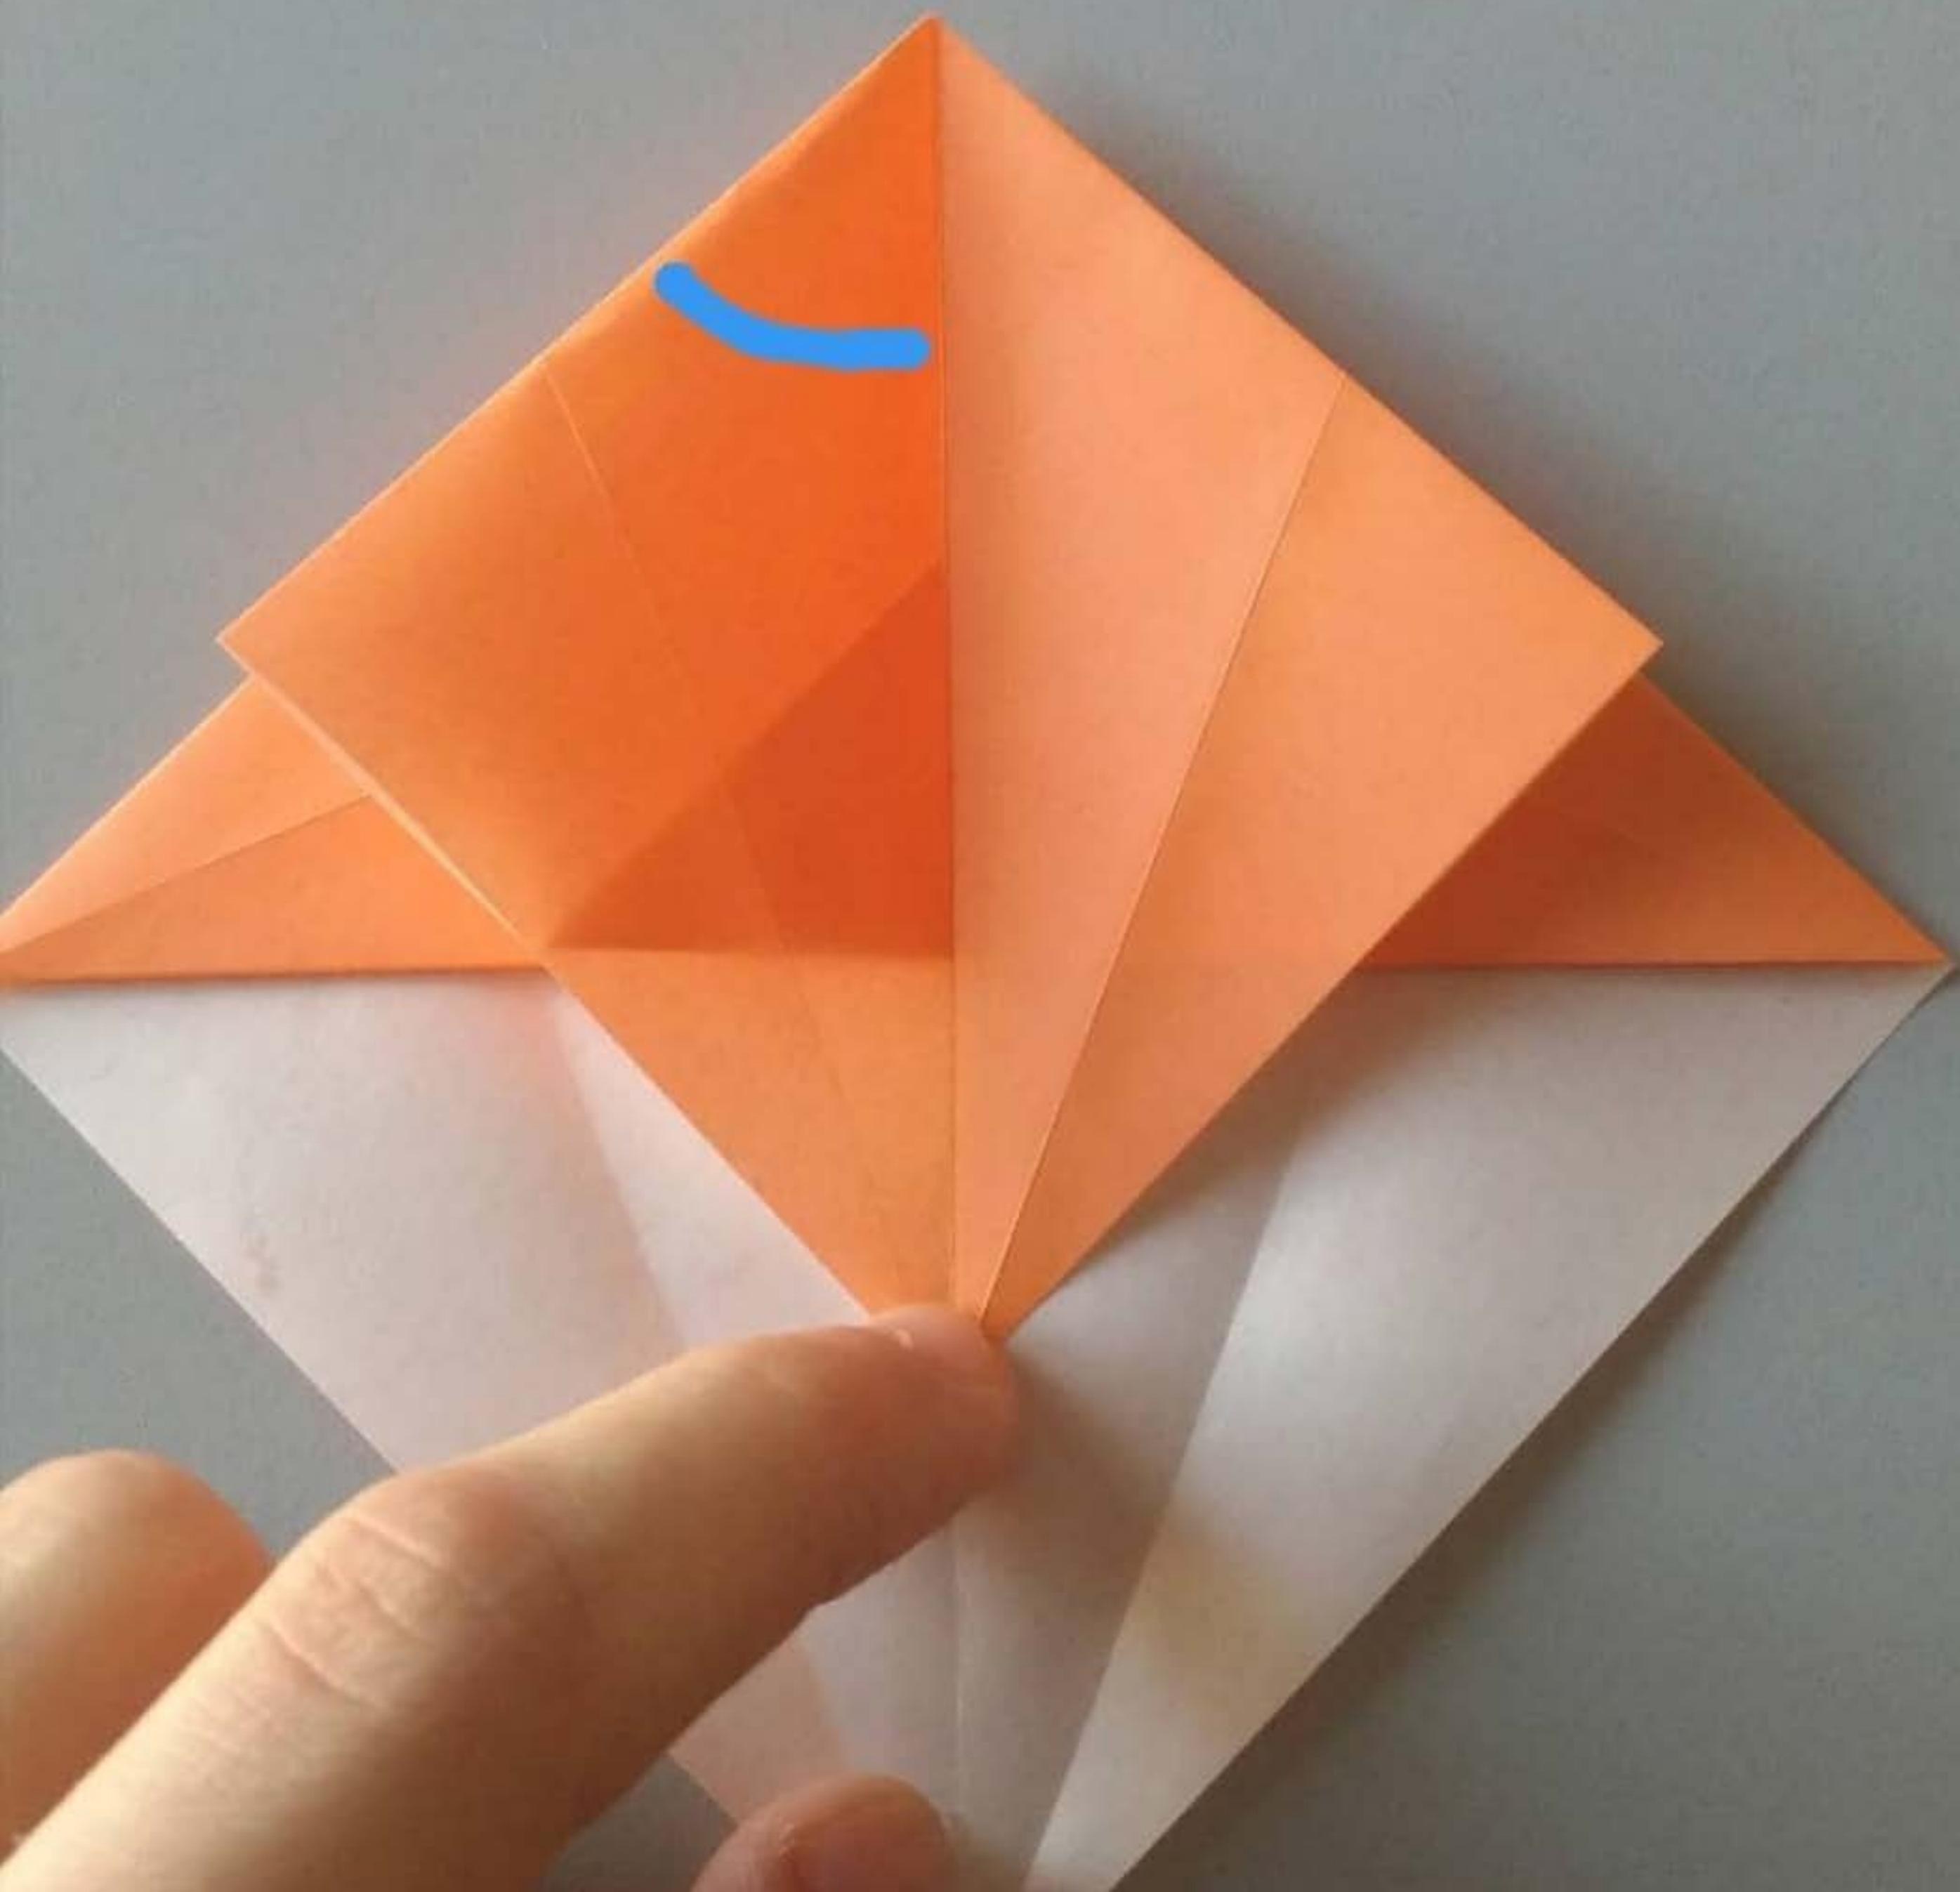

damianmalickiorigami 3 h

...like this...

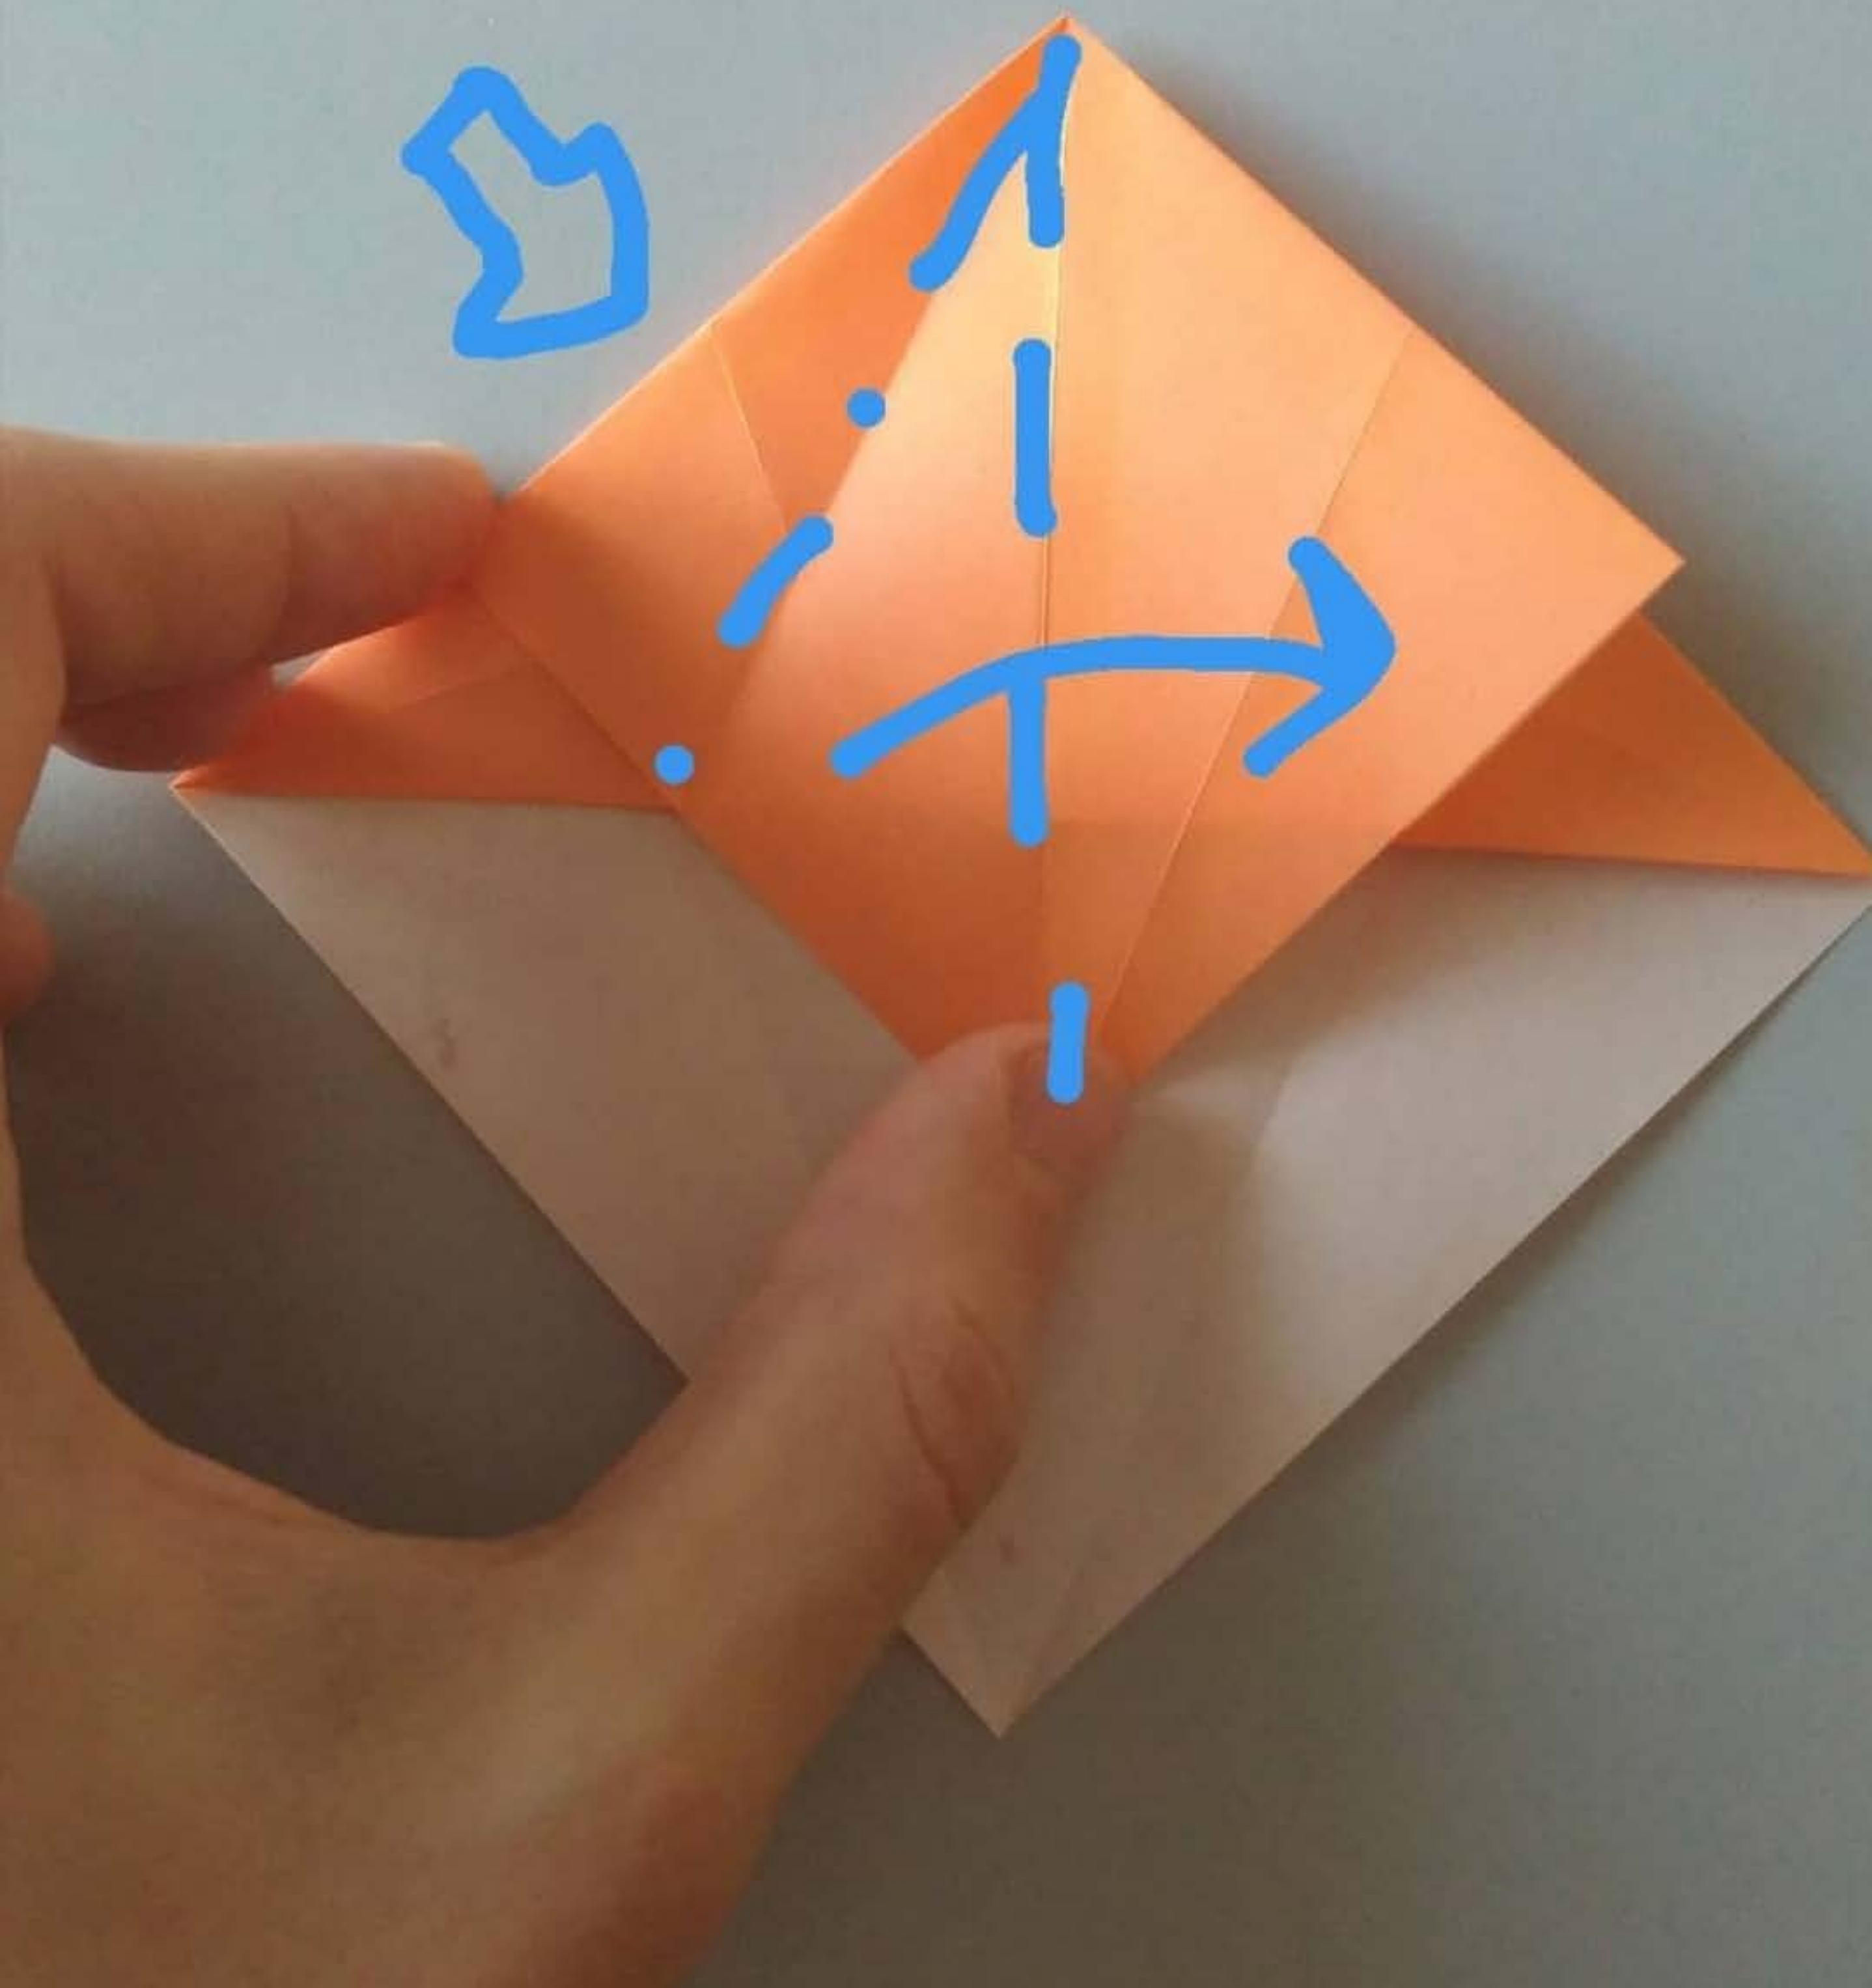

**...and flatten. Precrease a  
bisector of marked angle**

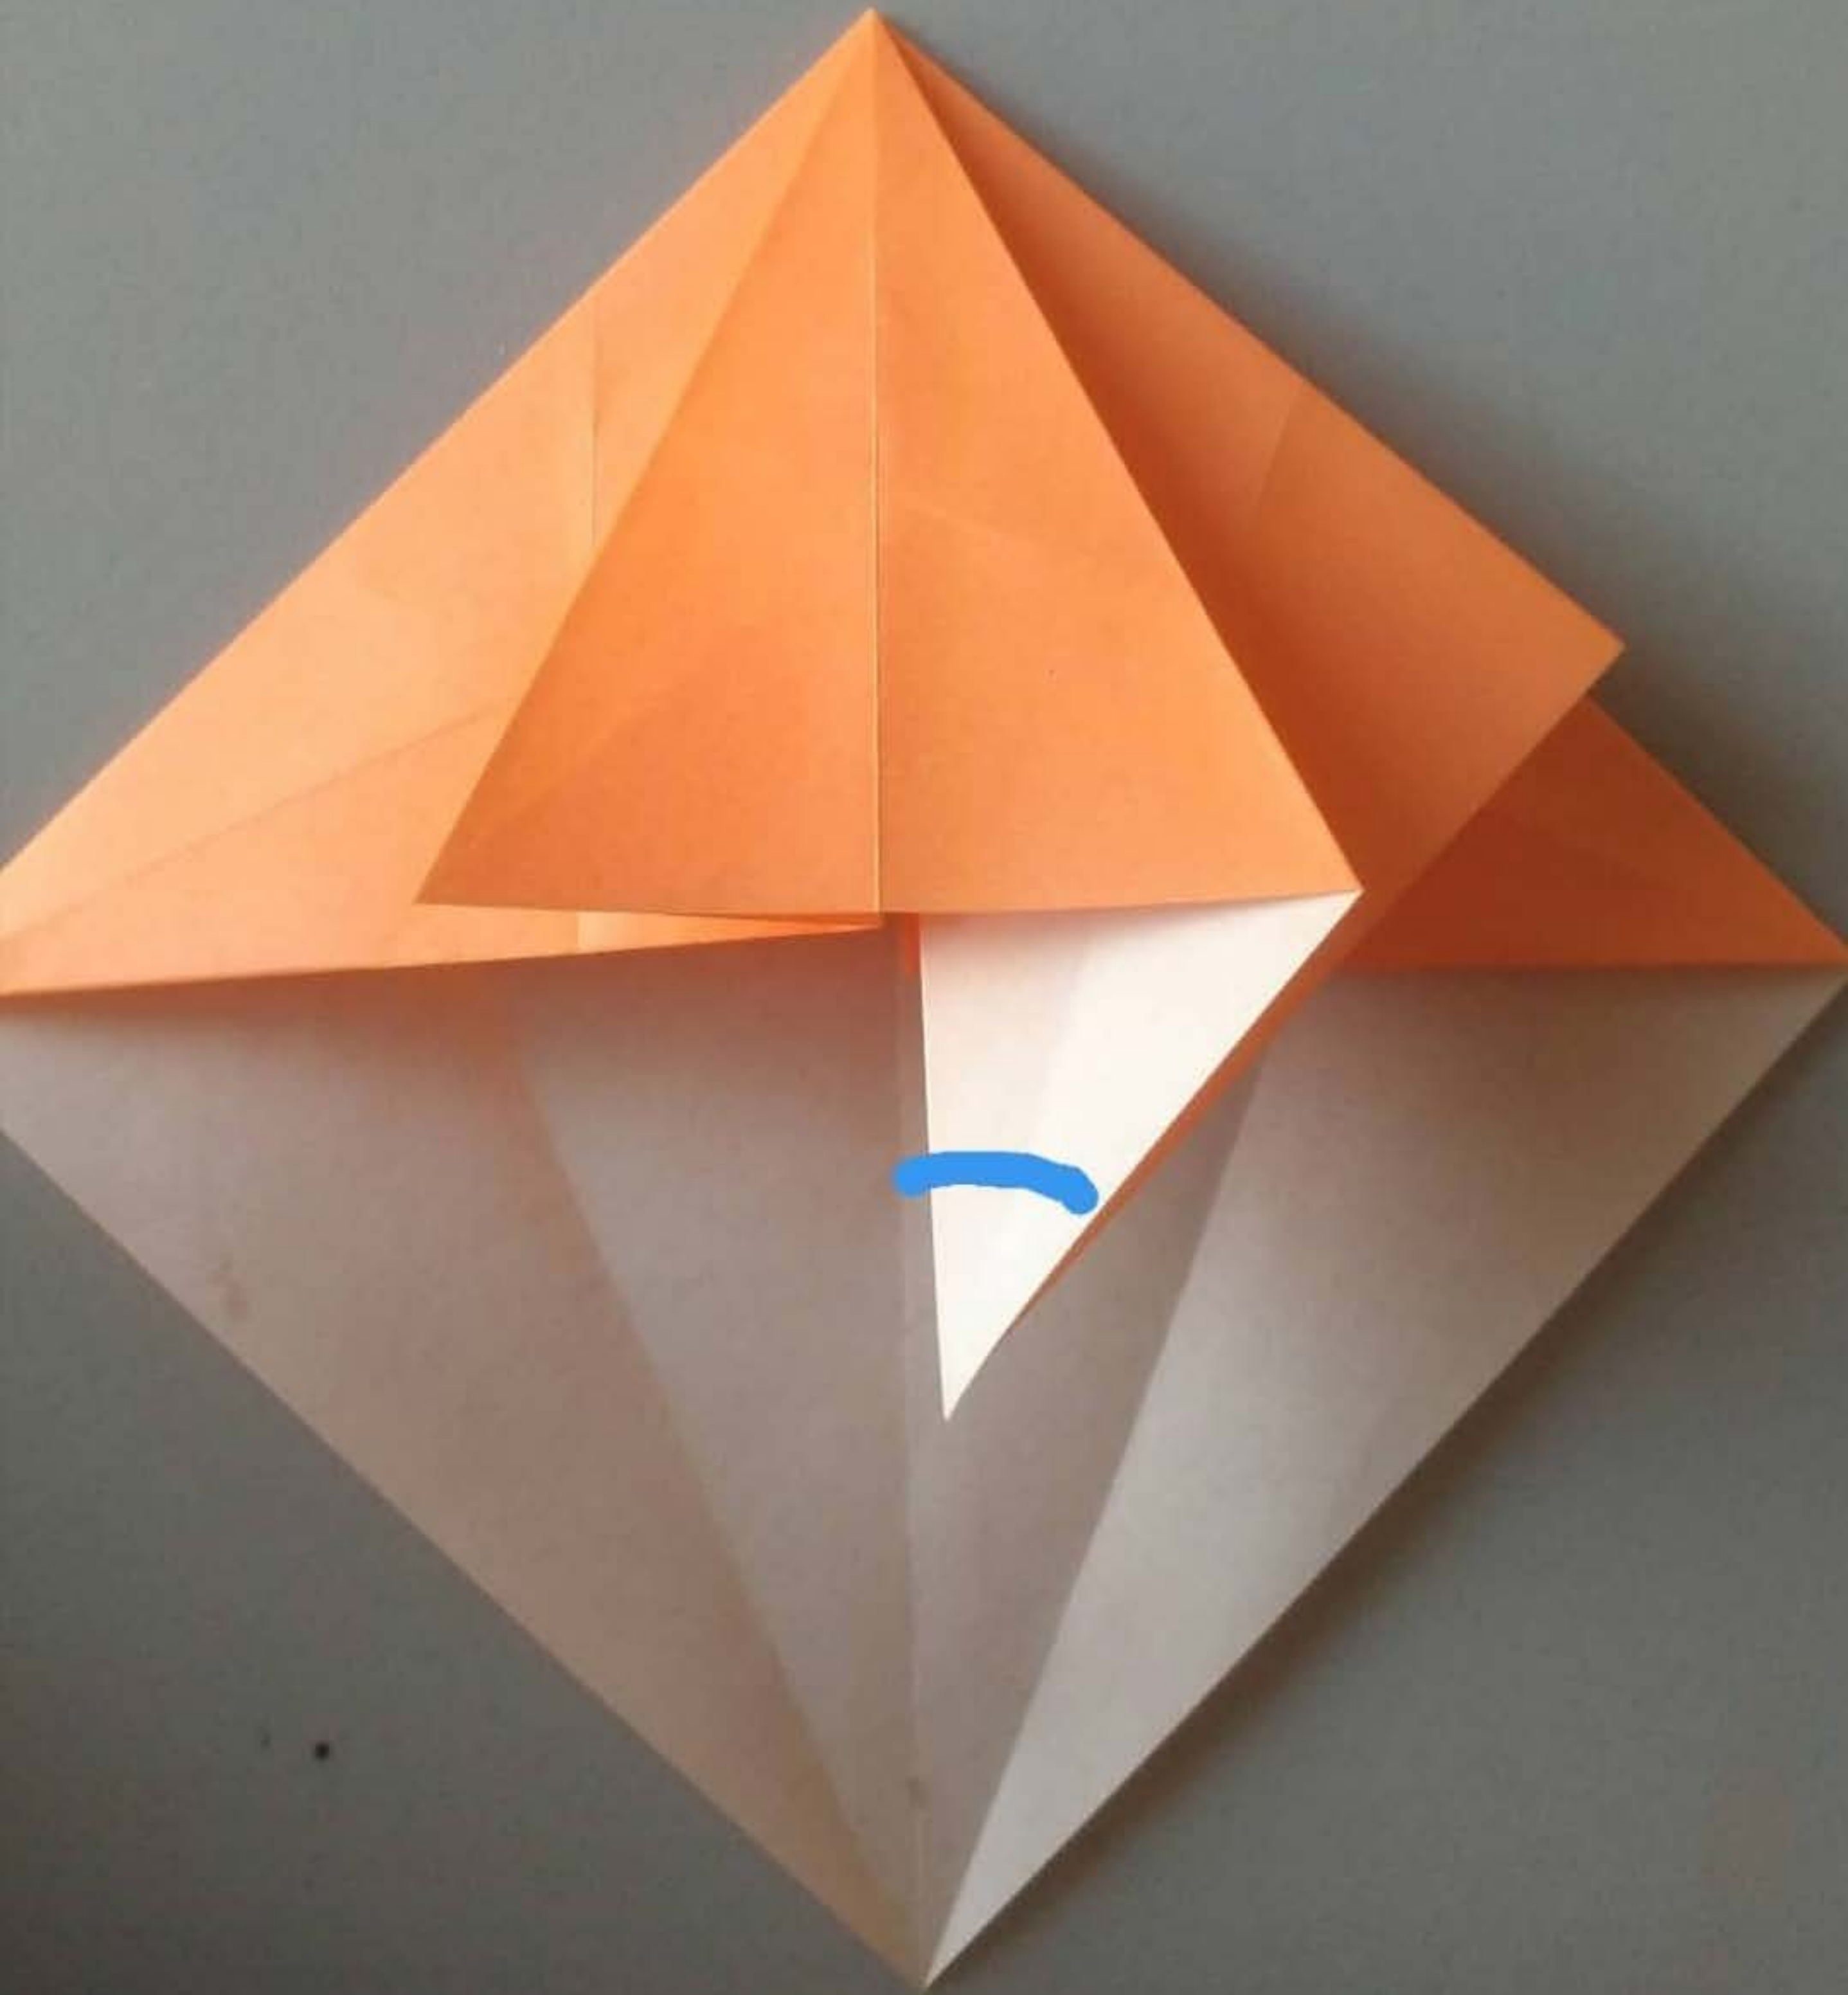

**And make a squash fold**

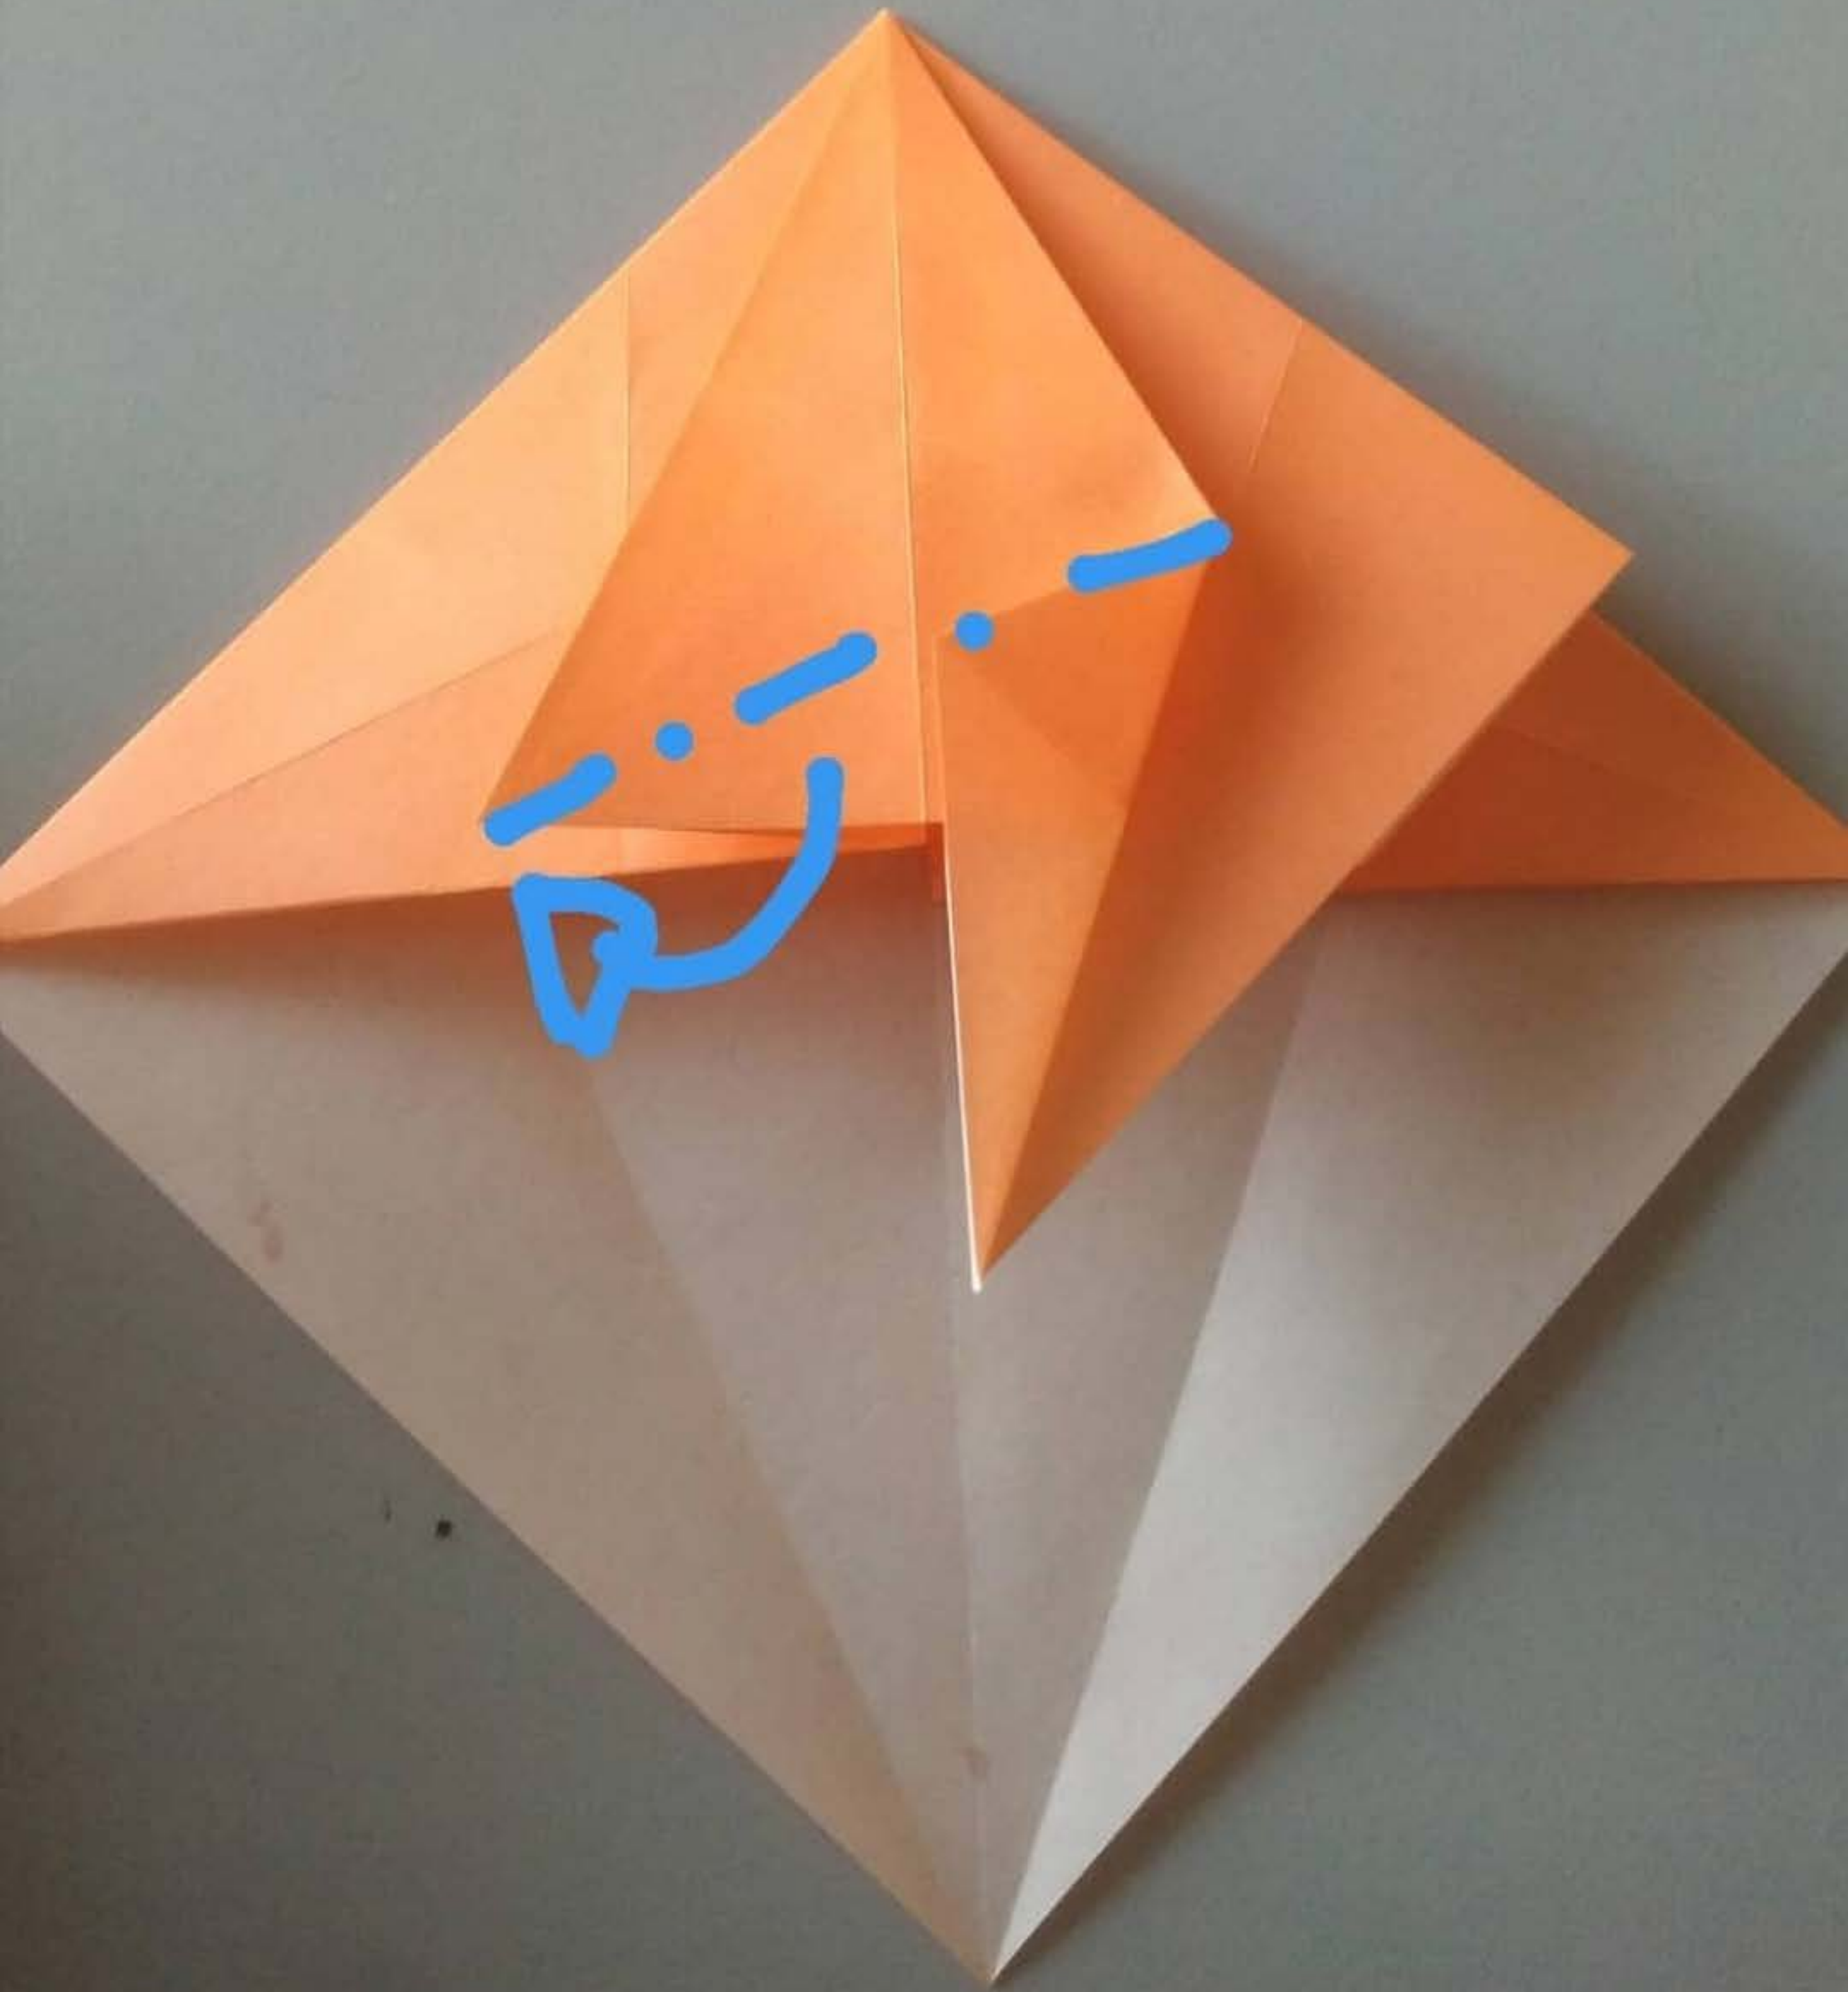

**Fold a bisector of marked angle**

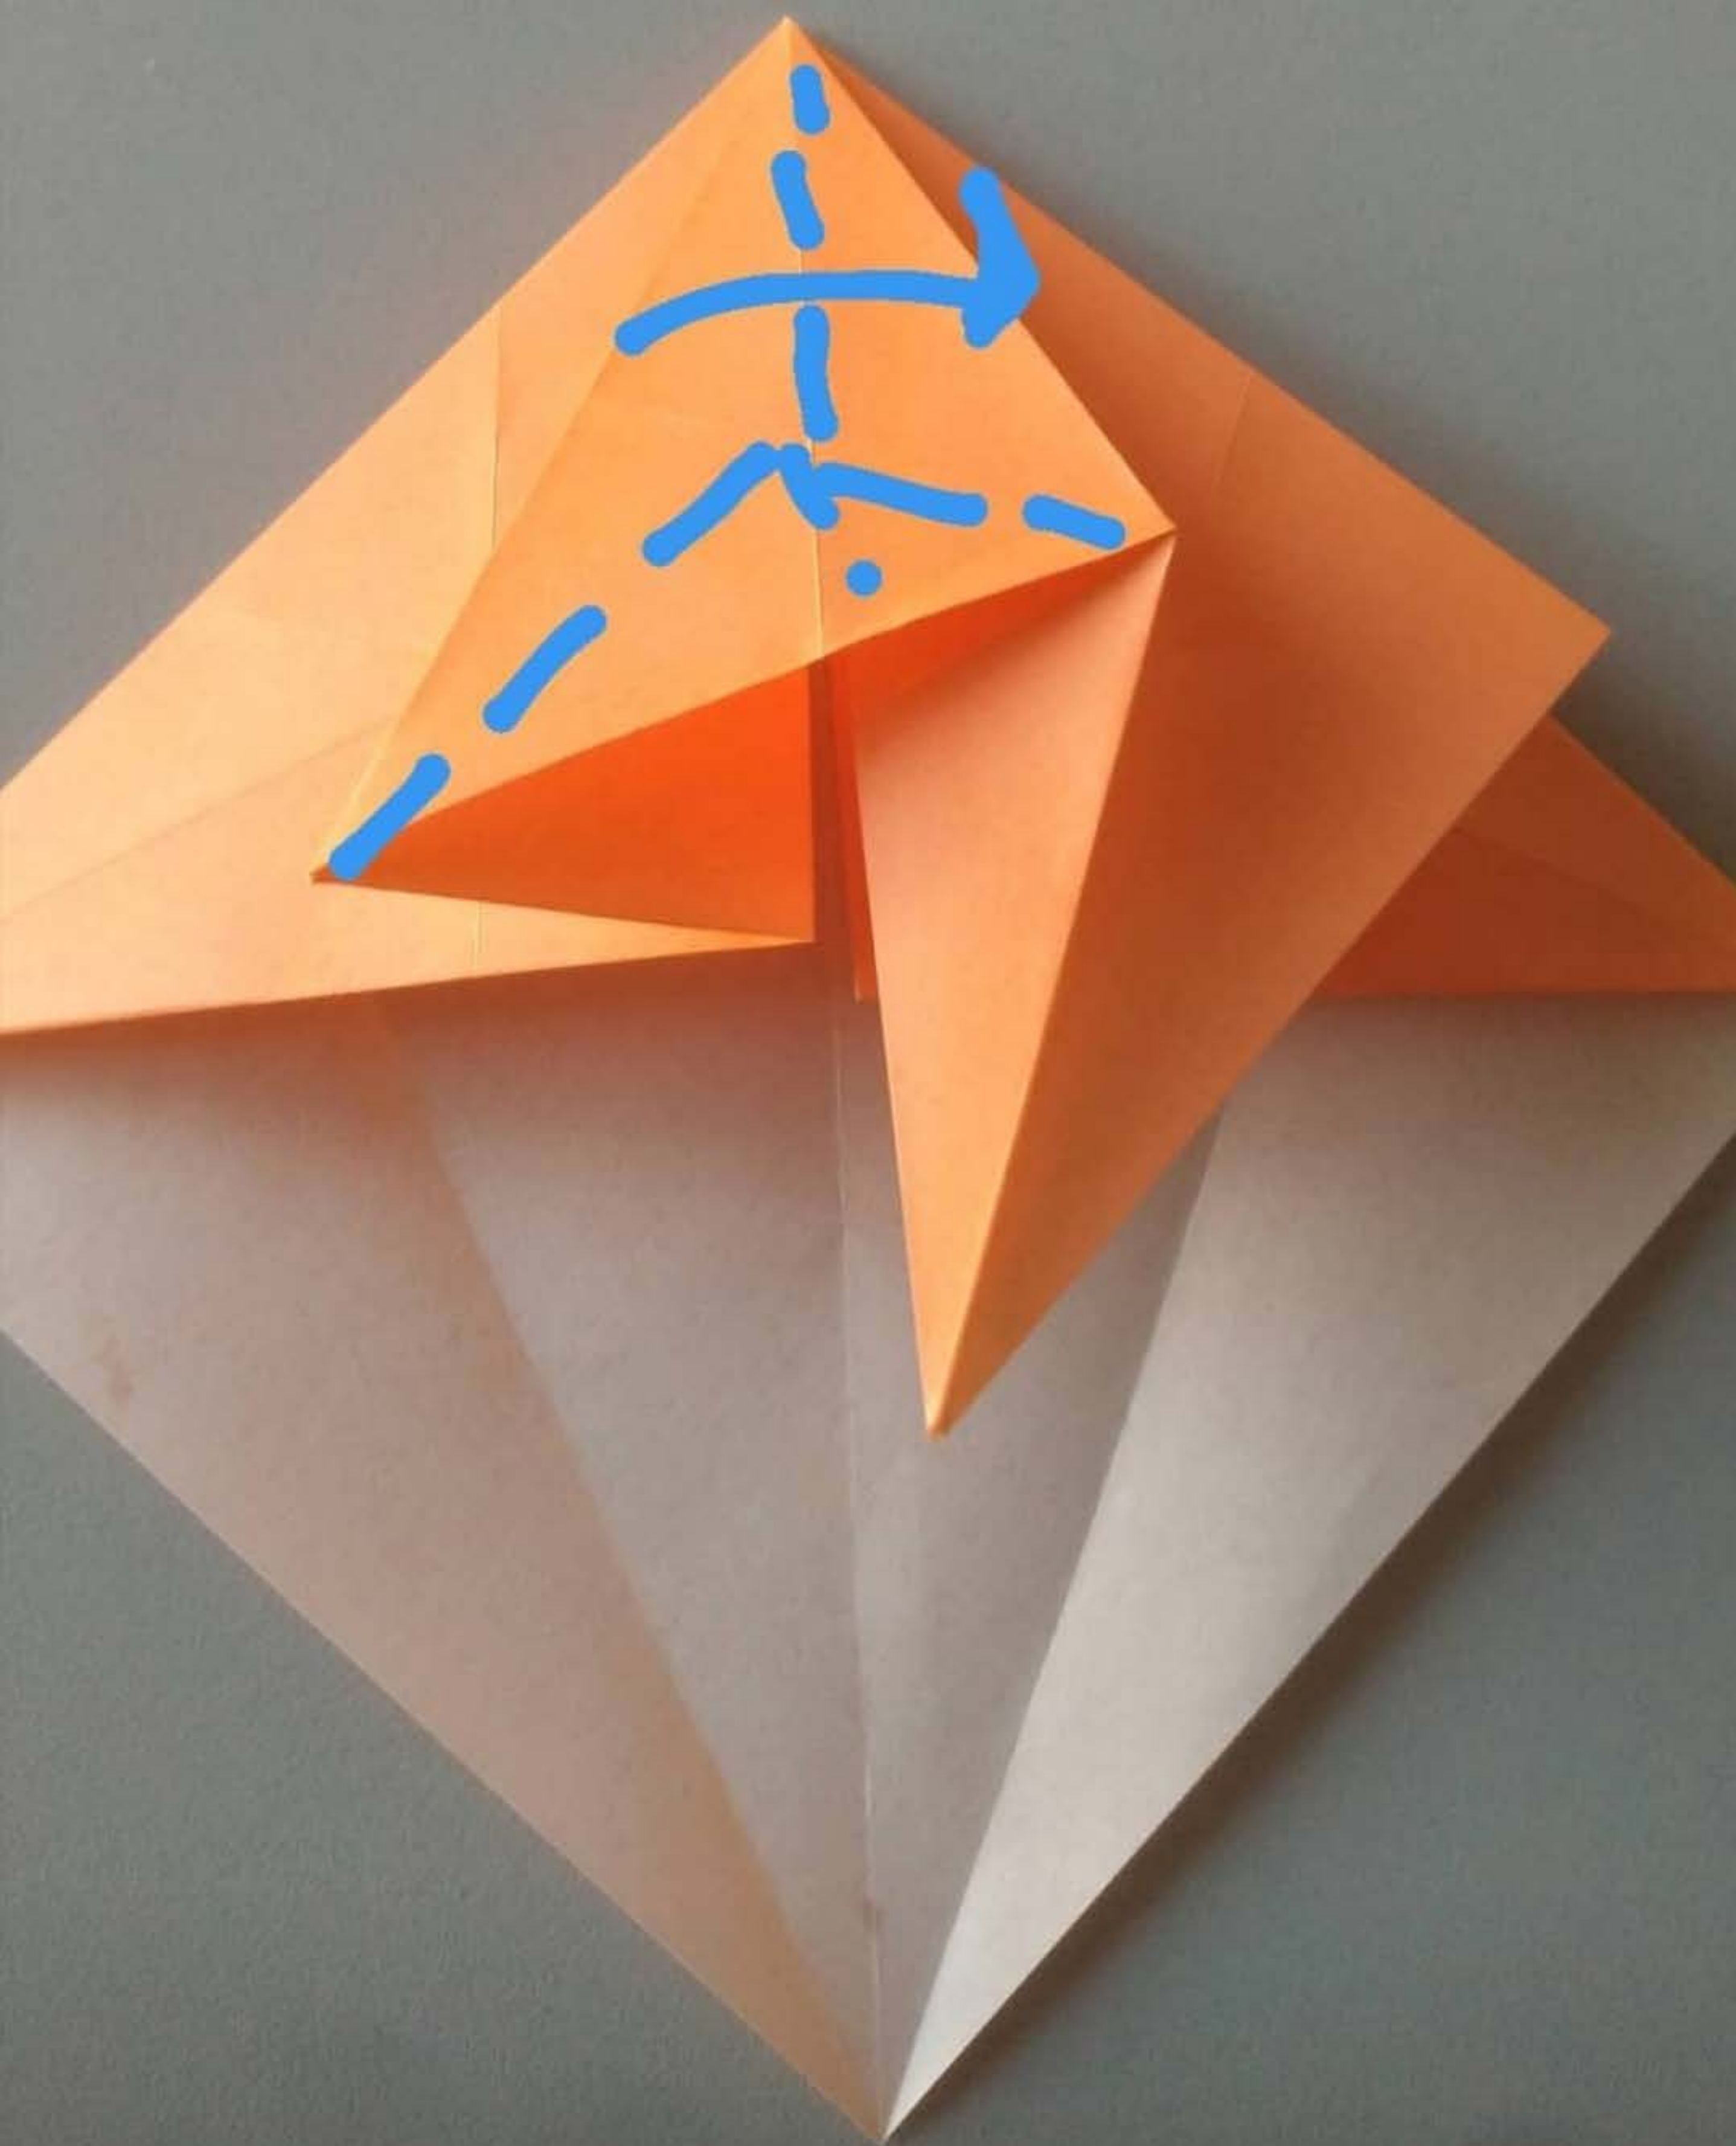

**And make a swivel fold inside**

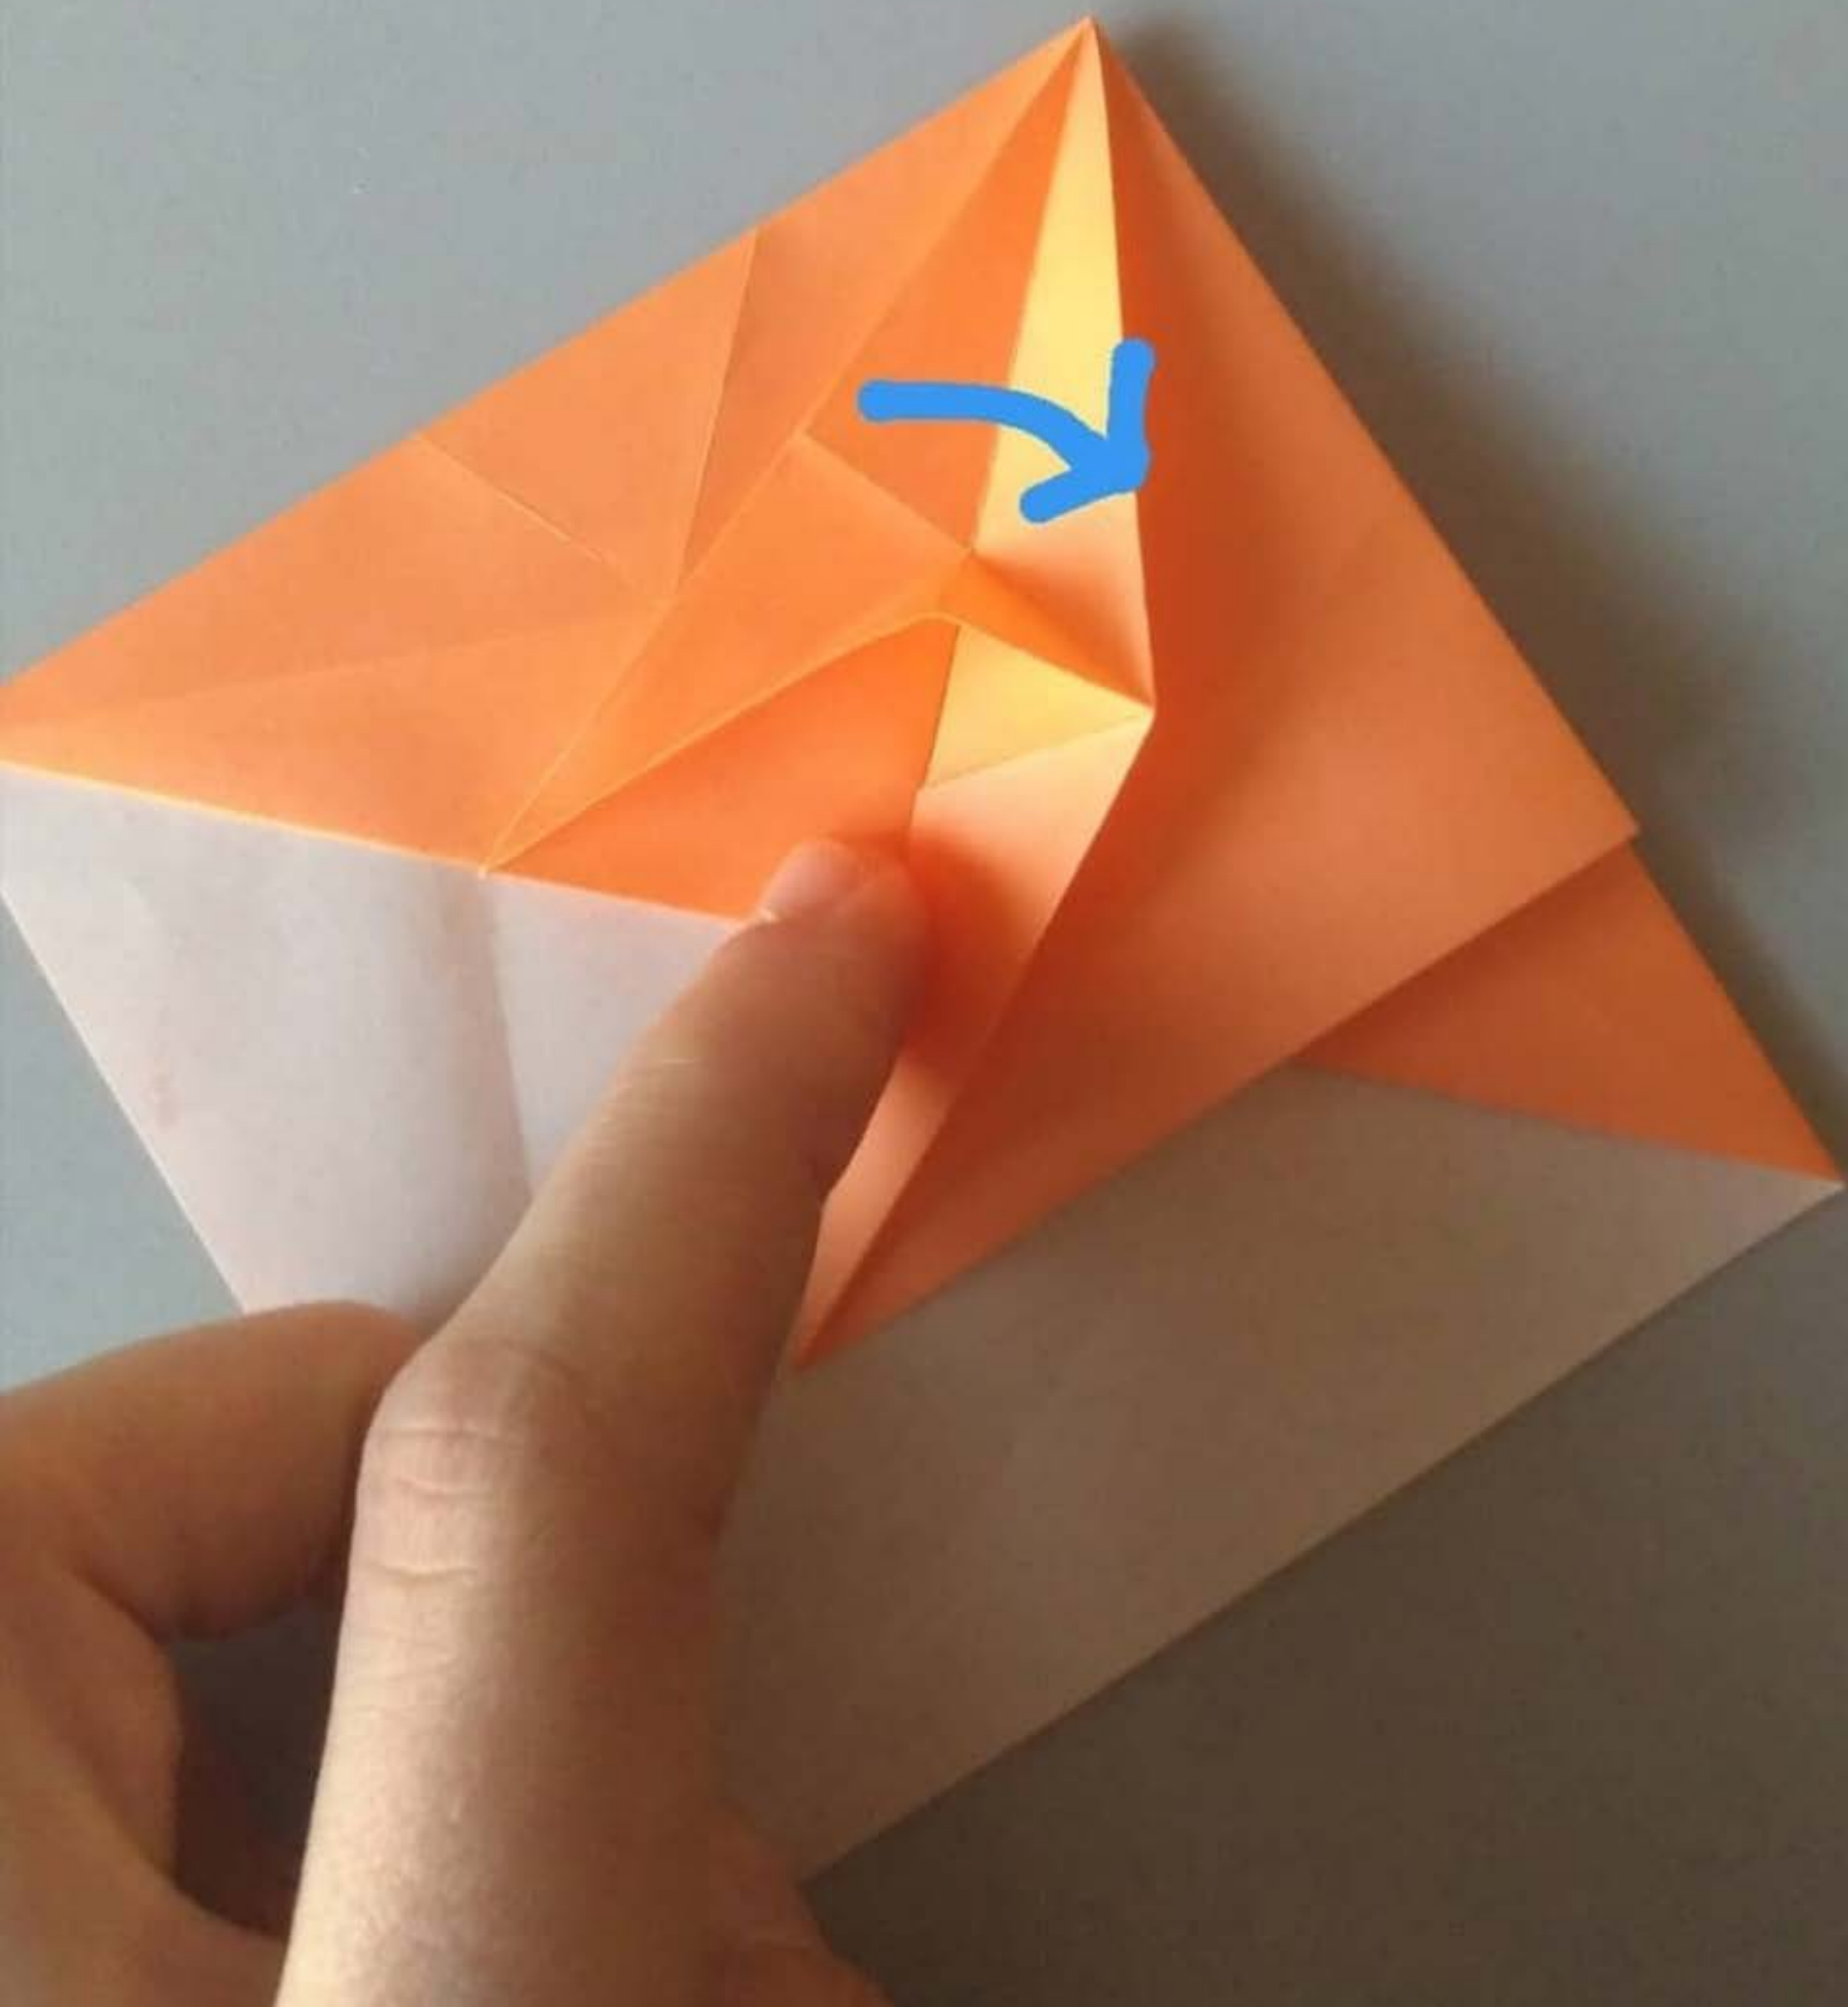

**Fold as shown**

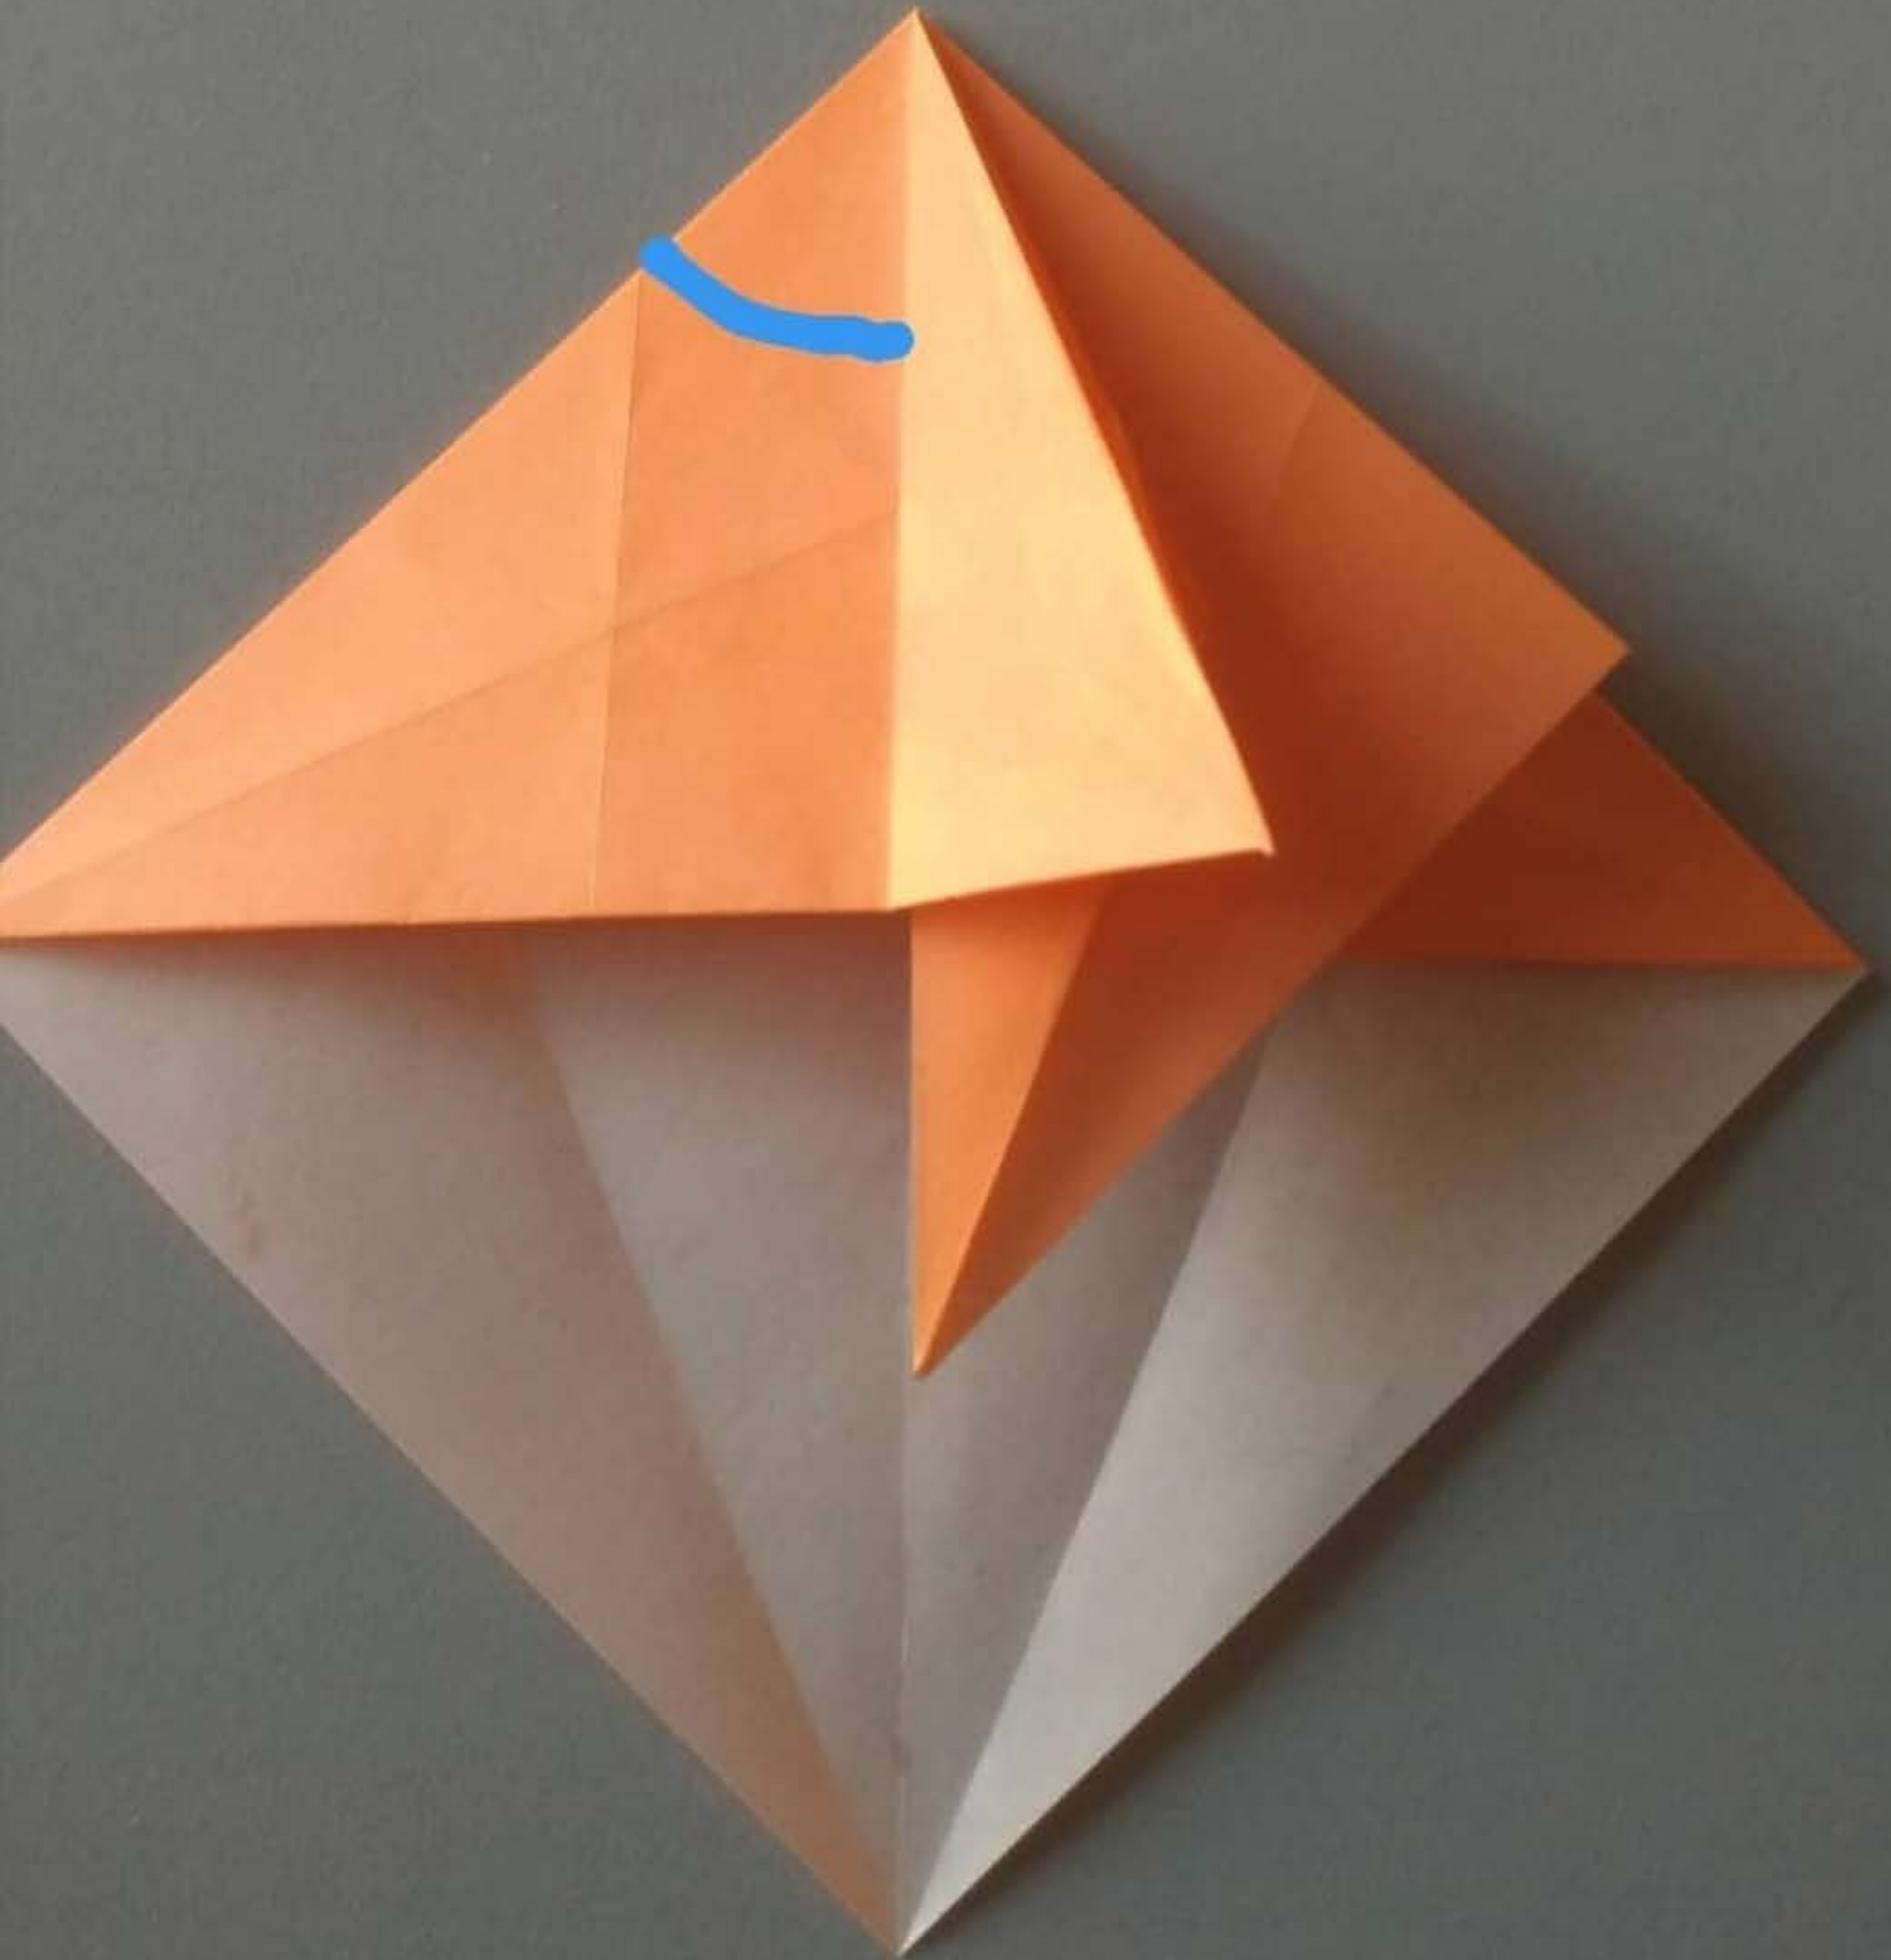

**Like this...**

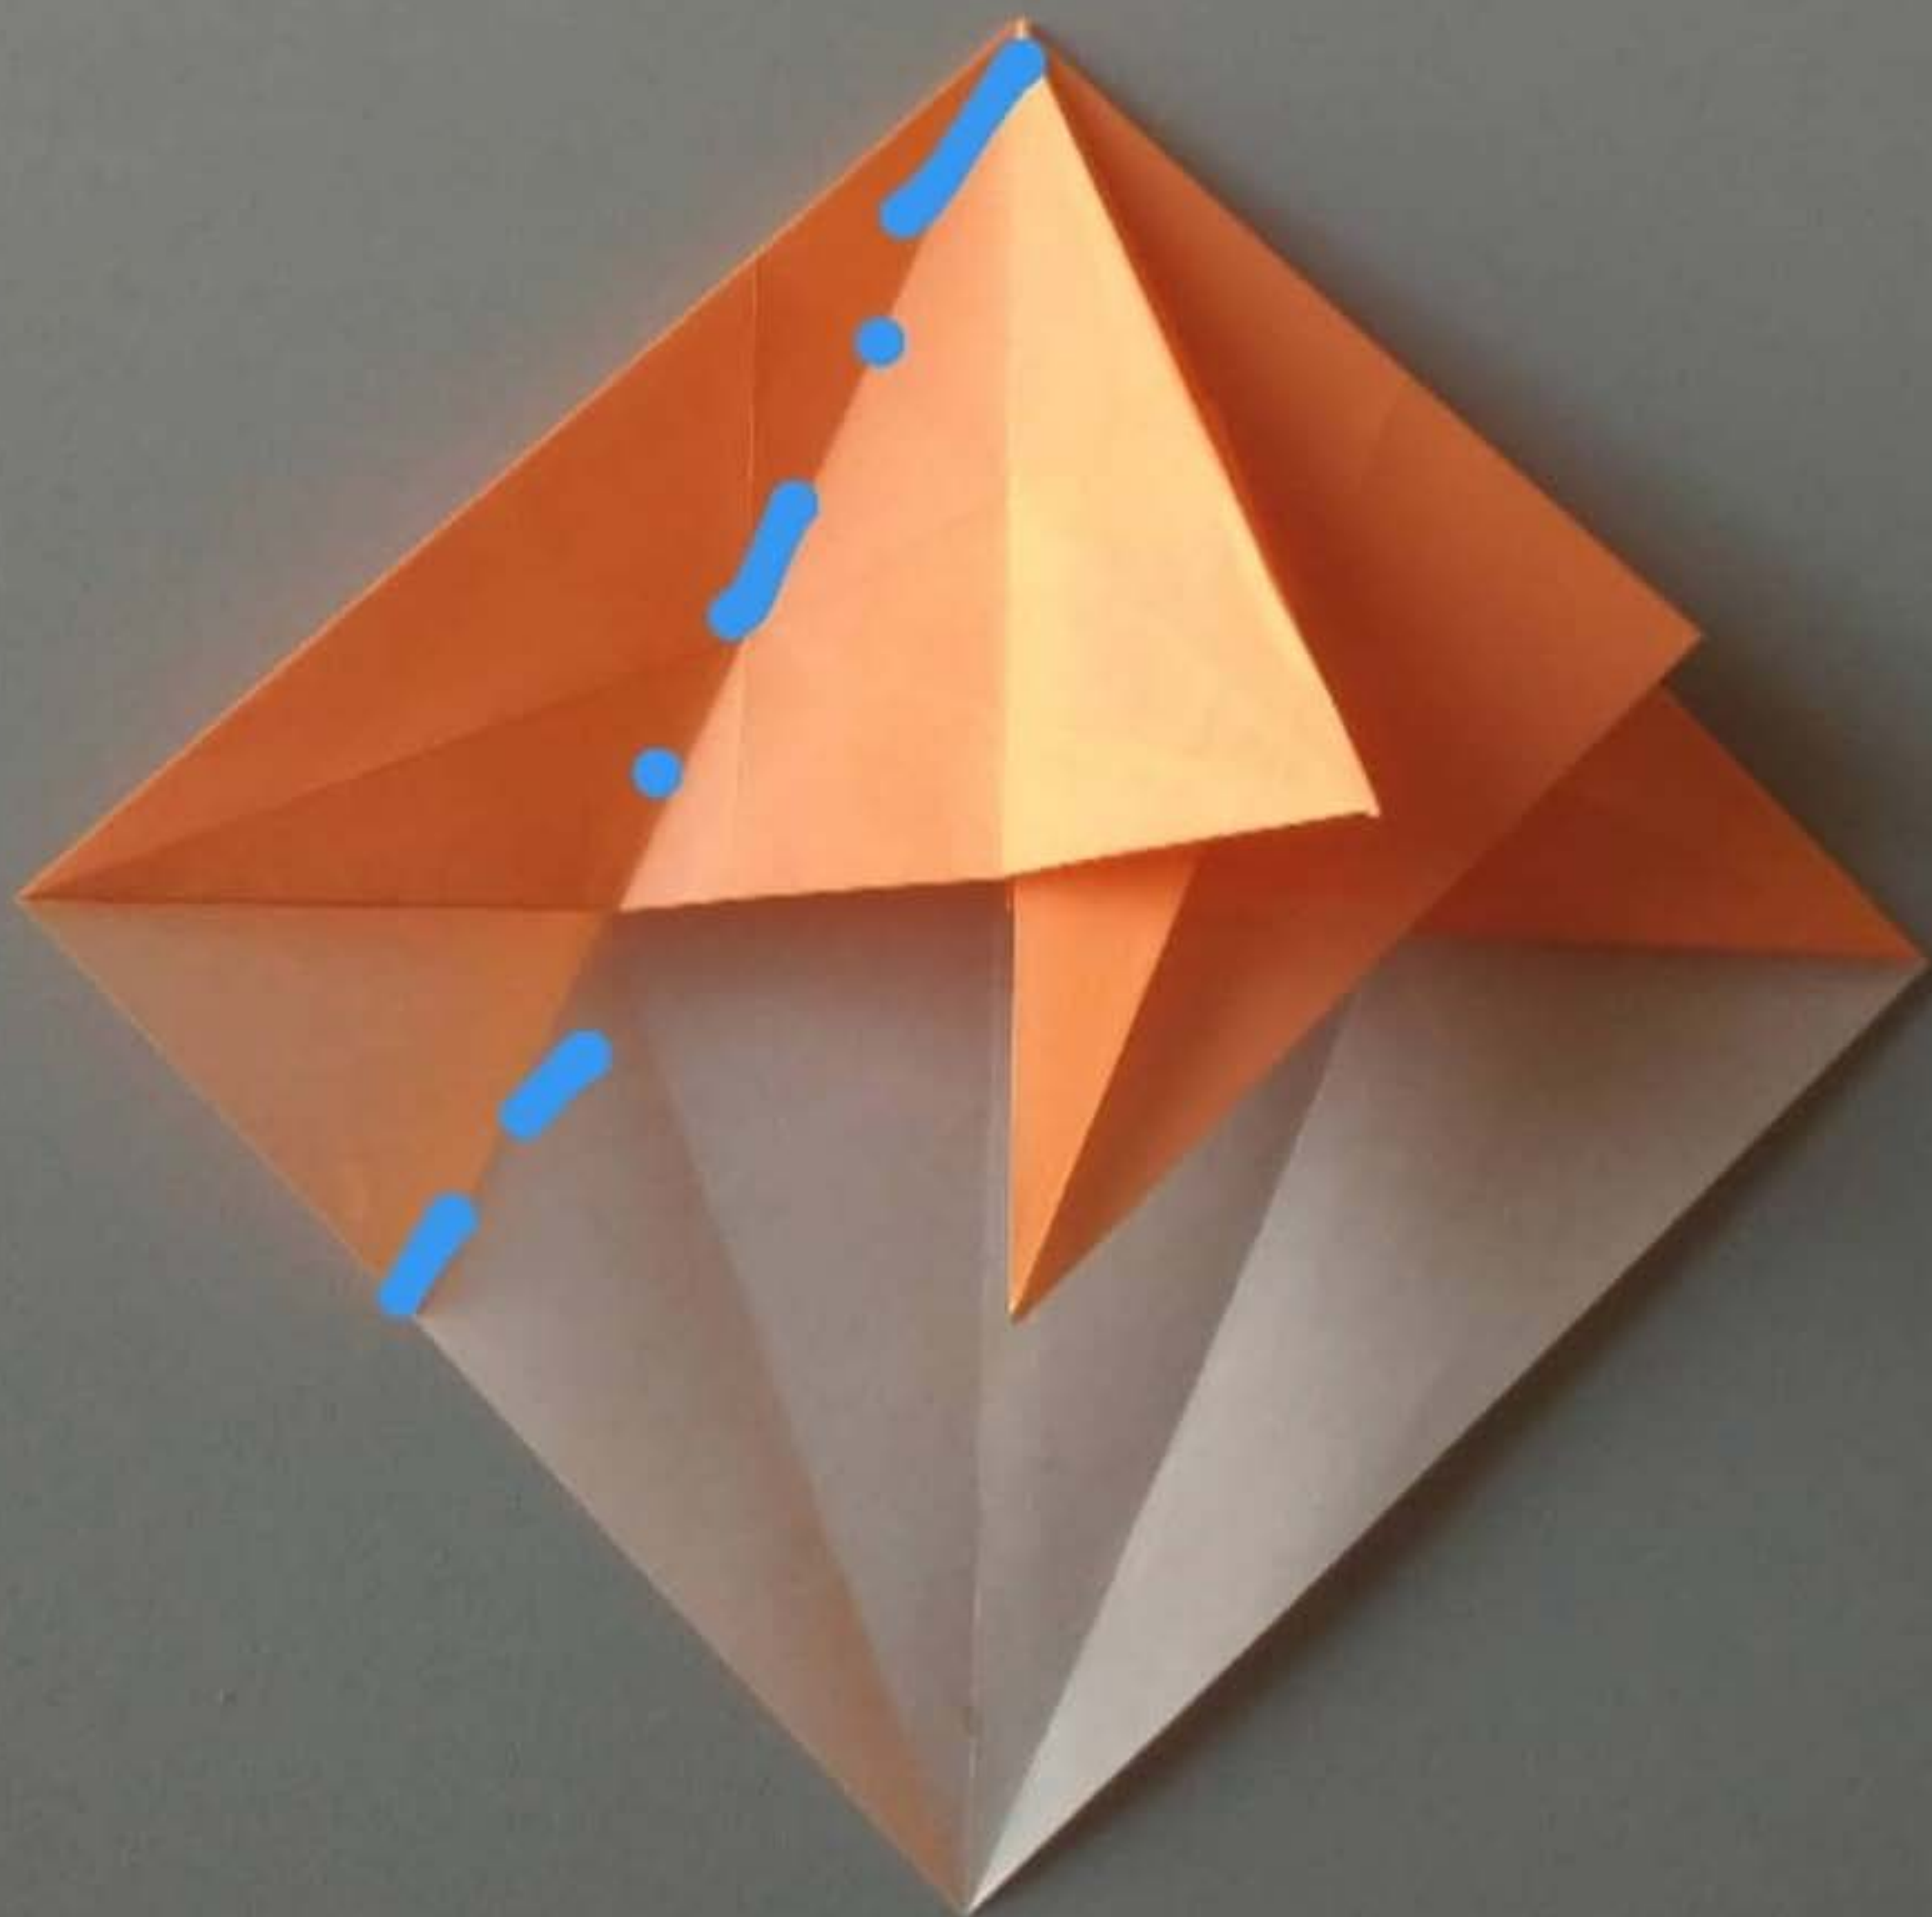

**...and flatten. Fold a bisector of marked angle. Unfold**

**Make an inside reverse fold using the crease you've just made**

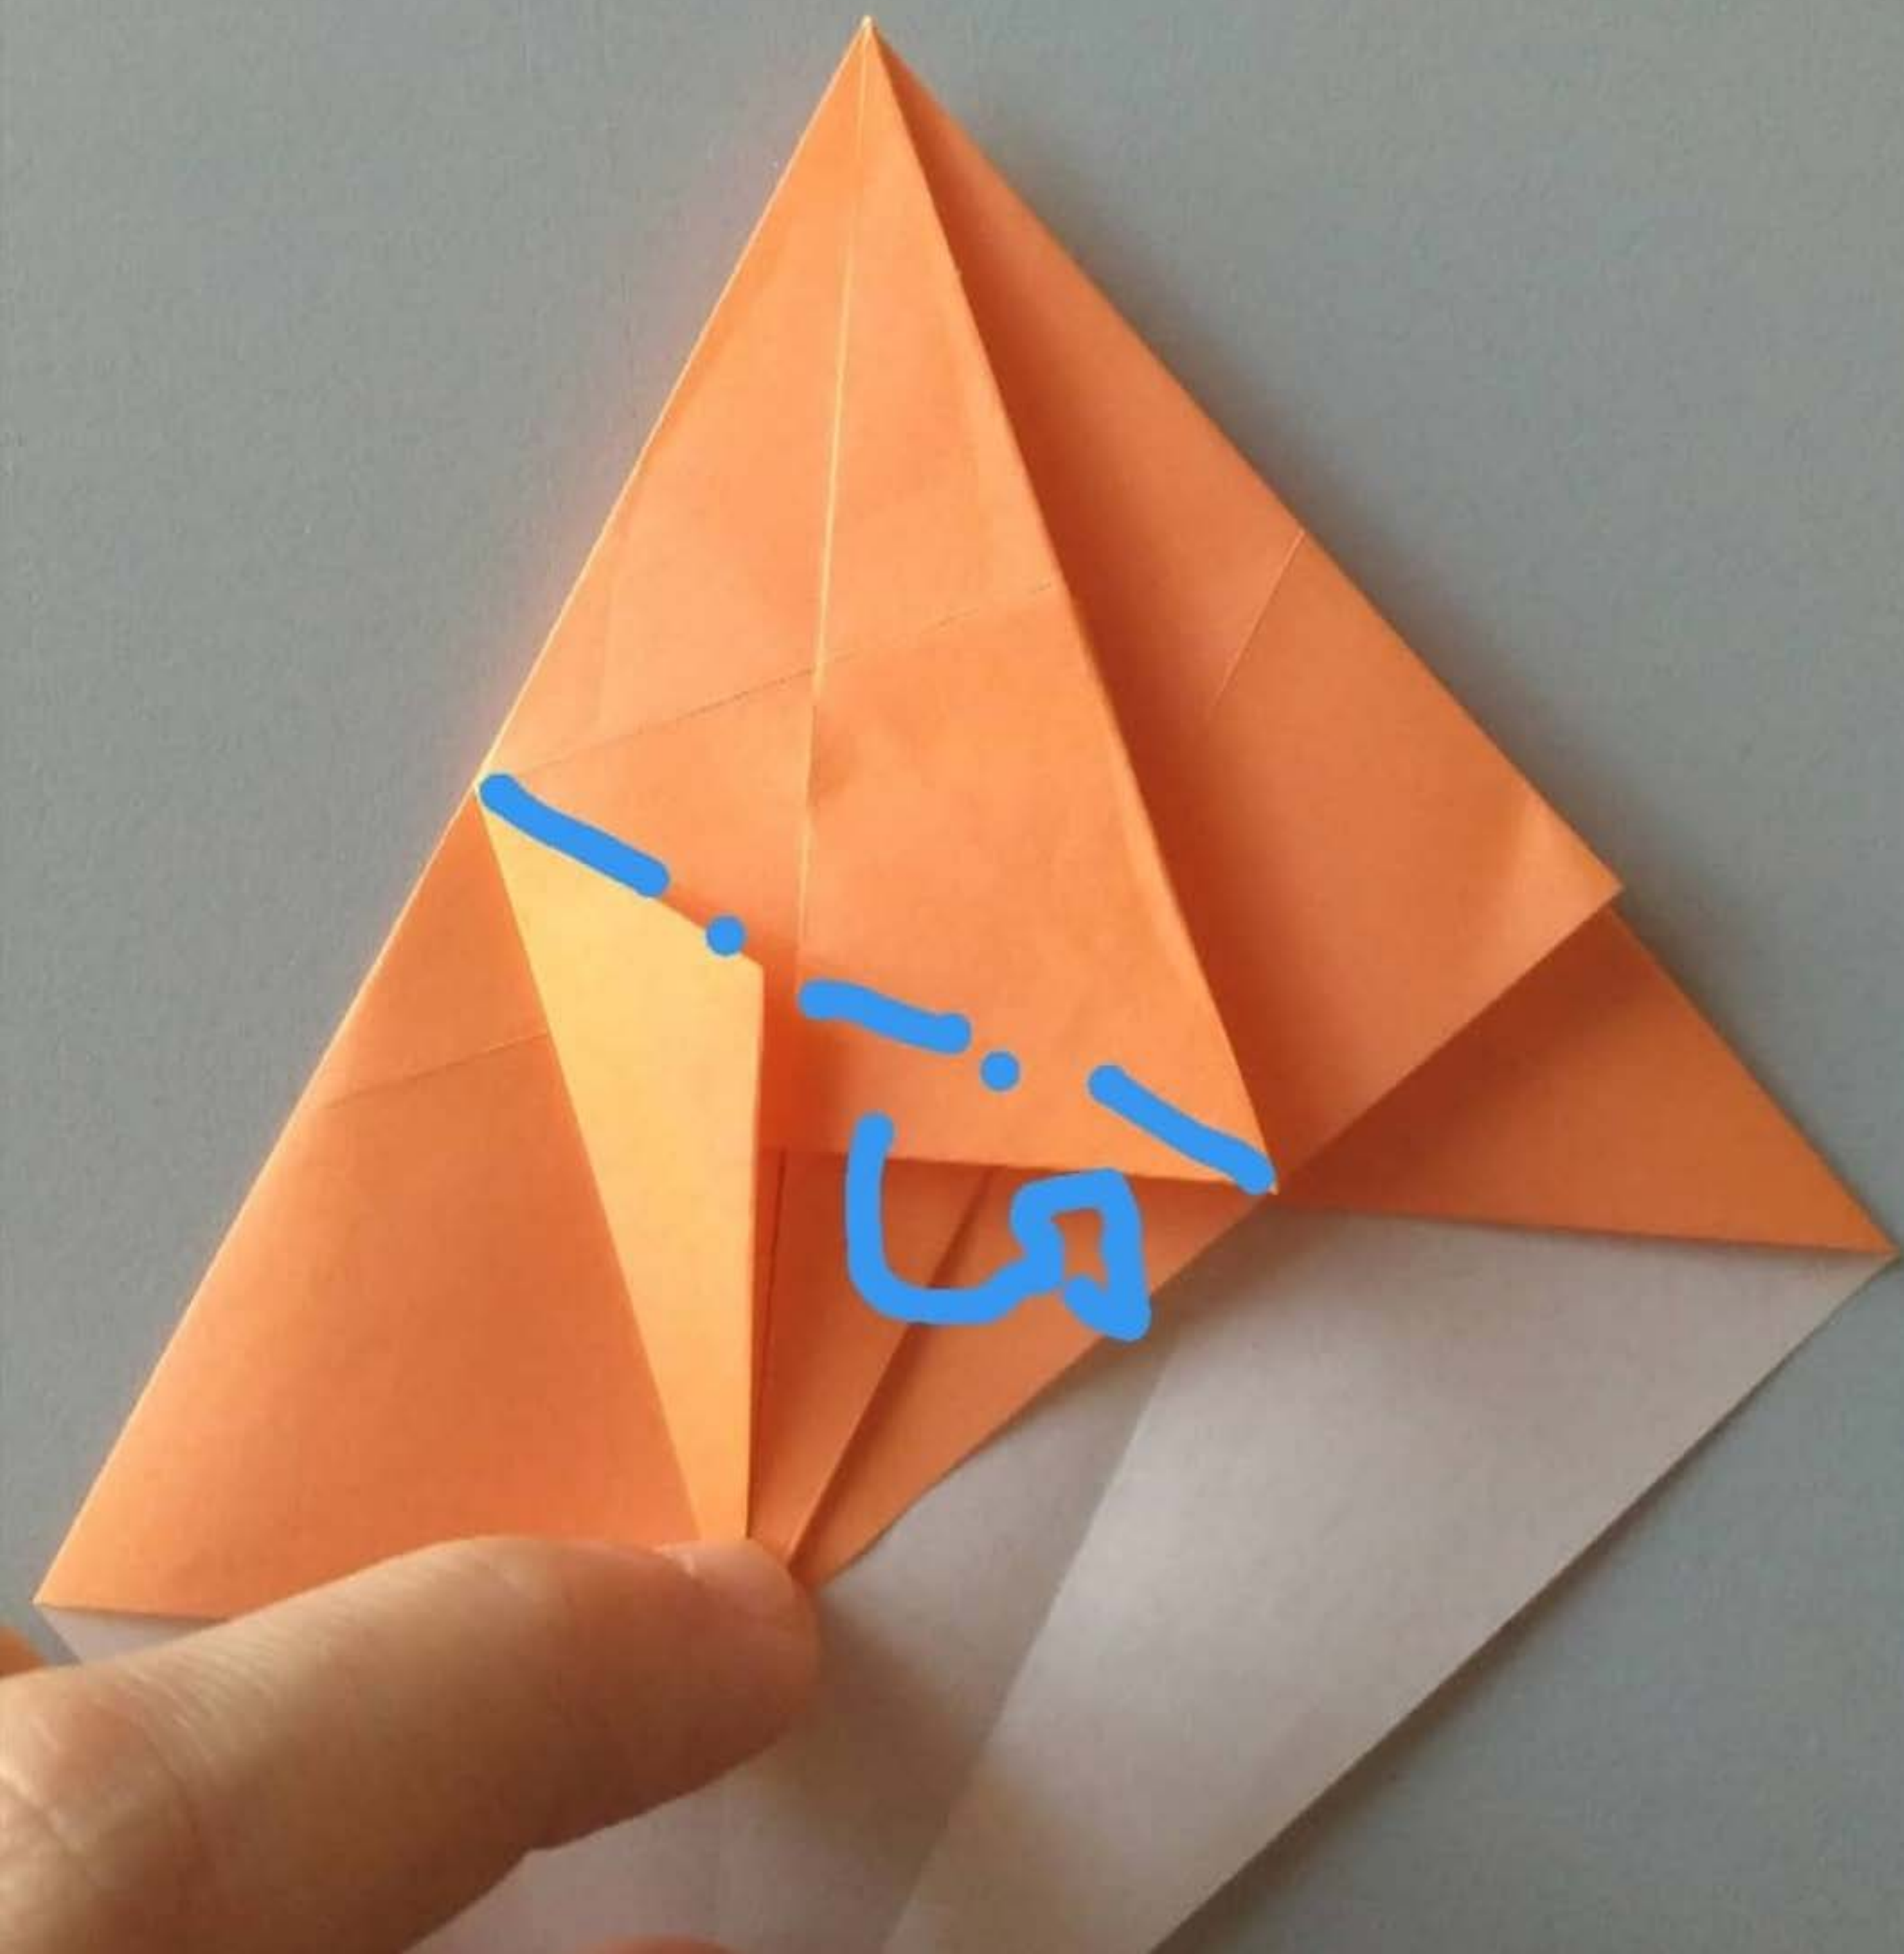

**Fold the angle bisector**

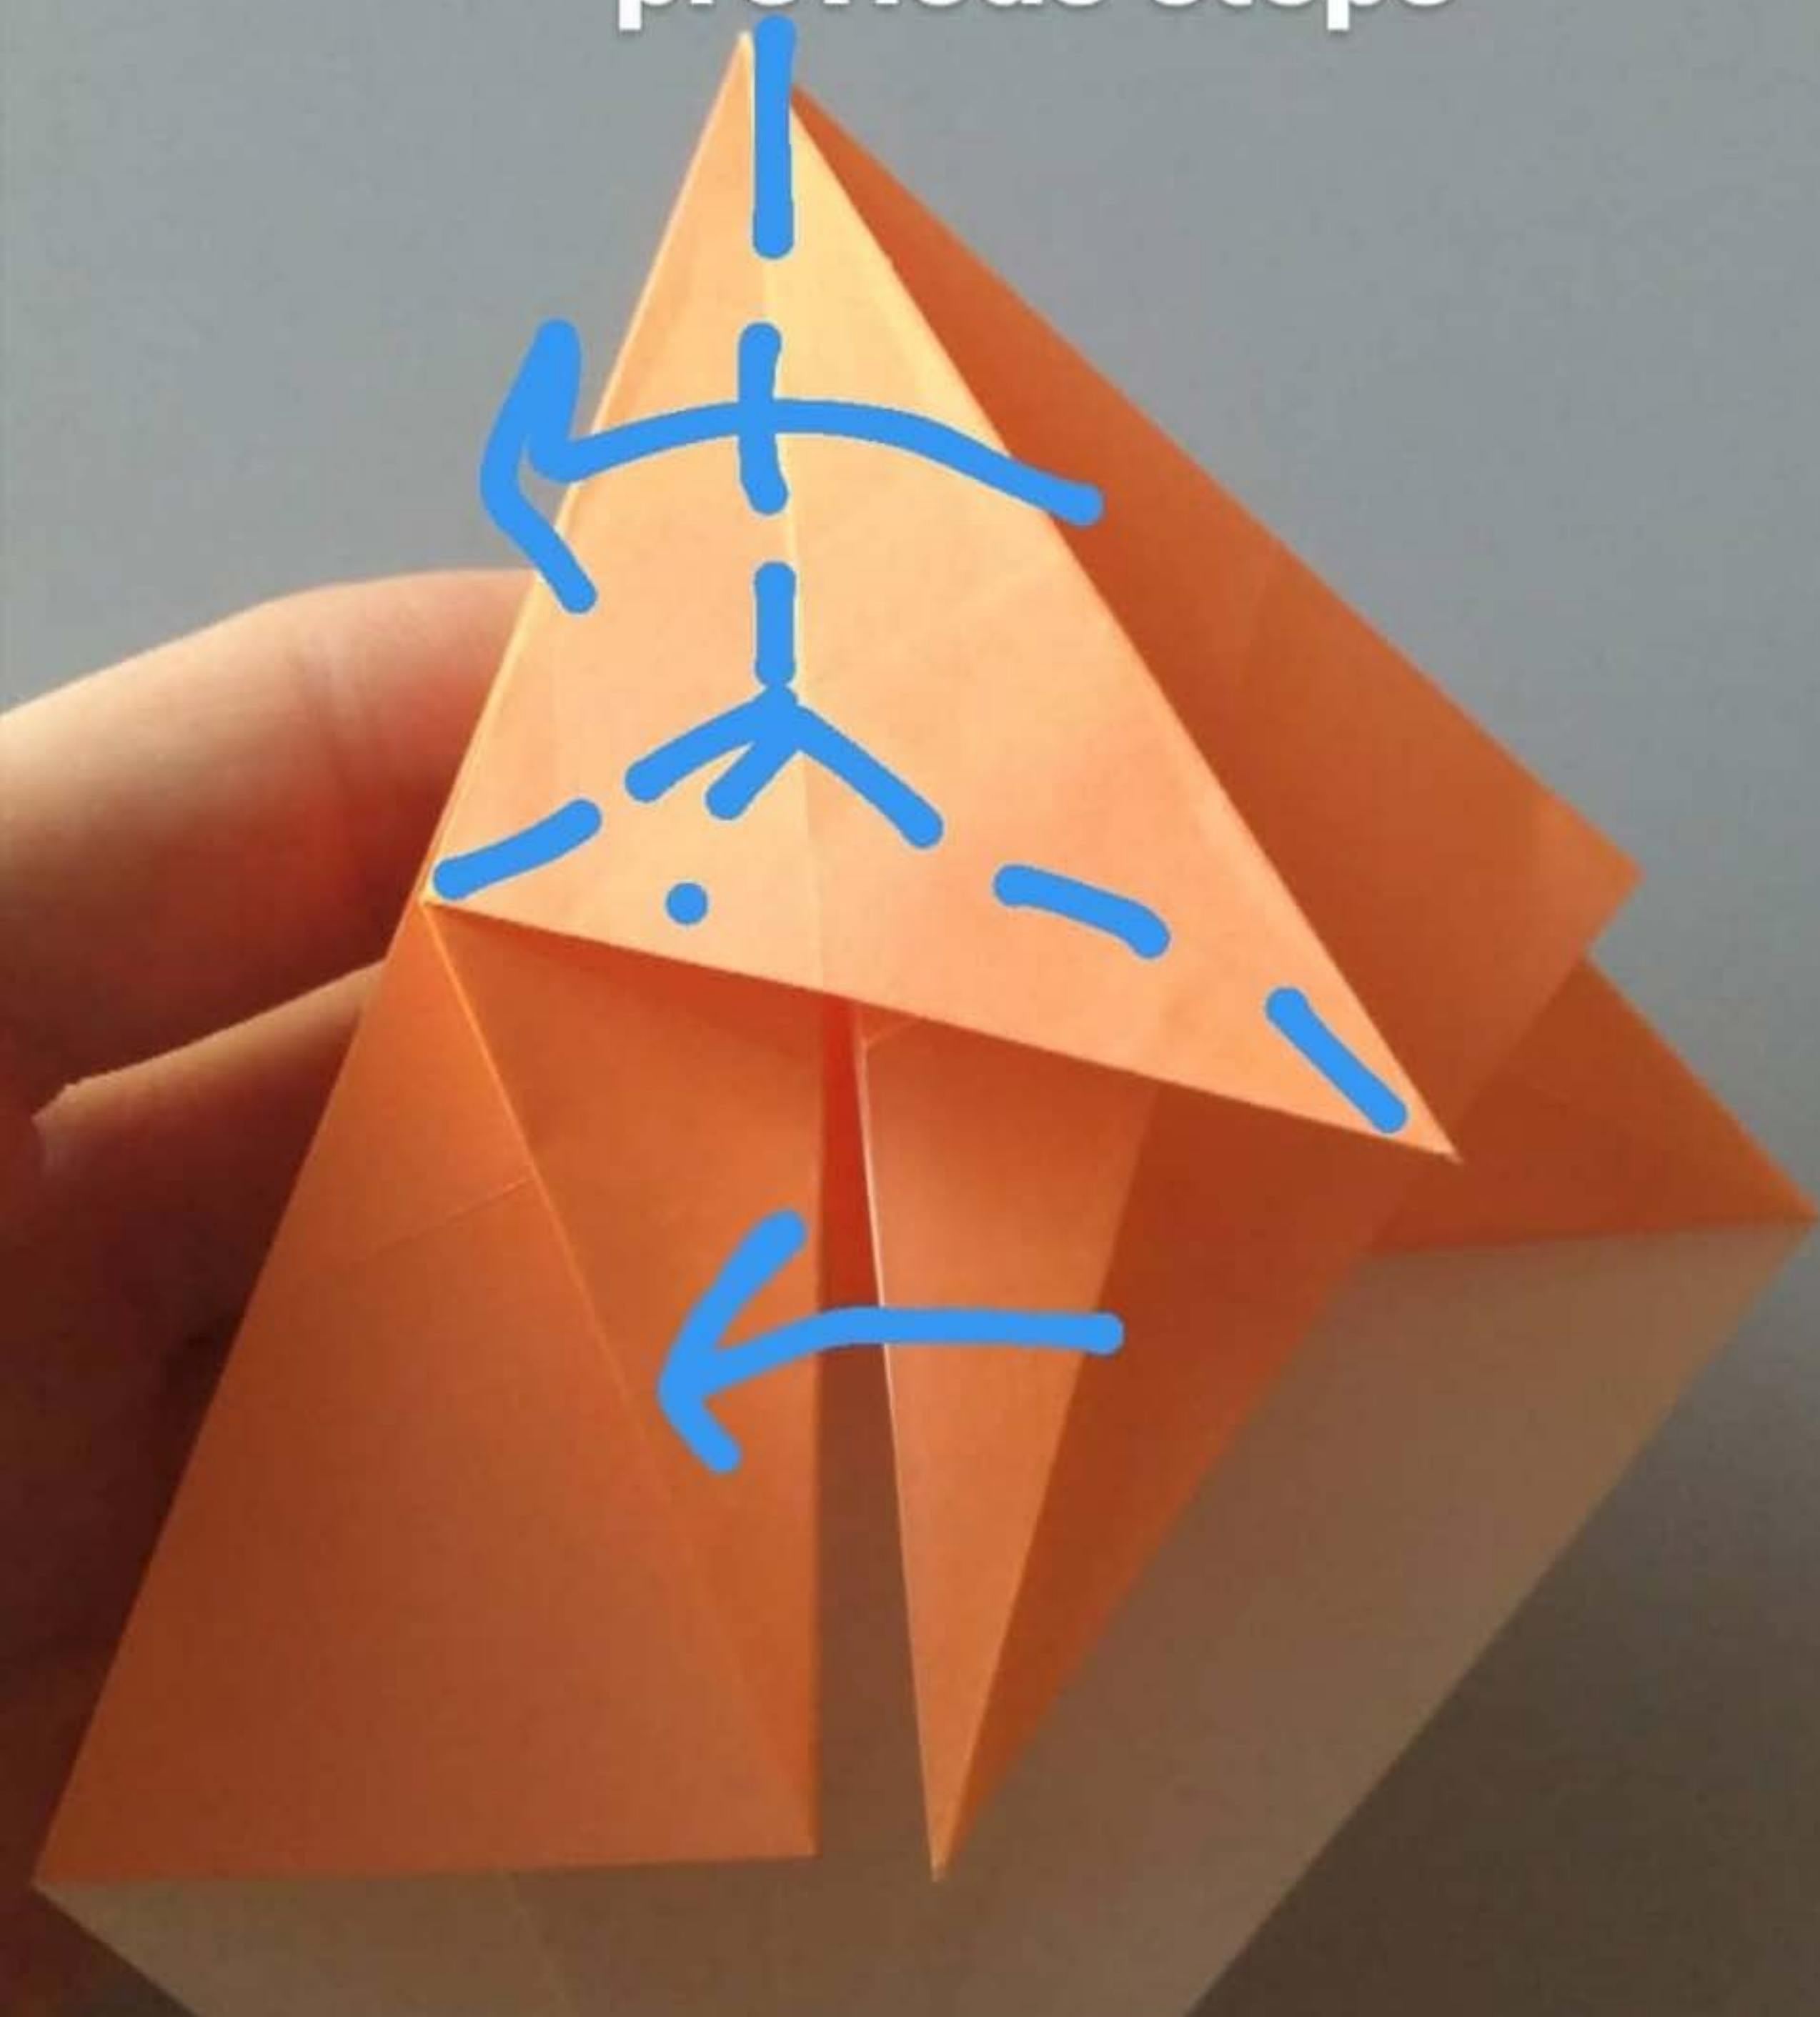

**And swivel fold inside**

**Collapse like in one of the  
previous steps**

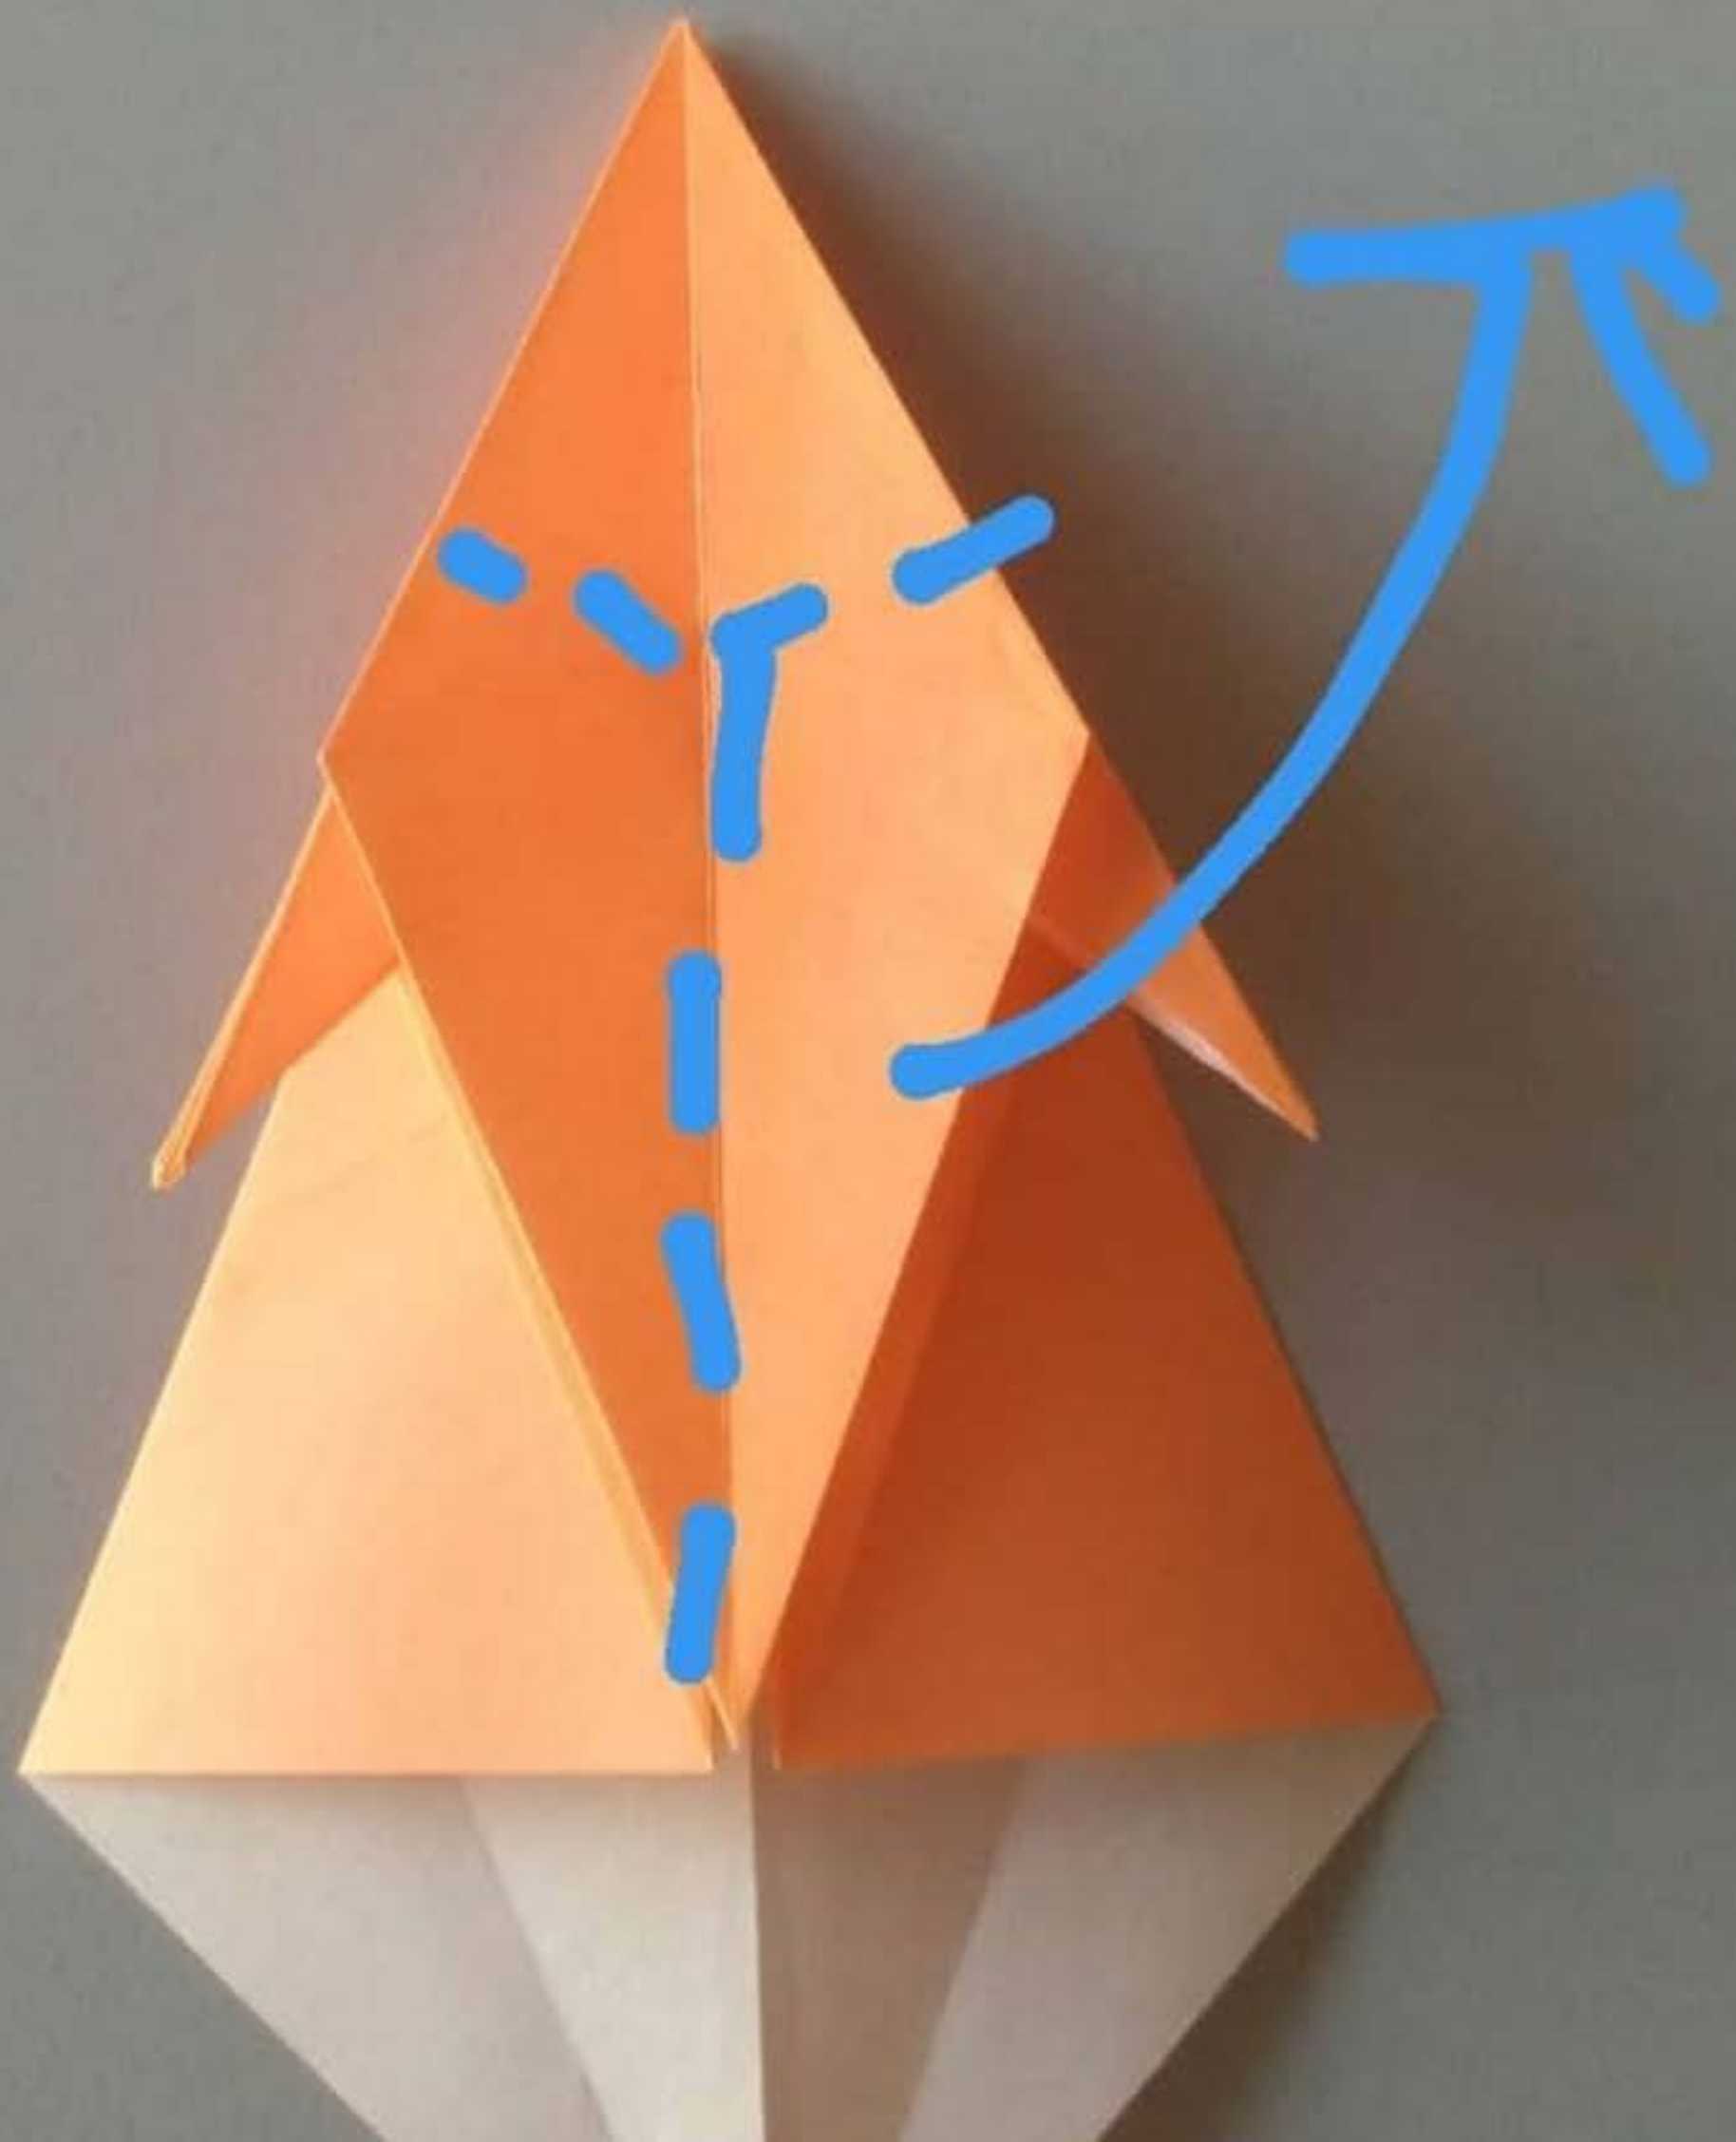

**Repeat previous steps on the  
other side**

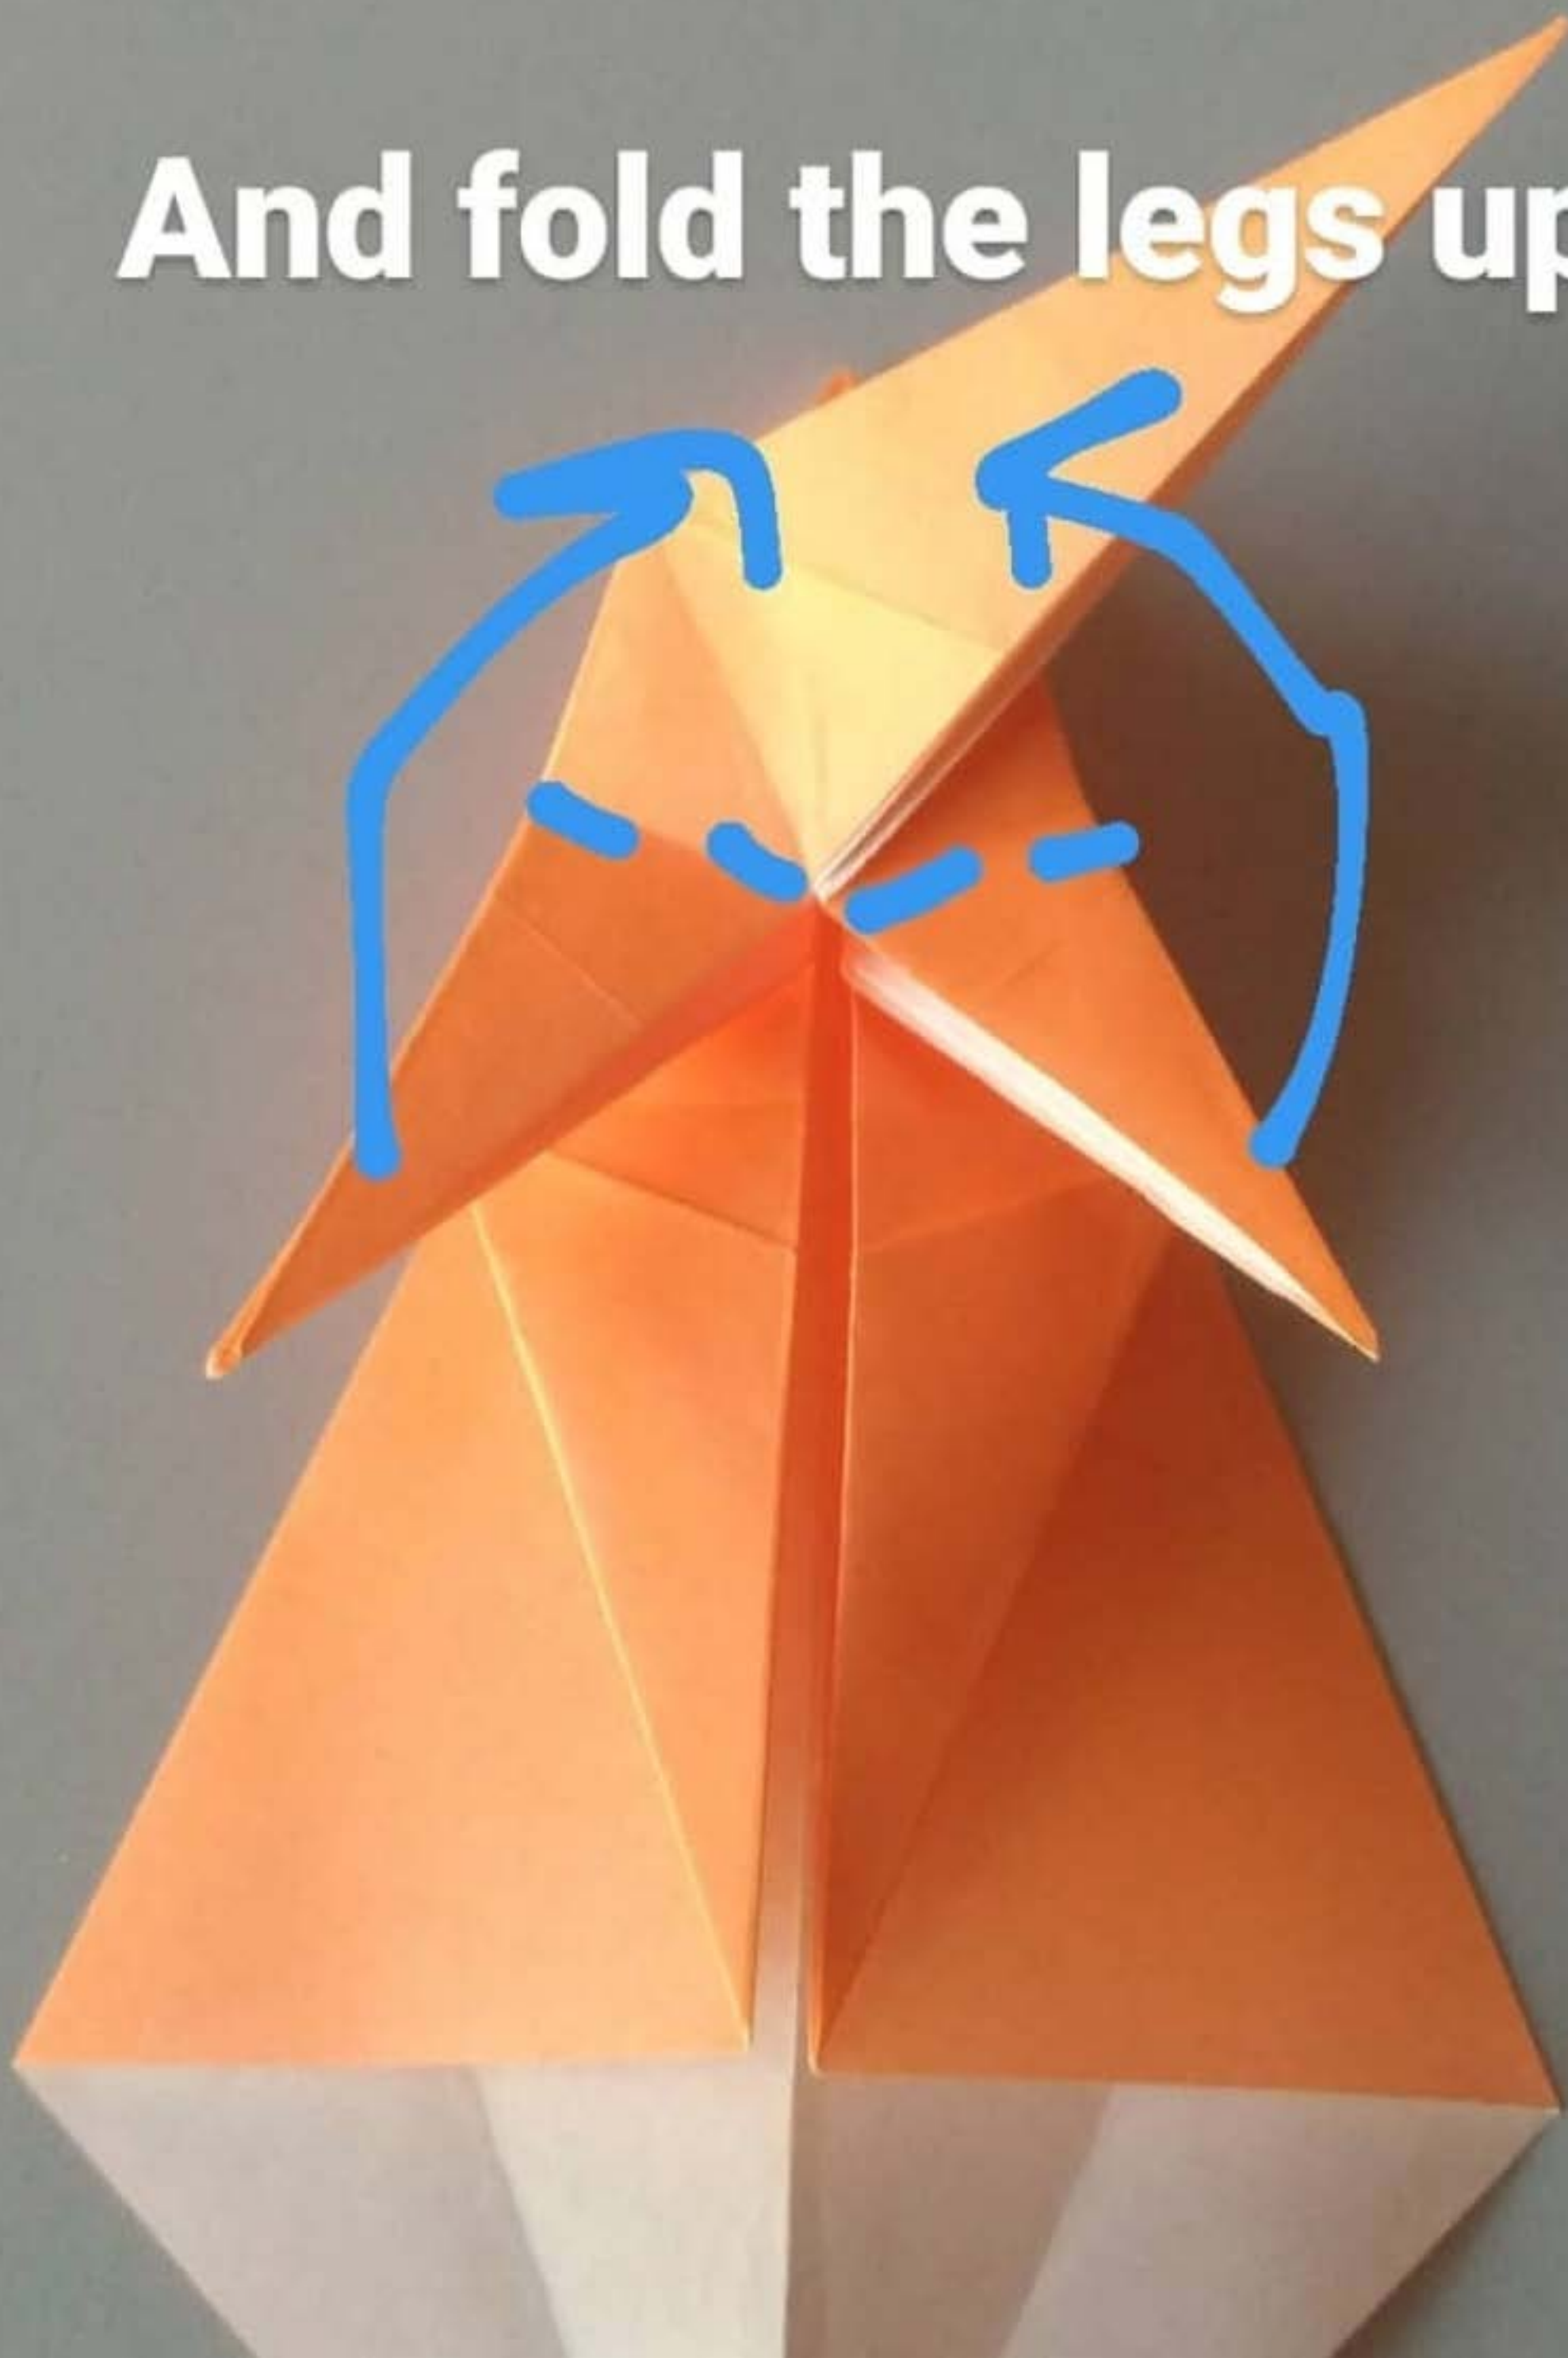

**Like this. Make a  
"rabbit-ear" fold**

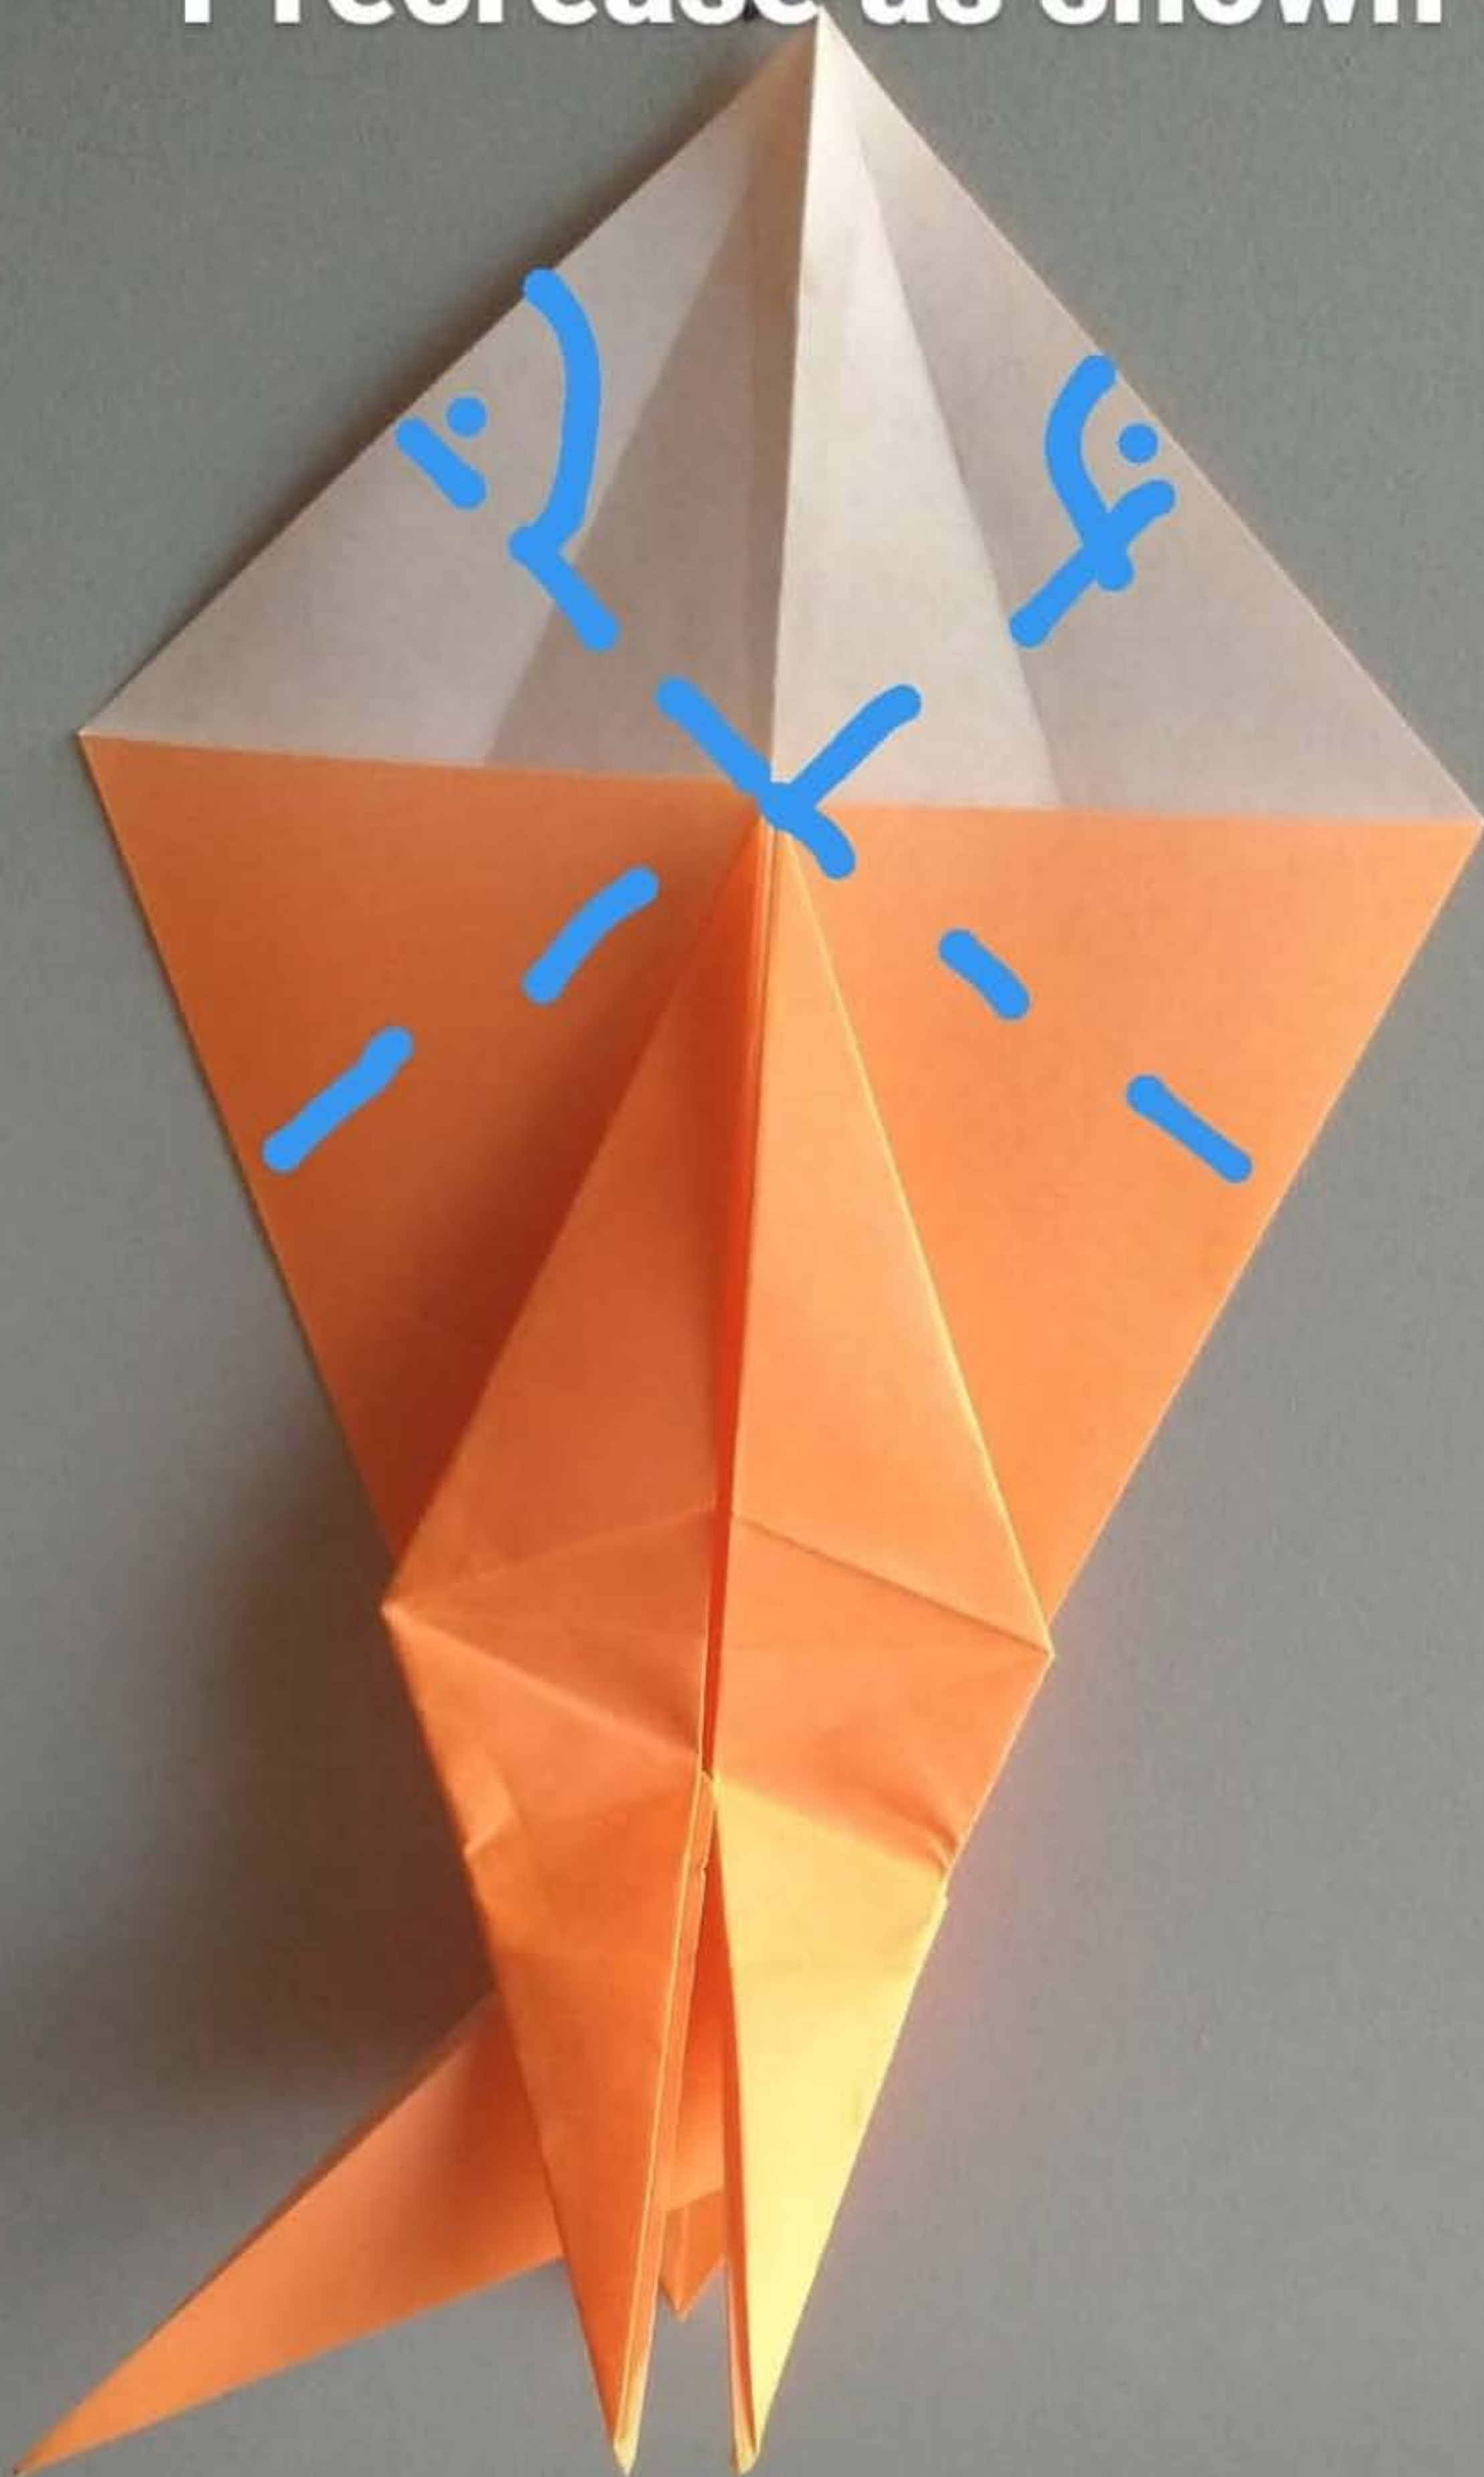

**And fold the legs up**

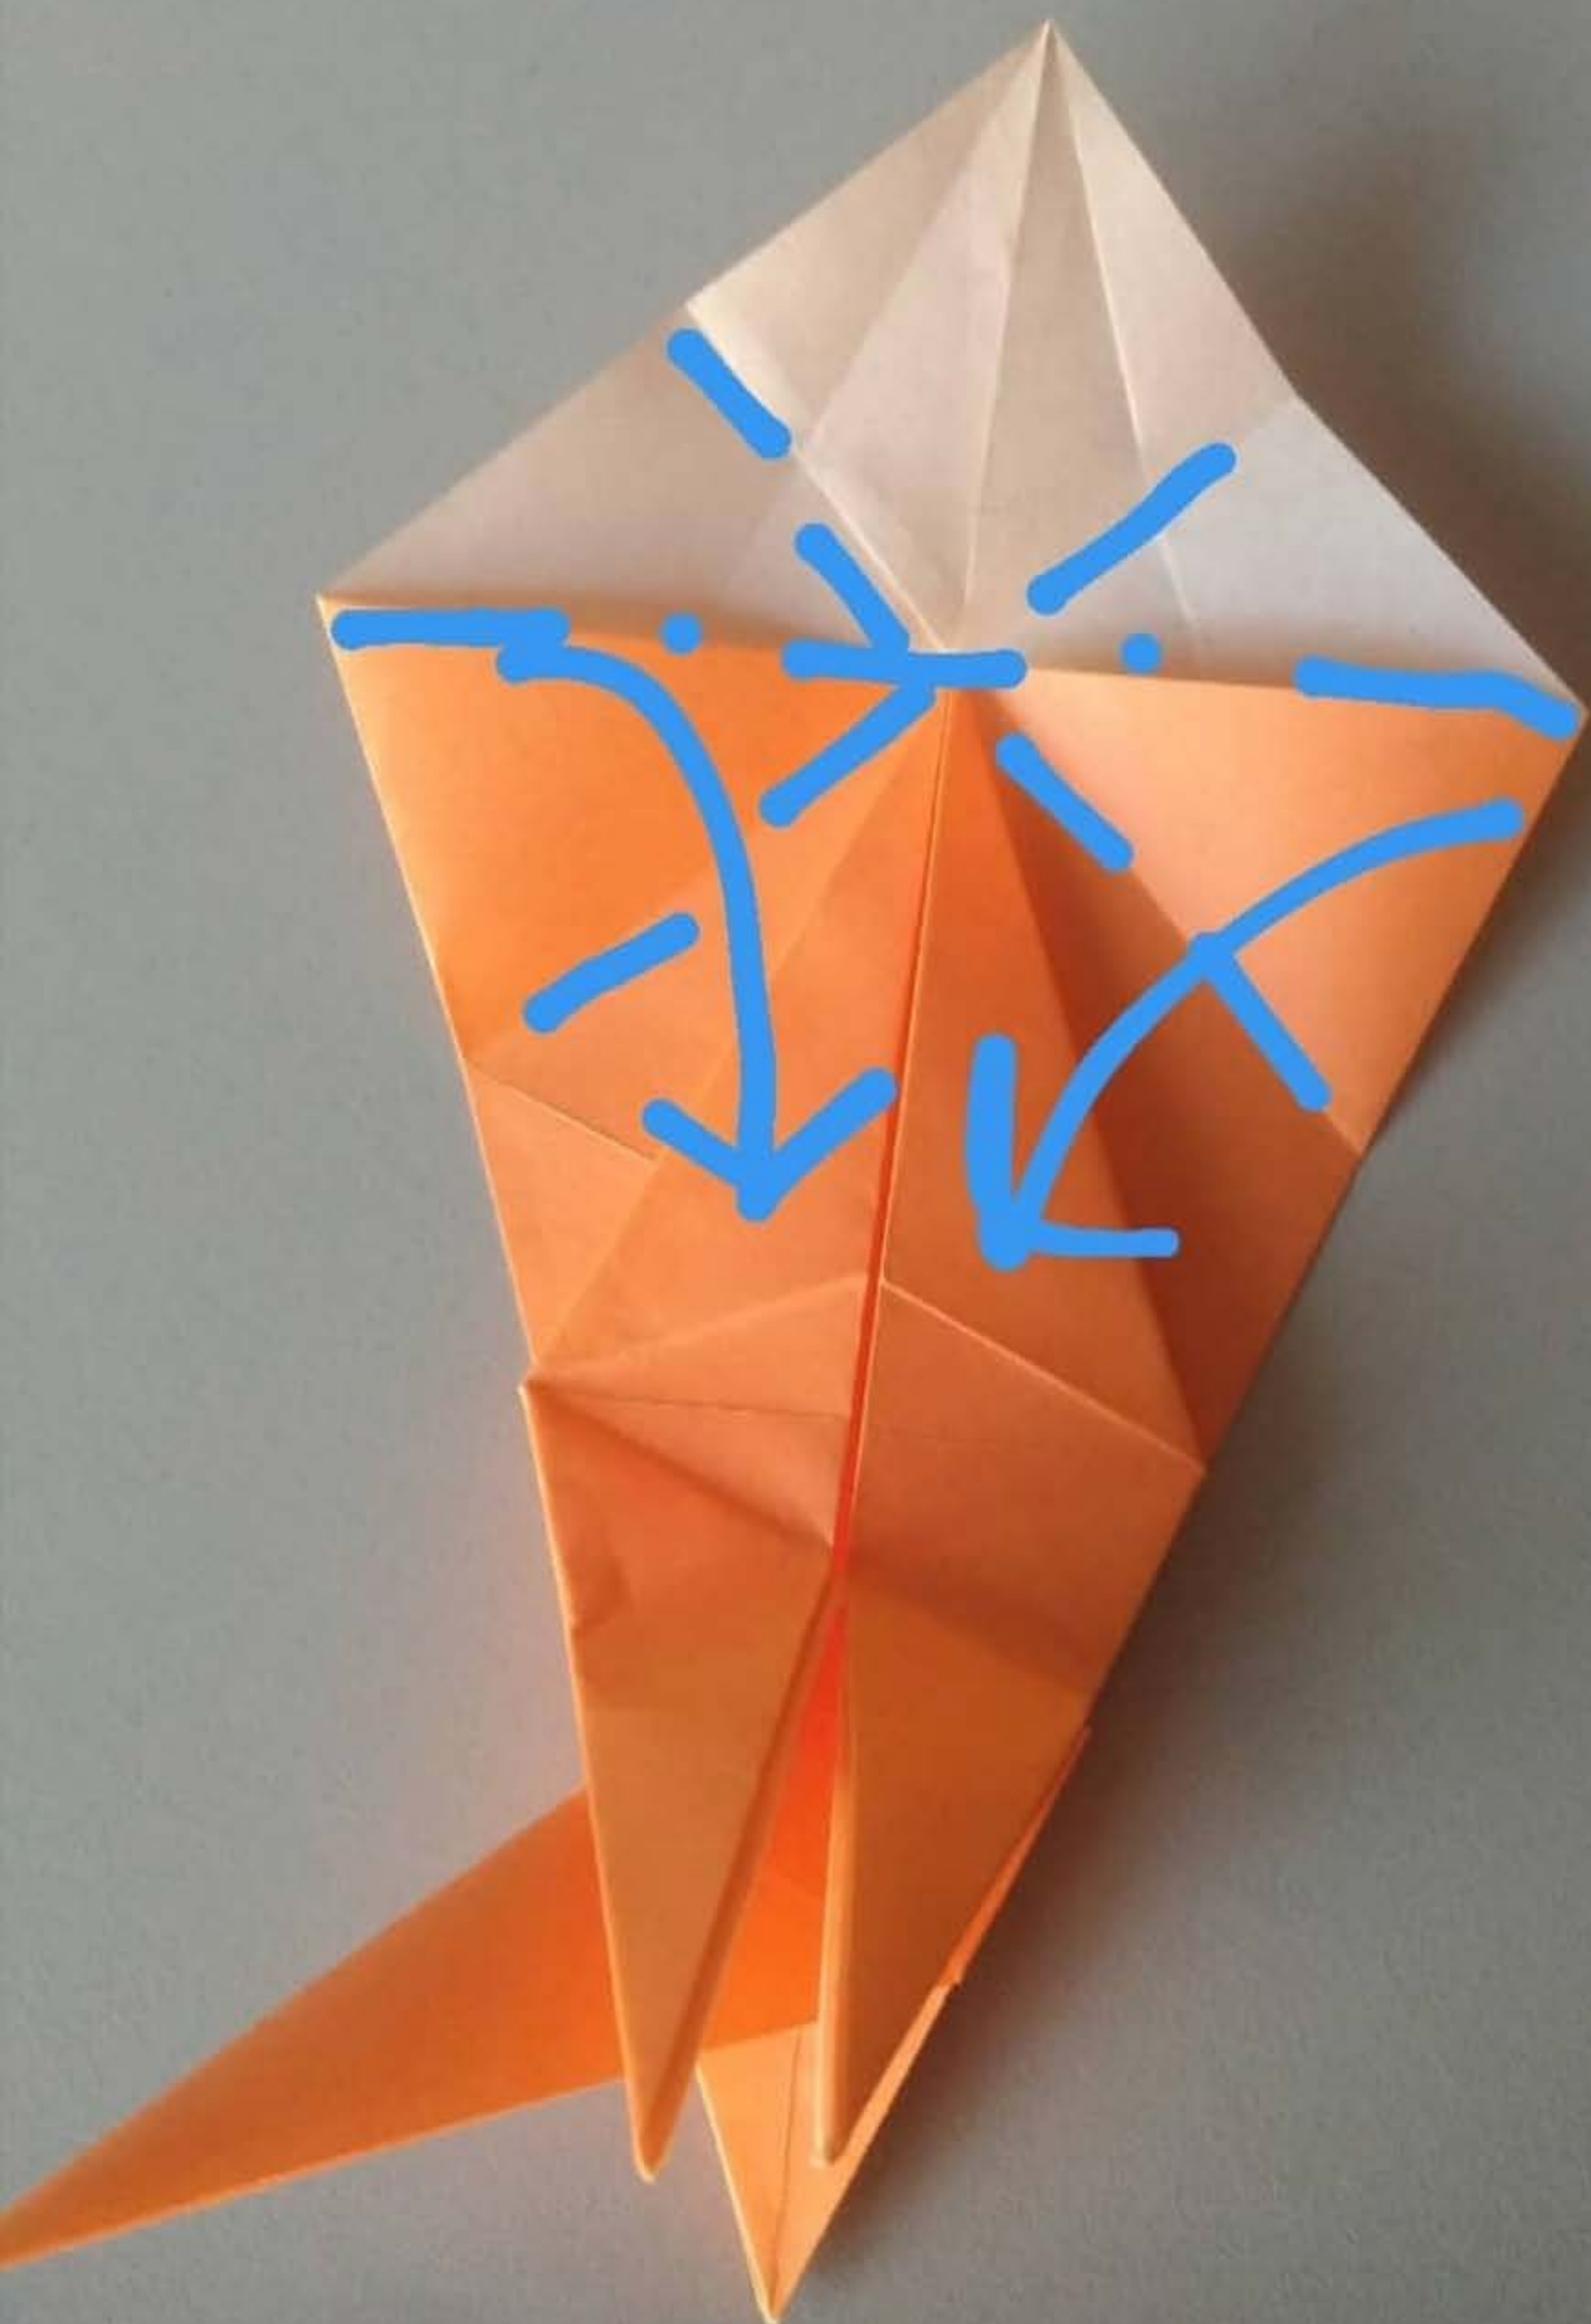

**Precrease as shown**

**And make a "rabbit-ear" fold using the creases you've just made**

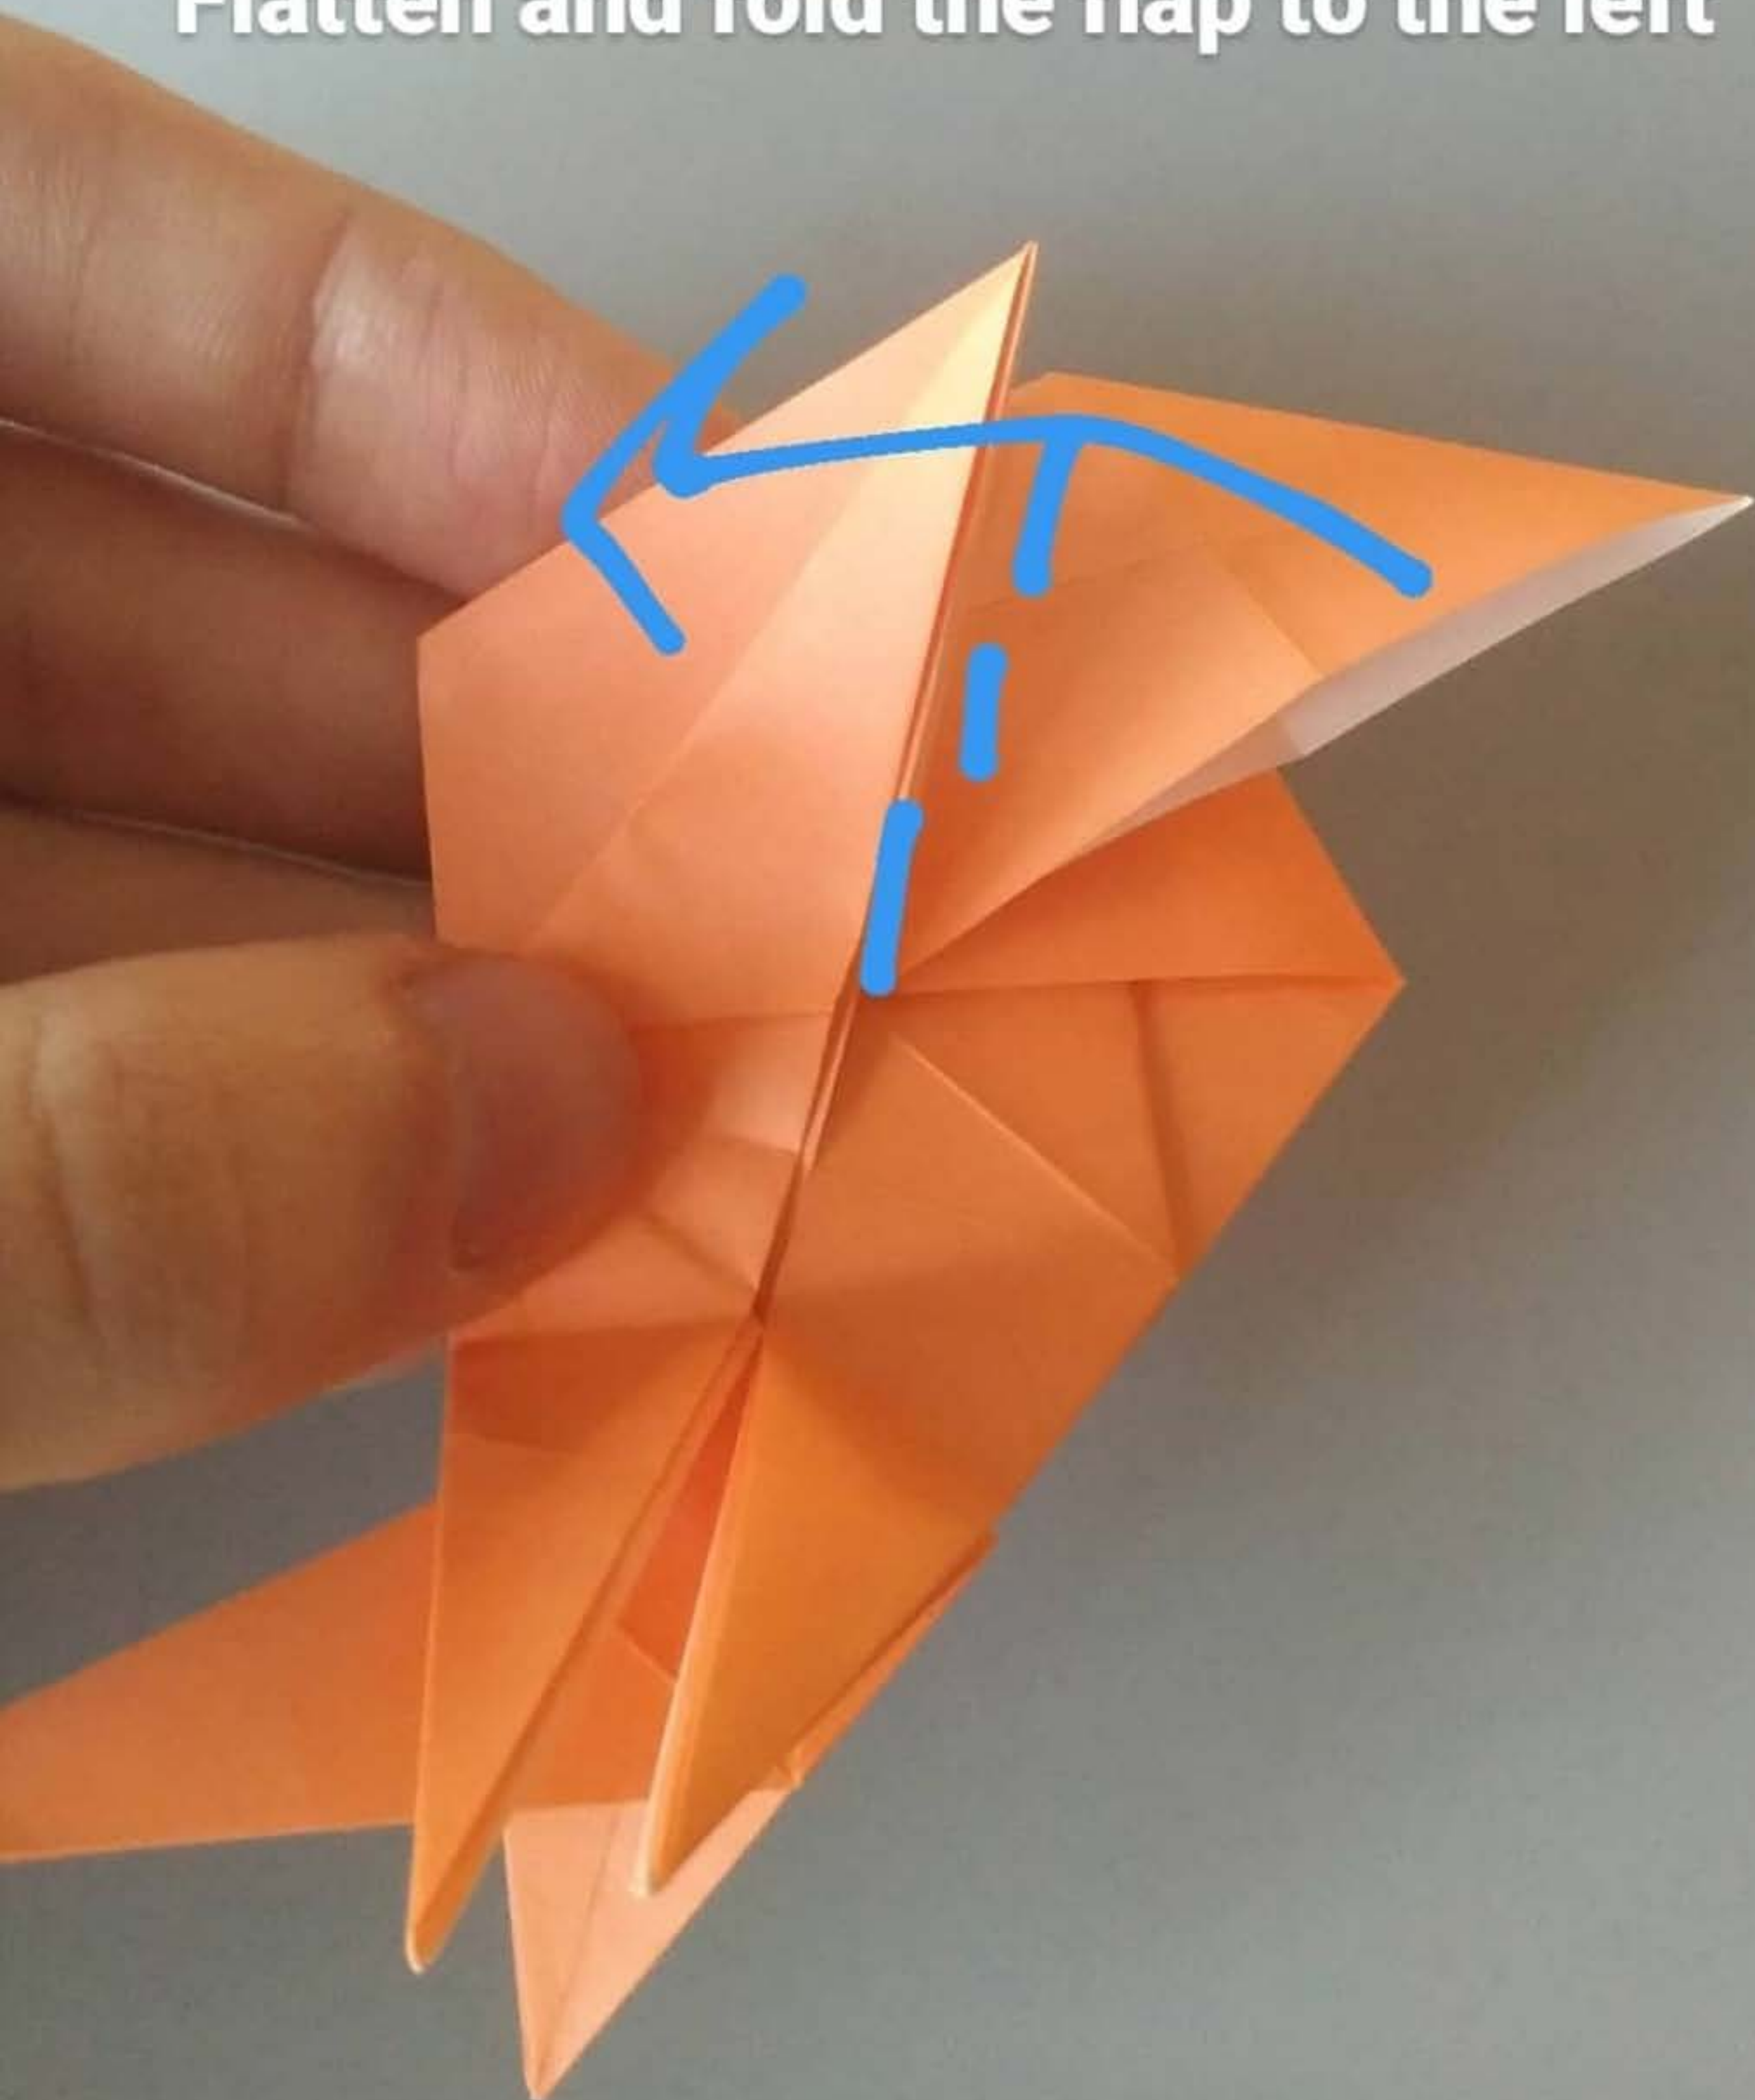

**Pull out the layer from inside**

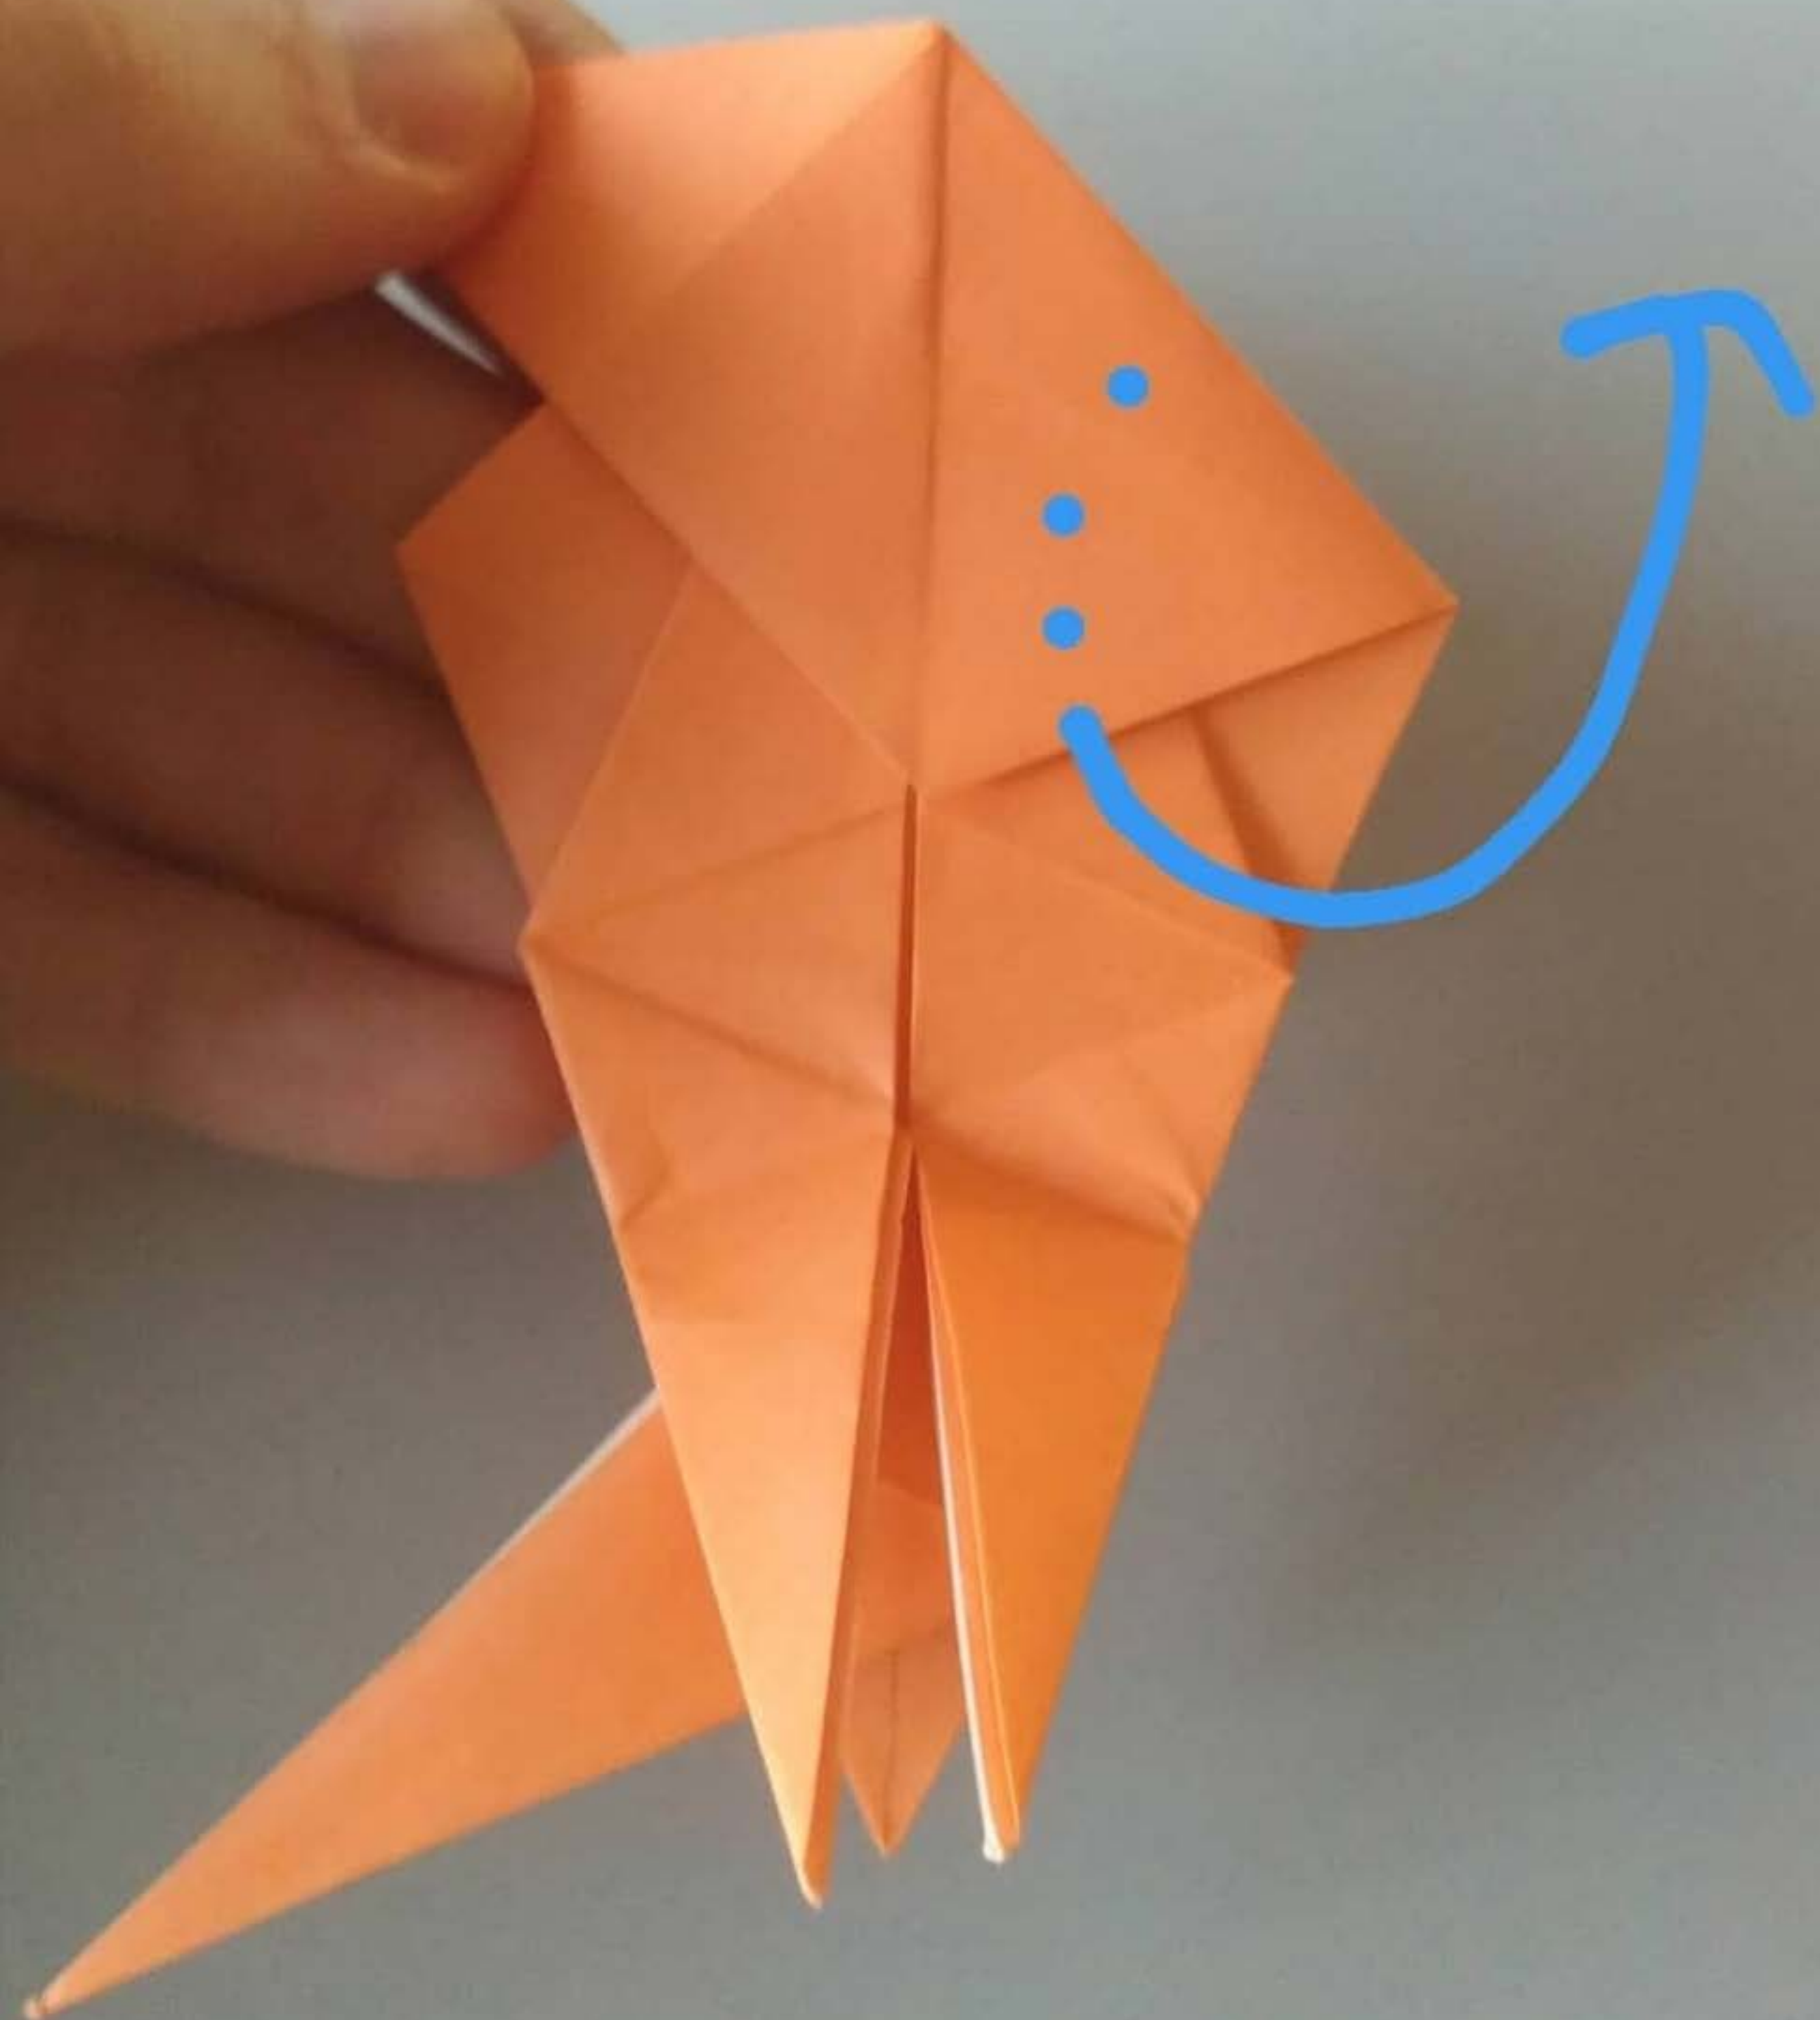

**Flatten and fold the flap to the left**

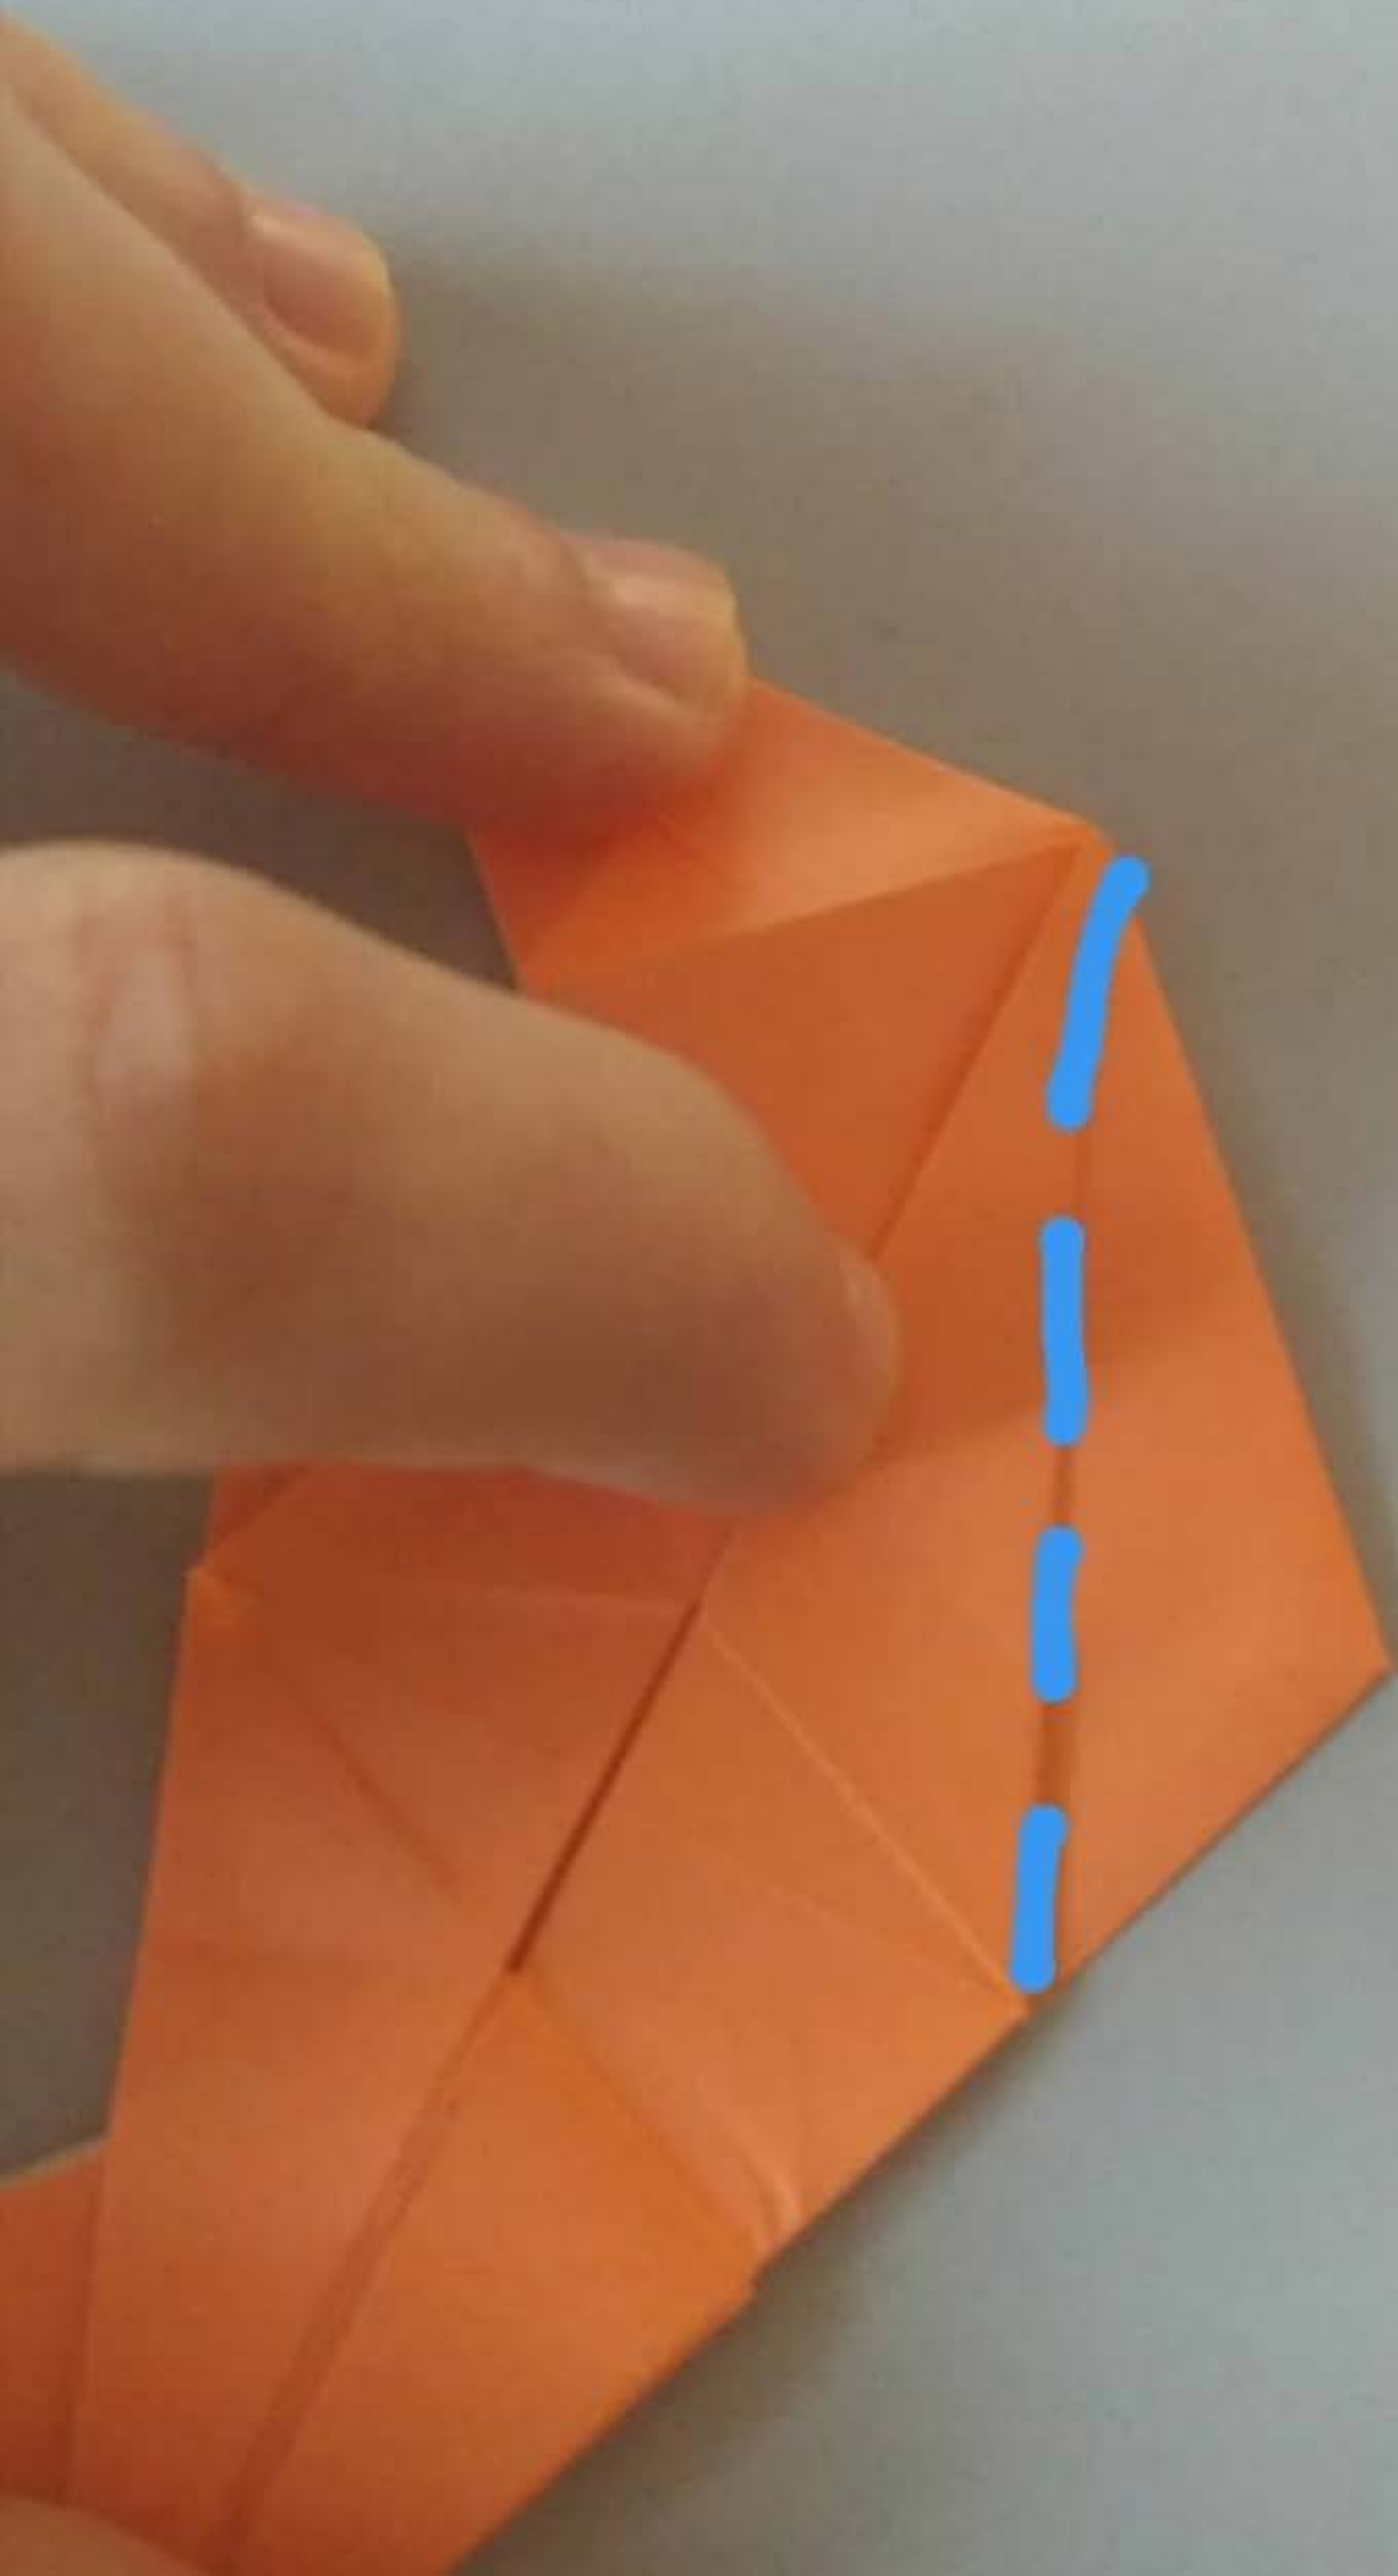

**Pull out the layer from inside on  
this side**

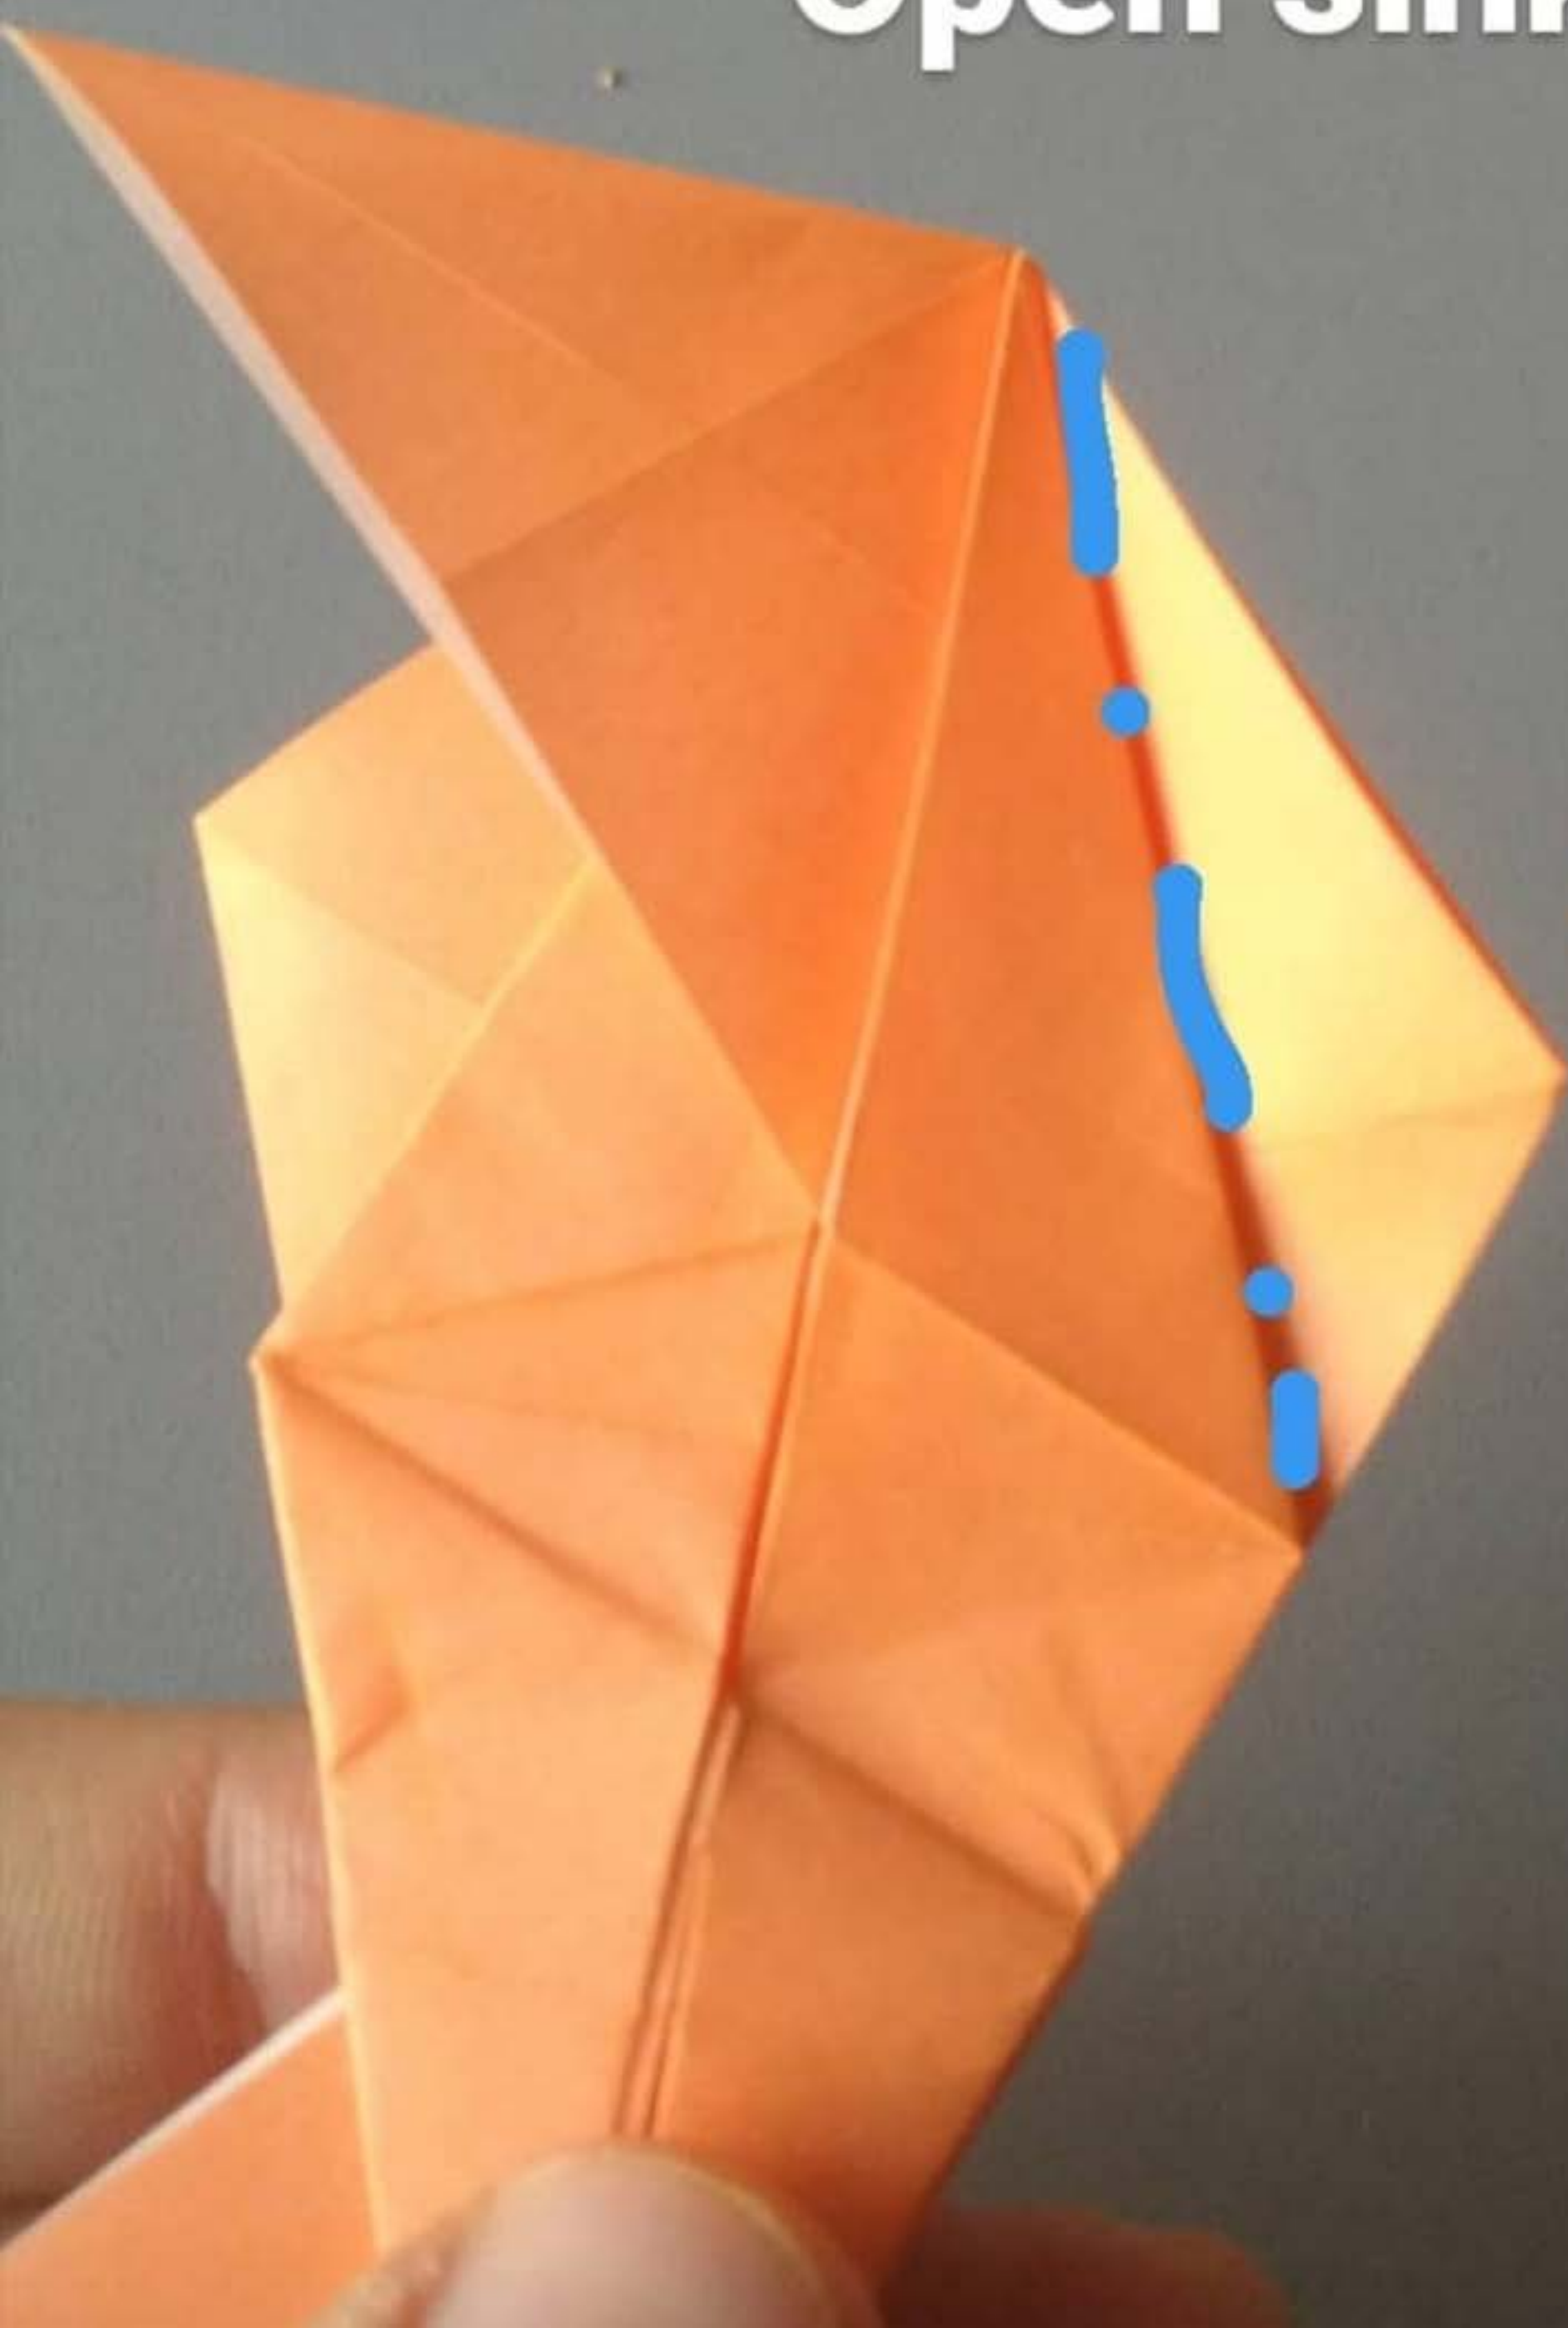

**Precrease as shown**

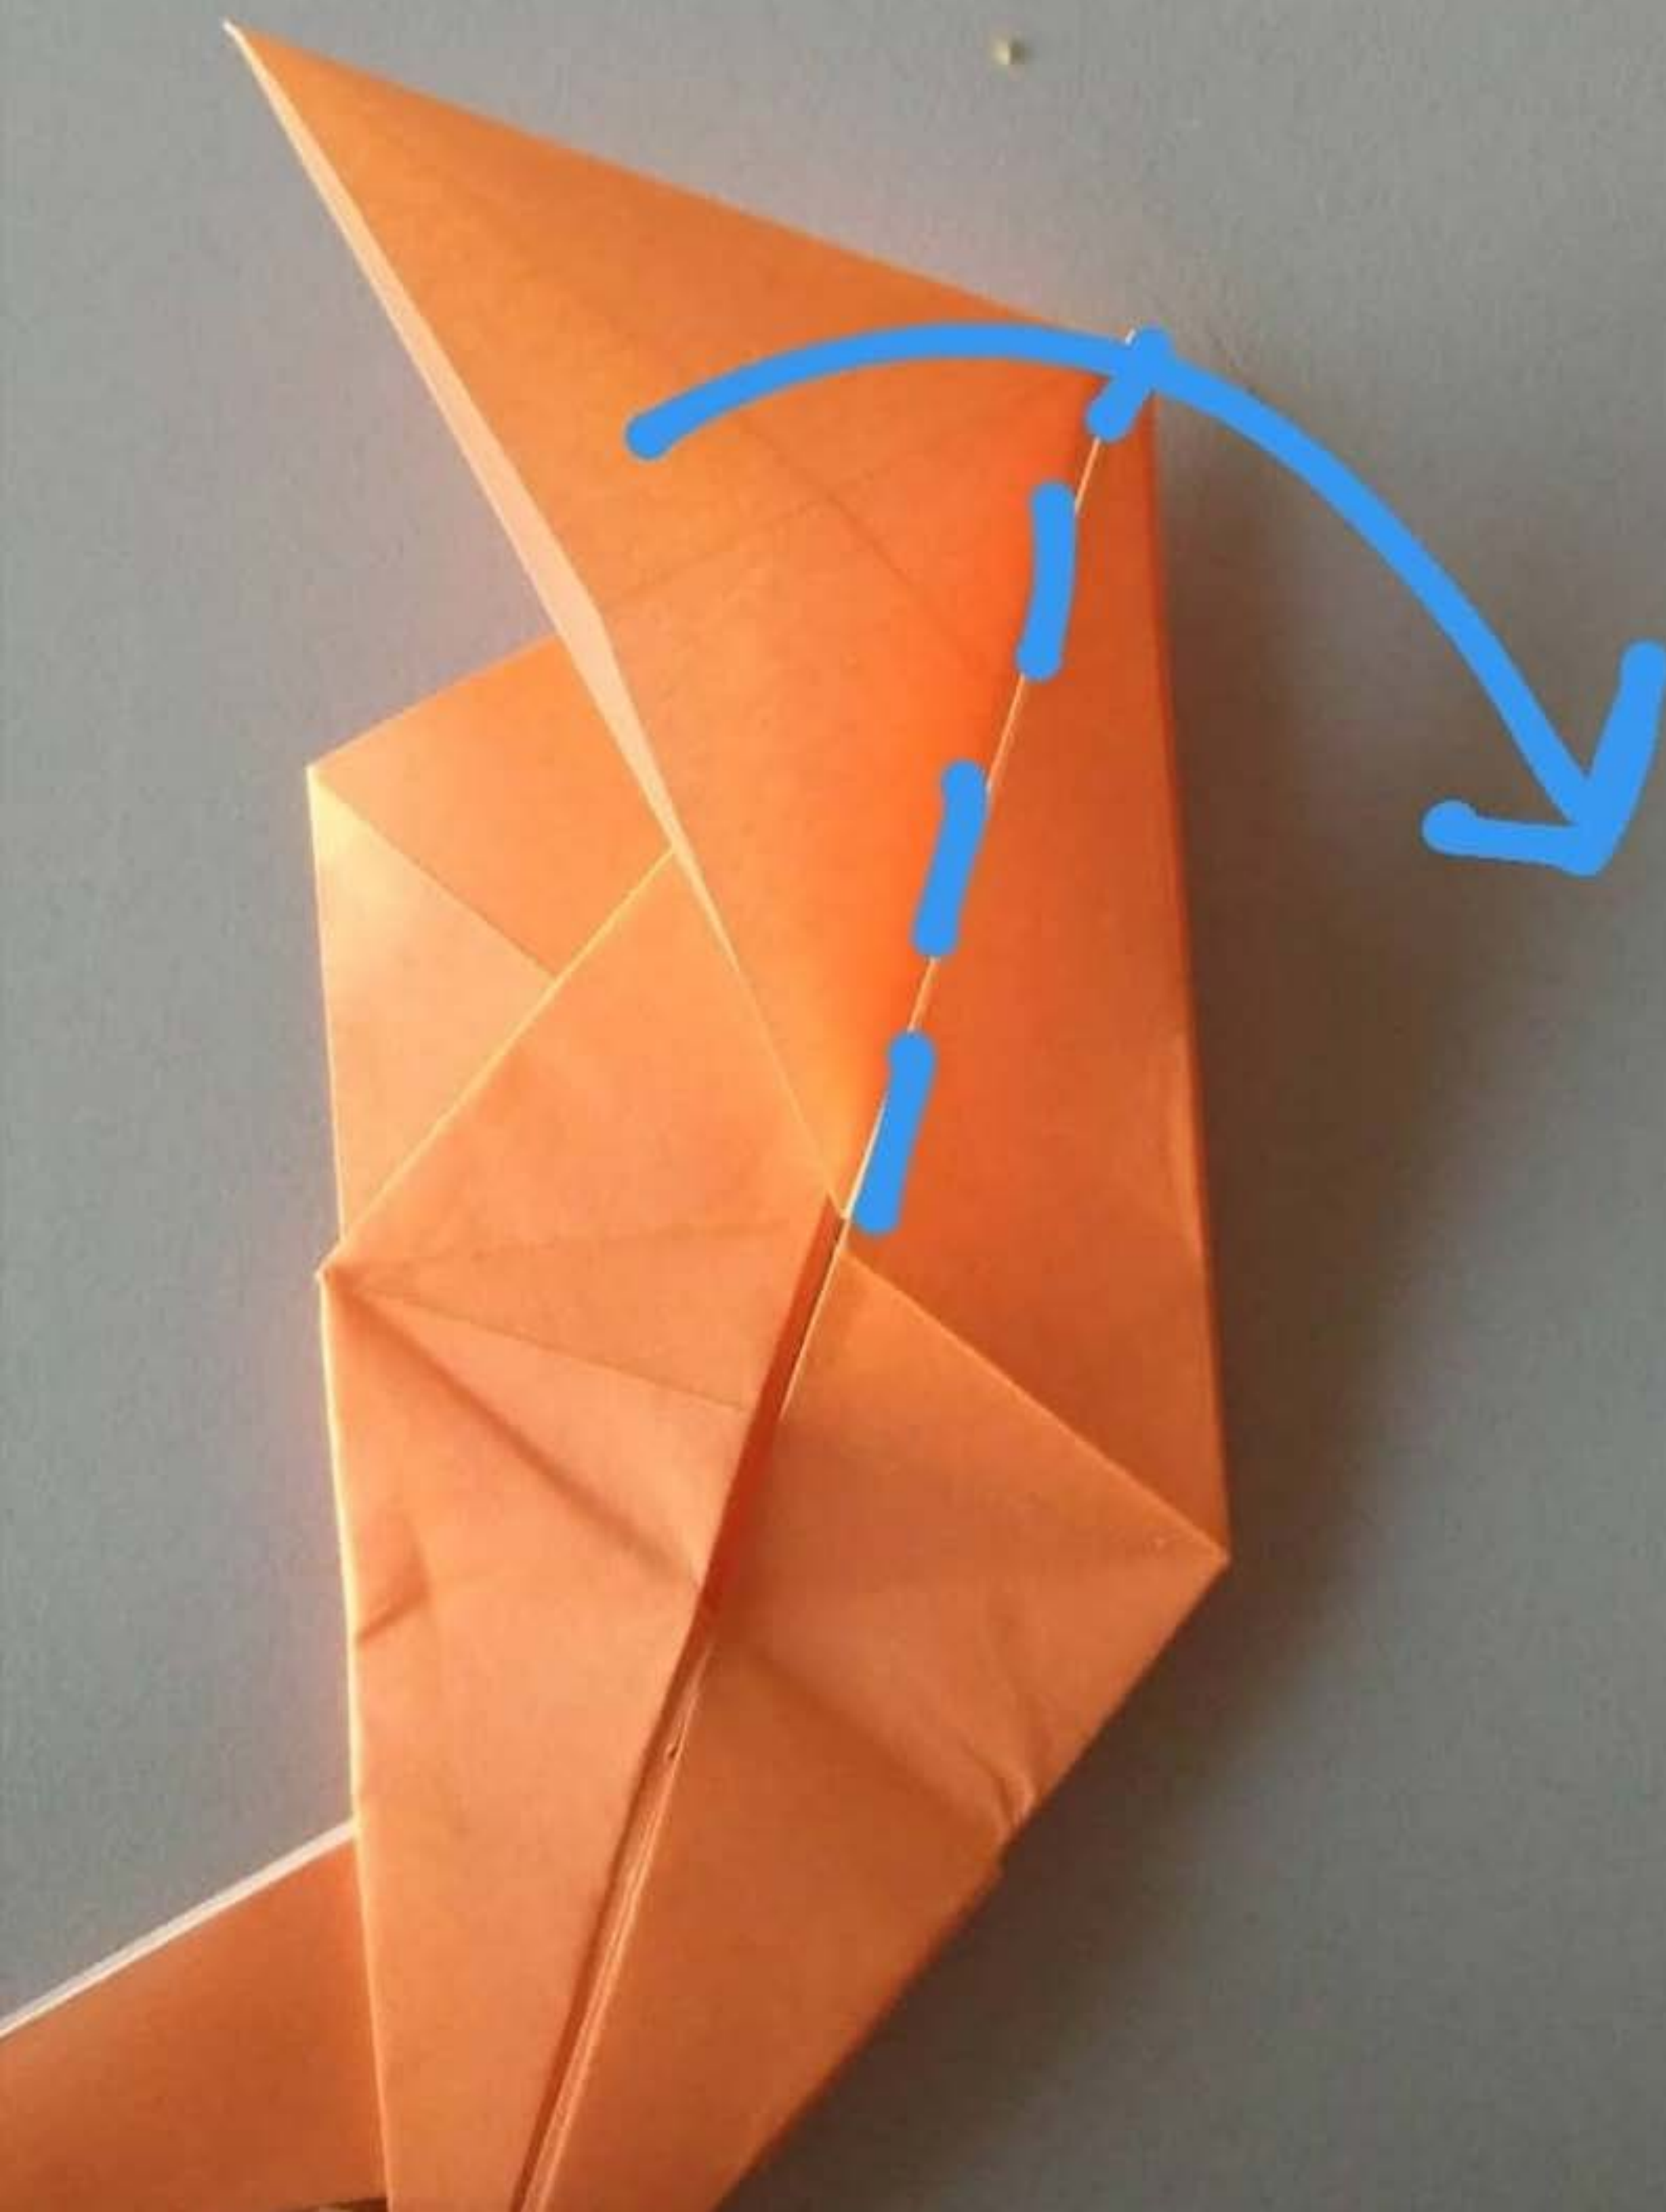

**Open sink**

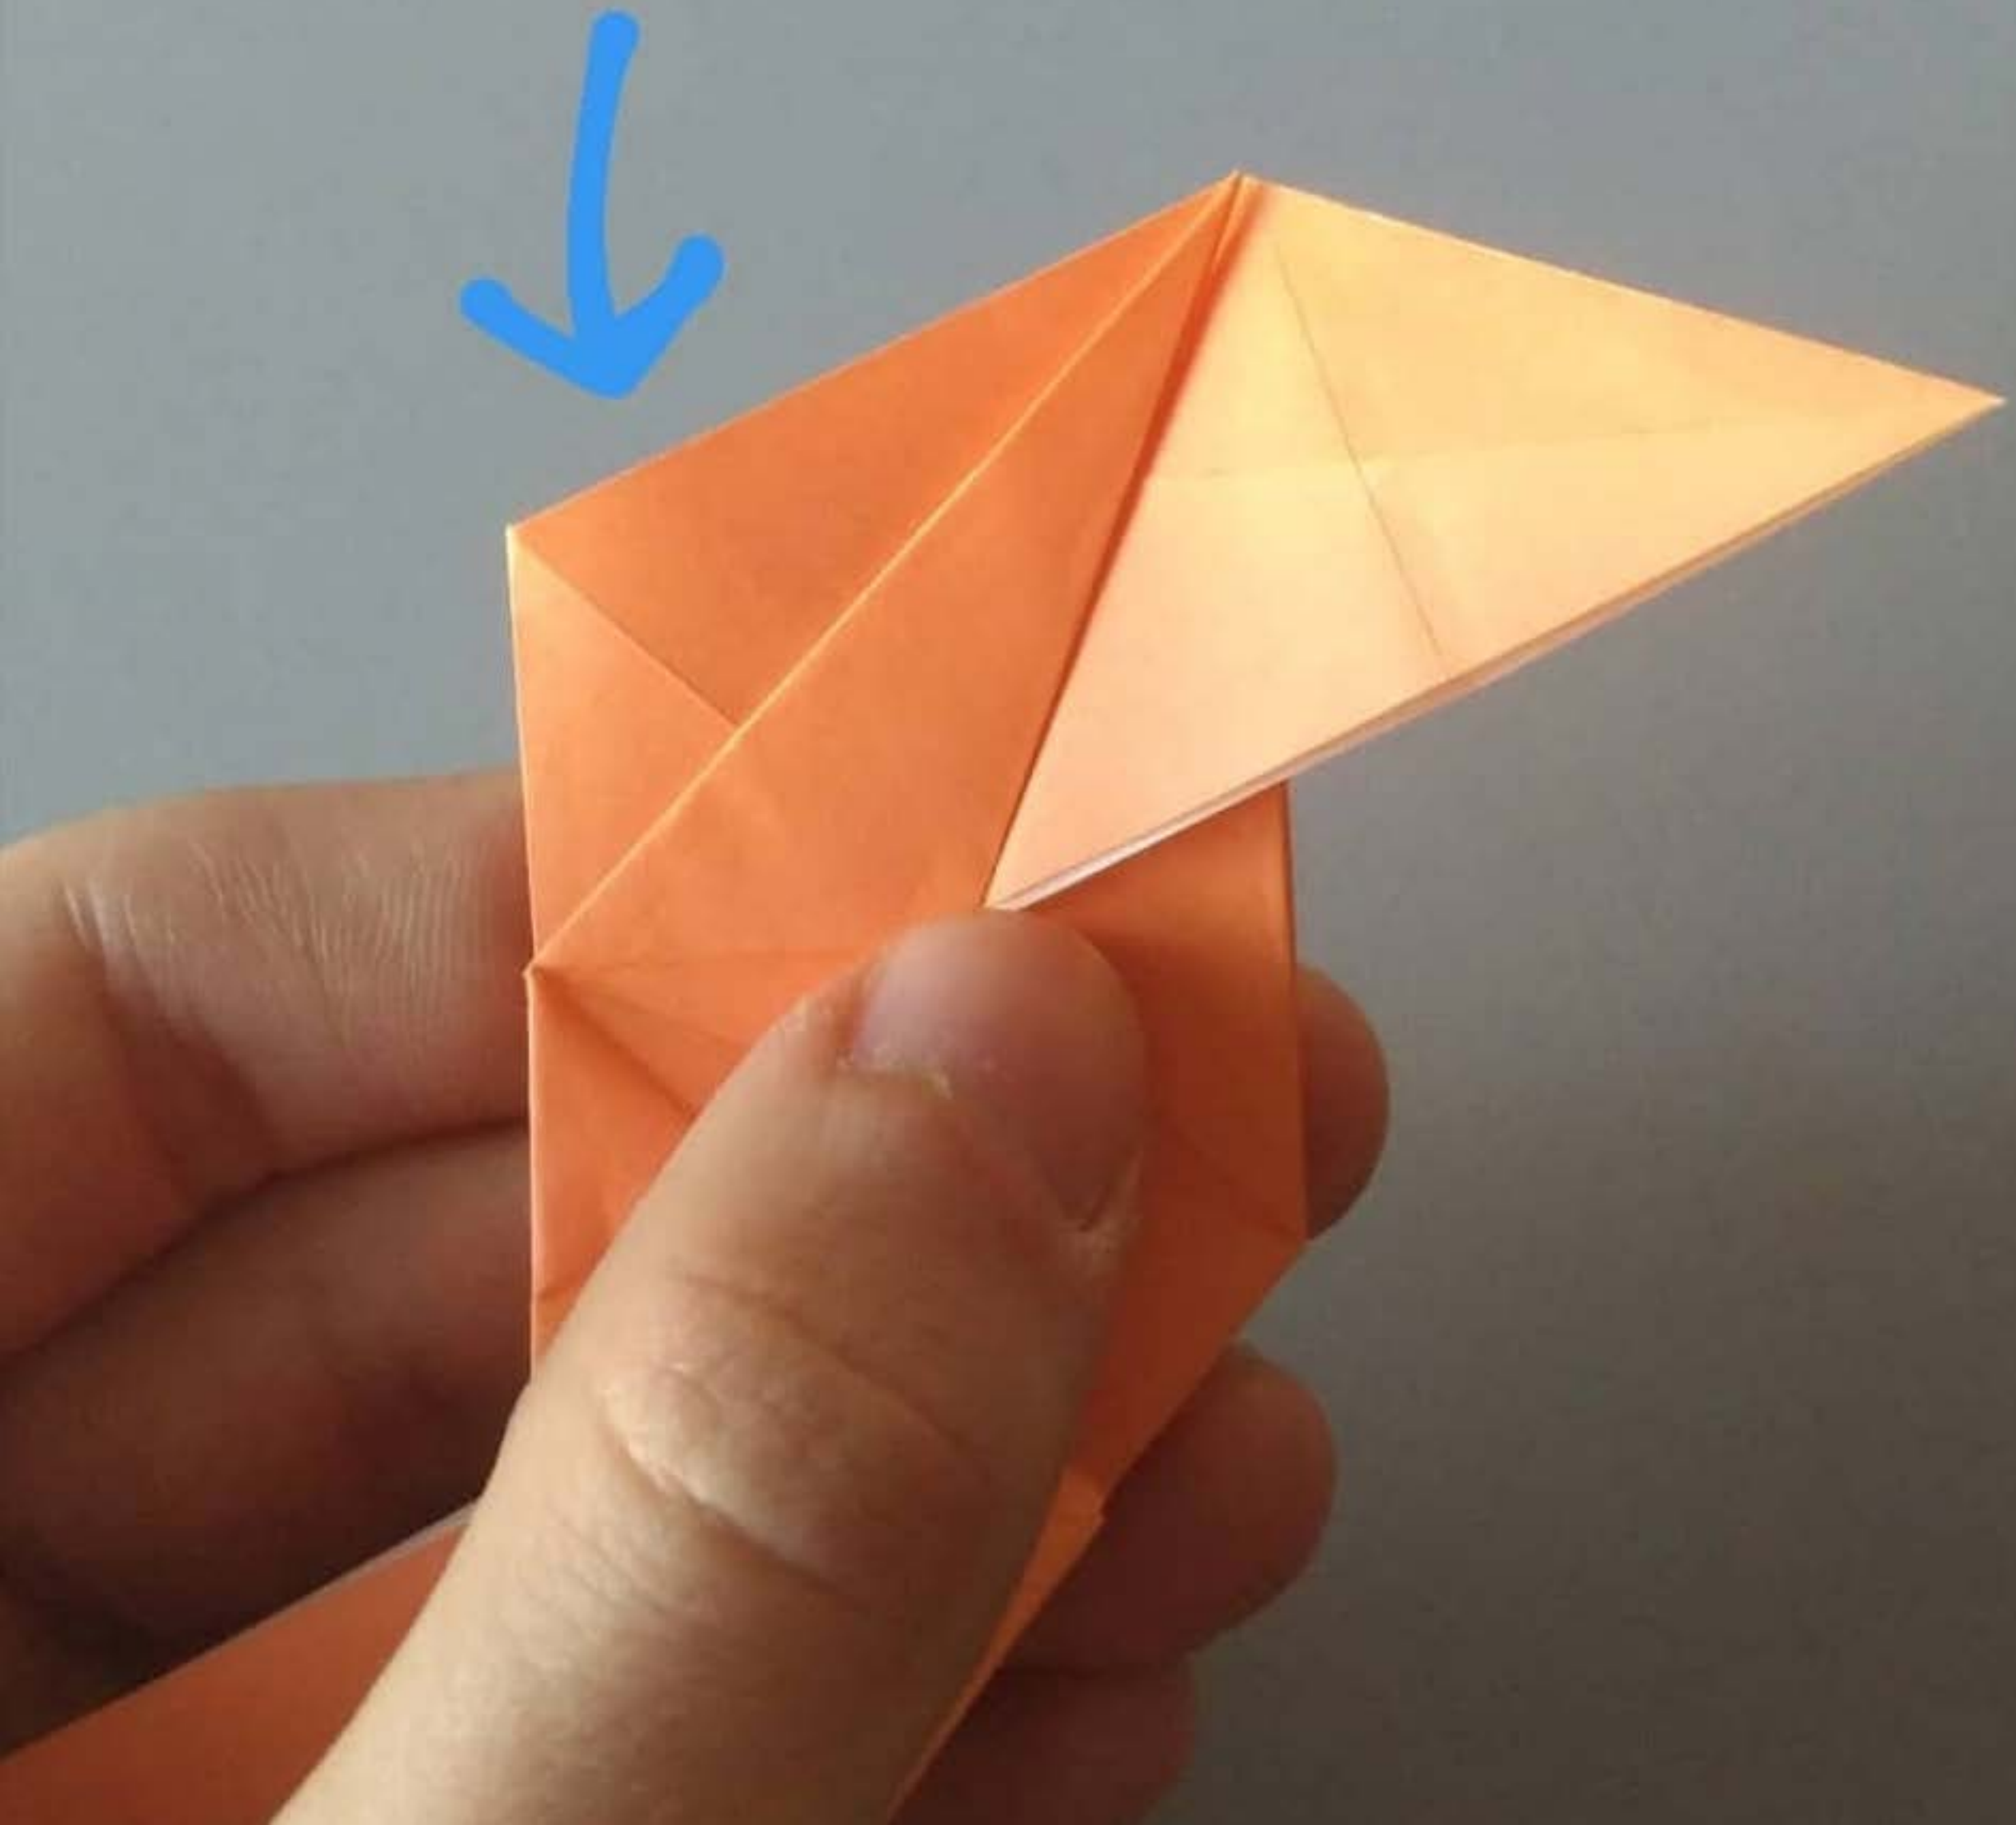

**Like this. Fold the flap to the right**

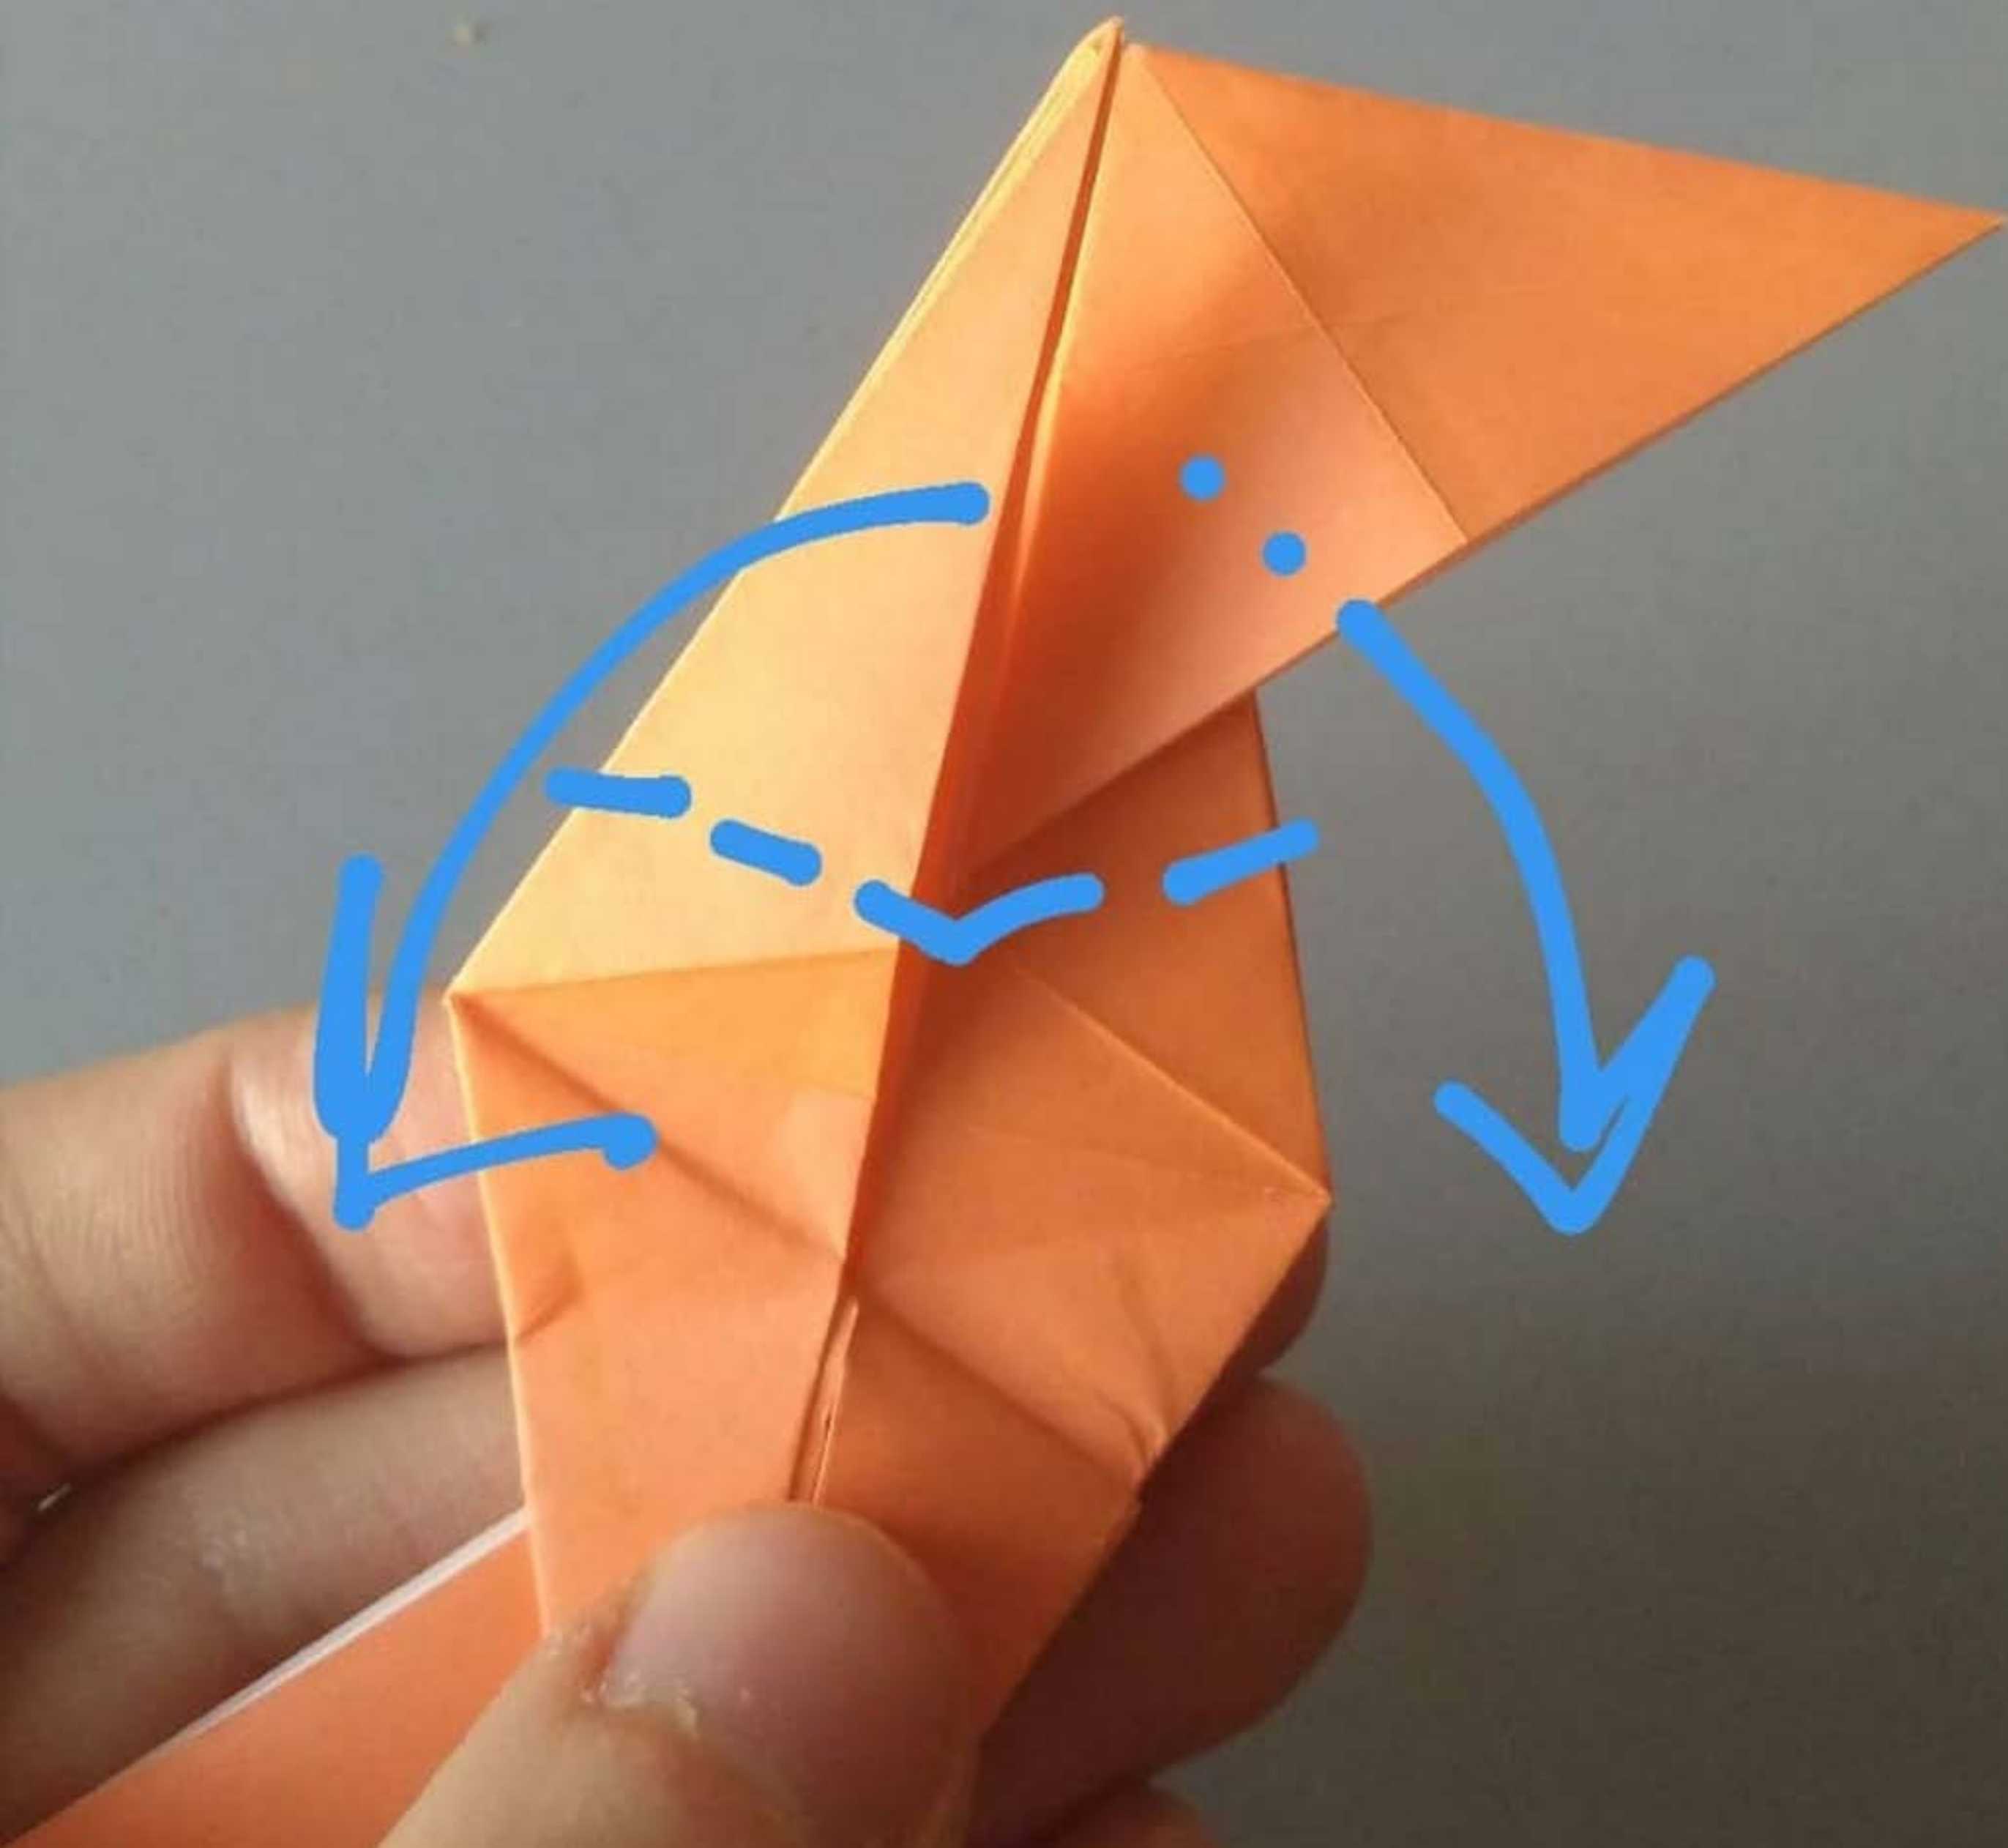

**Precrease and make an open  
sink on the left**

**Fold both legs downm**

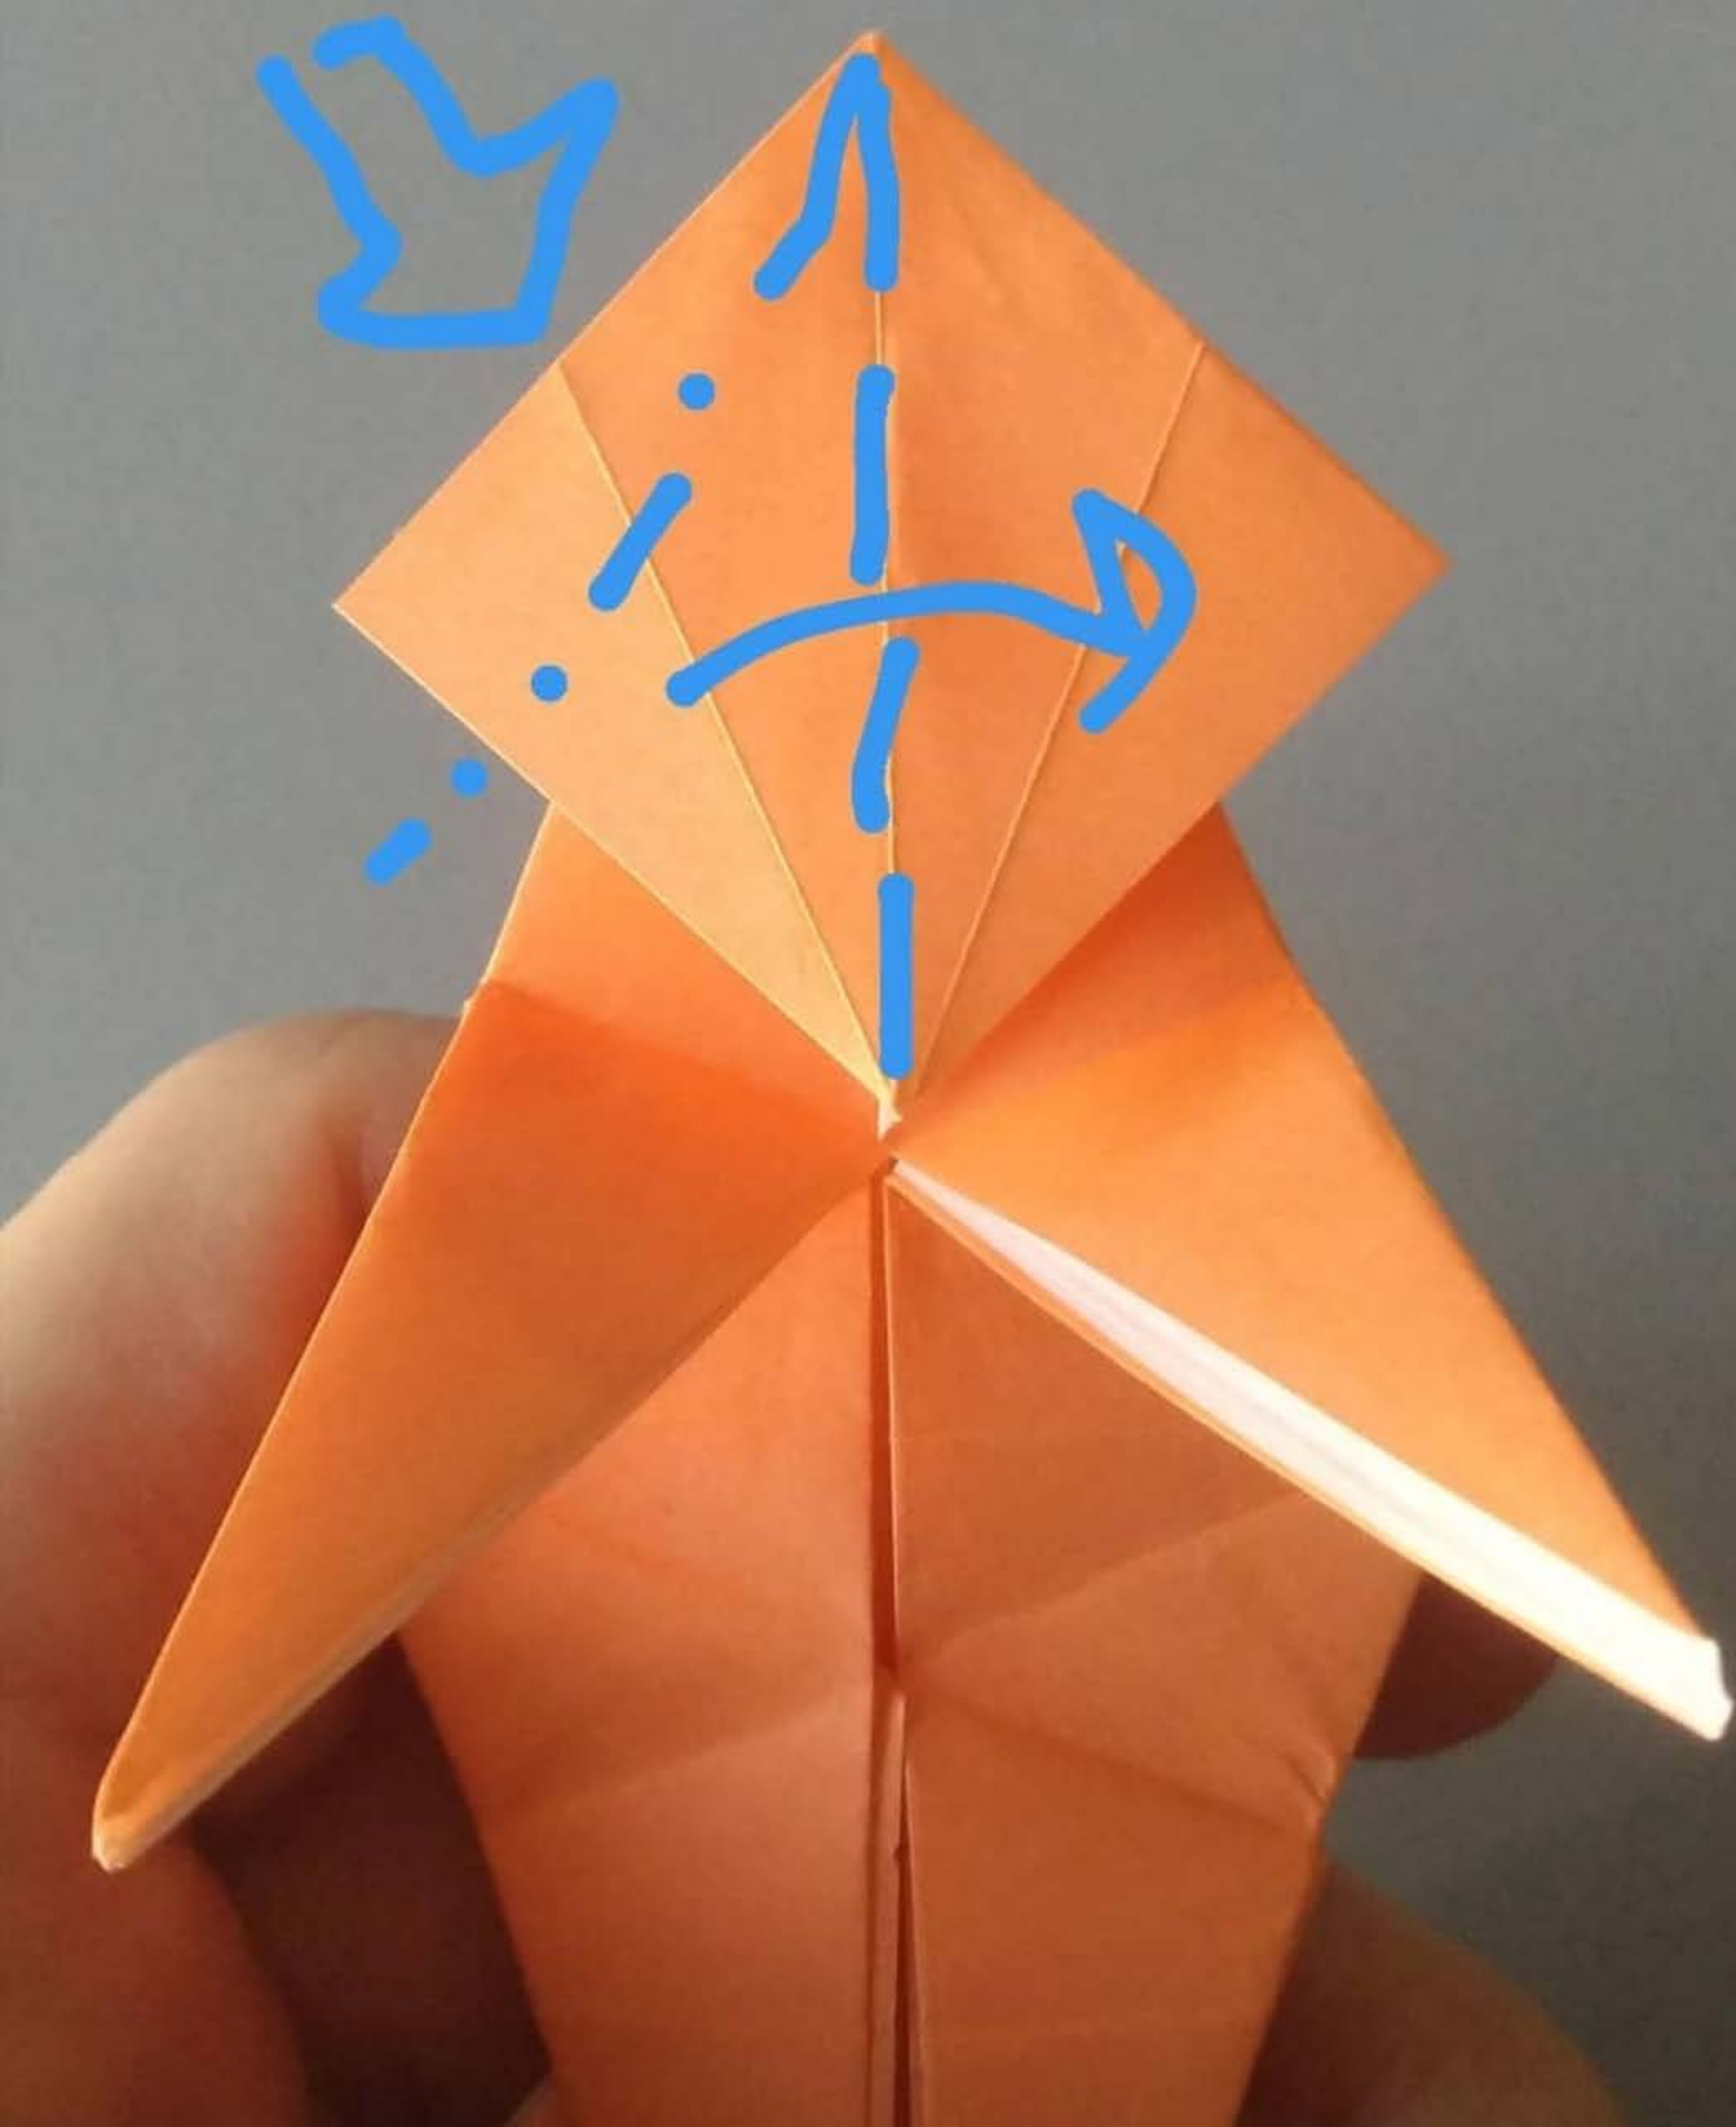

**Make a squash fold**

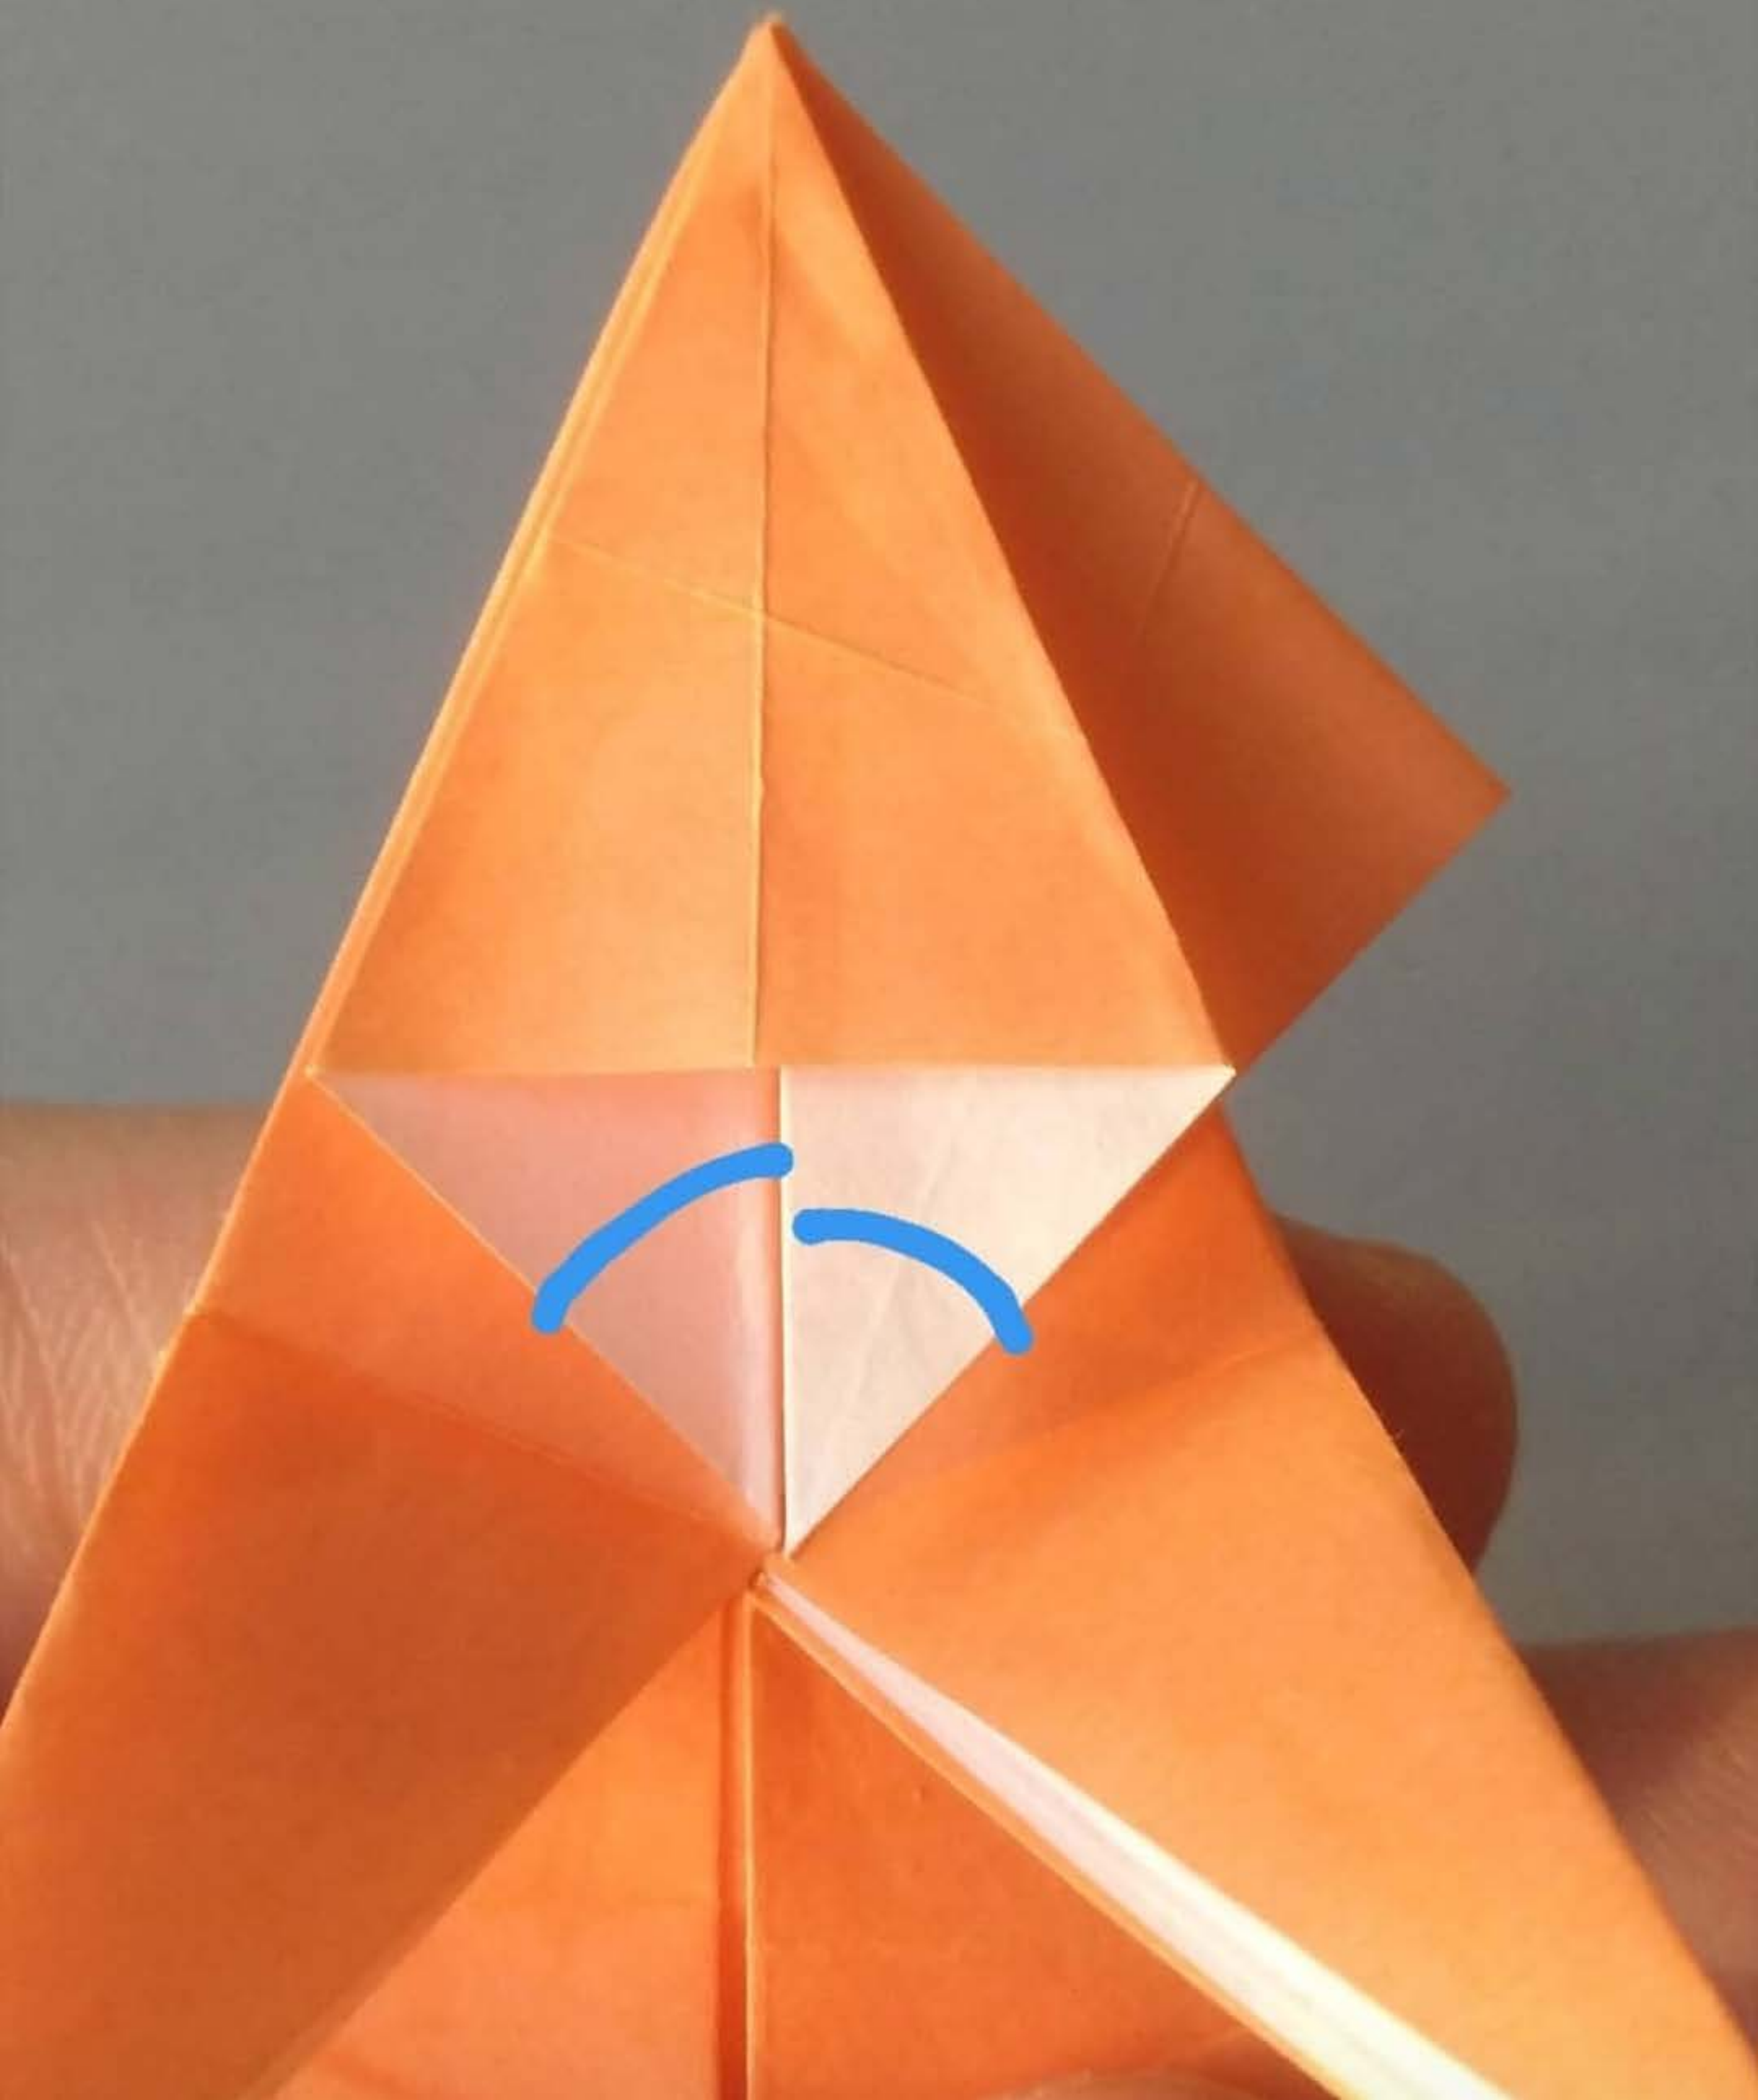

**Make another squash fold**

**Precrease two bisectors**

**Make a petal fold**

**Like this. Fold a layer to the left**

**Repeat previous steps on the right**

**Like this. Fold the layer up**

**Fold in half**

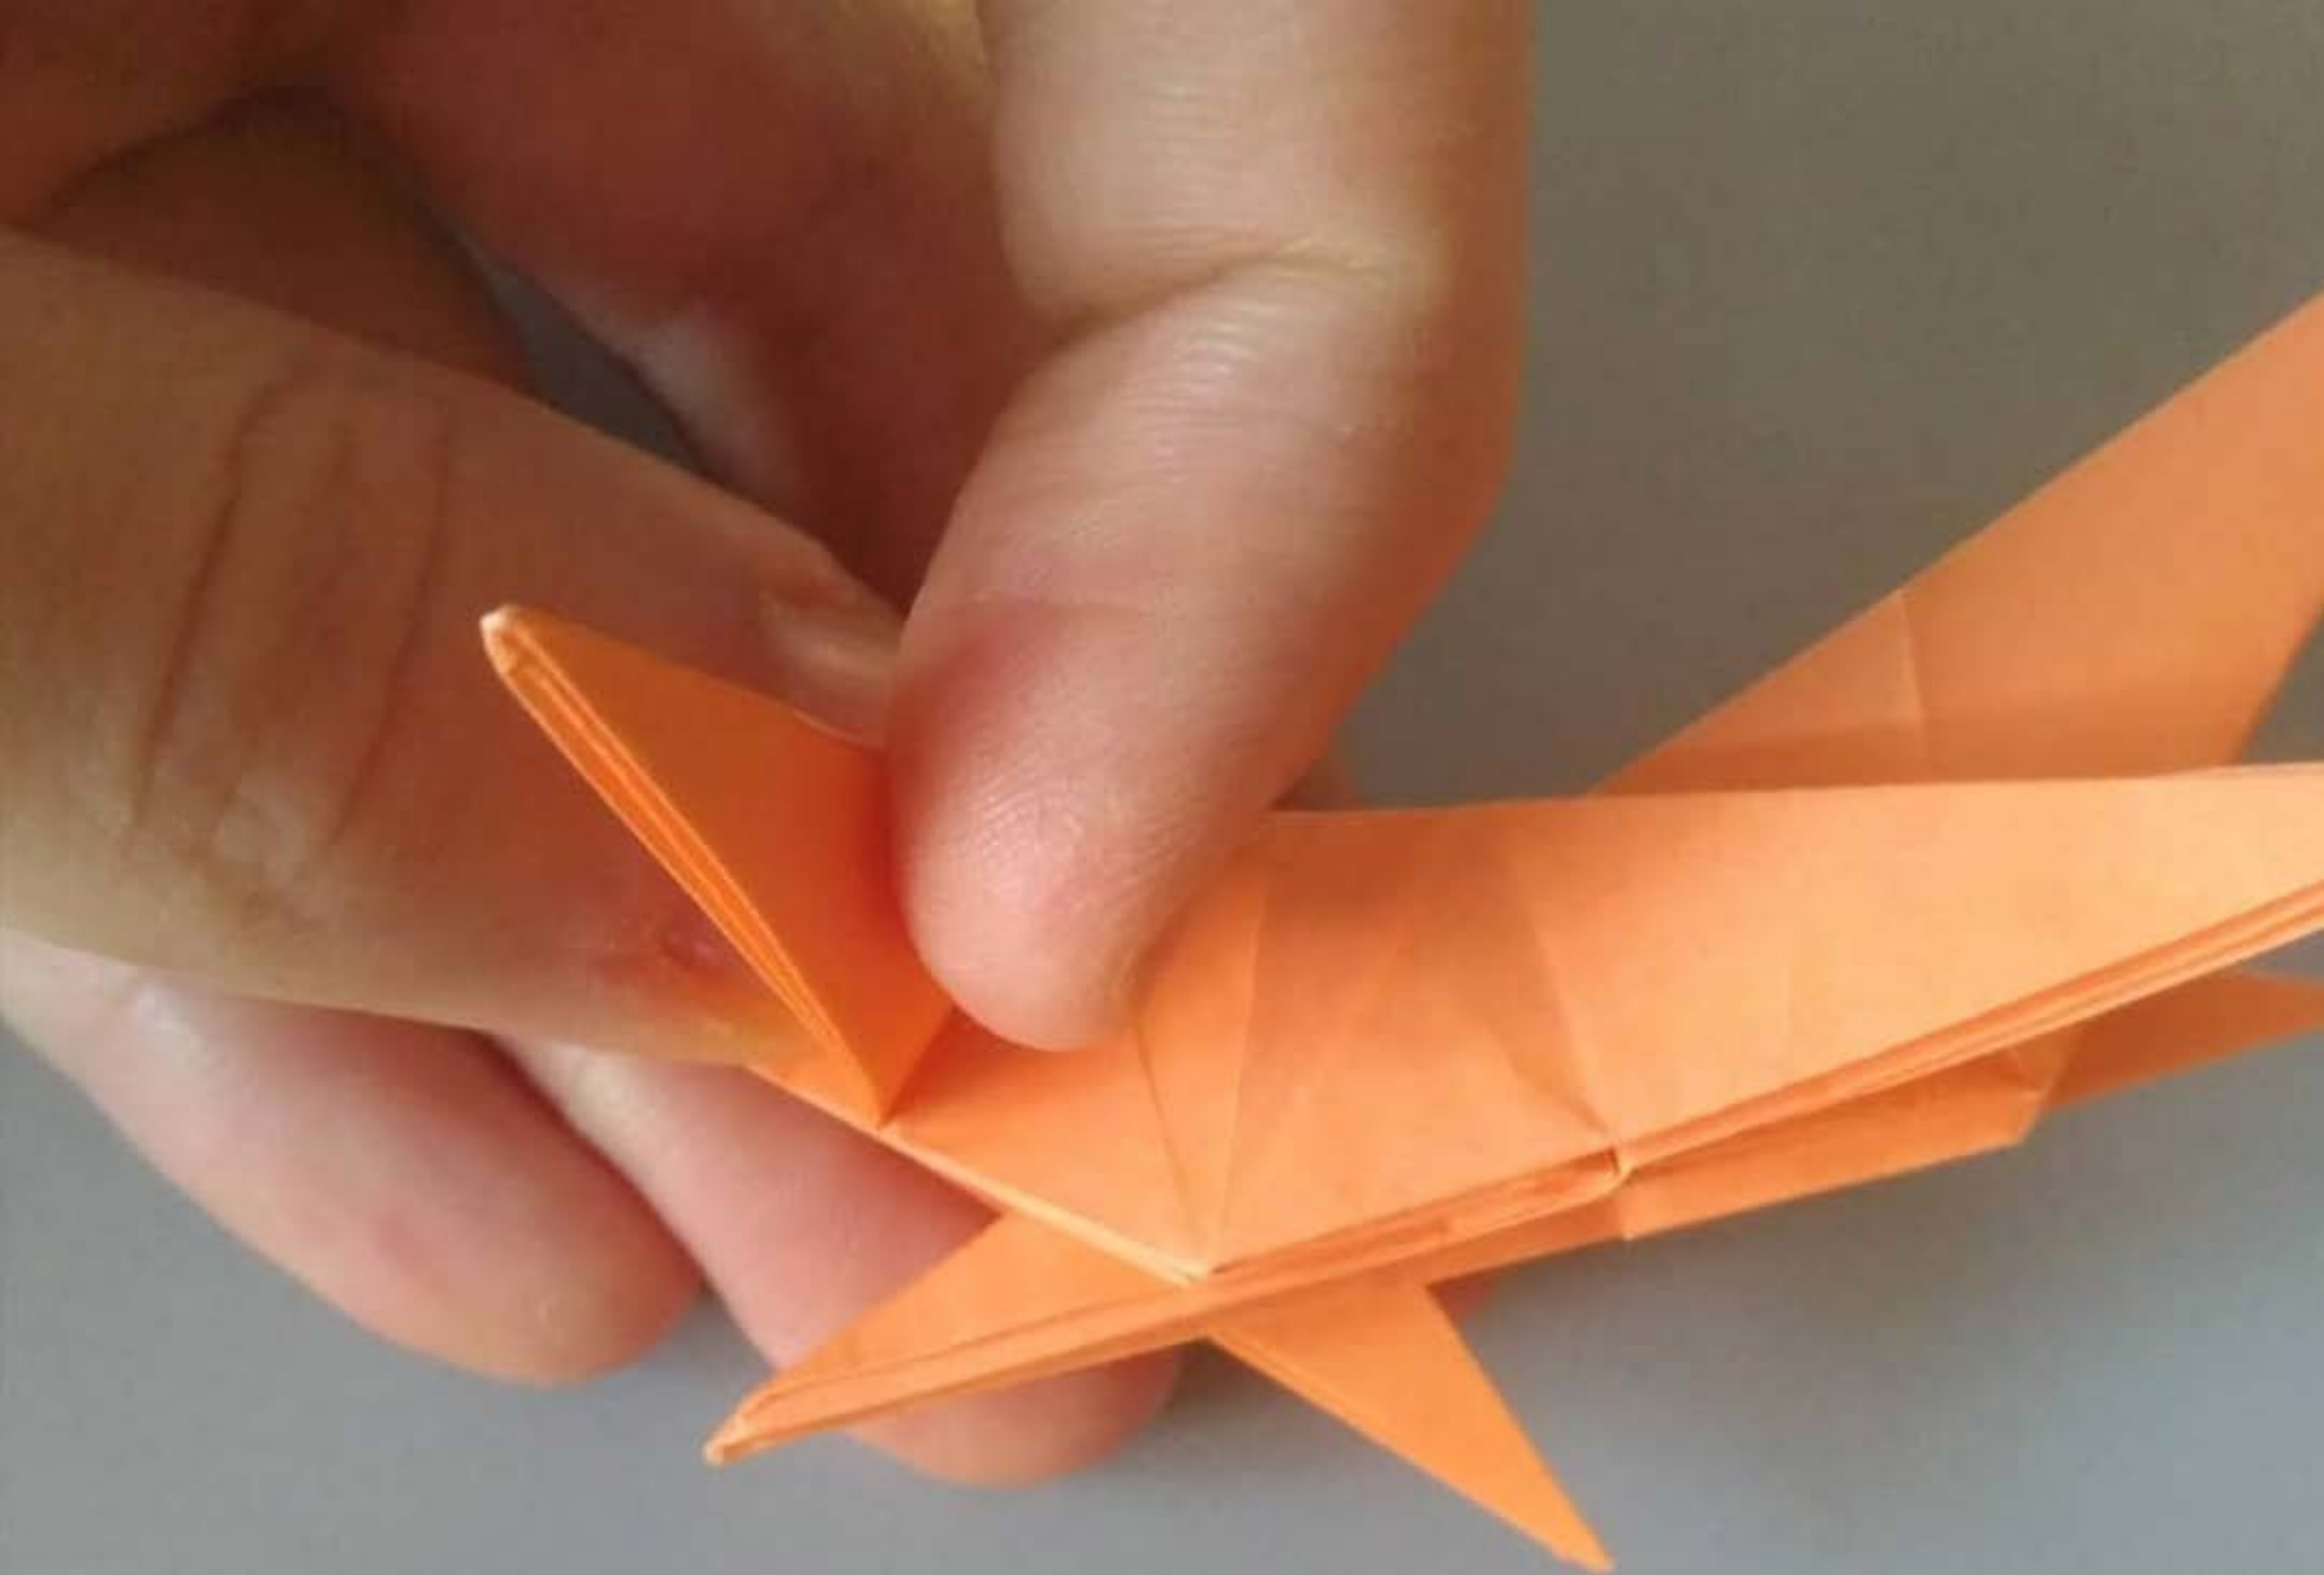

**Look from here**

**Inside reverse fold this middle  
flap as far as possible**

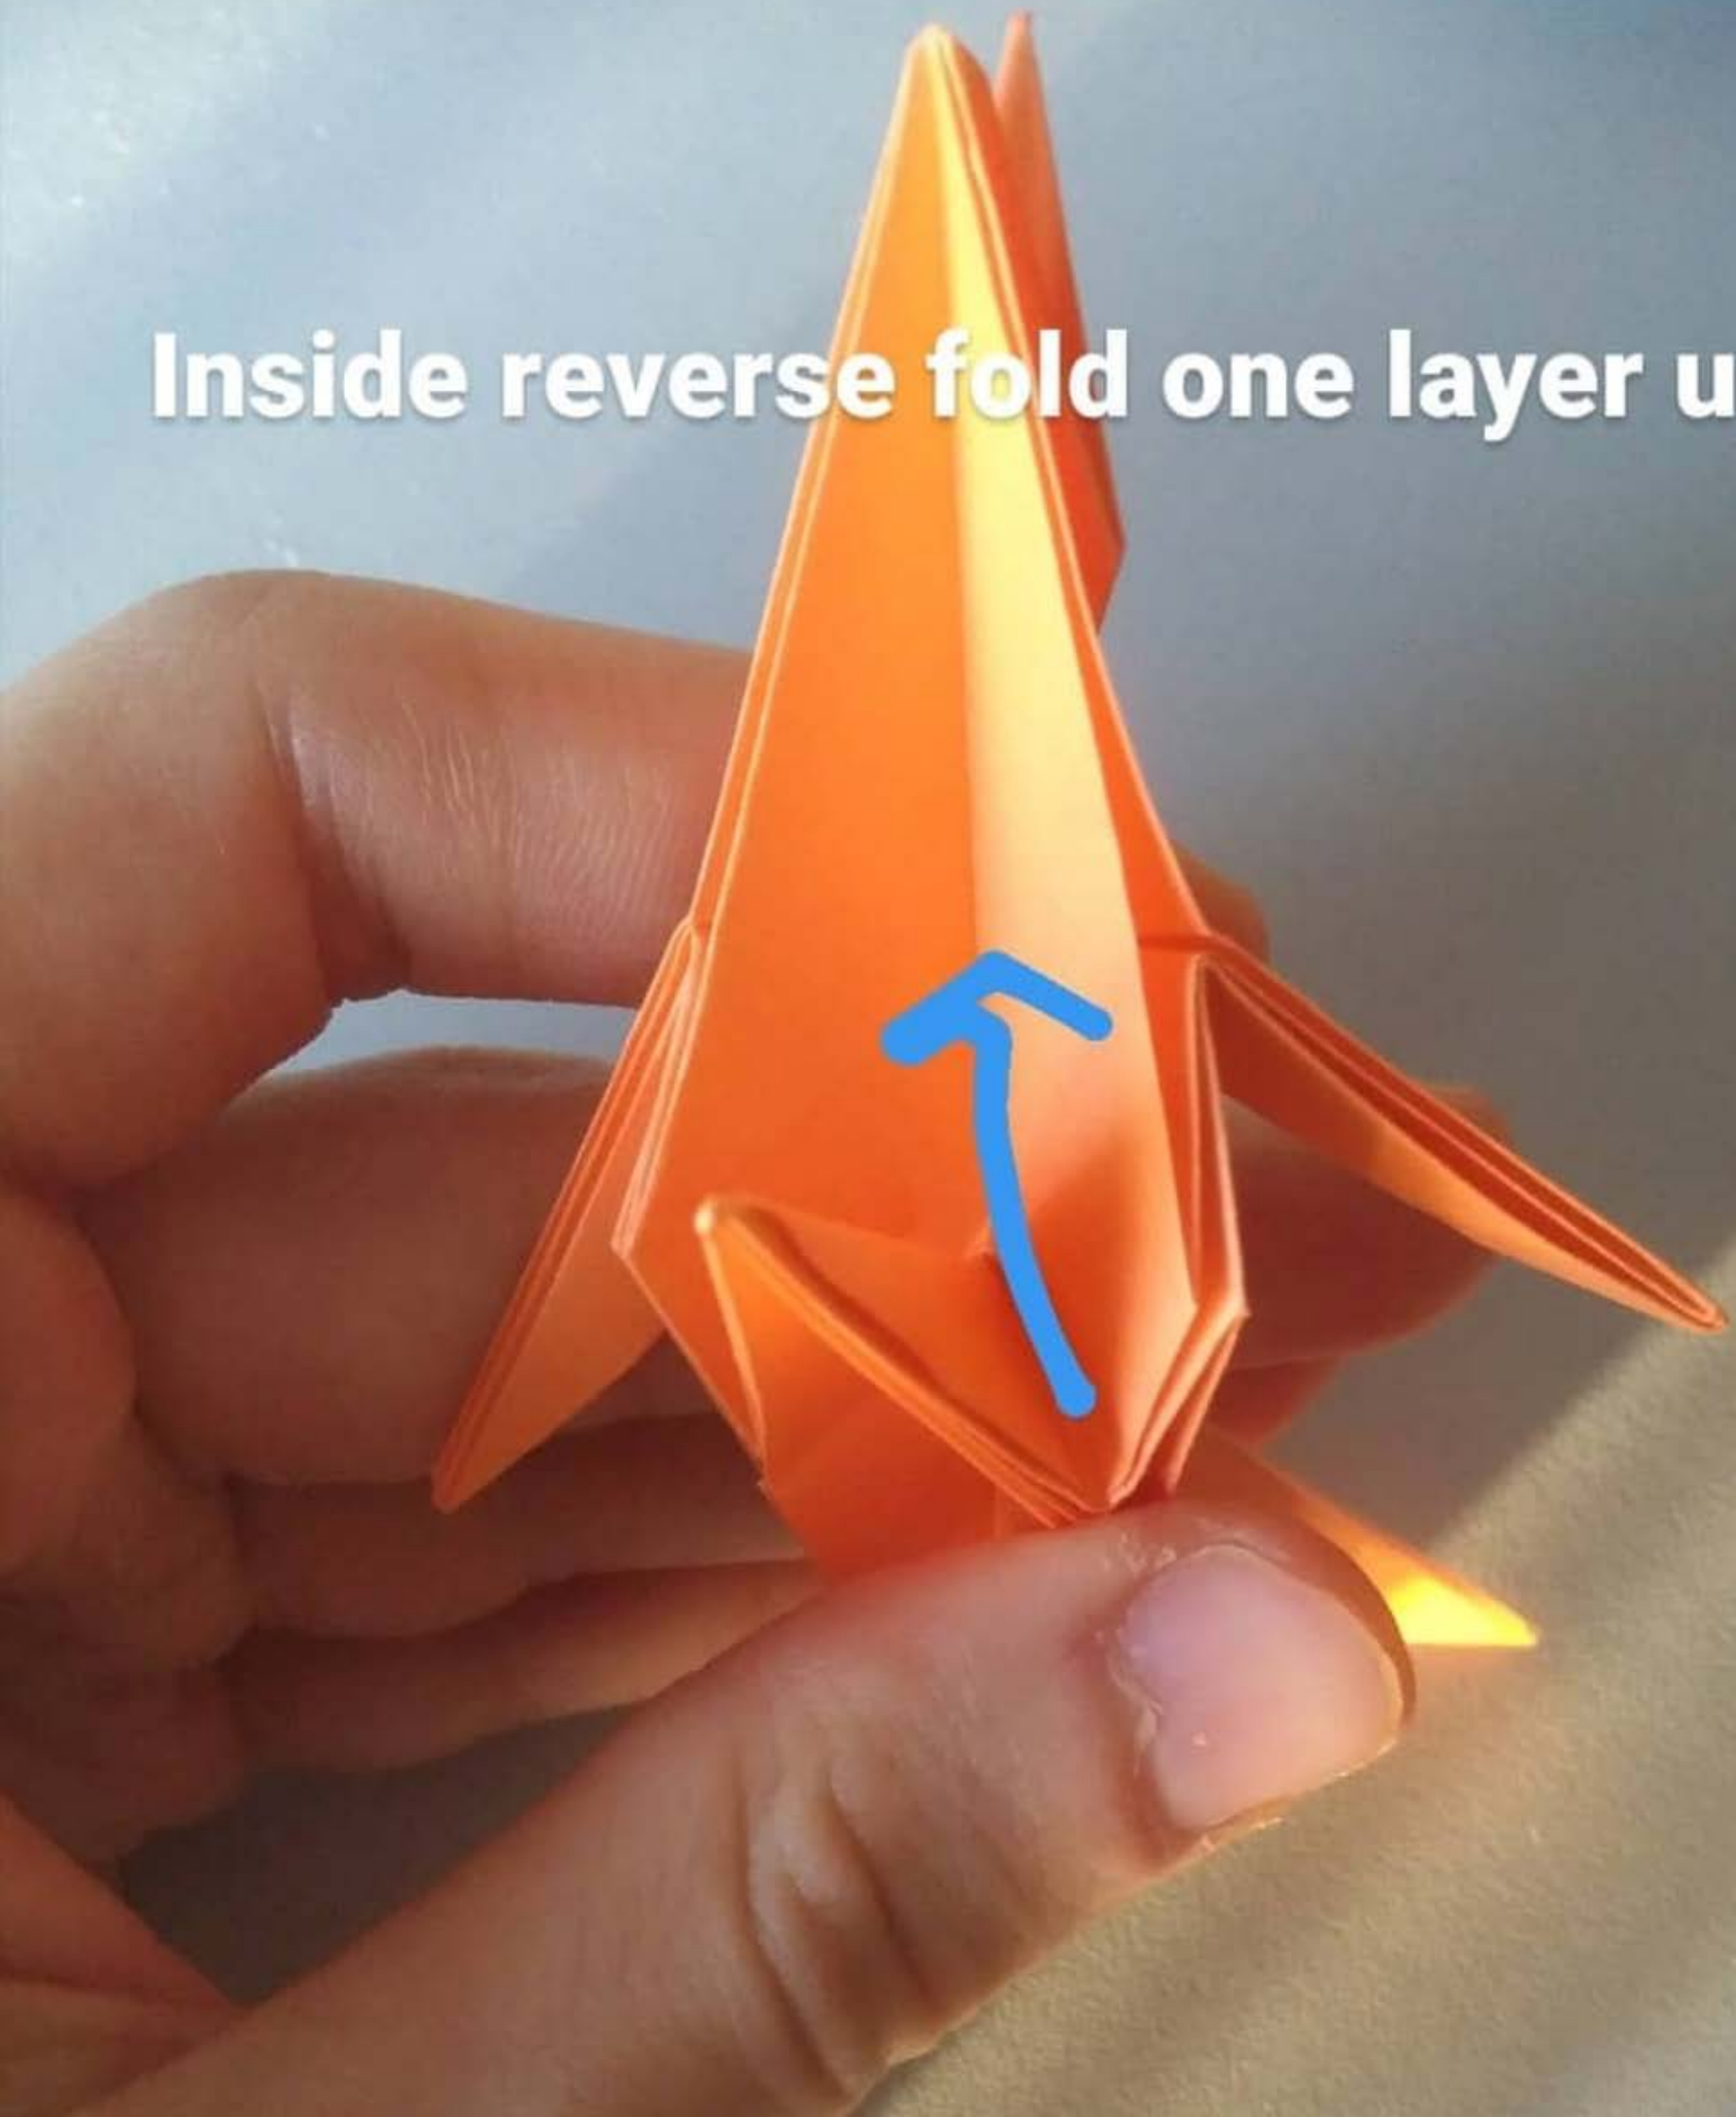

**Like this. Base is completed, next steps are not necessary, they'll lock the whole model, but you can skip them**

**Inside reverse fold one layer up**

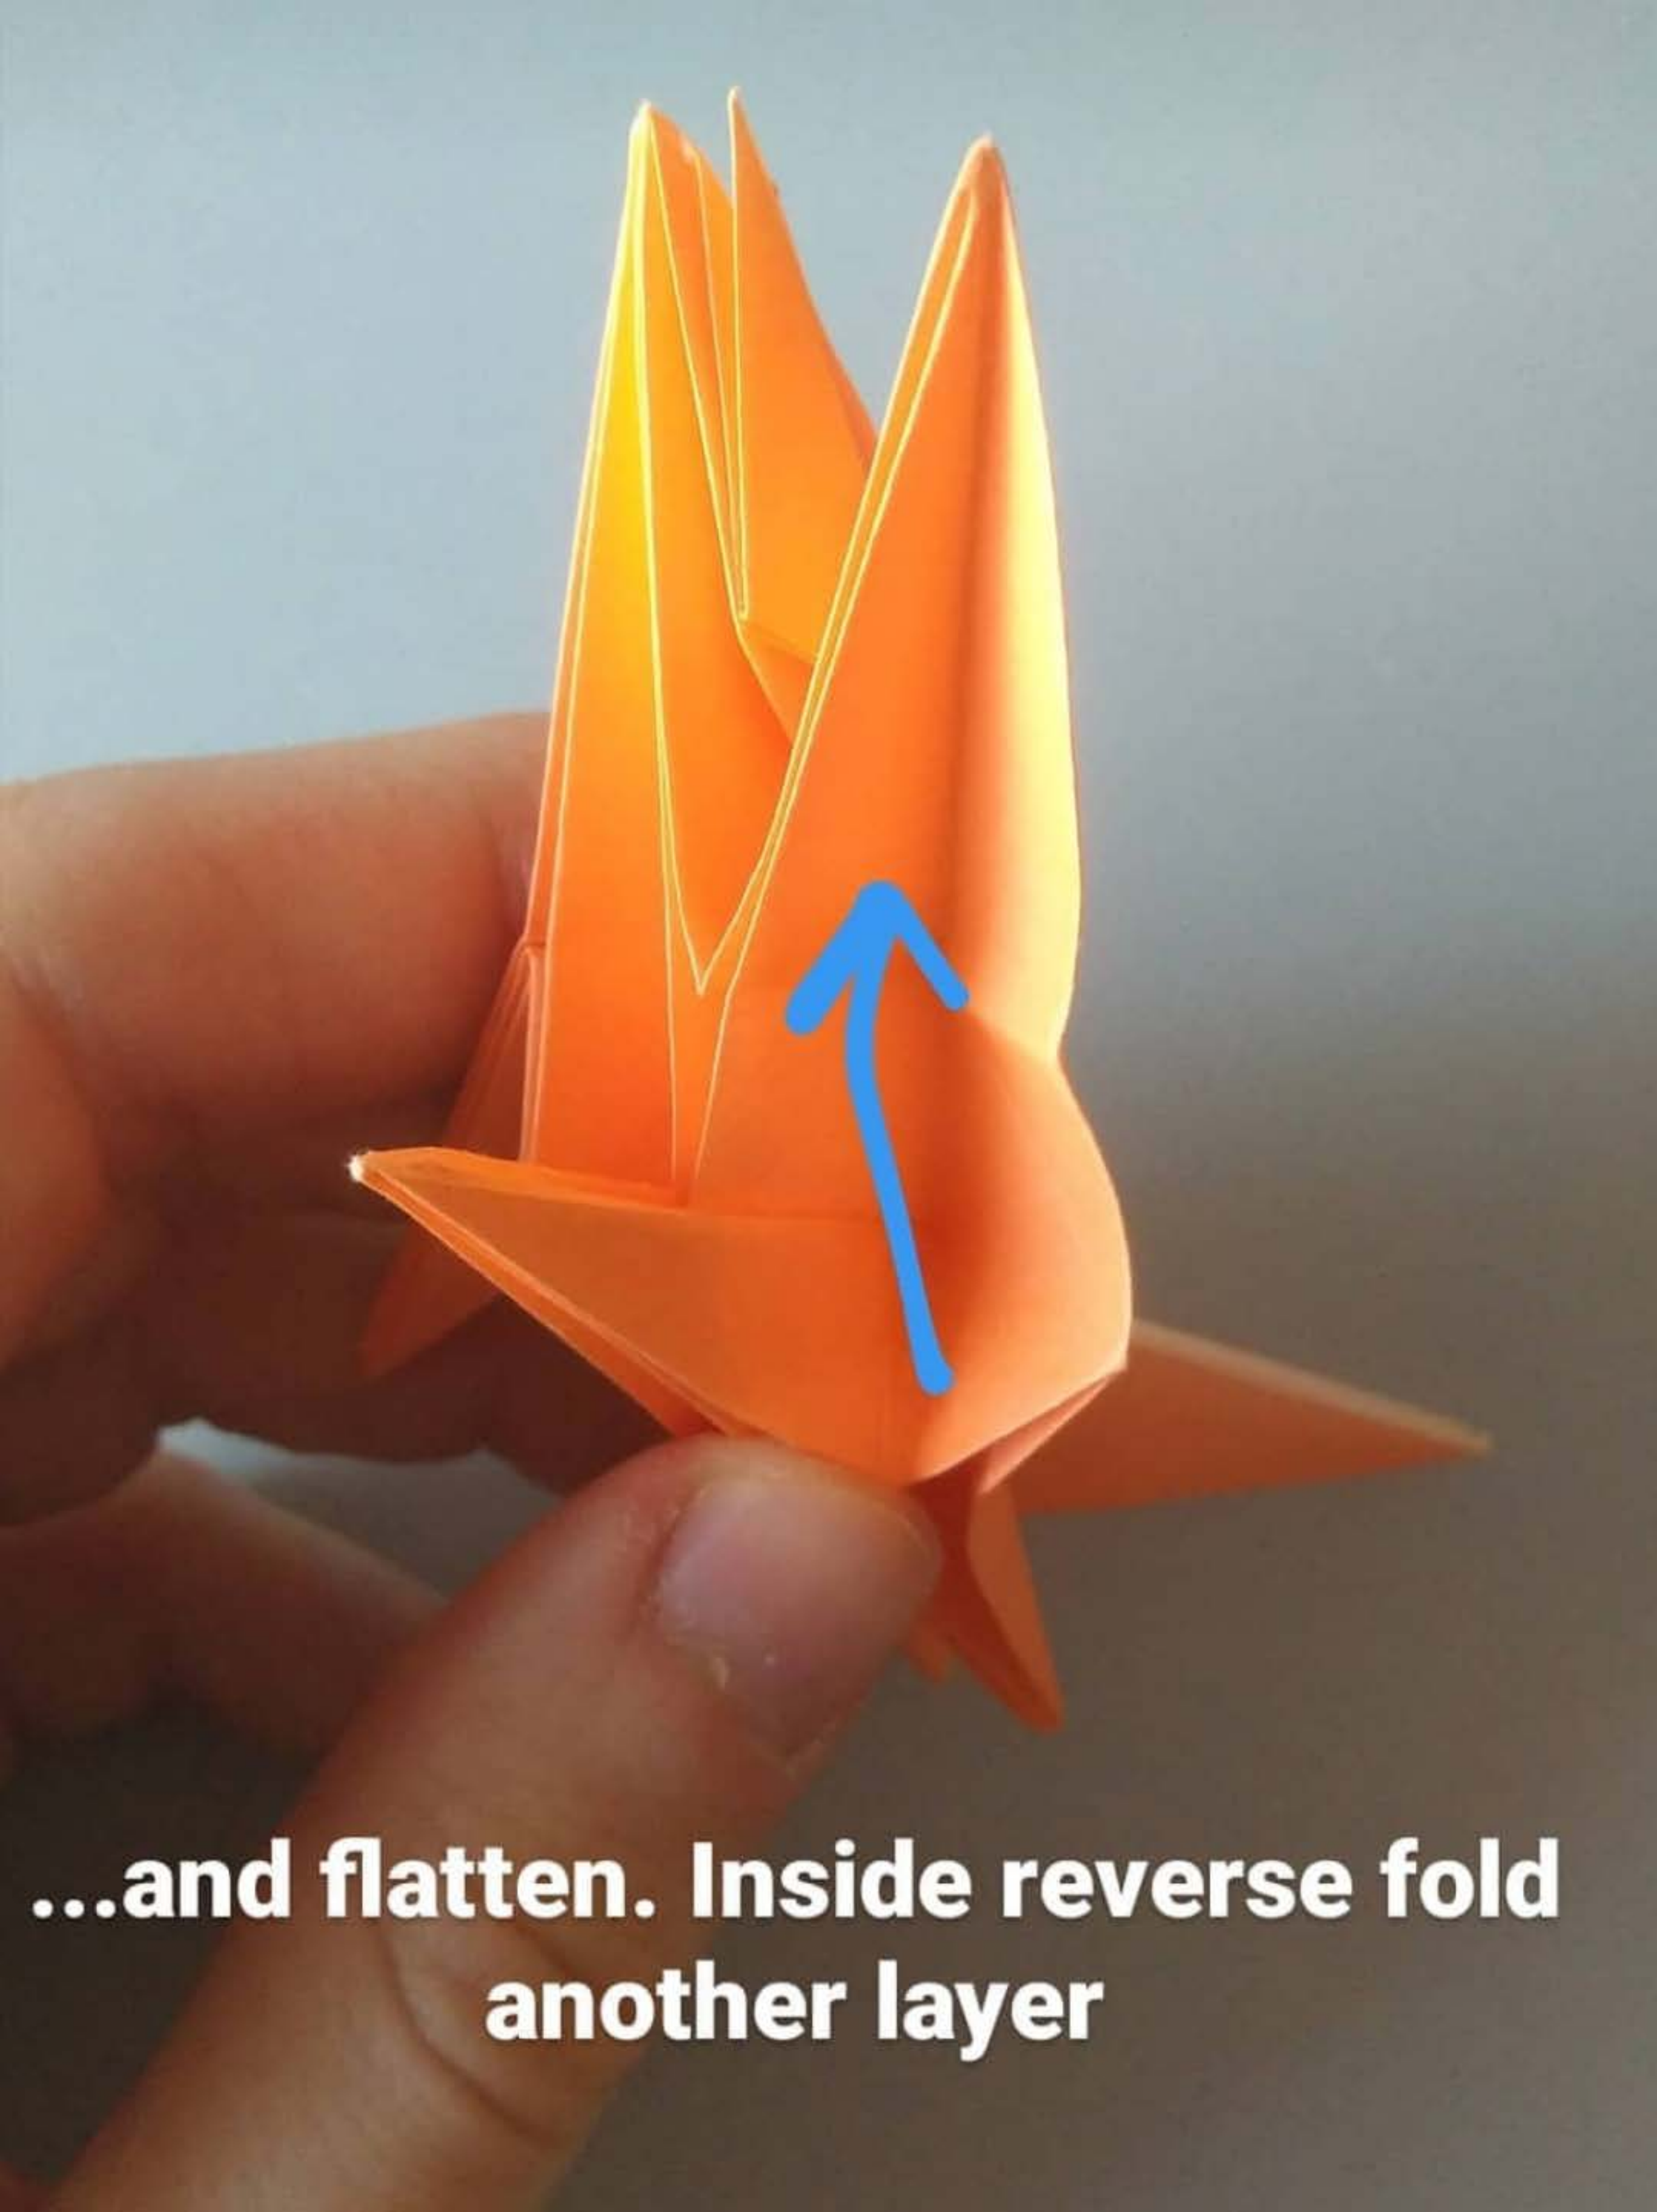

**Make a closed sink**

**Like this...**

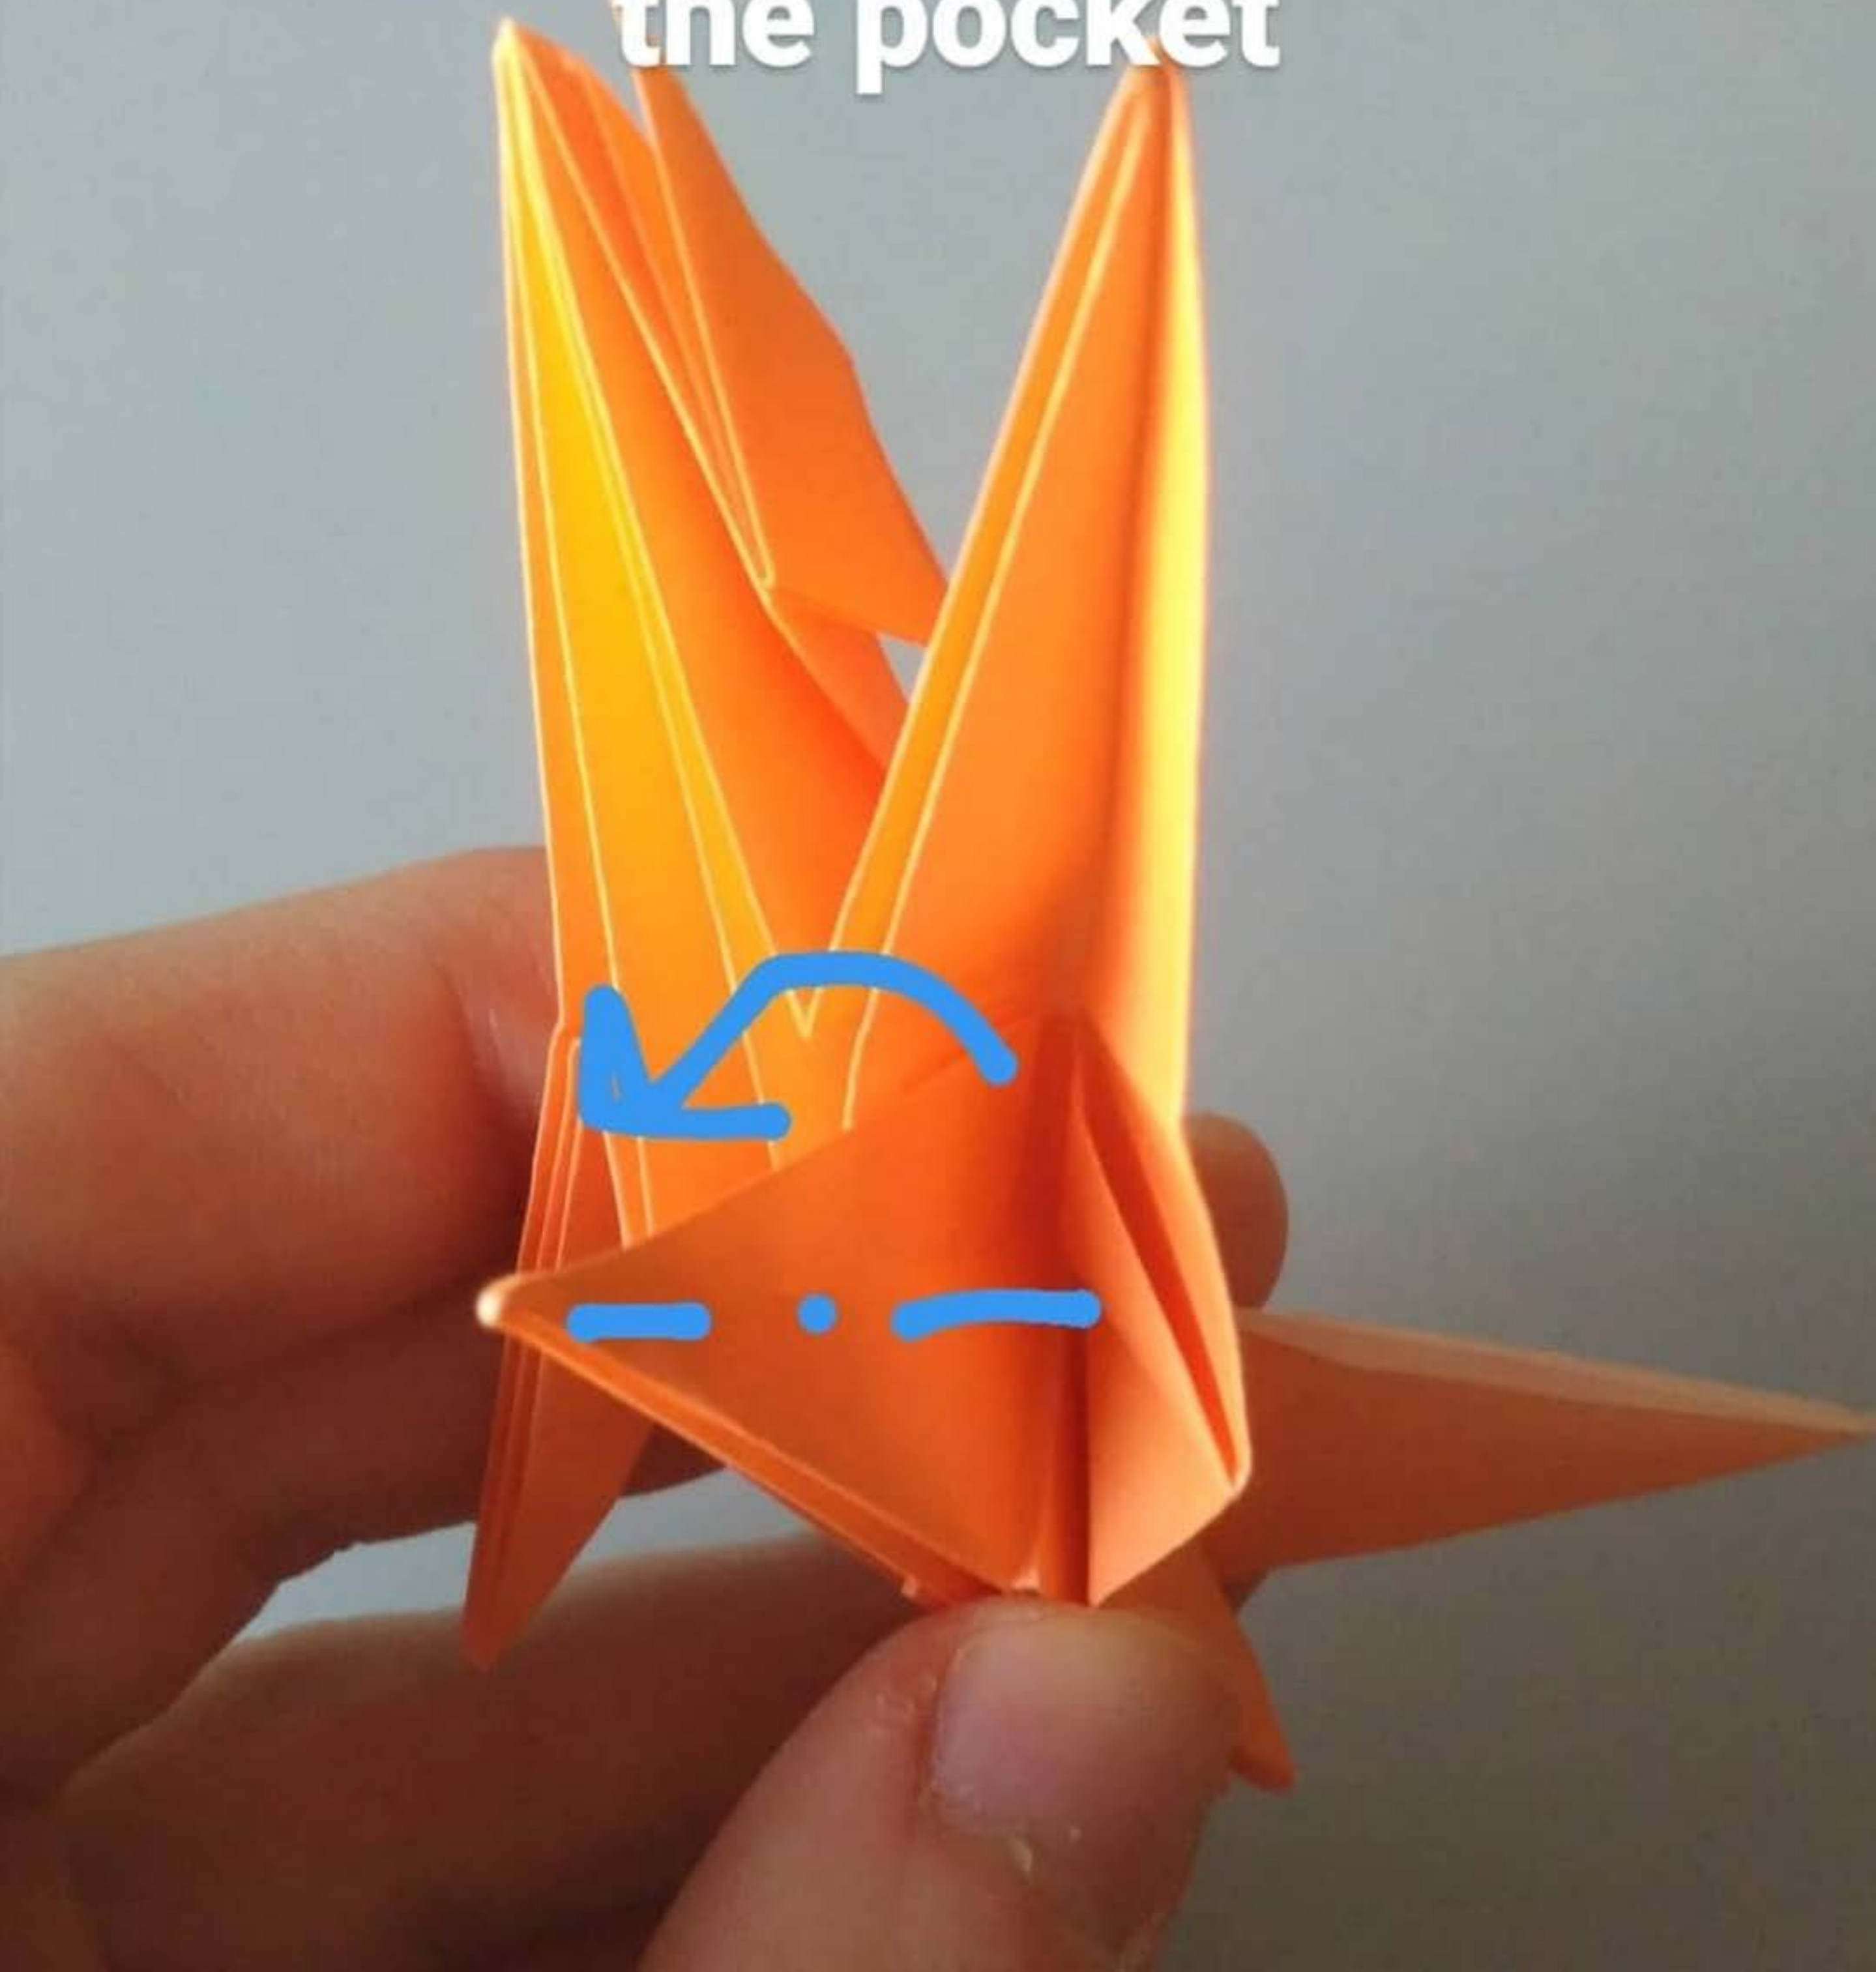

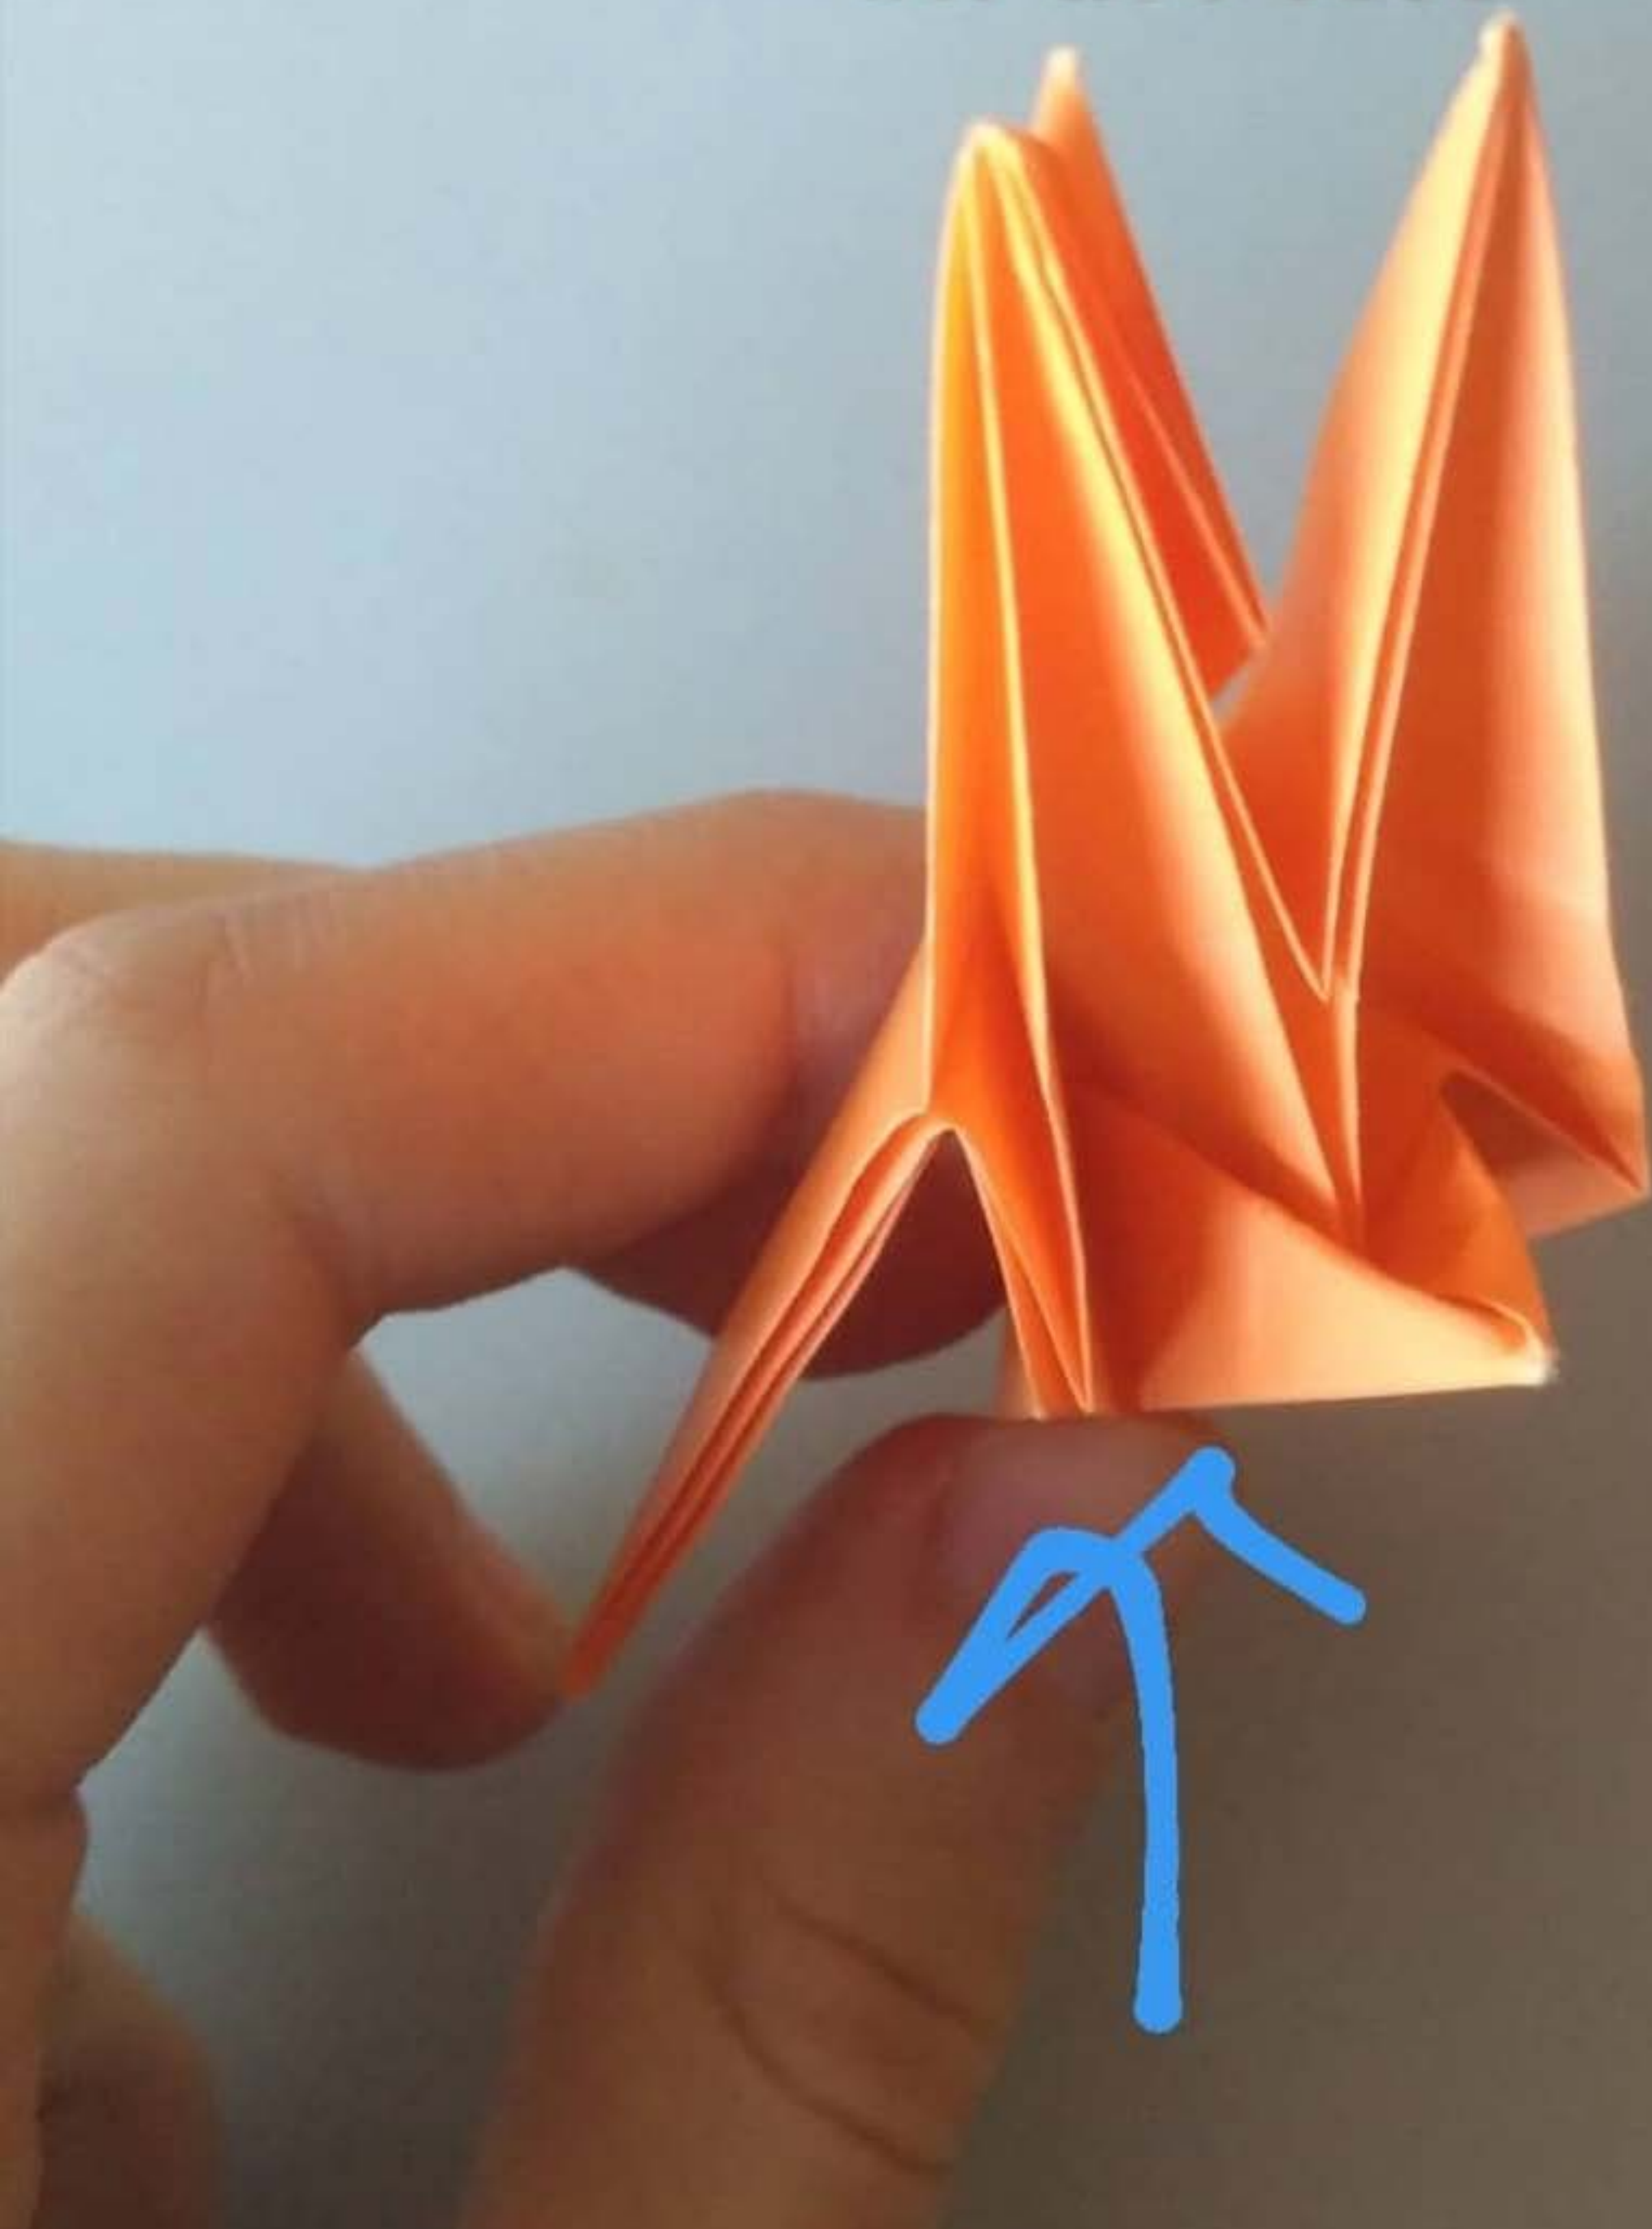

**...and flatten. Inside reverse fold  
another layer**

**make a mountain fold into  
the pocket**

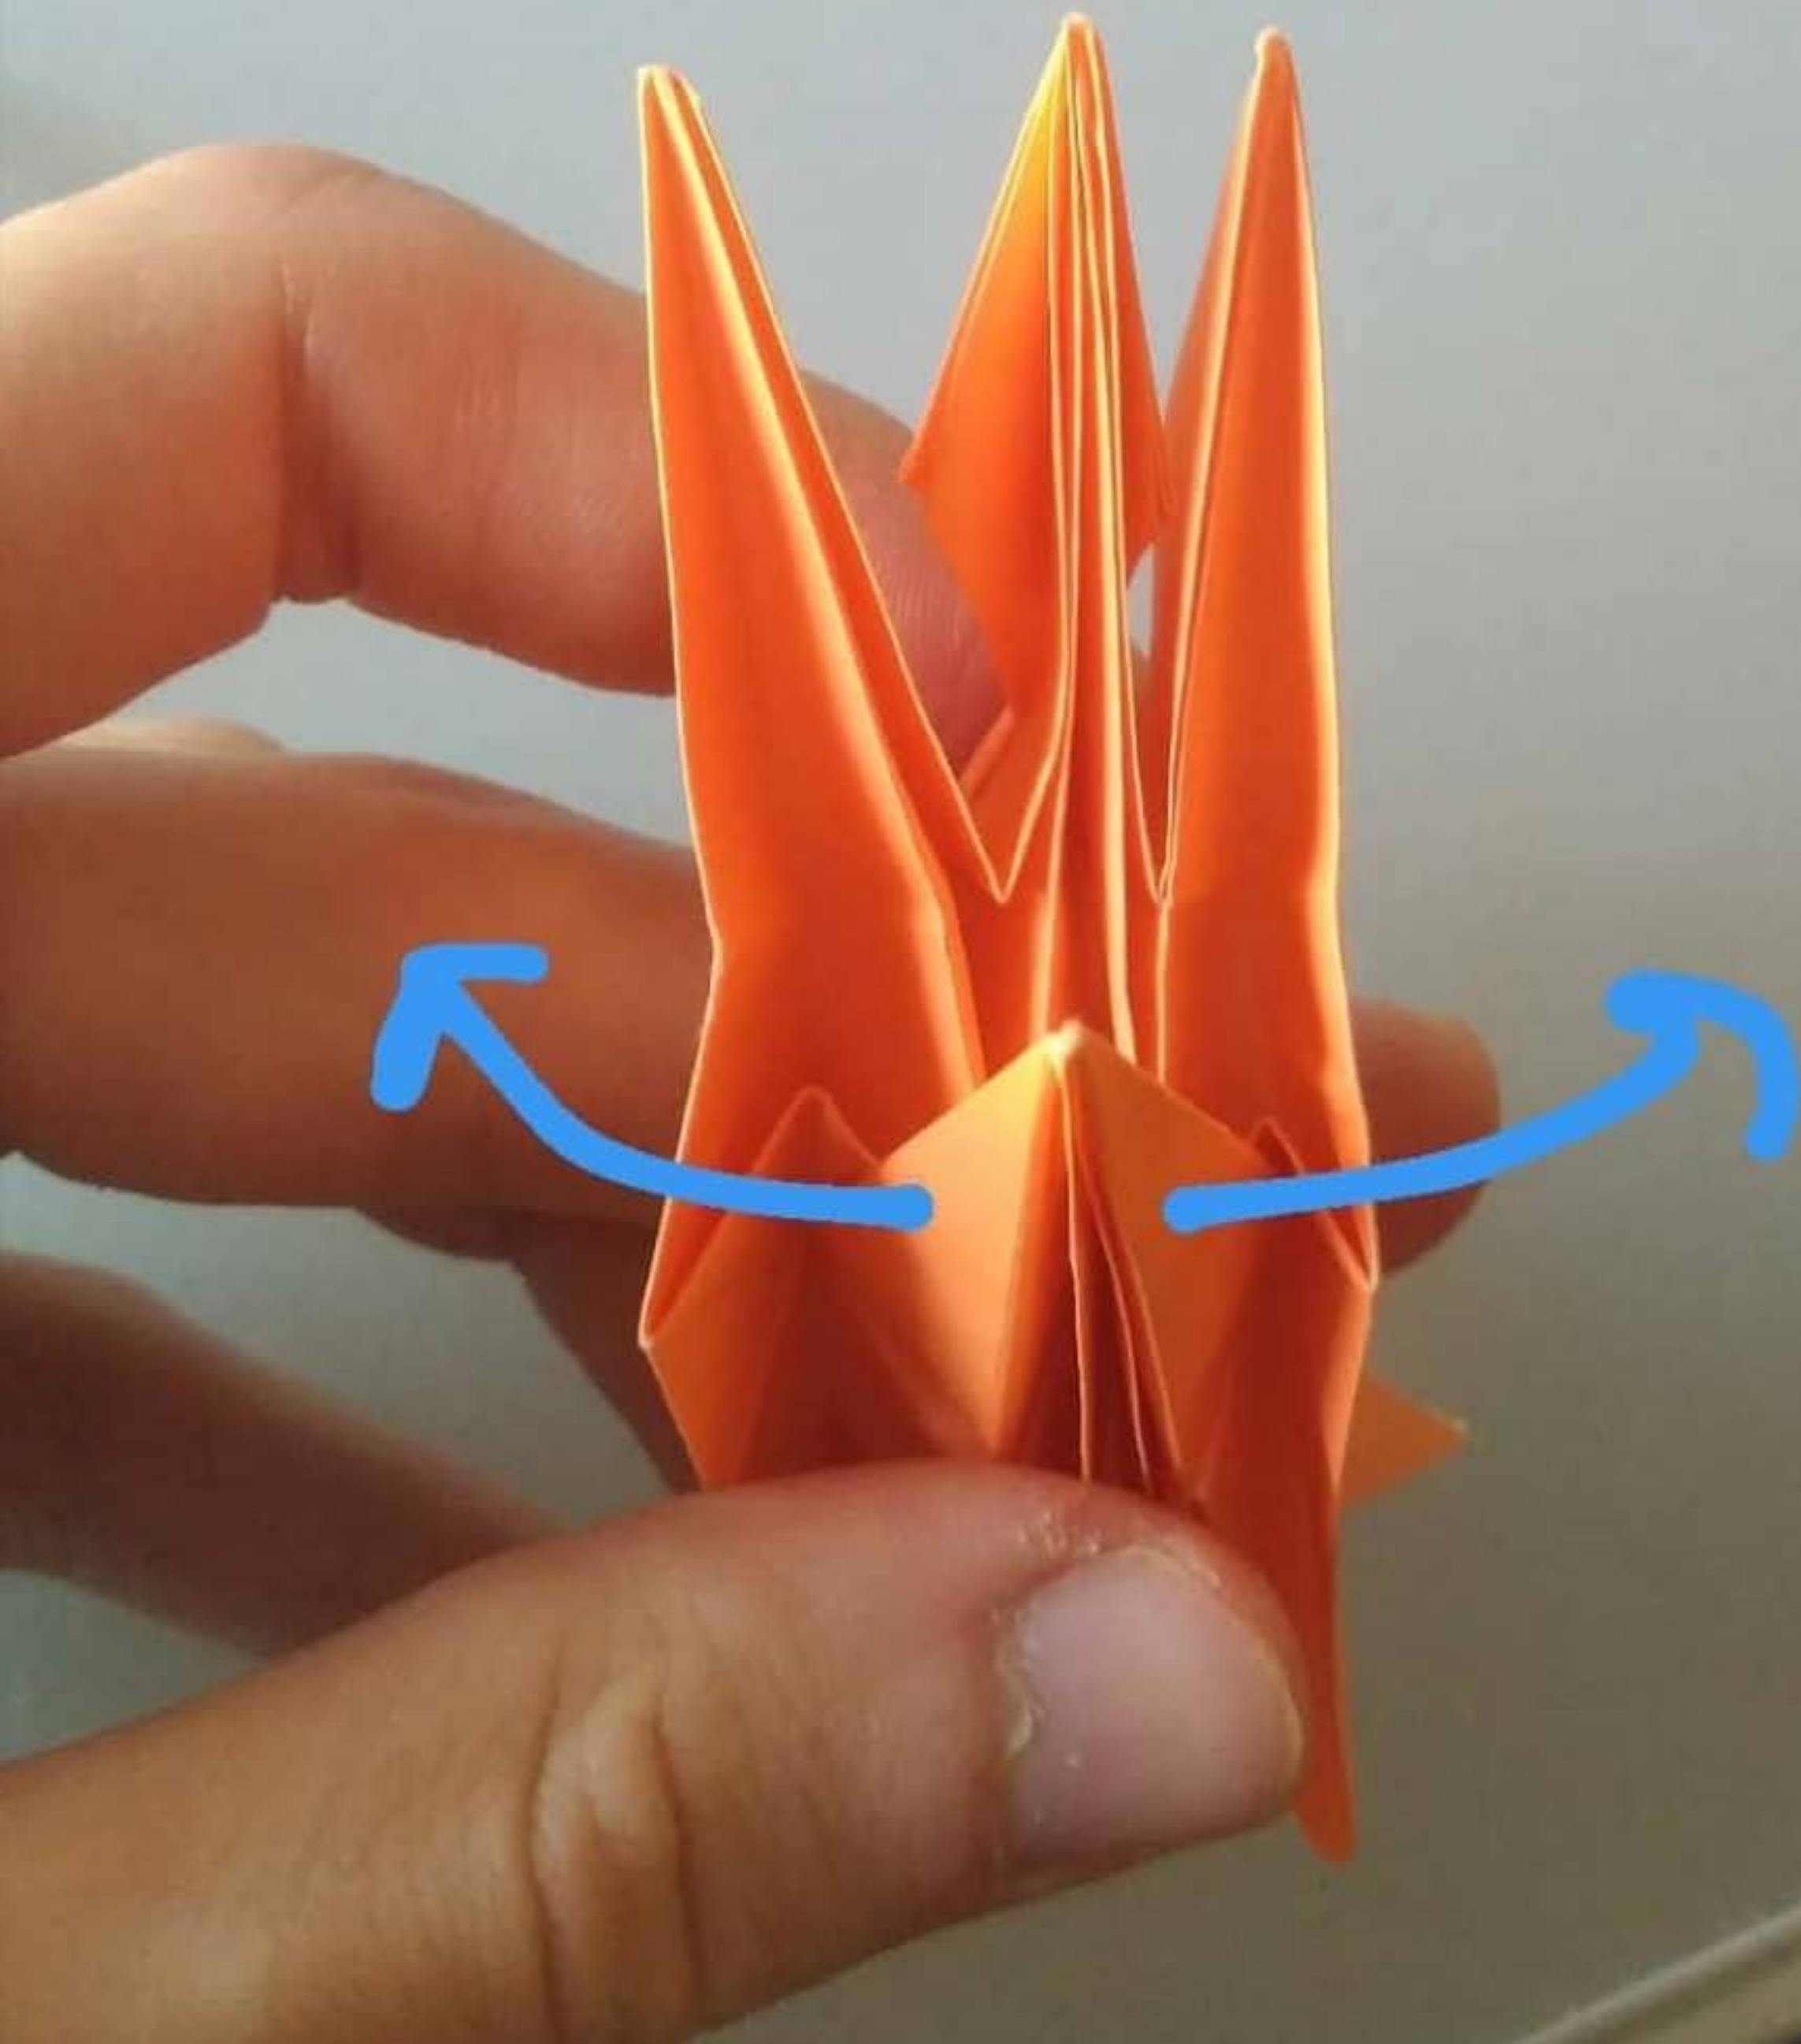

**Like this. Repeat previous steps  
on the left**

**Open a layer**

**And fold inside**

**Like this. Now the model is locked**

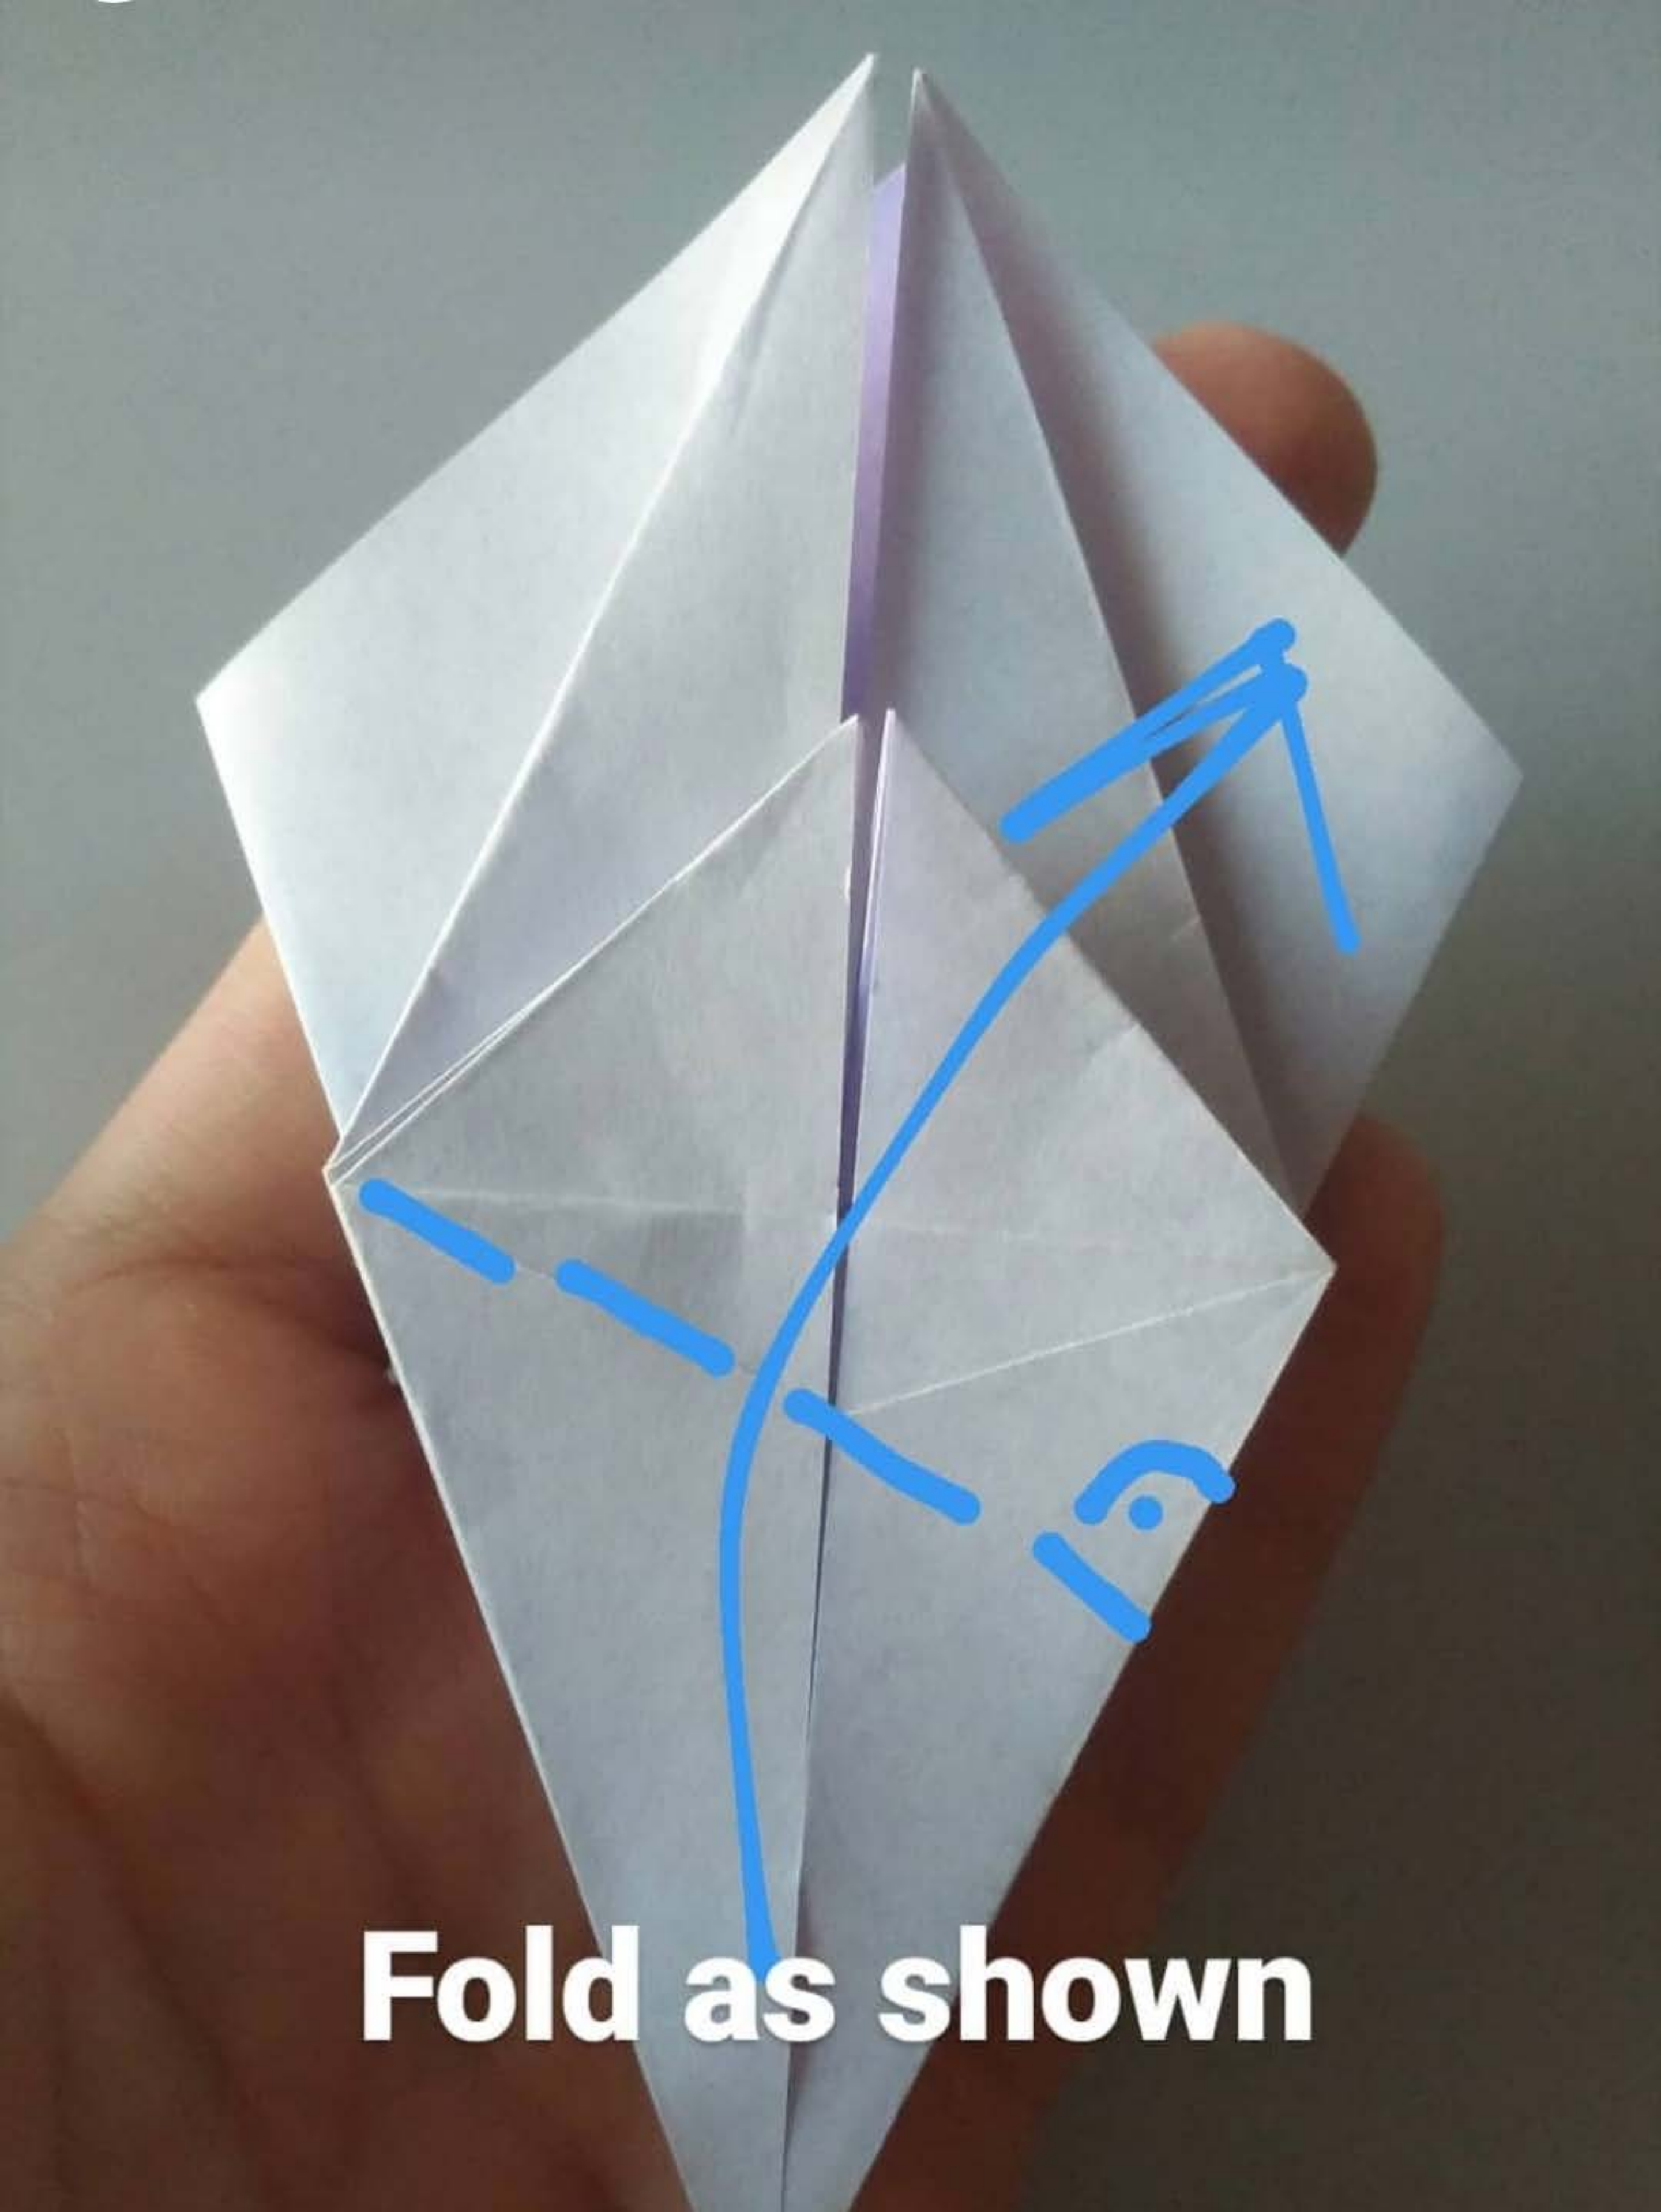

**That's it. I'll show you how to  
shape a head on a separate  
sheet of paper**

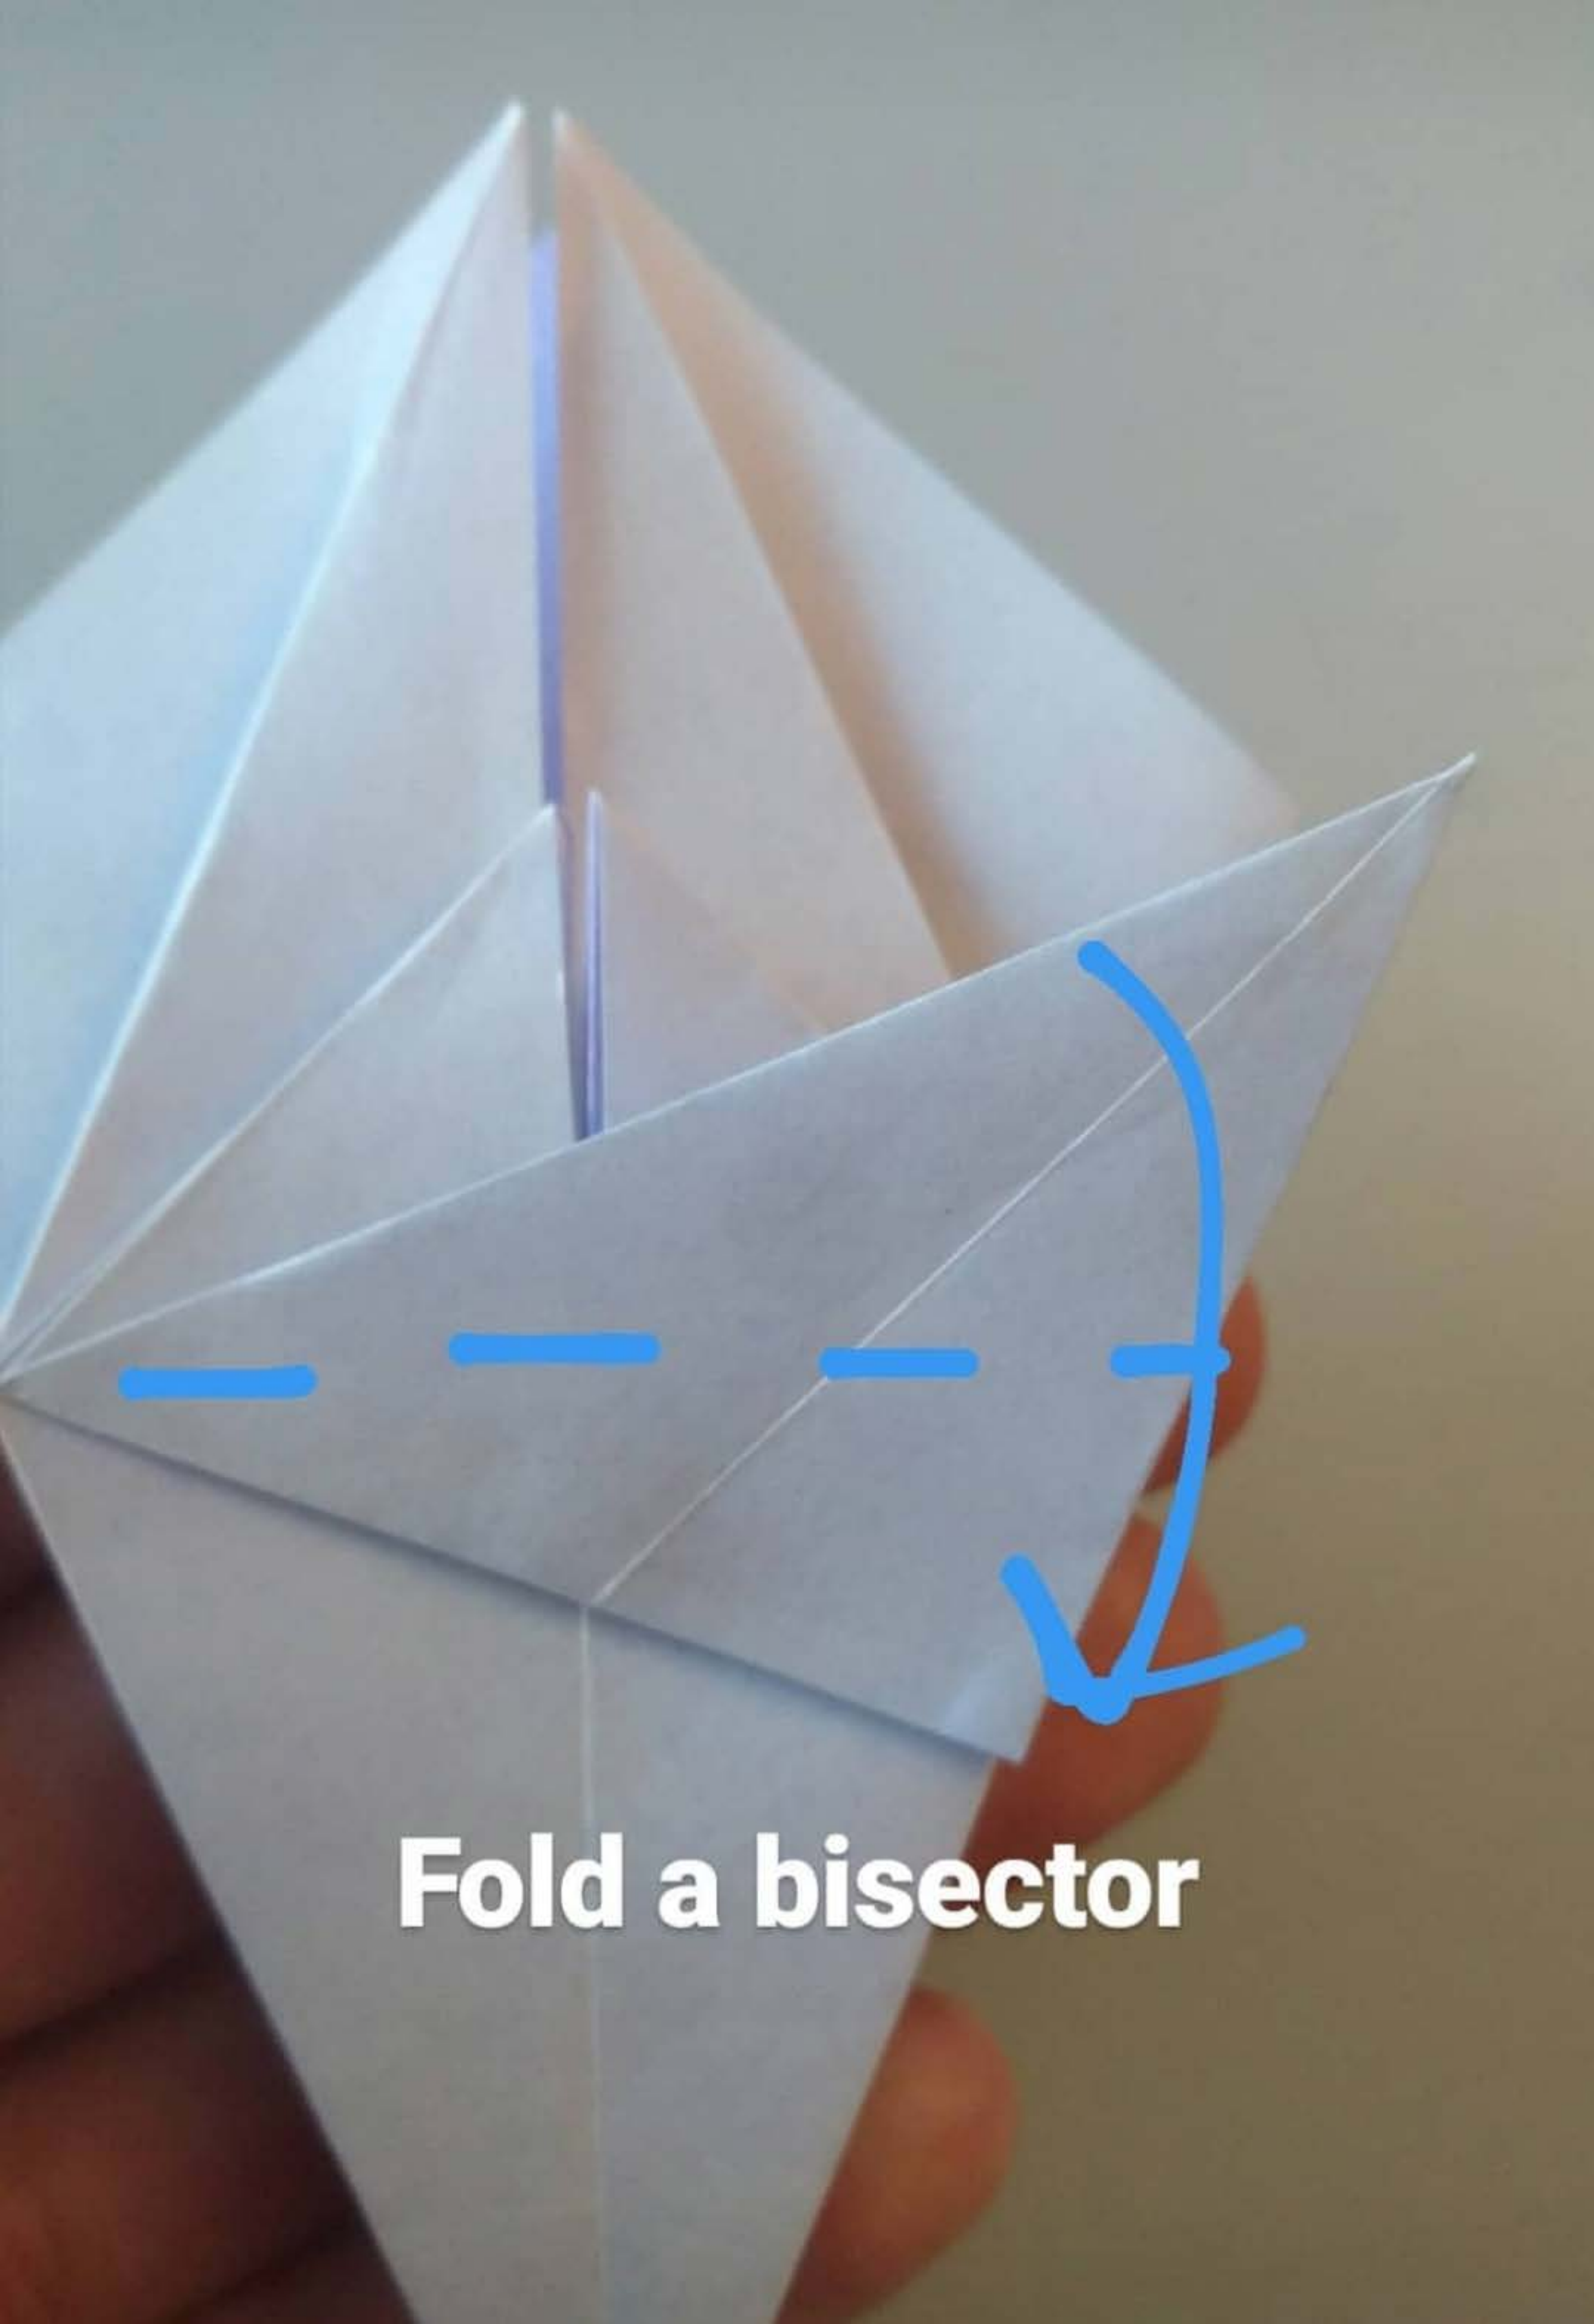

**Fold as shown**

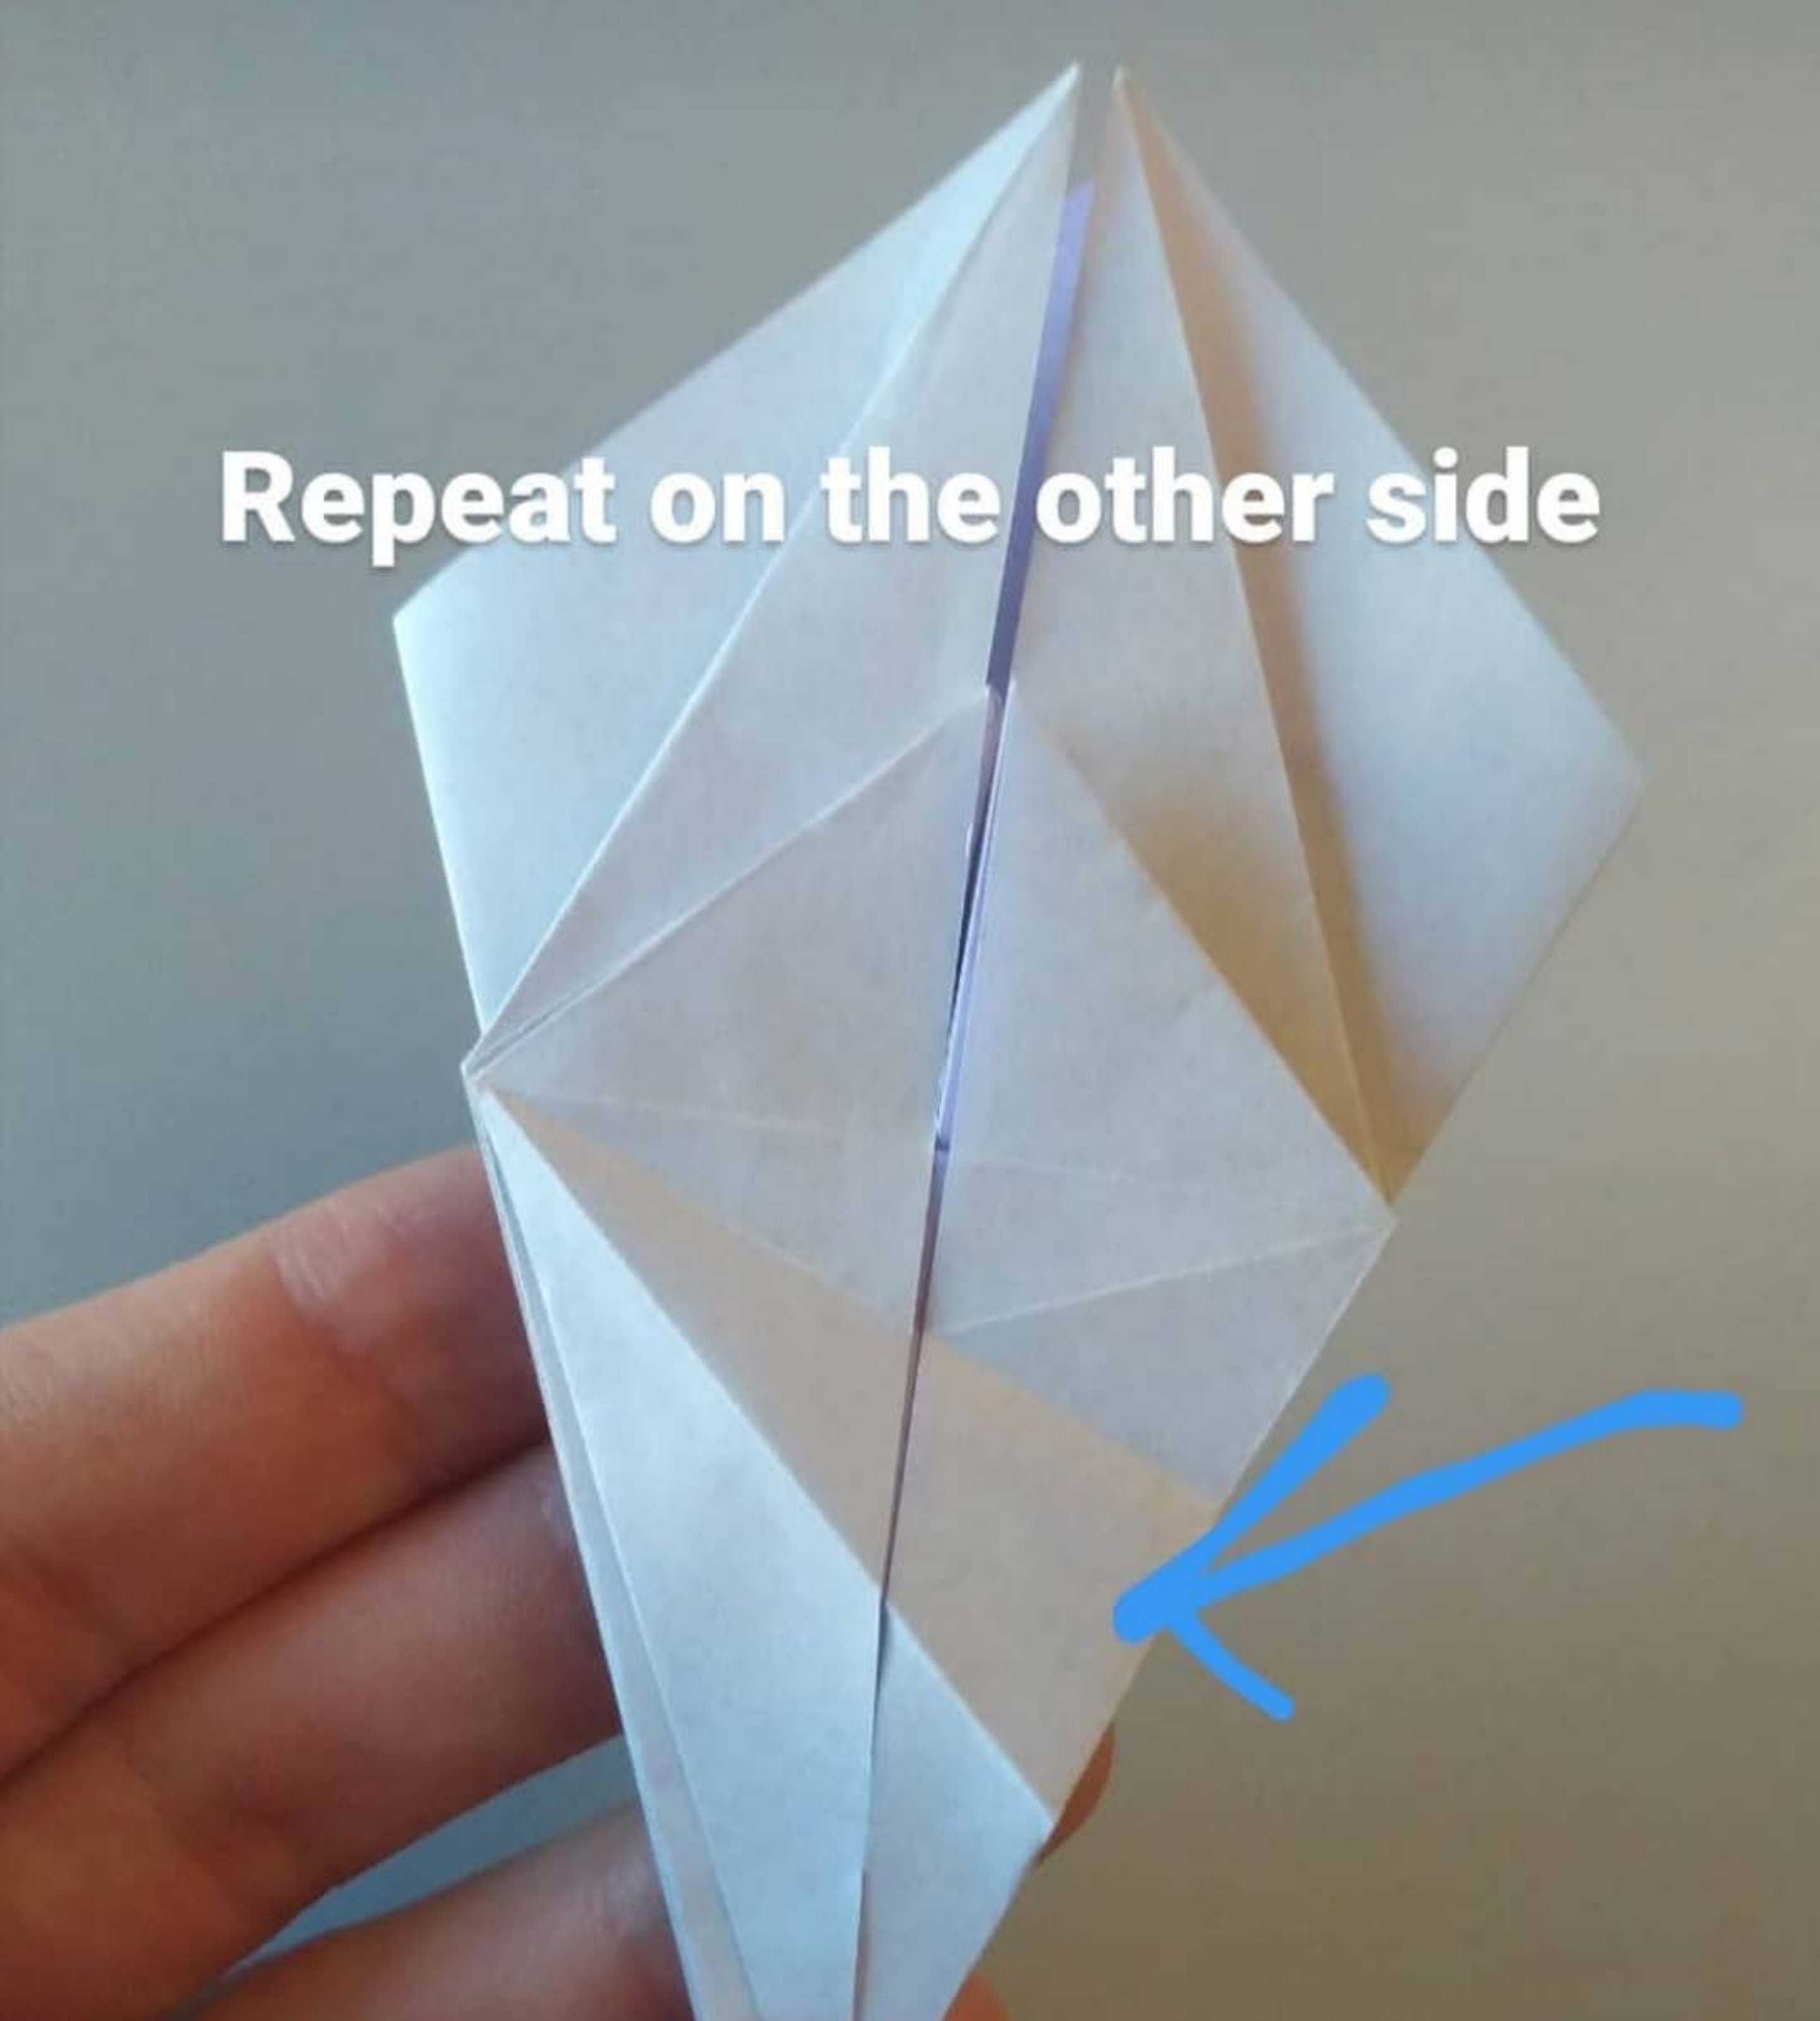

**Fold a bisector**

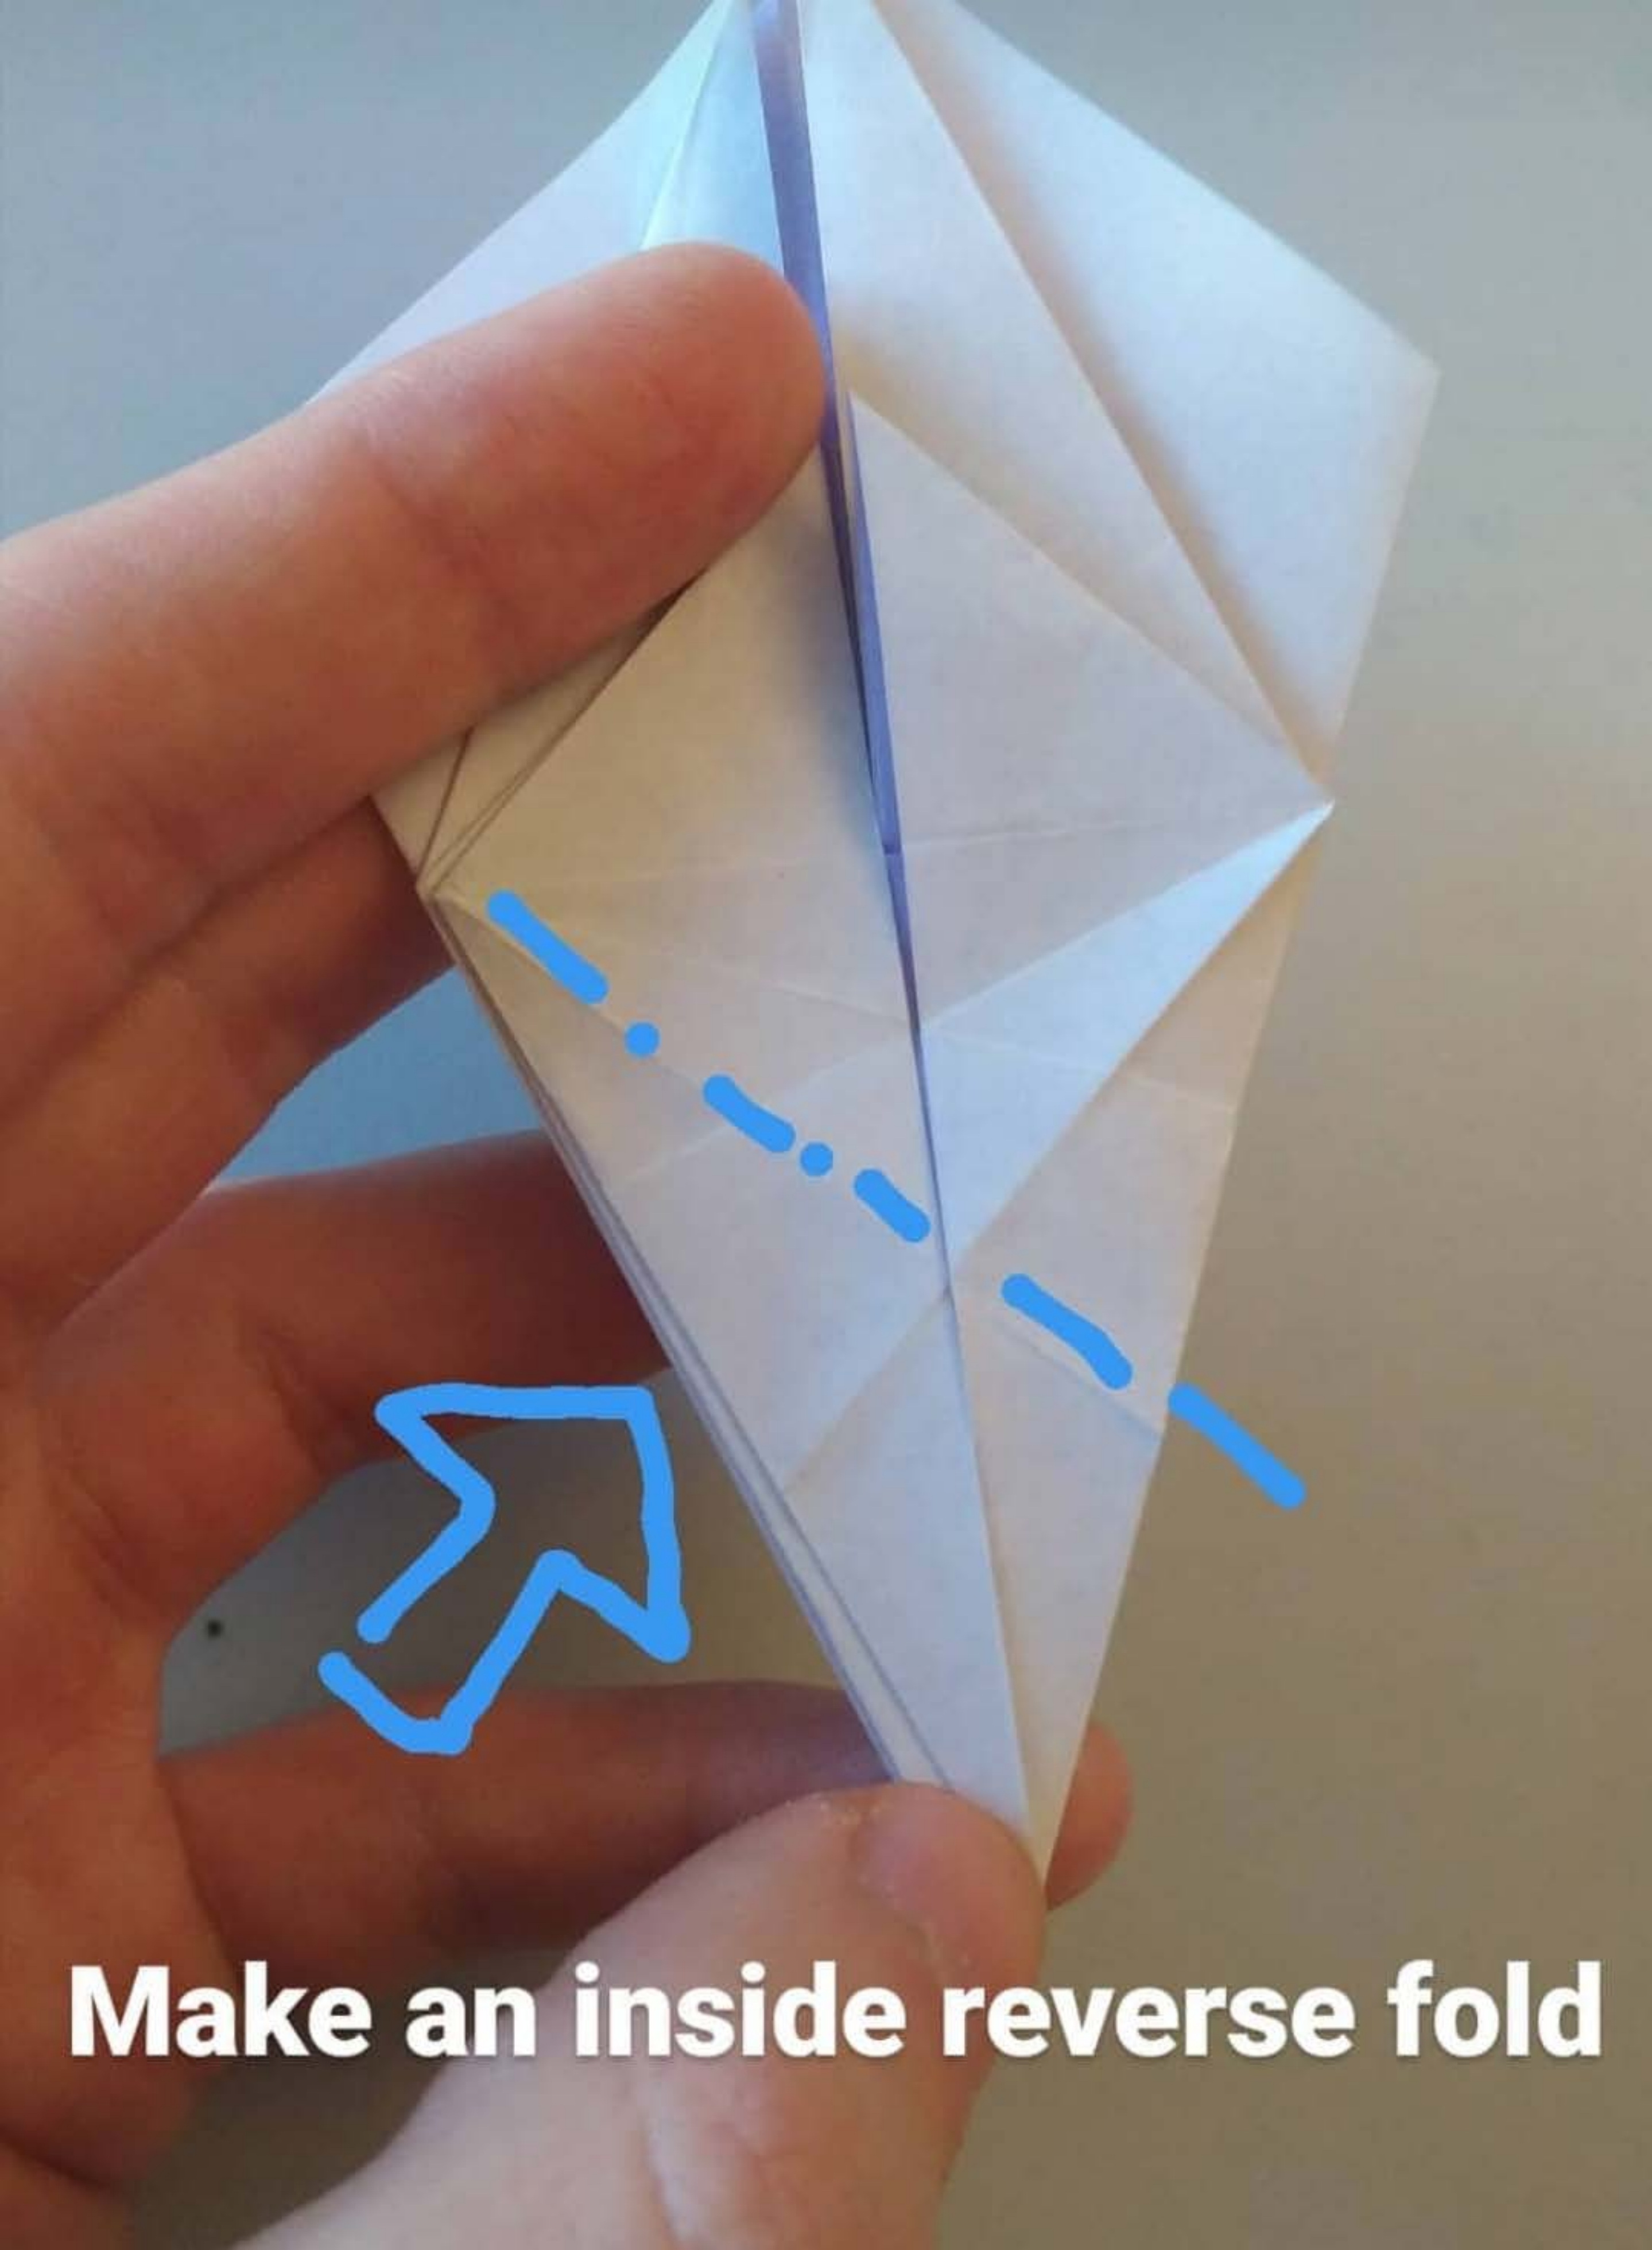

**Unfold**

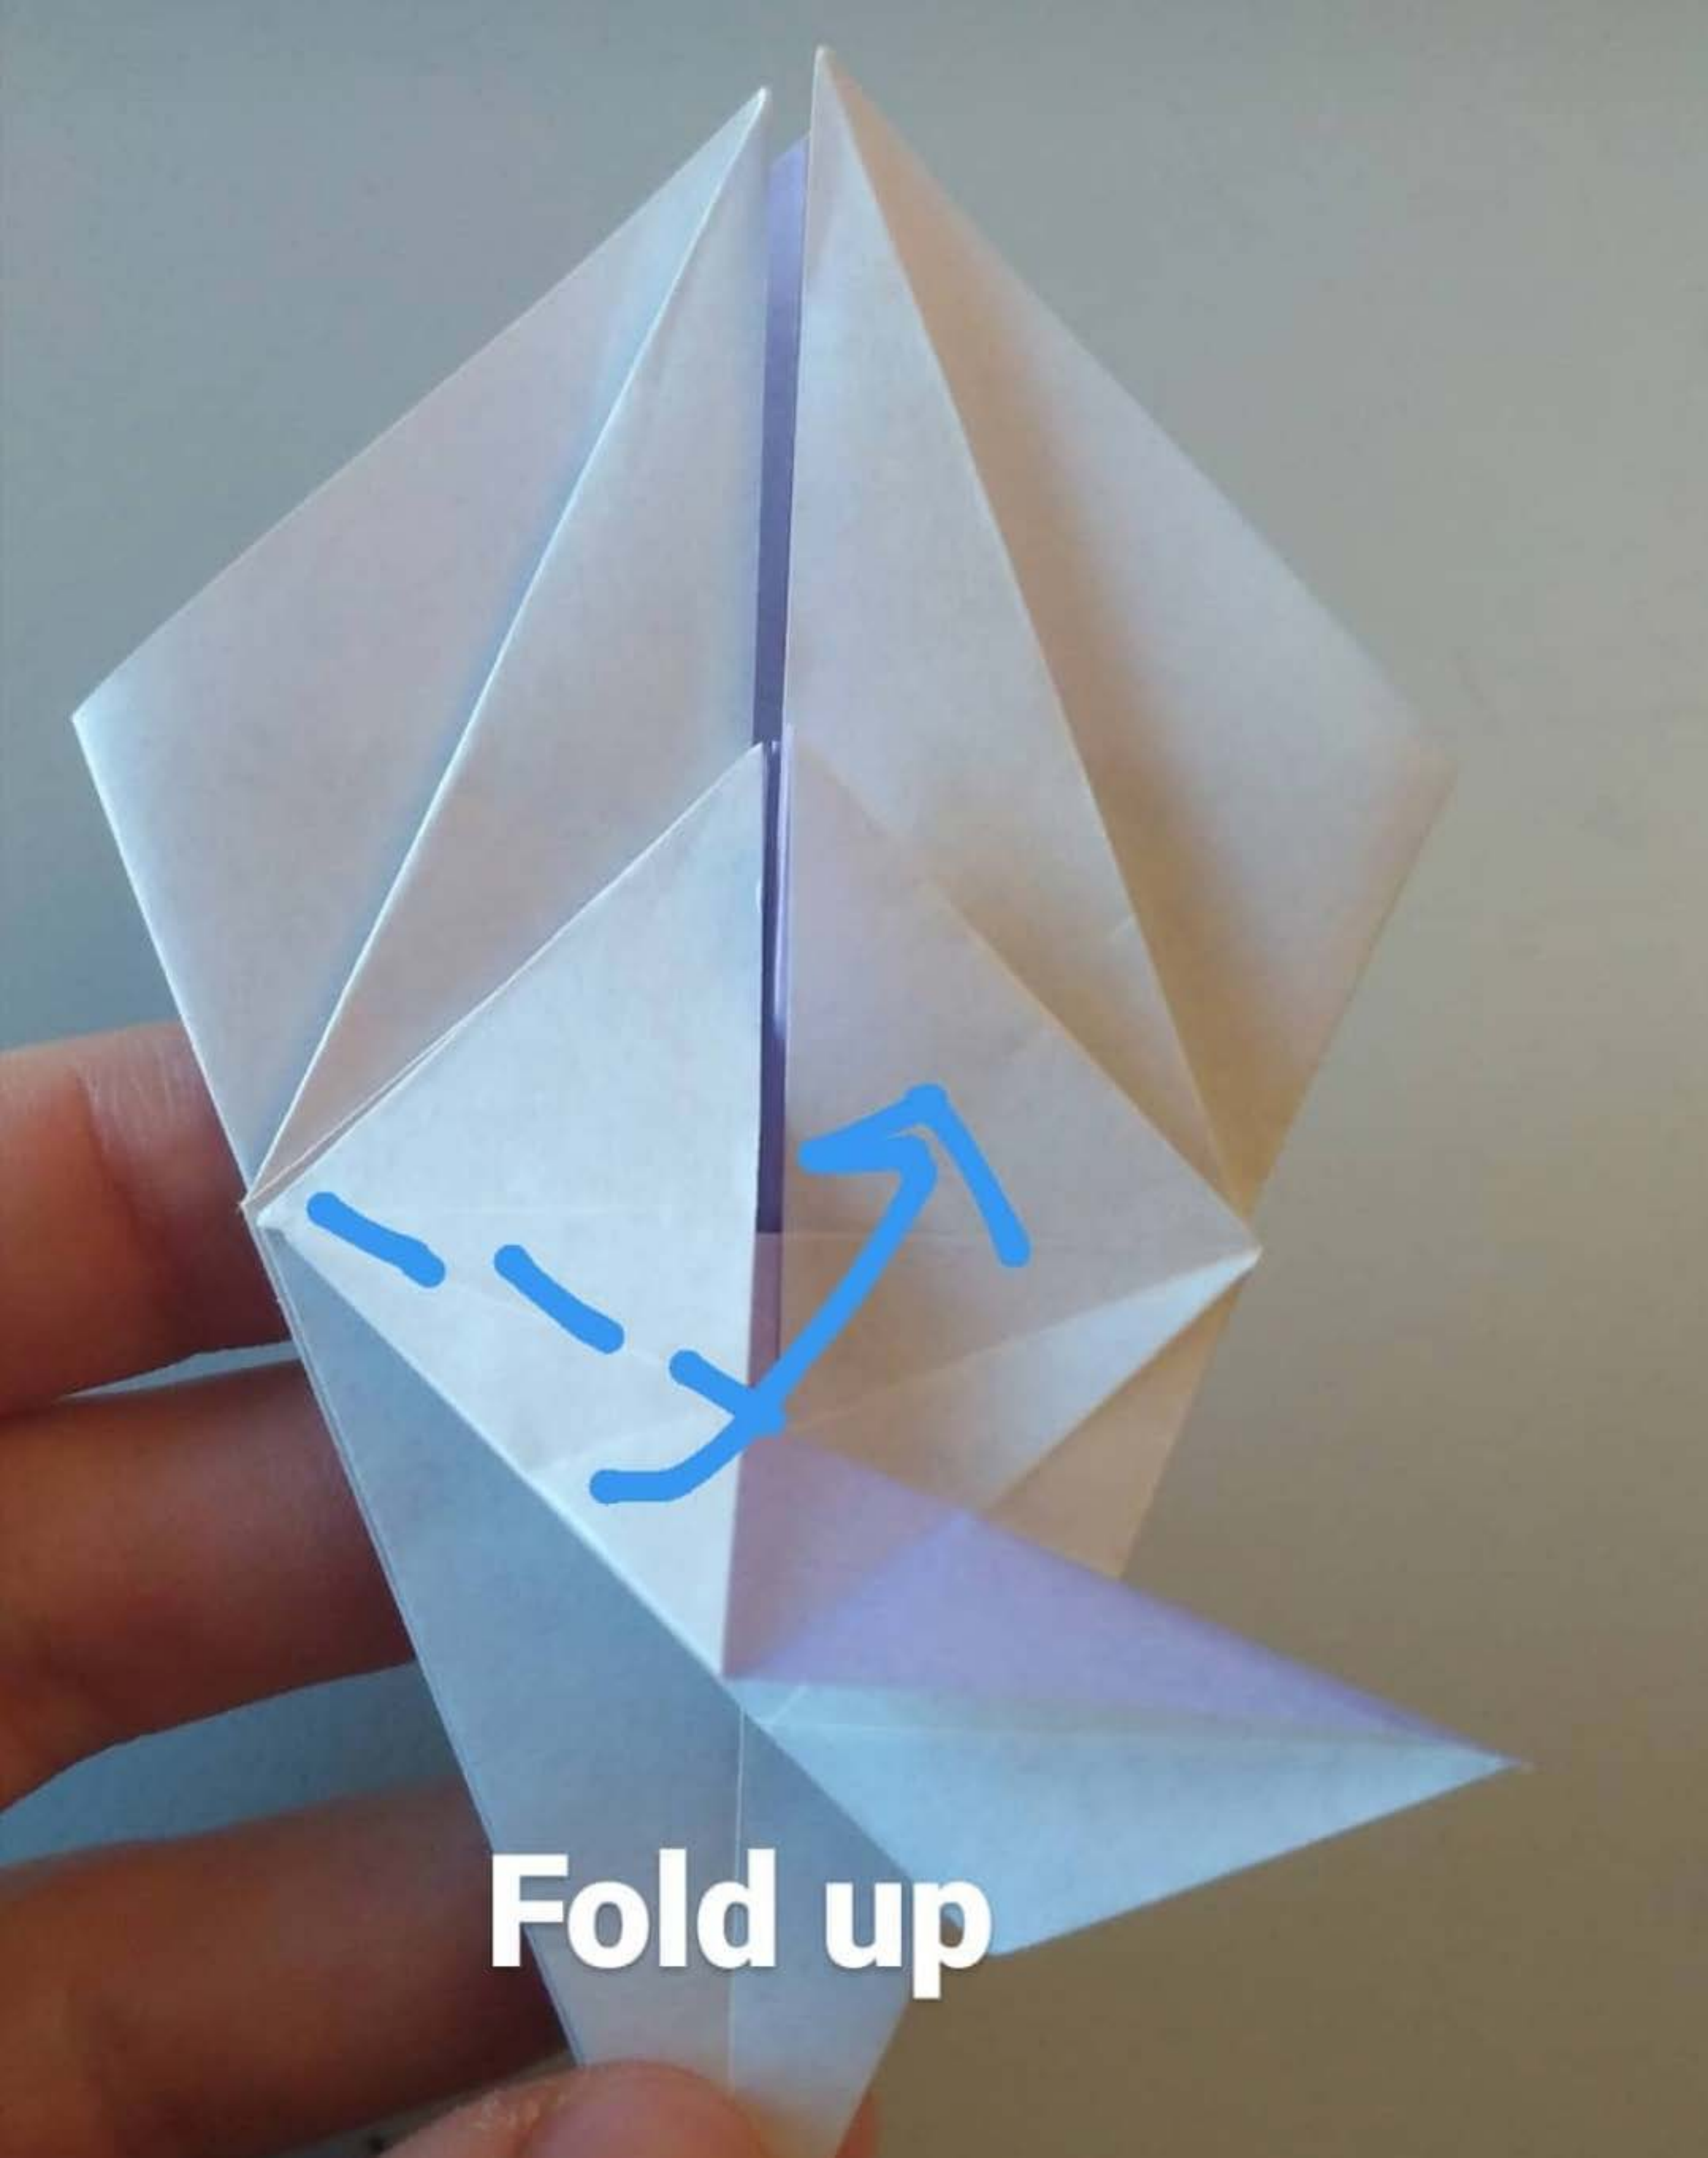

**Repeat on the other side**

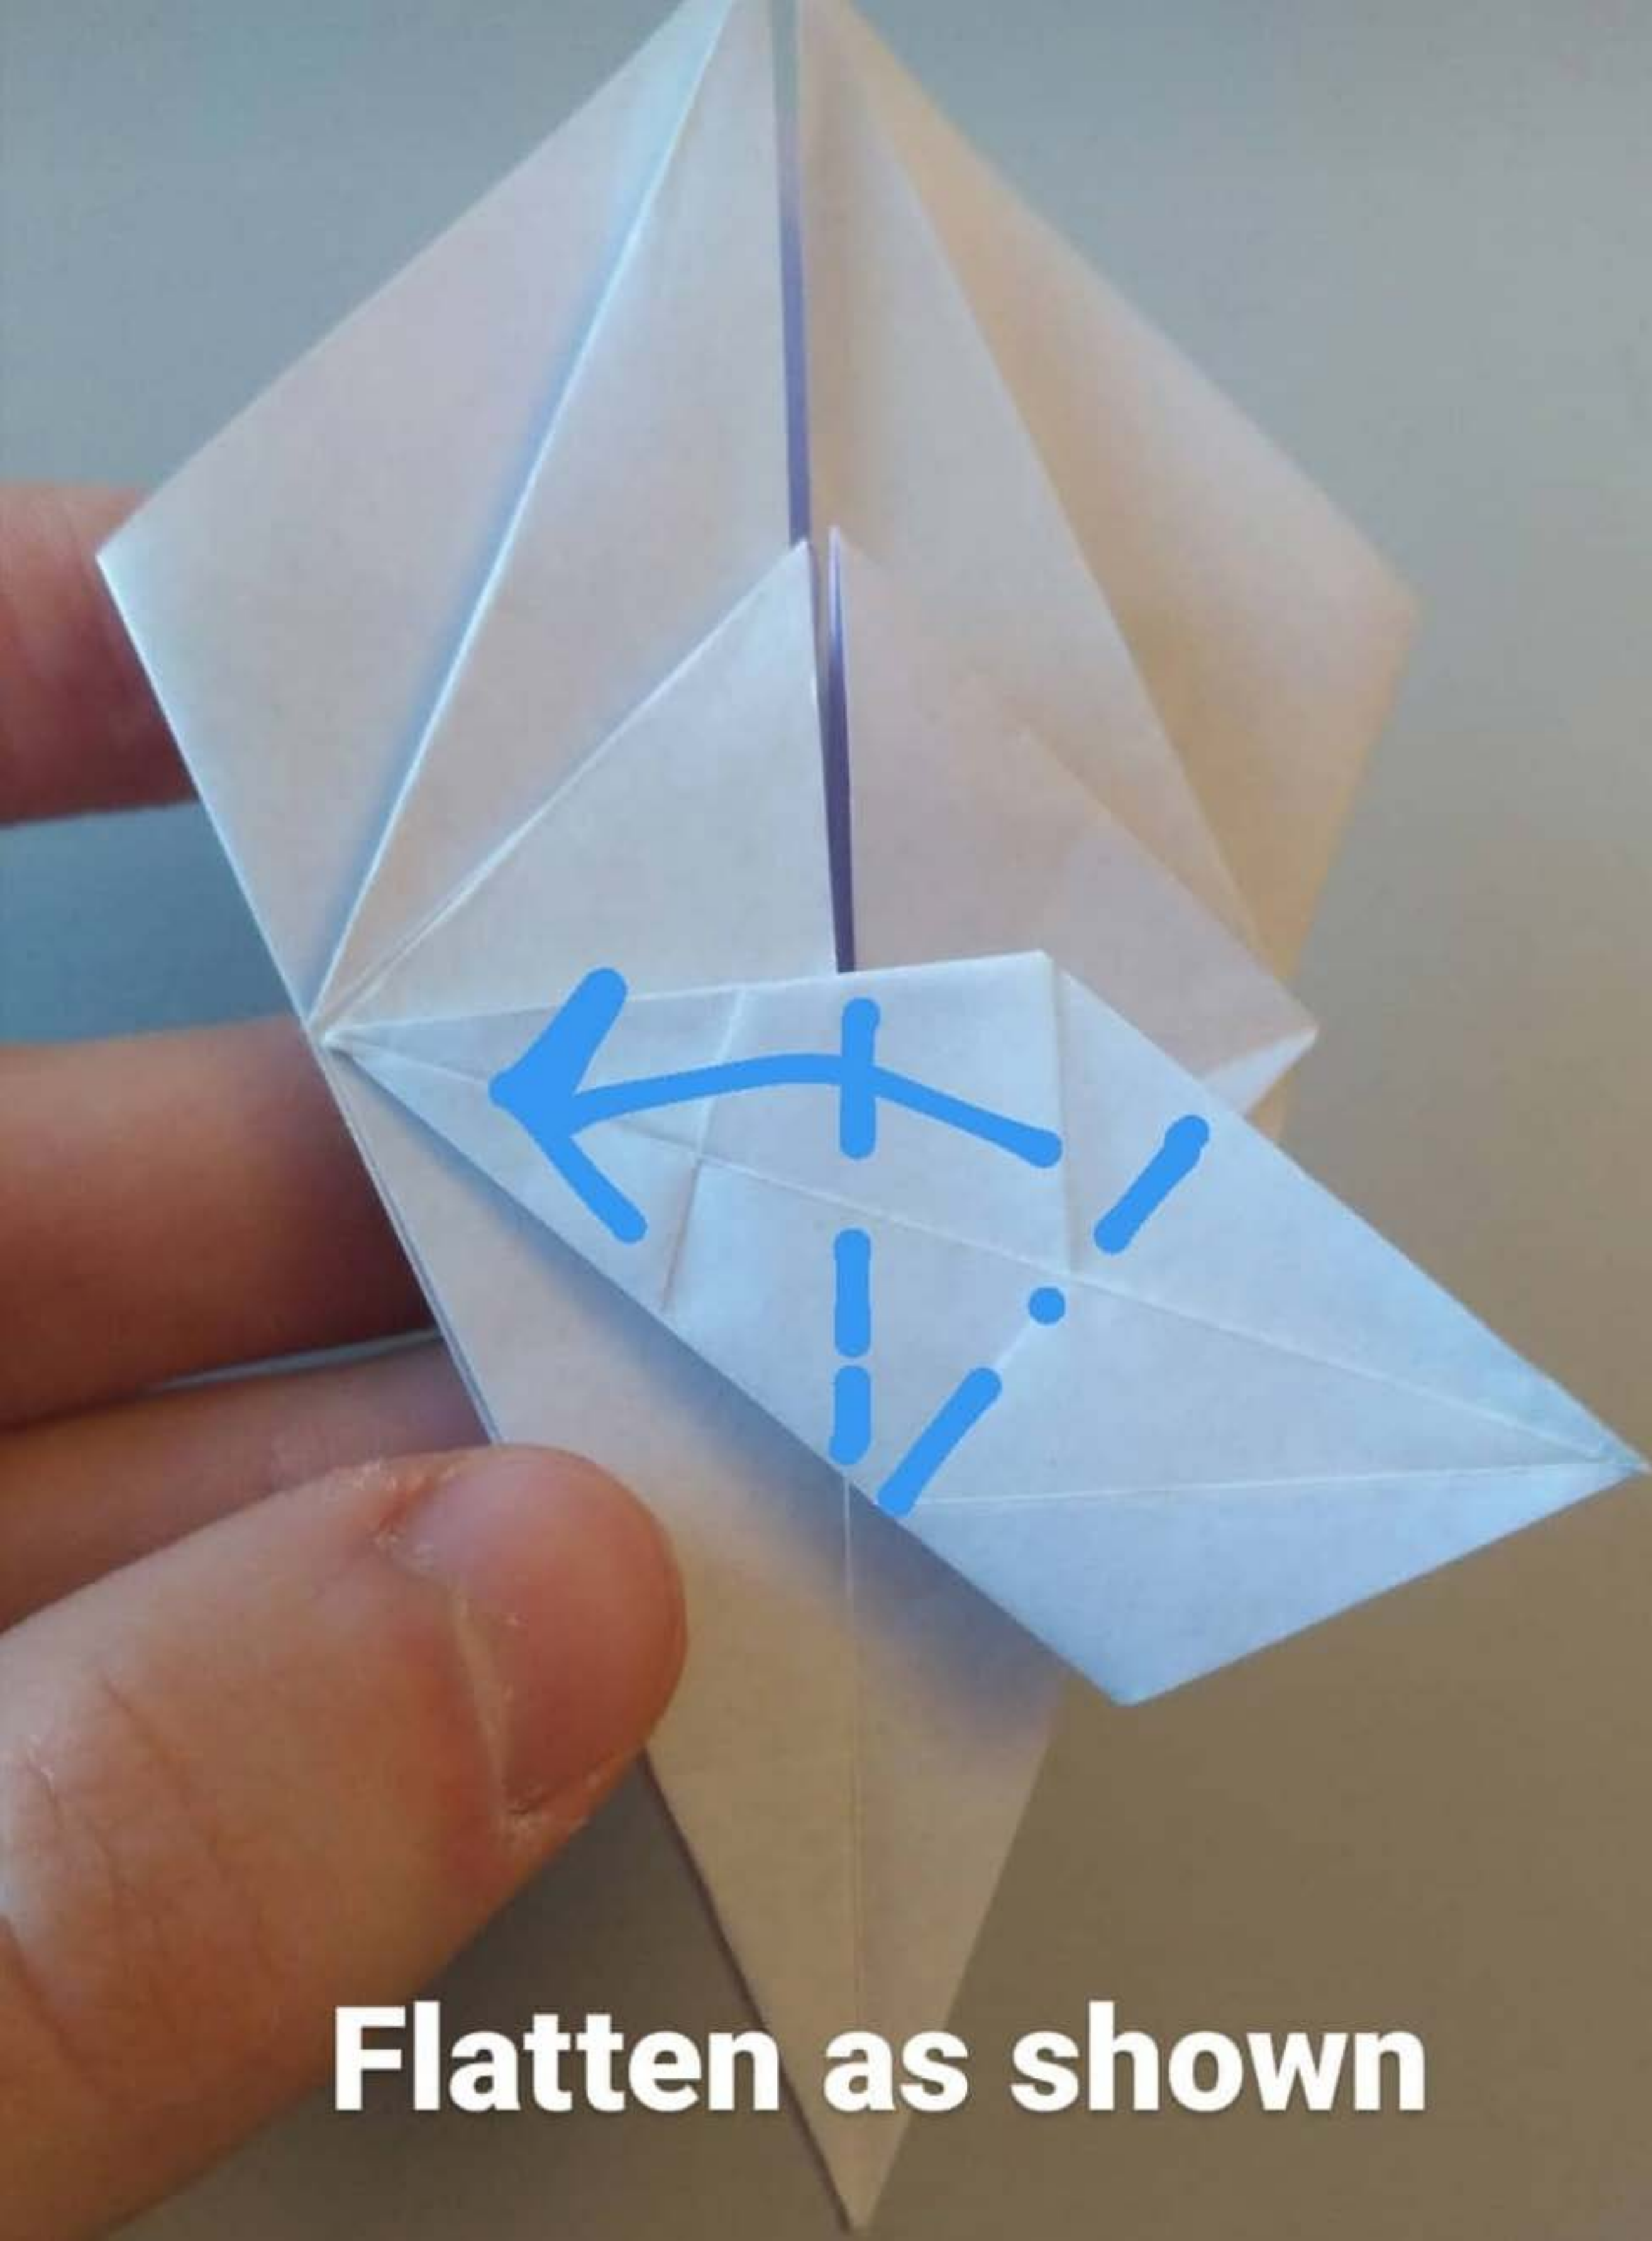

**Make an inside reverse fold**

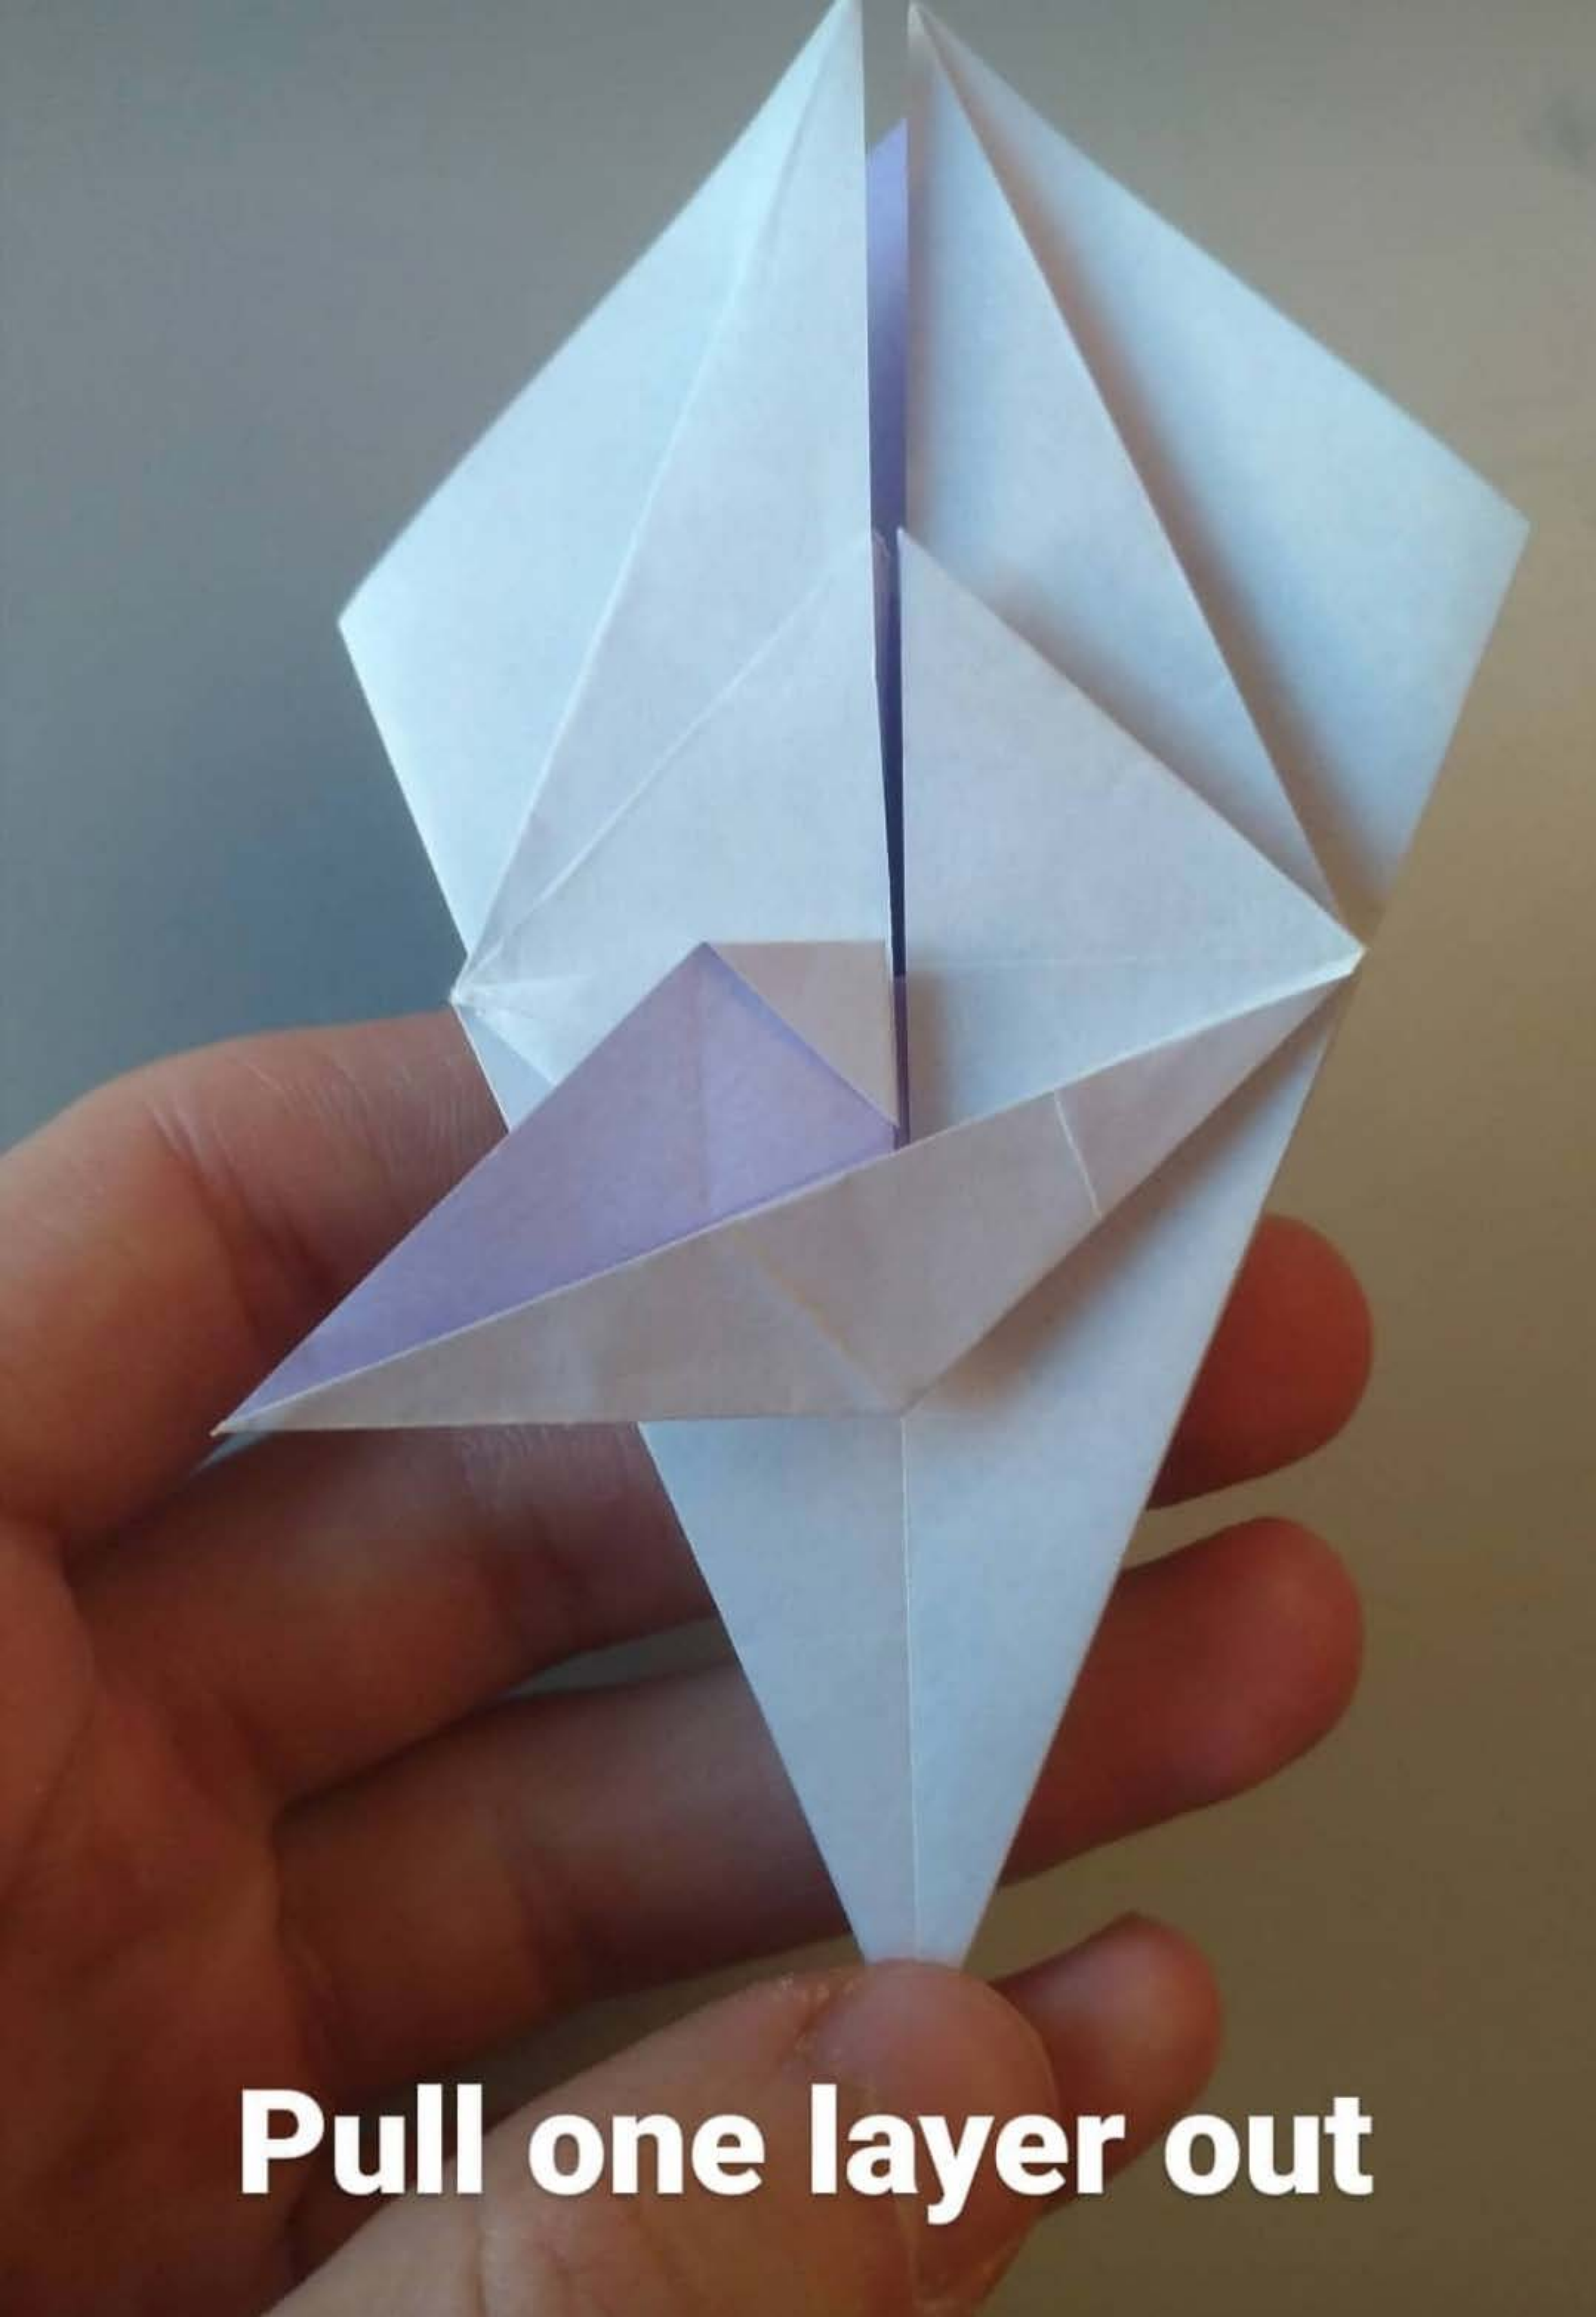

**Fold up**

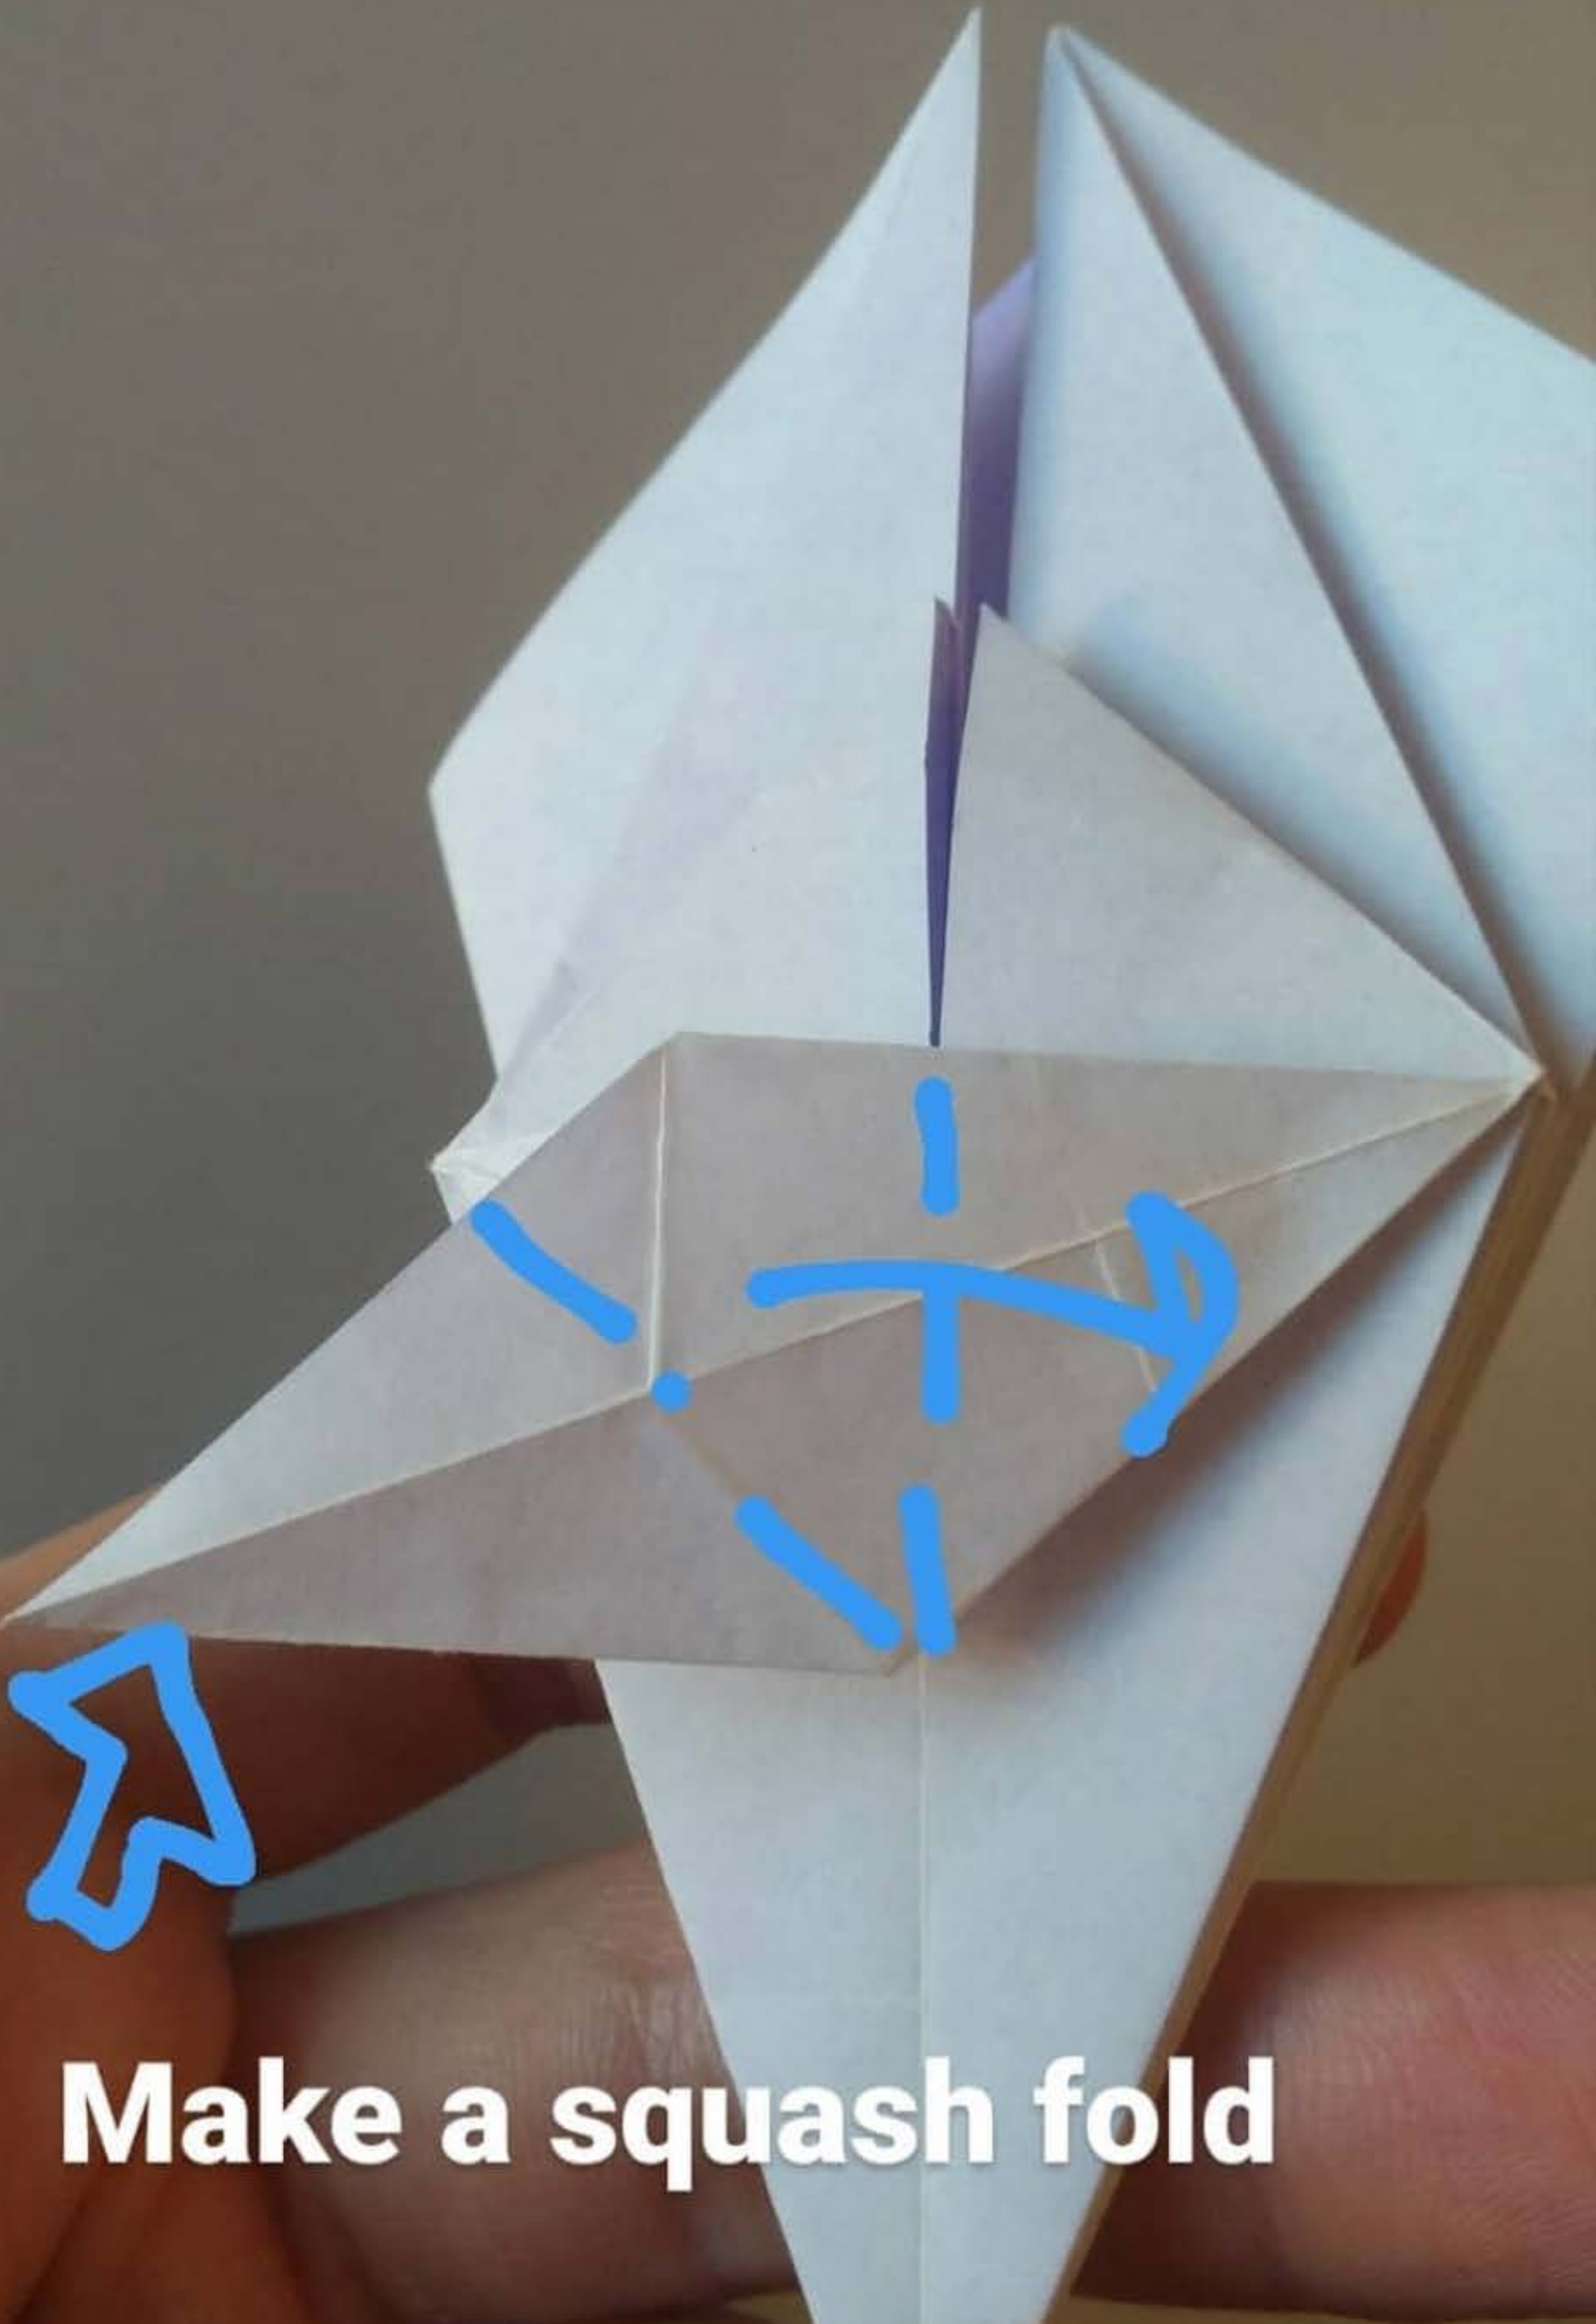

**Flatten as shown**

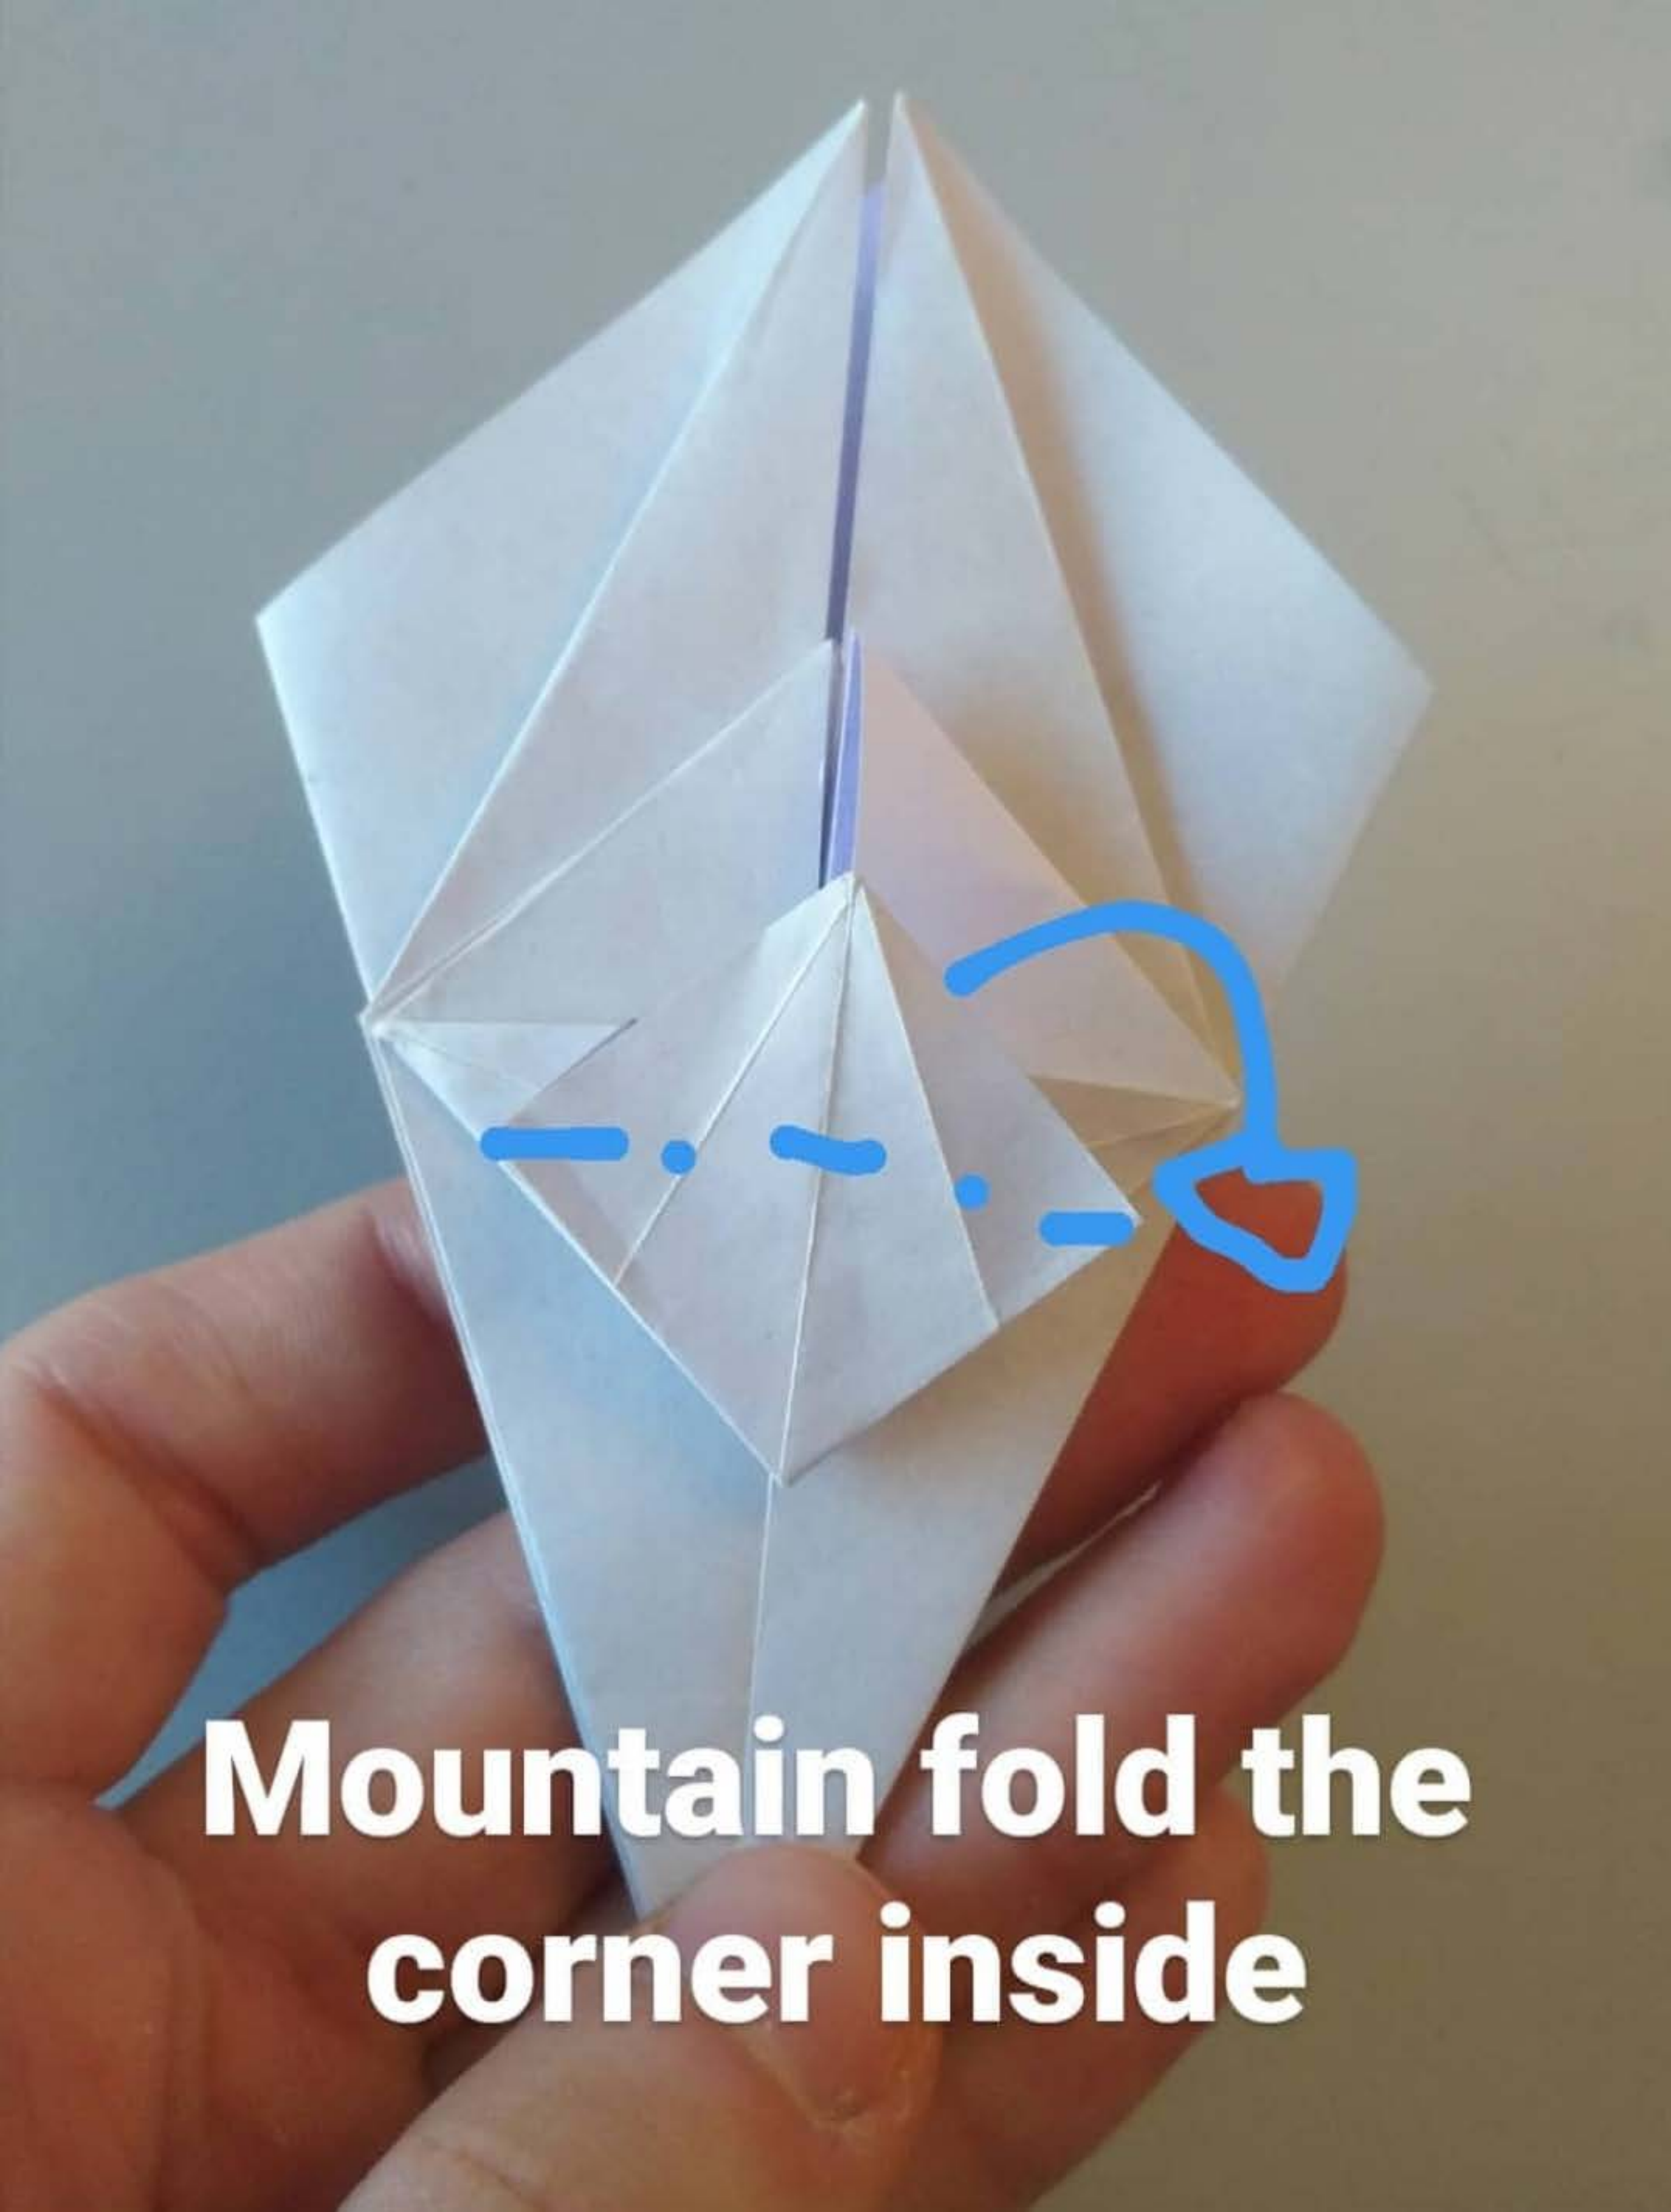

**Pull one layer out**

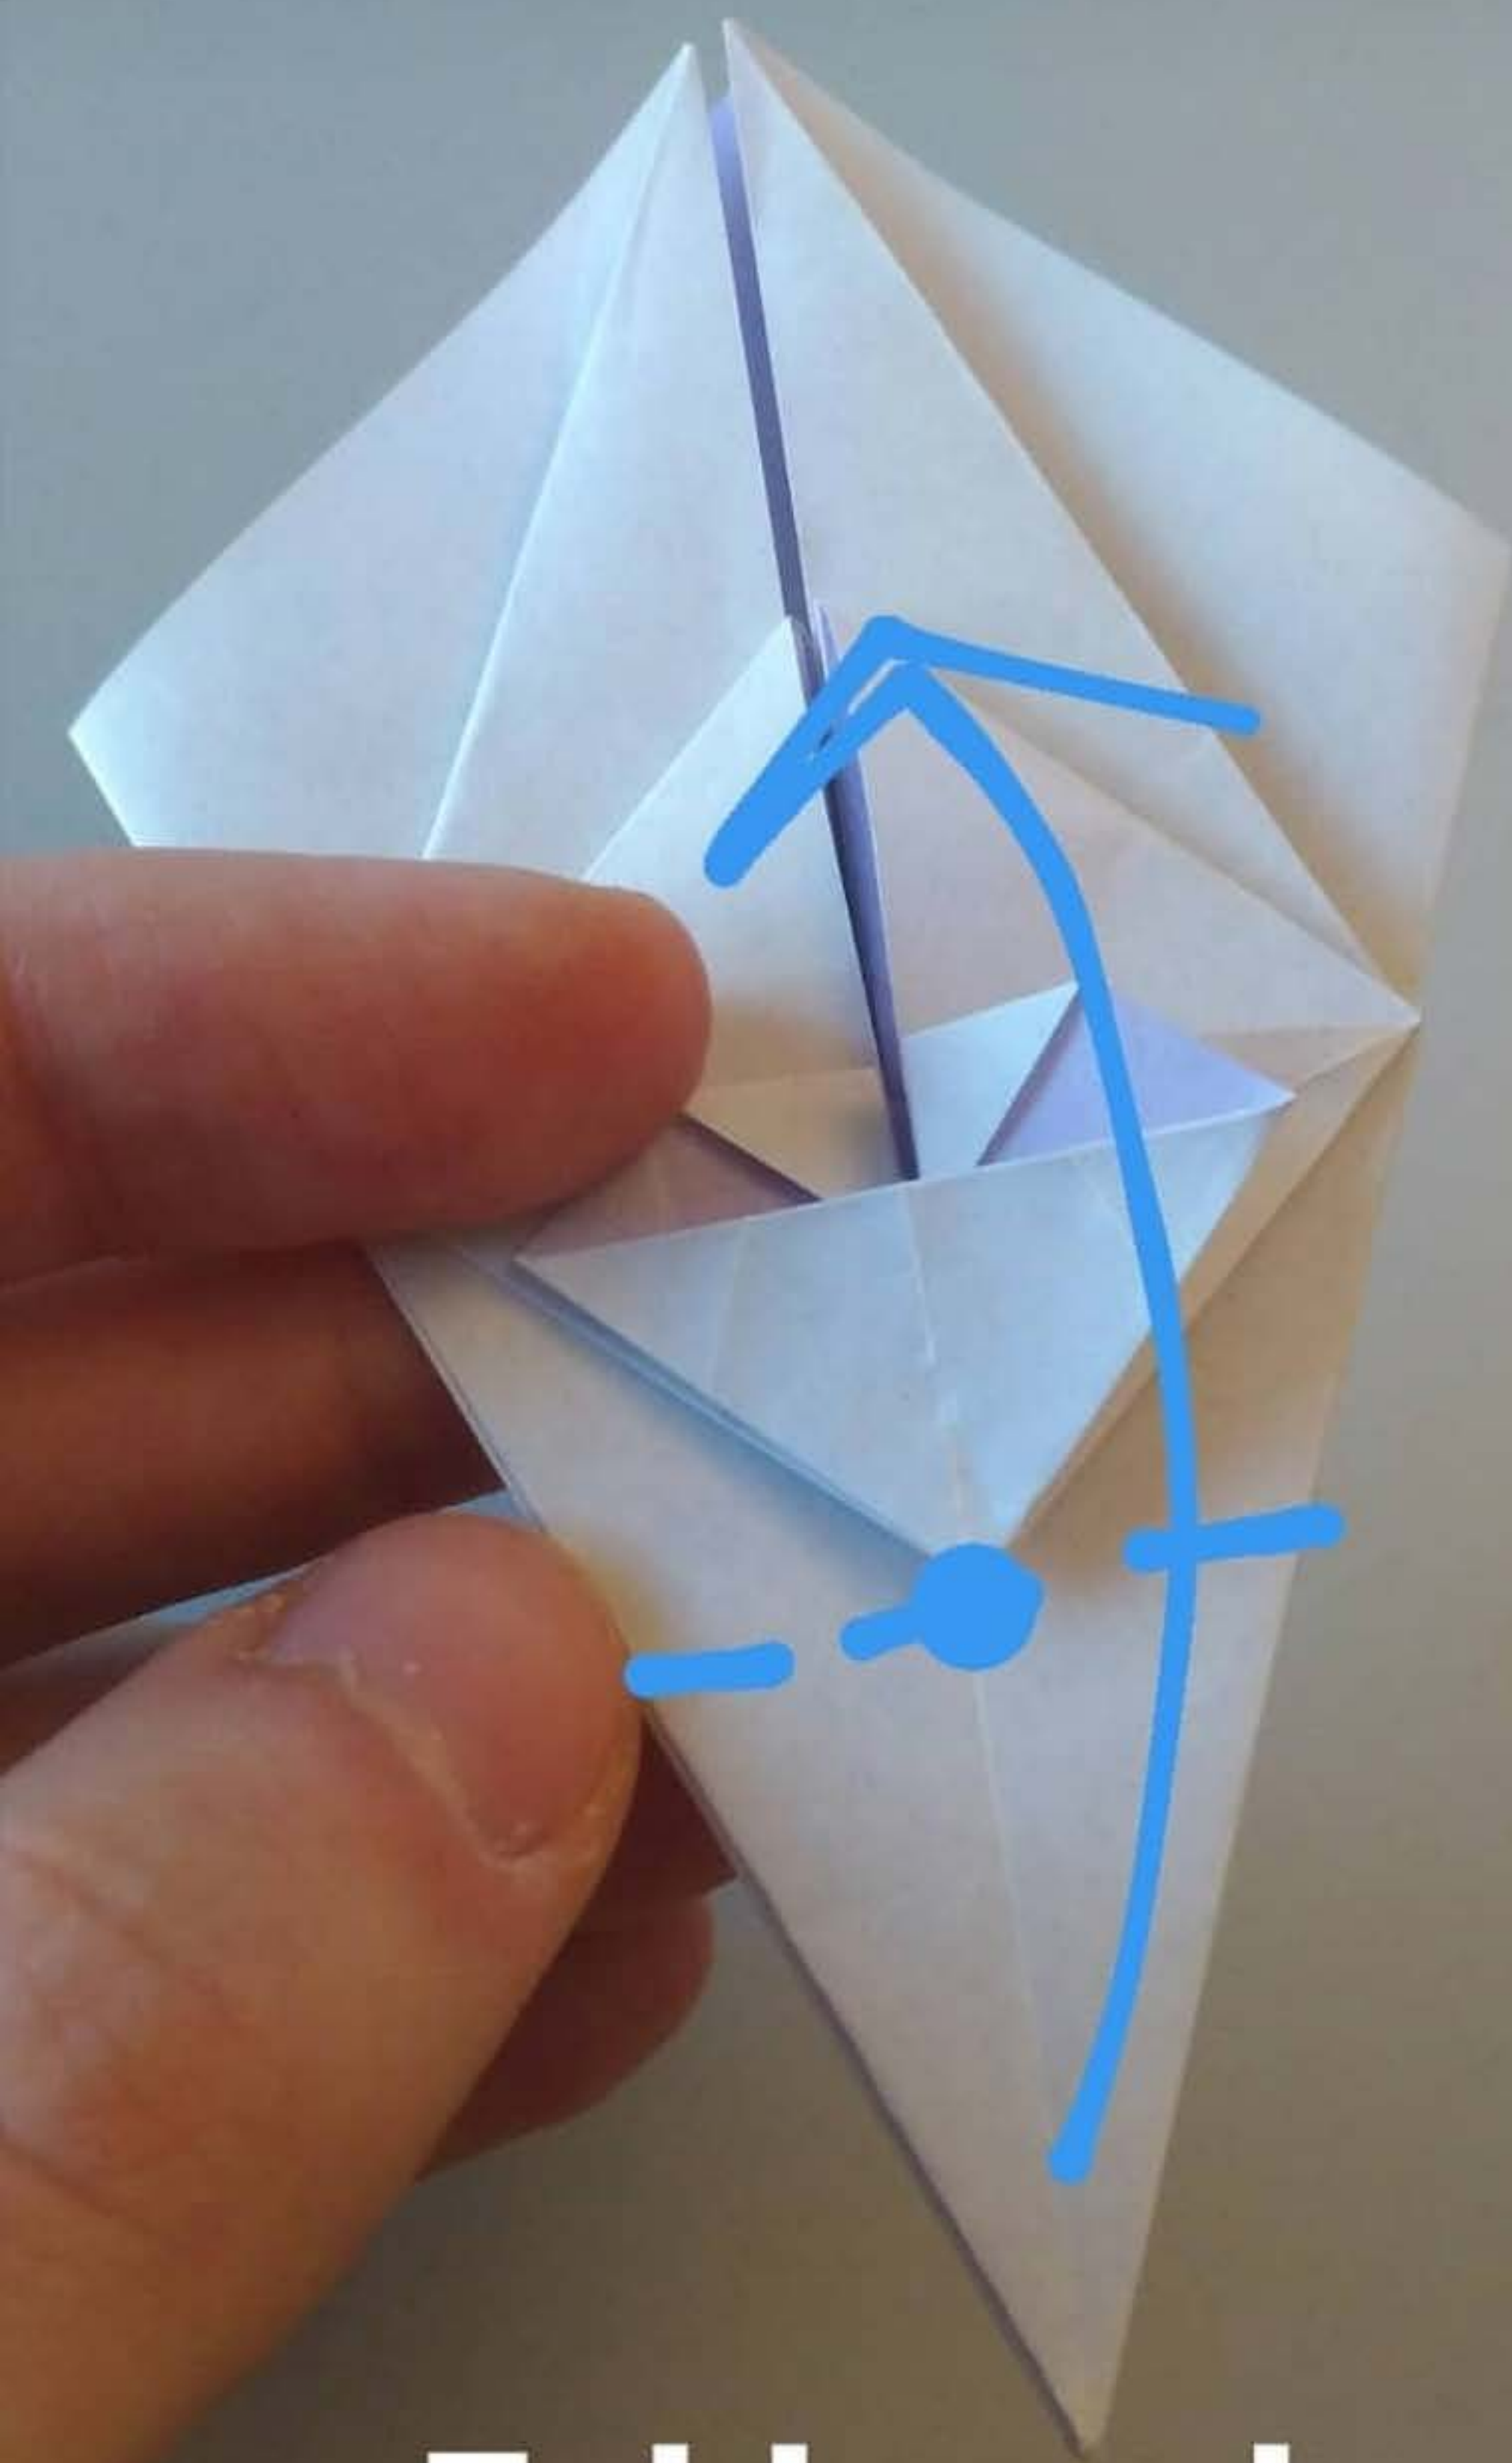

**Make a squash fold**

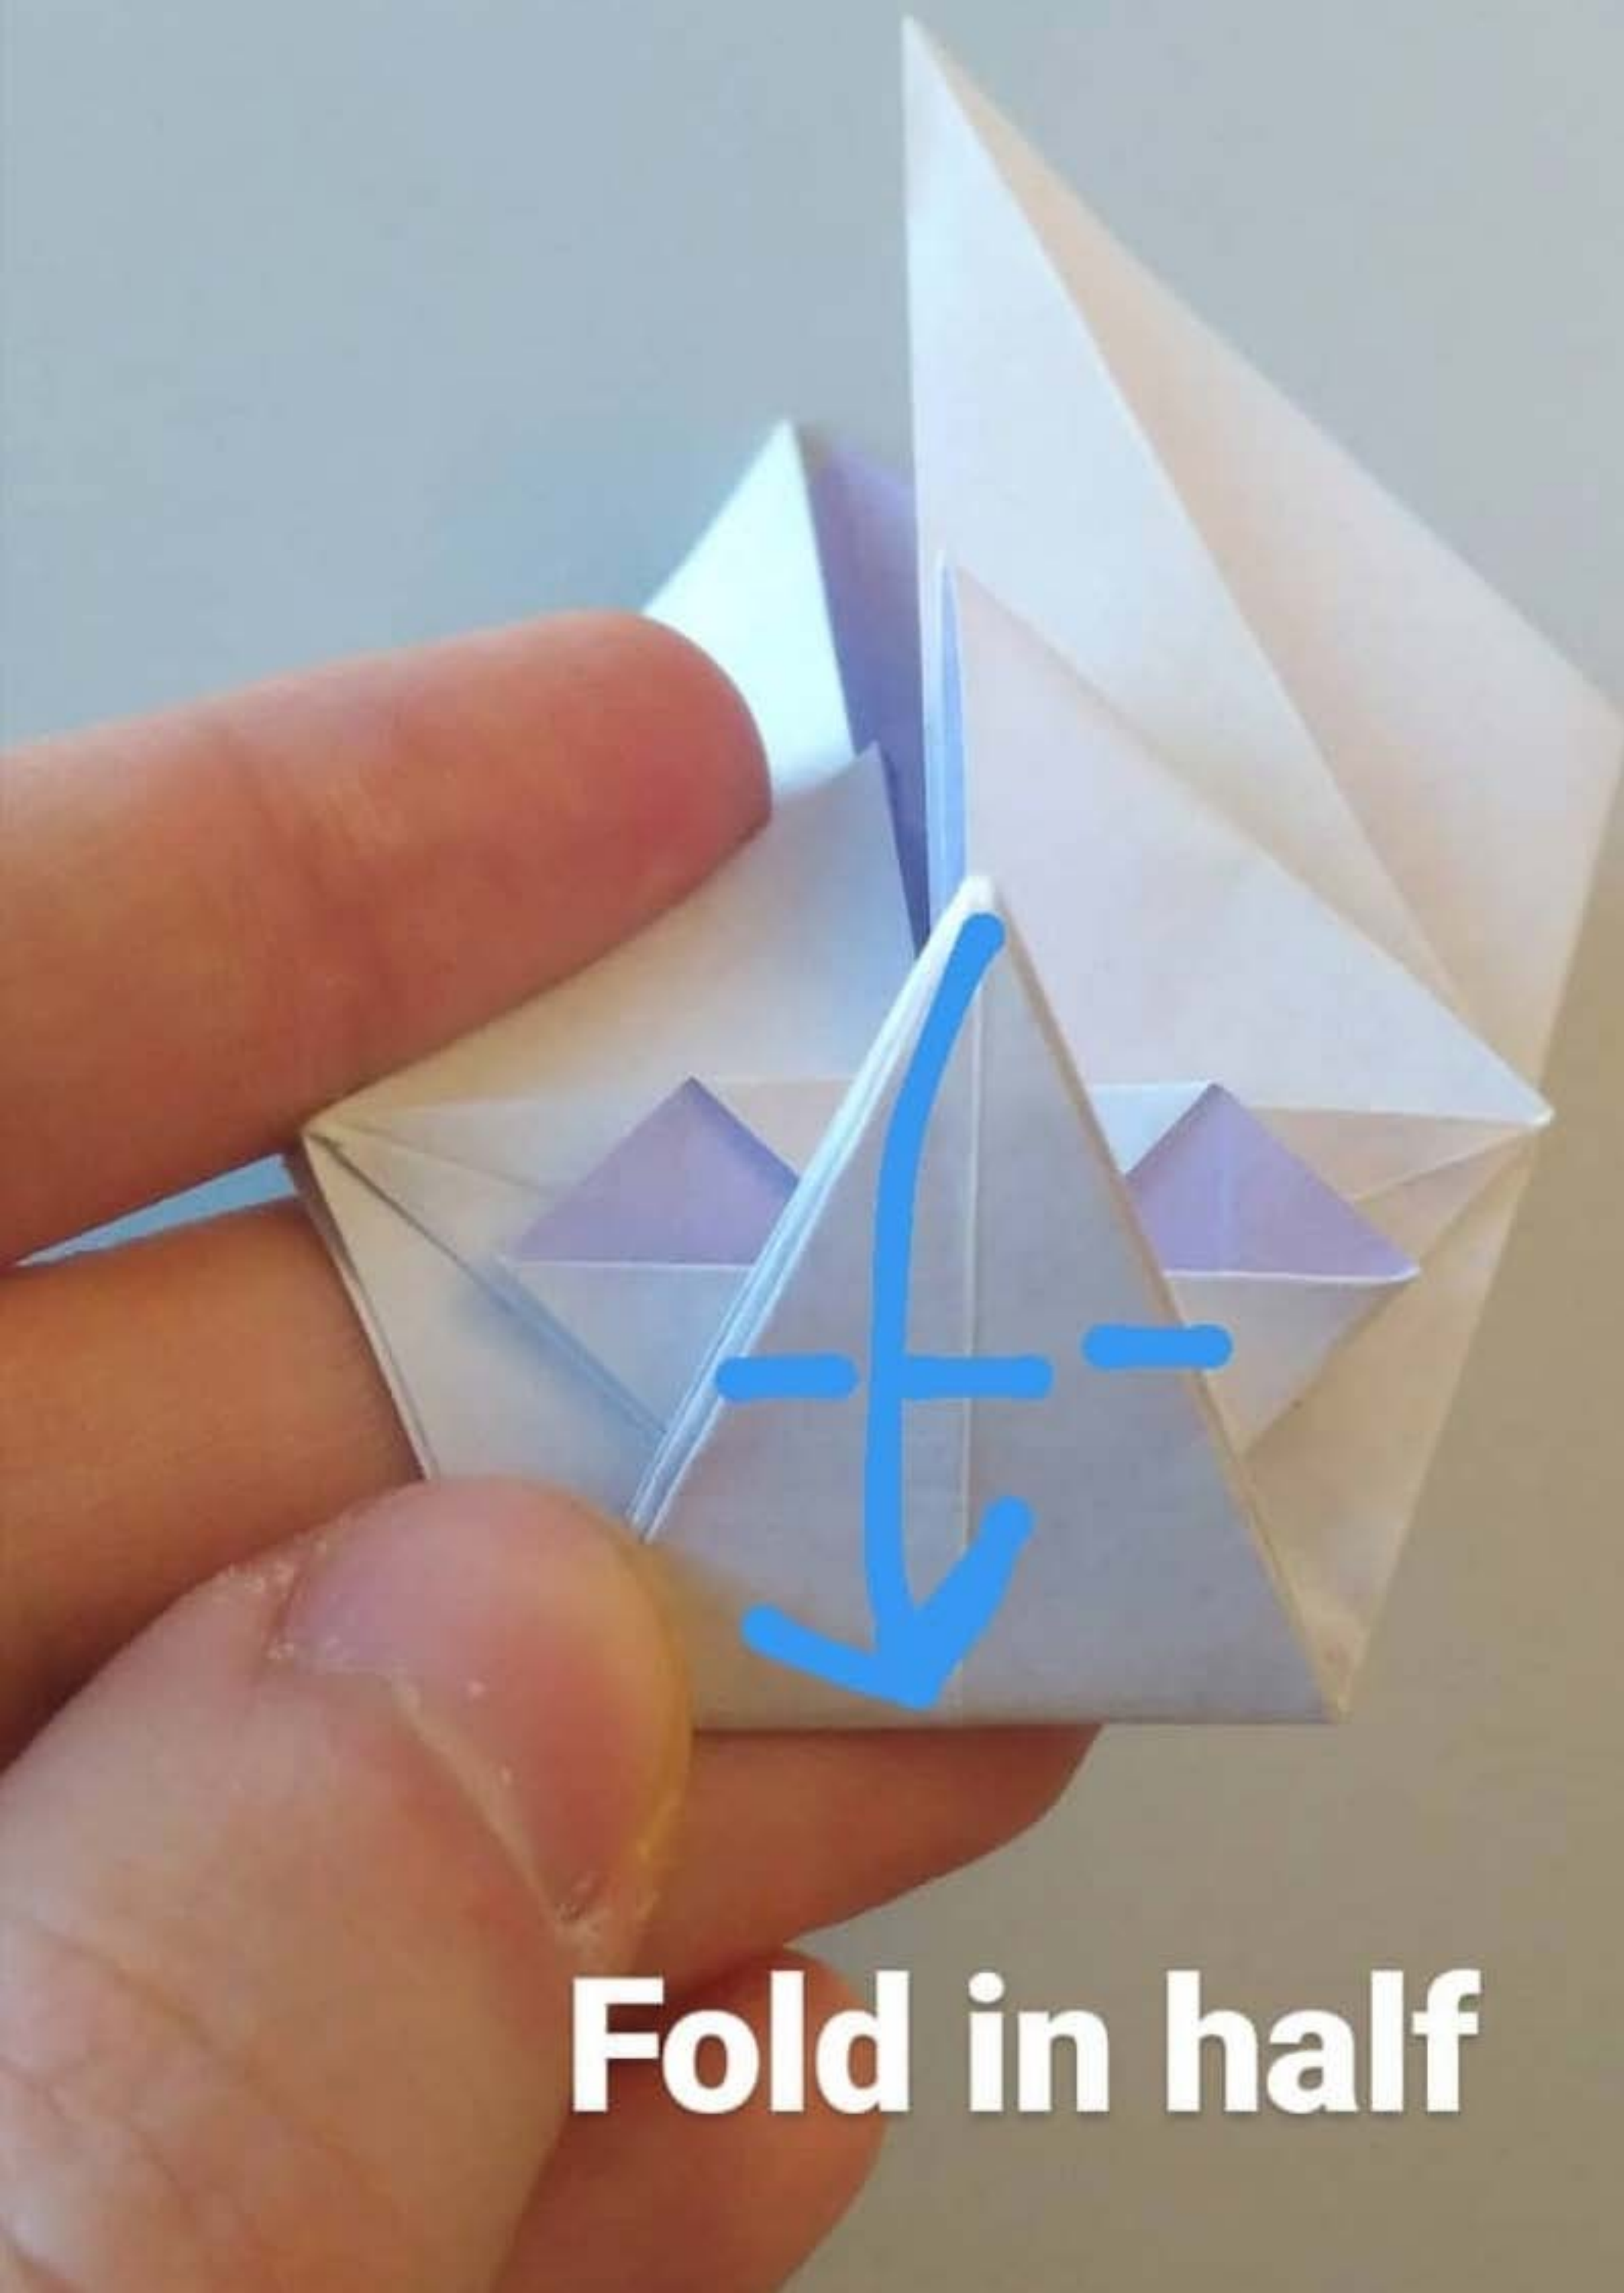

**Mountain fold the  
corner inside**

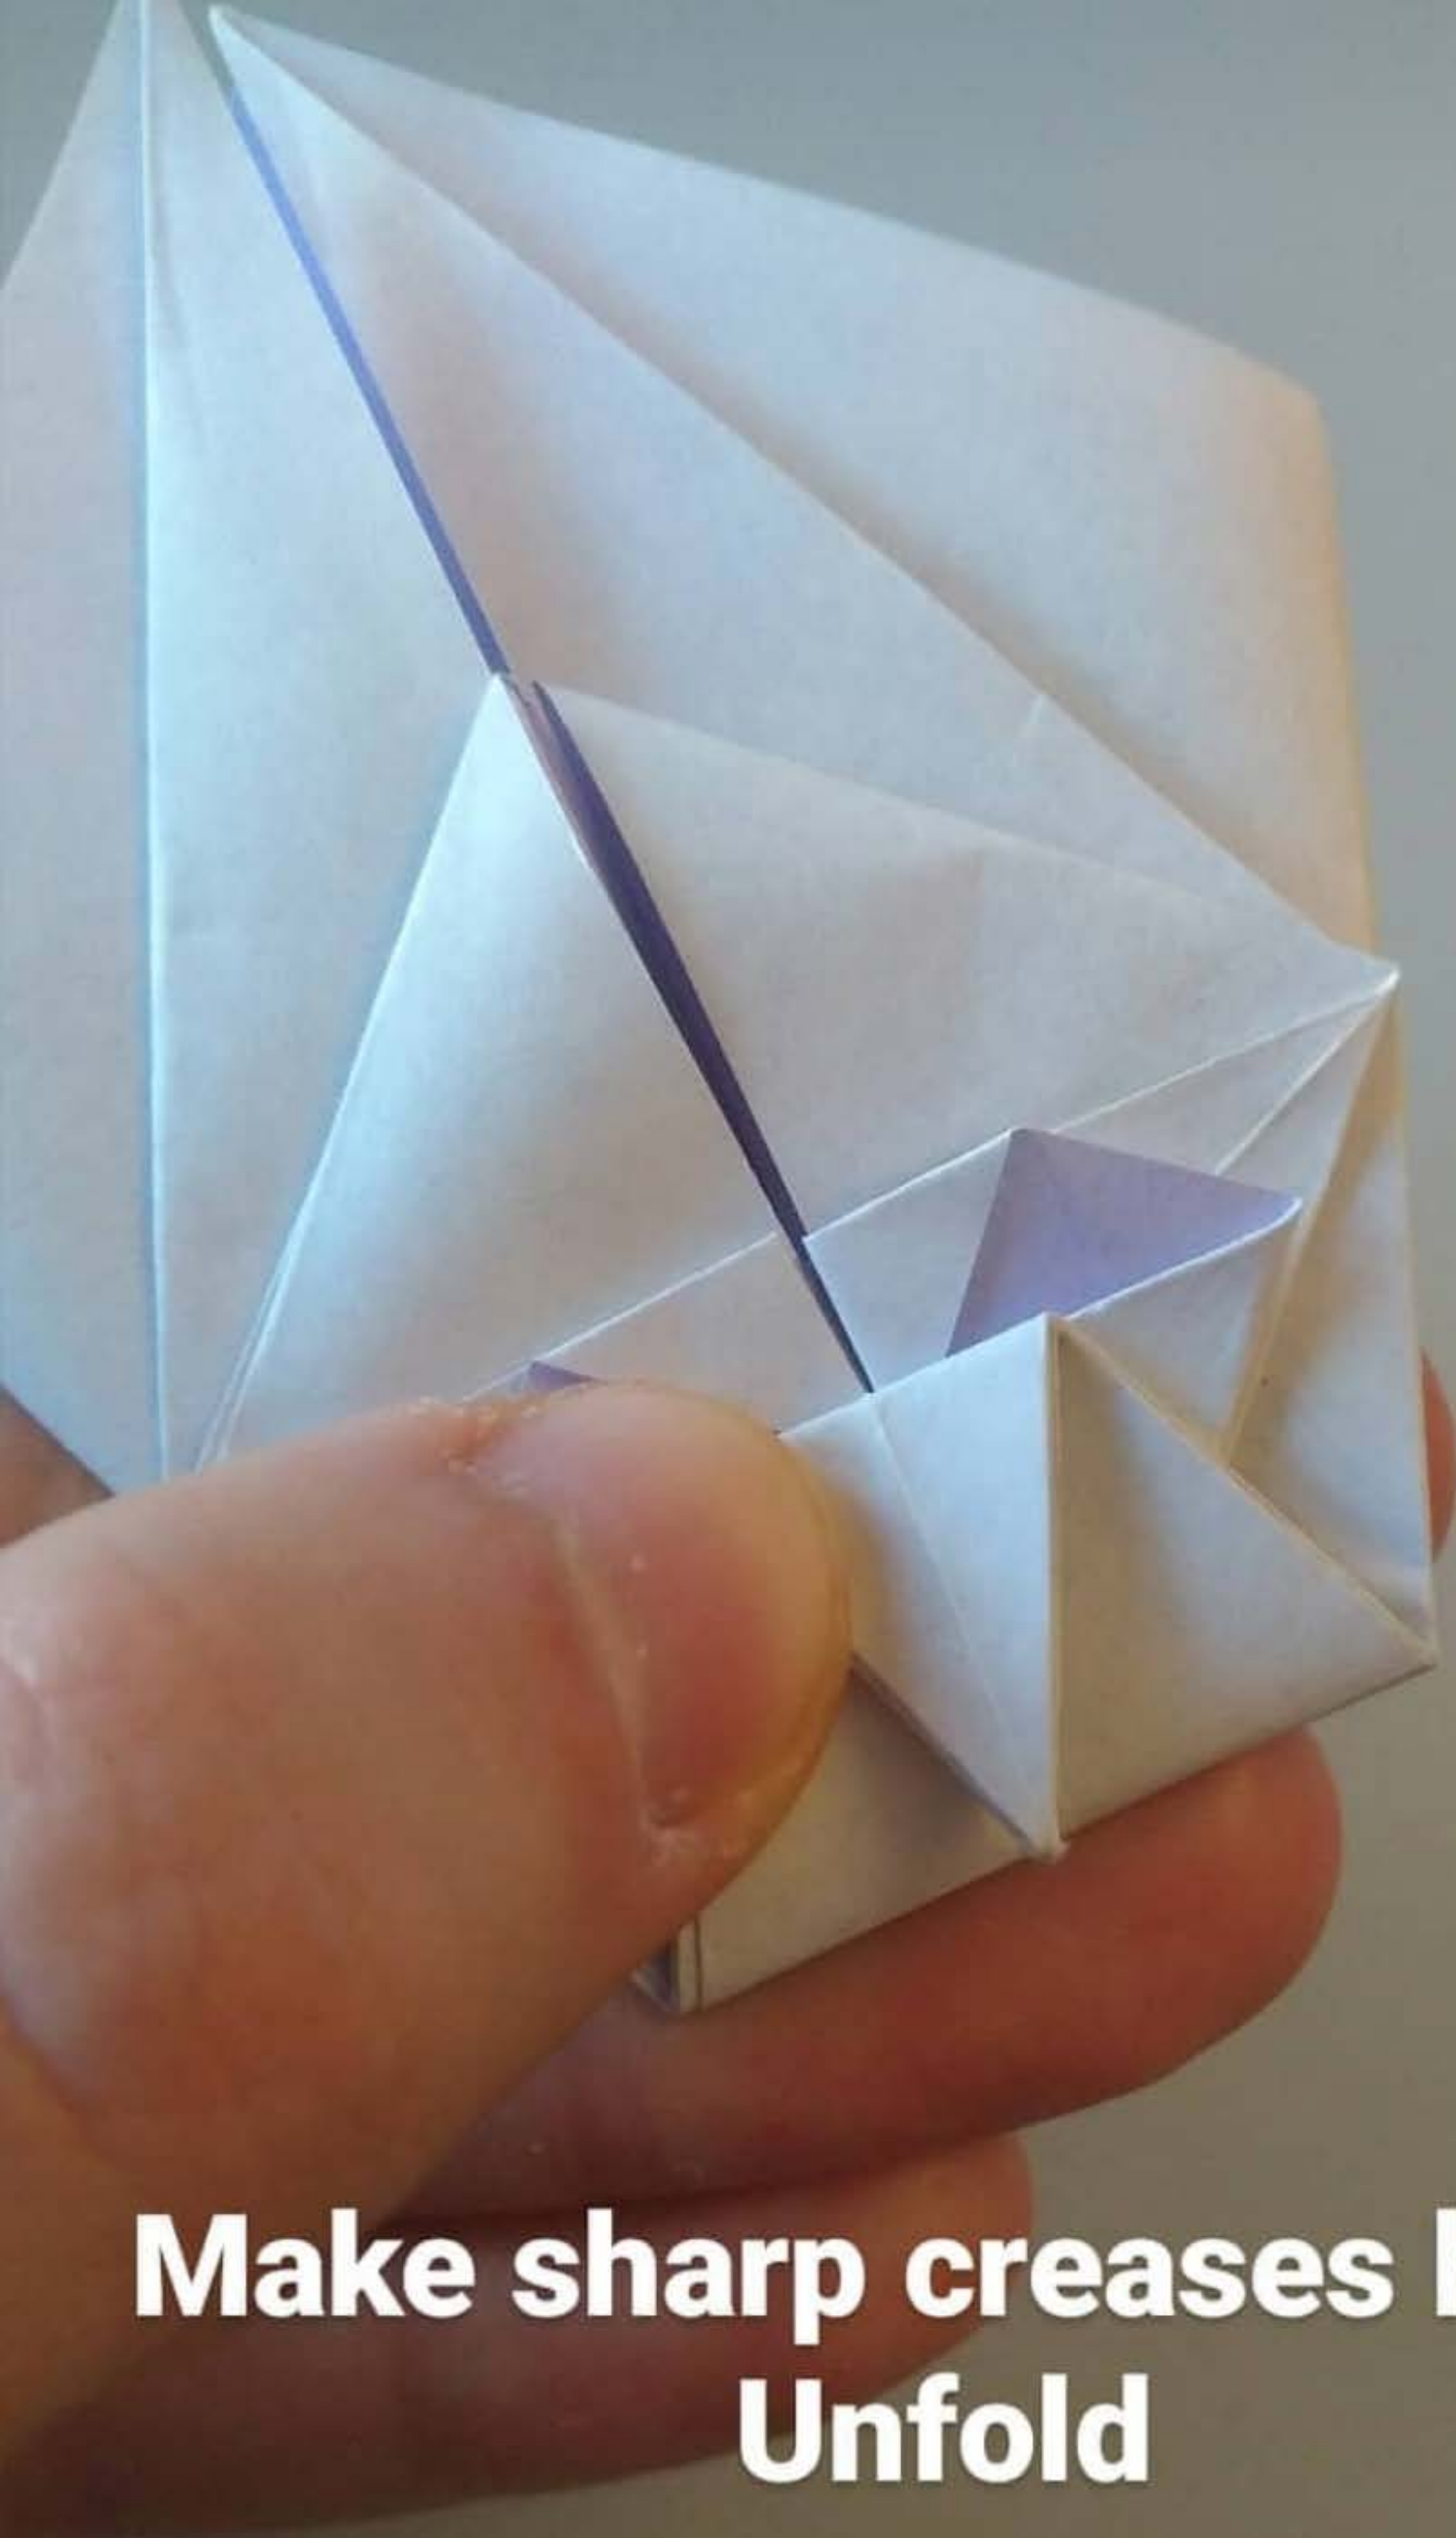

**Fold as shown**

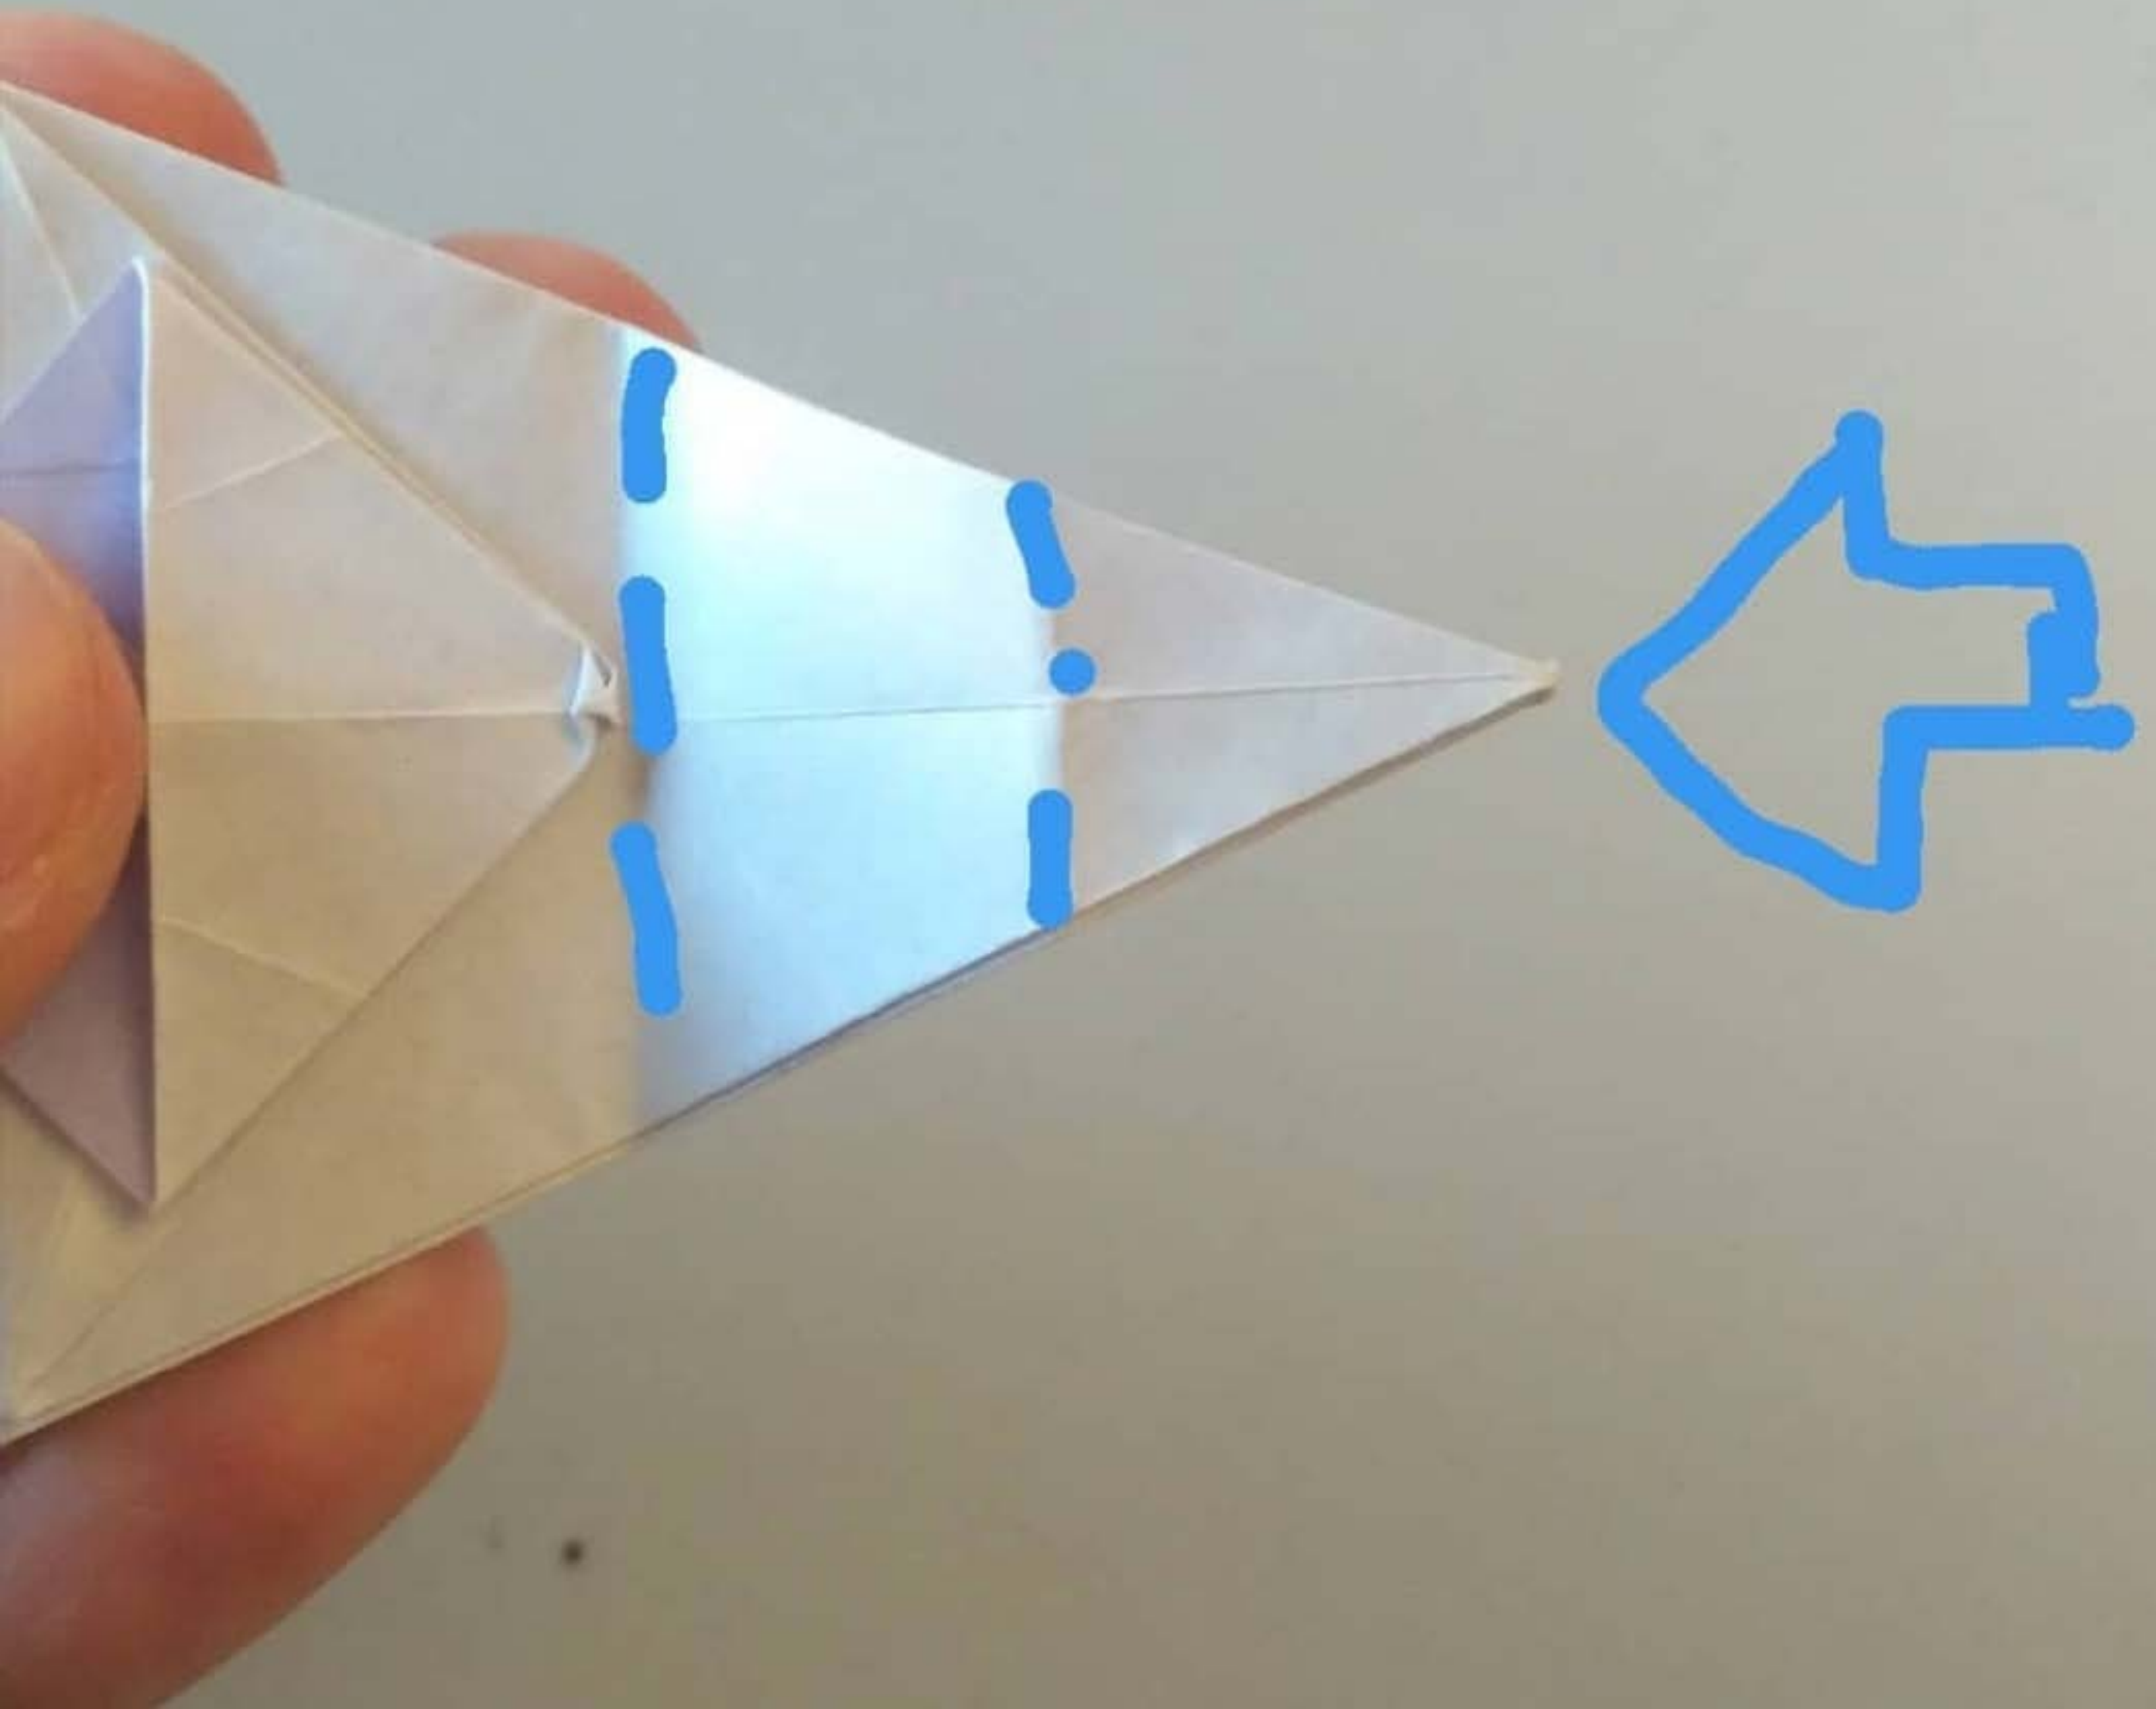

**Fold in half**

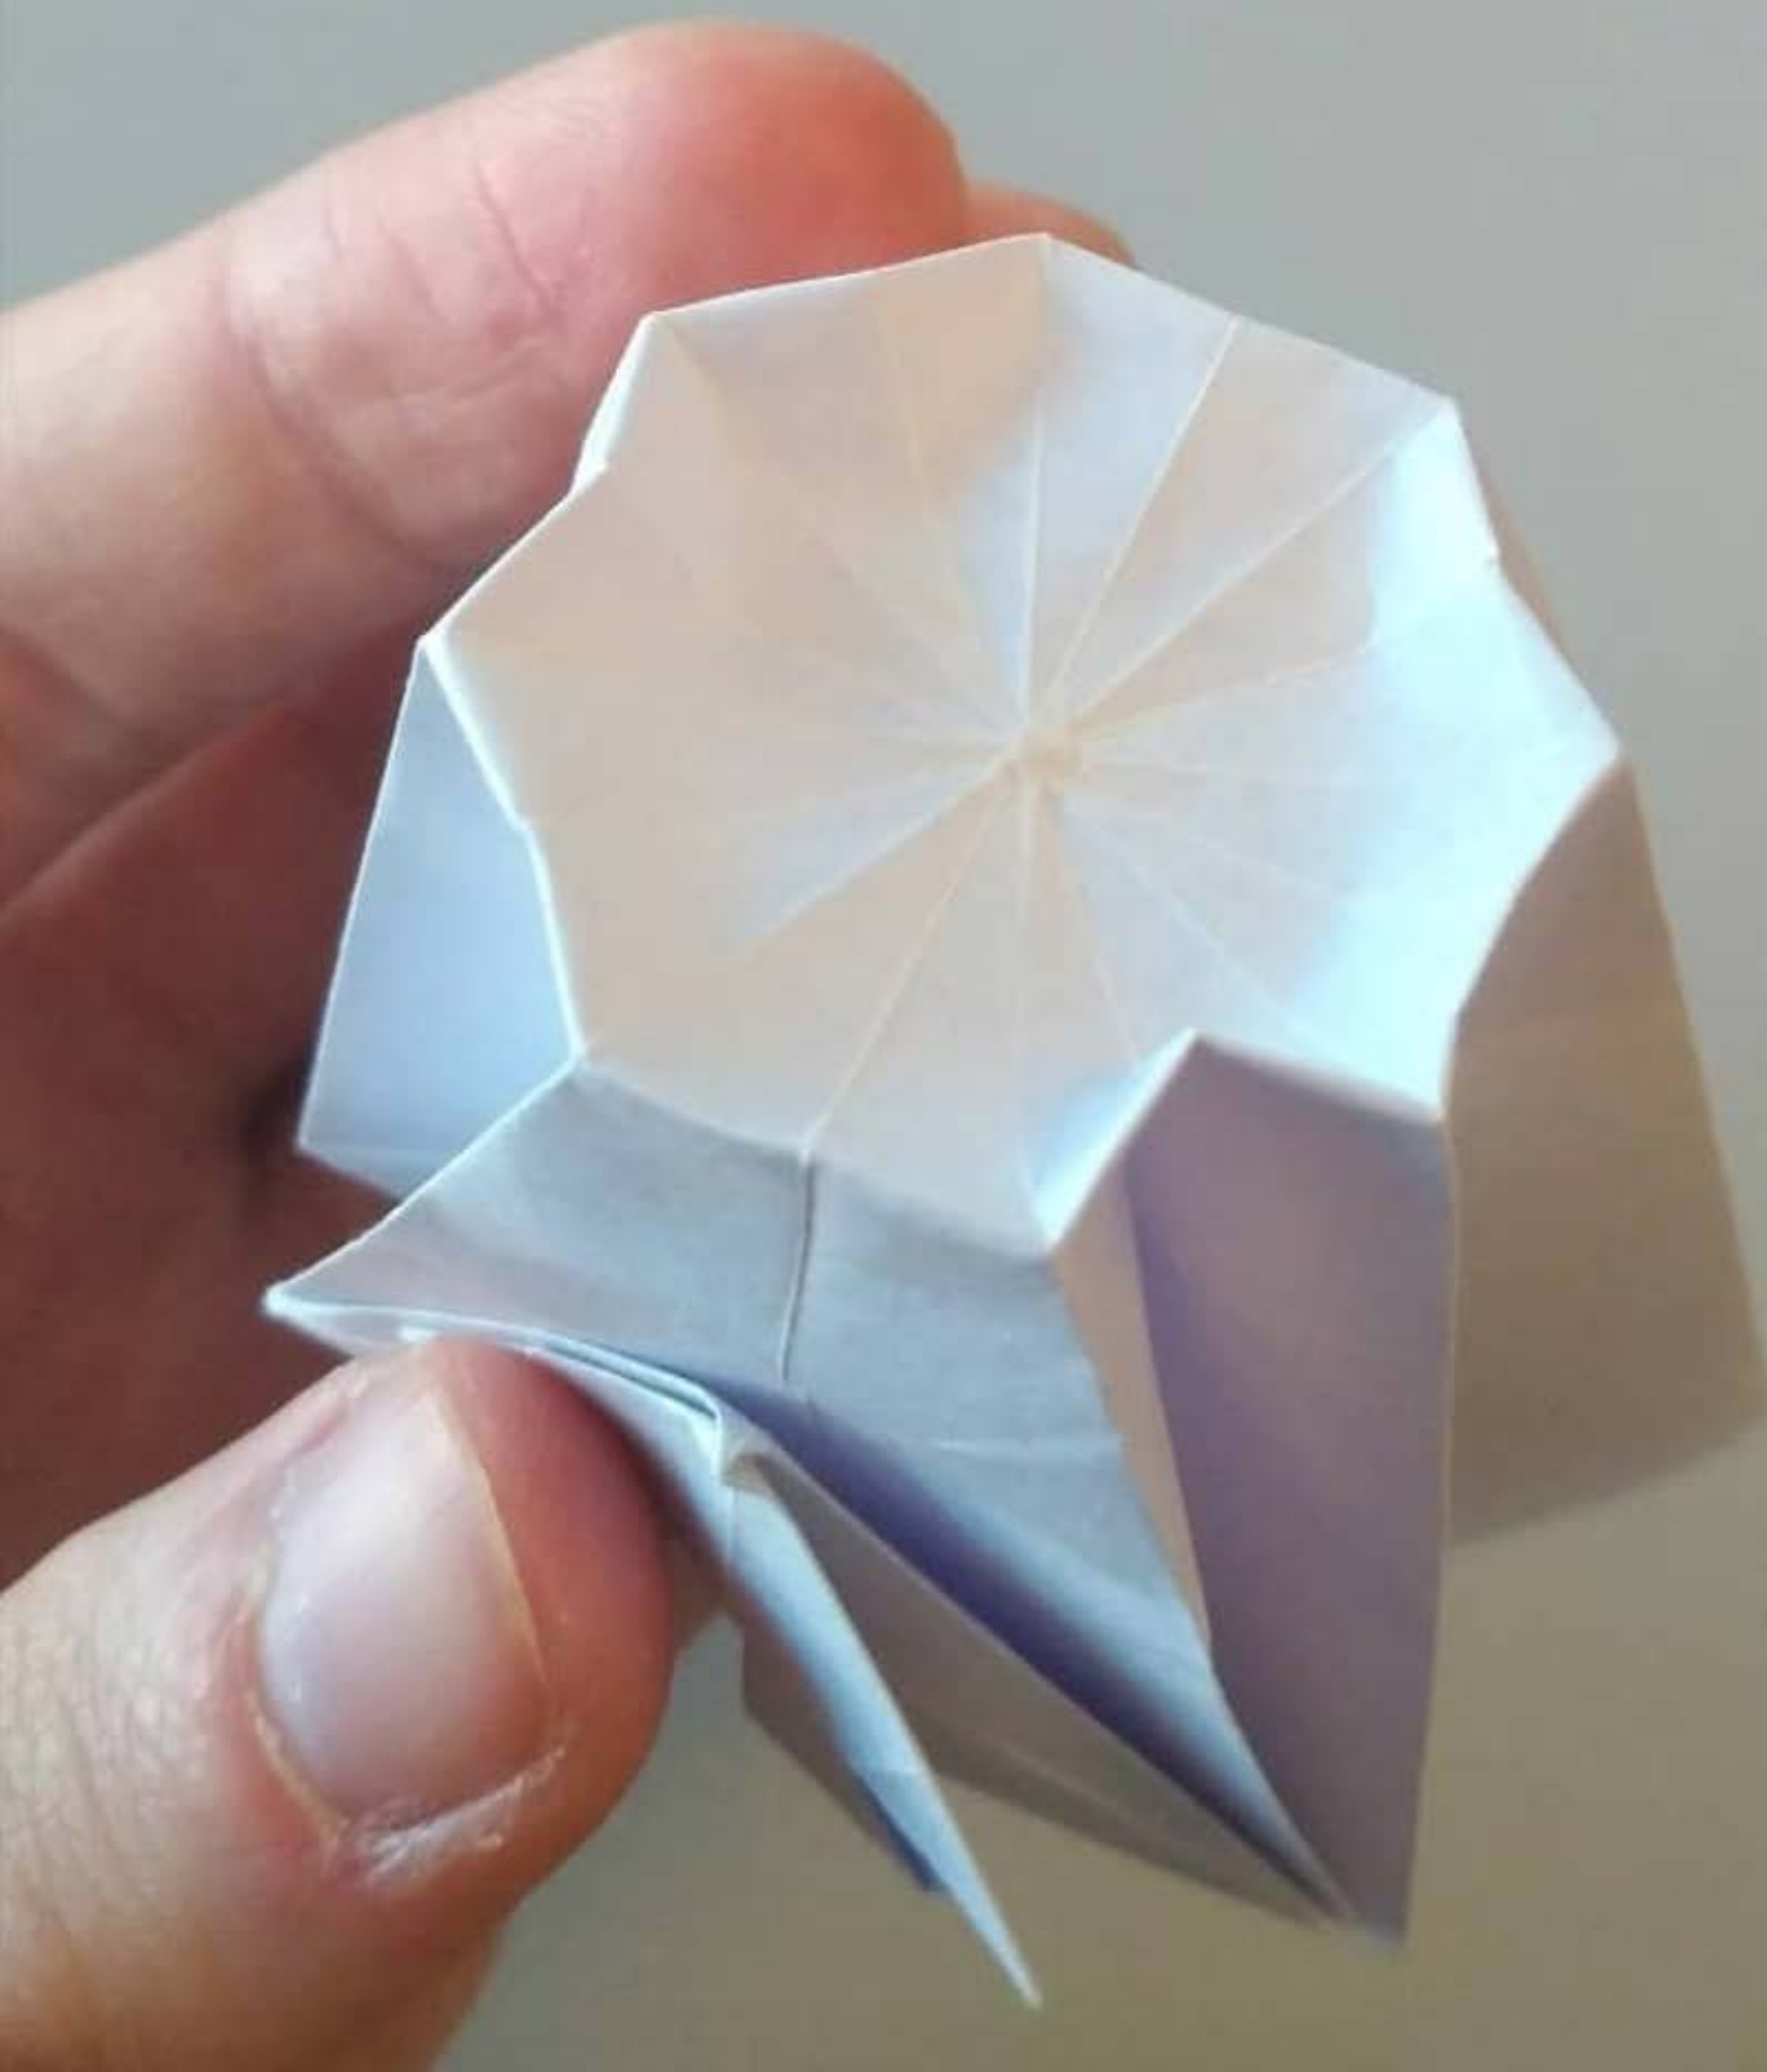

**Make sharp creases here.  
Unfold**

# Squash fold

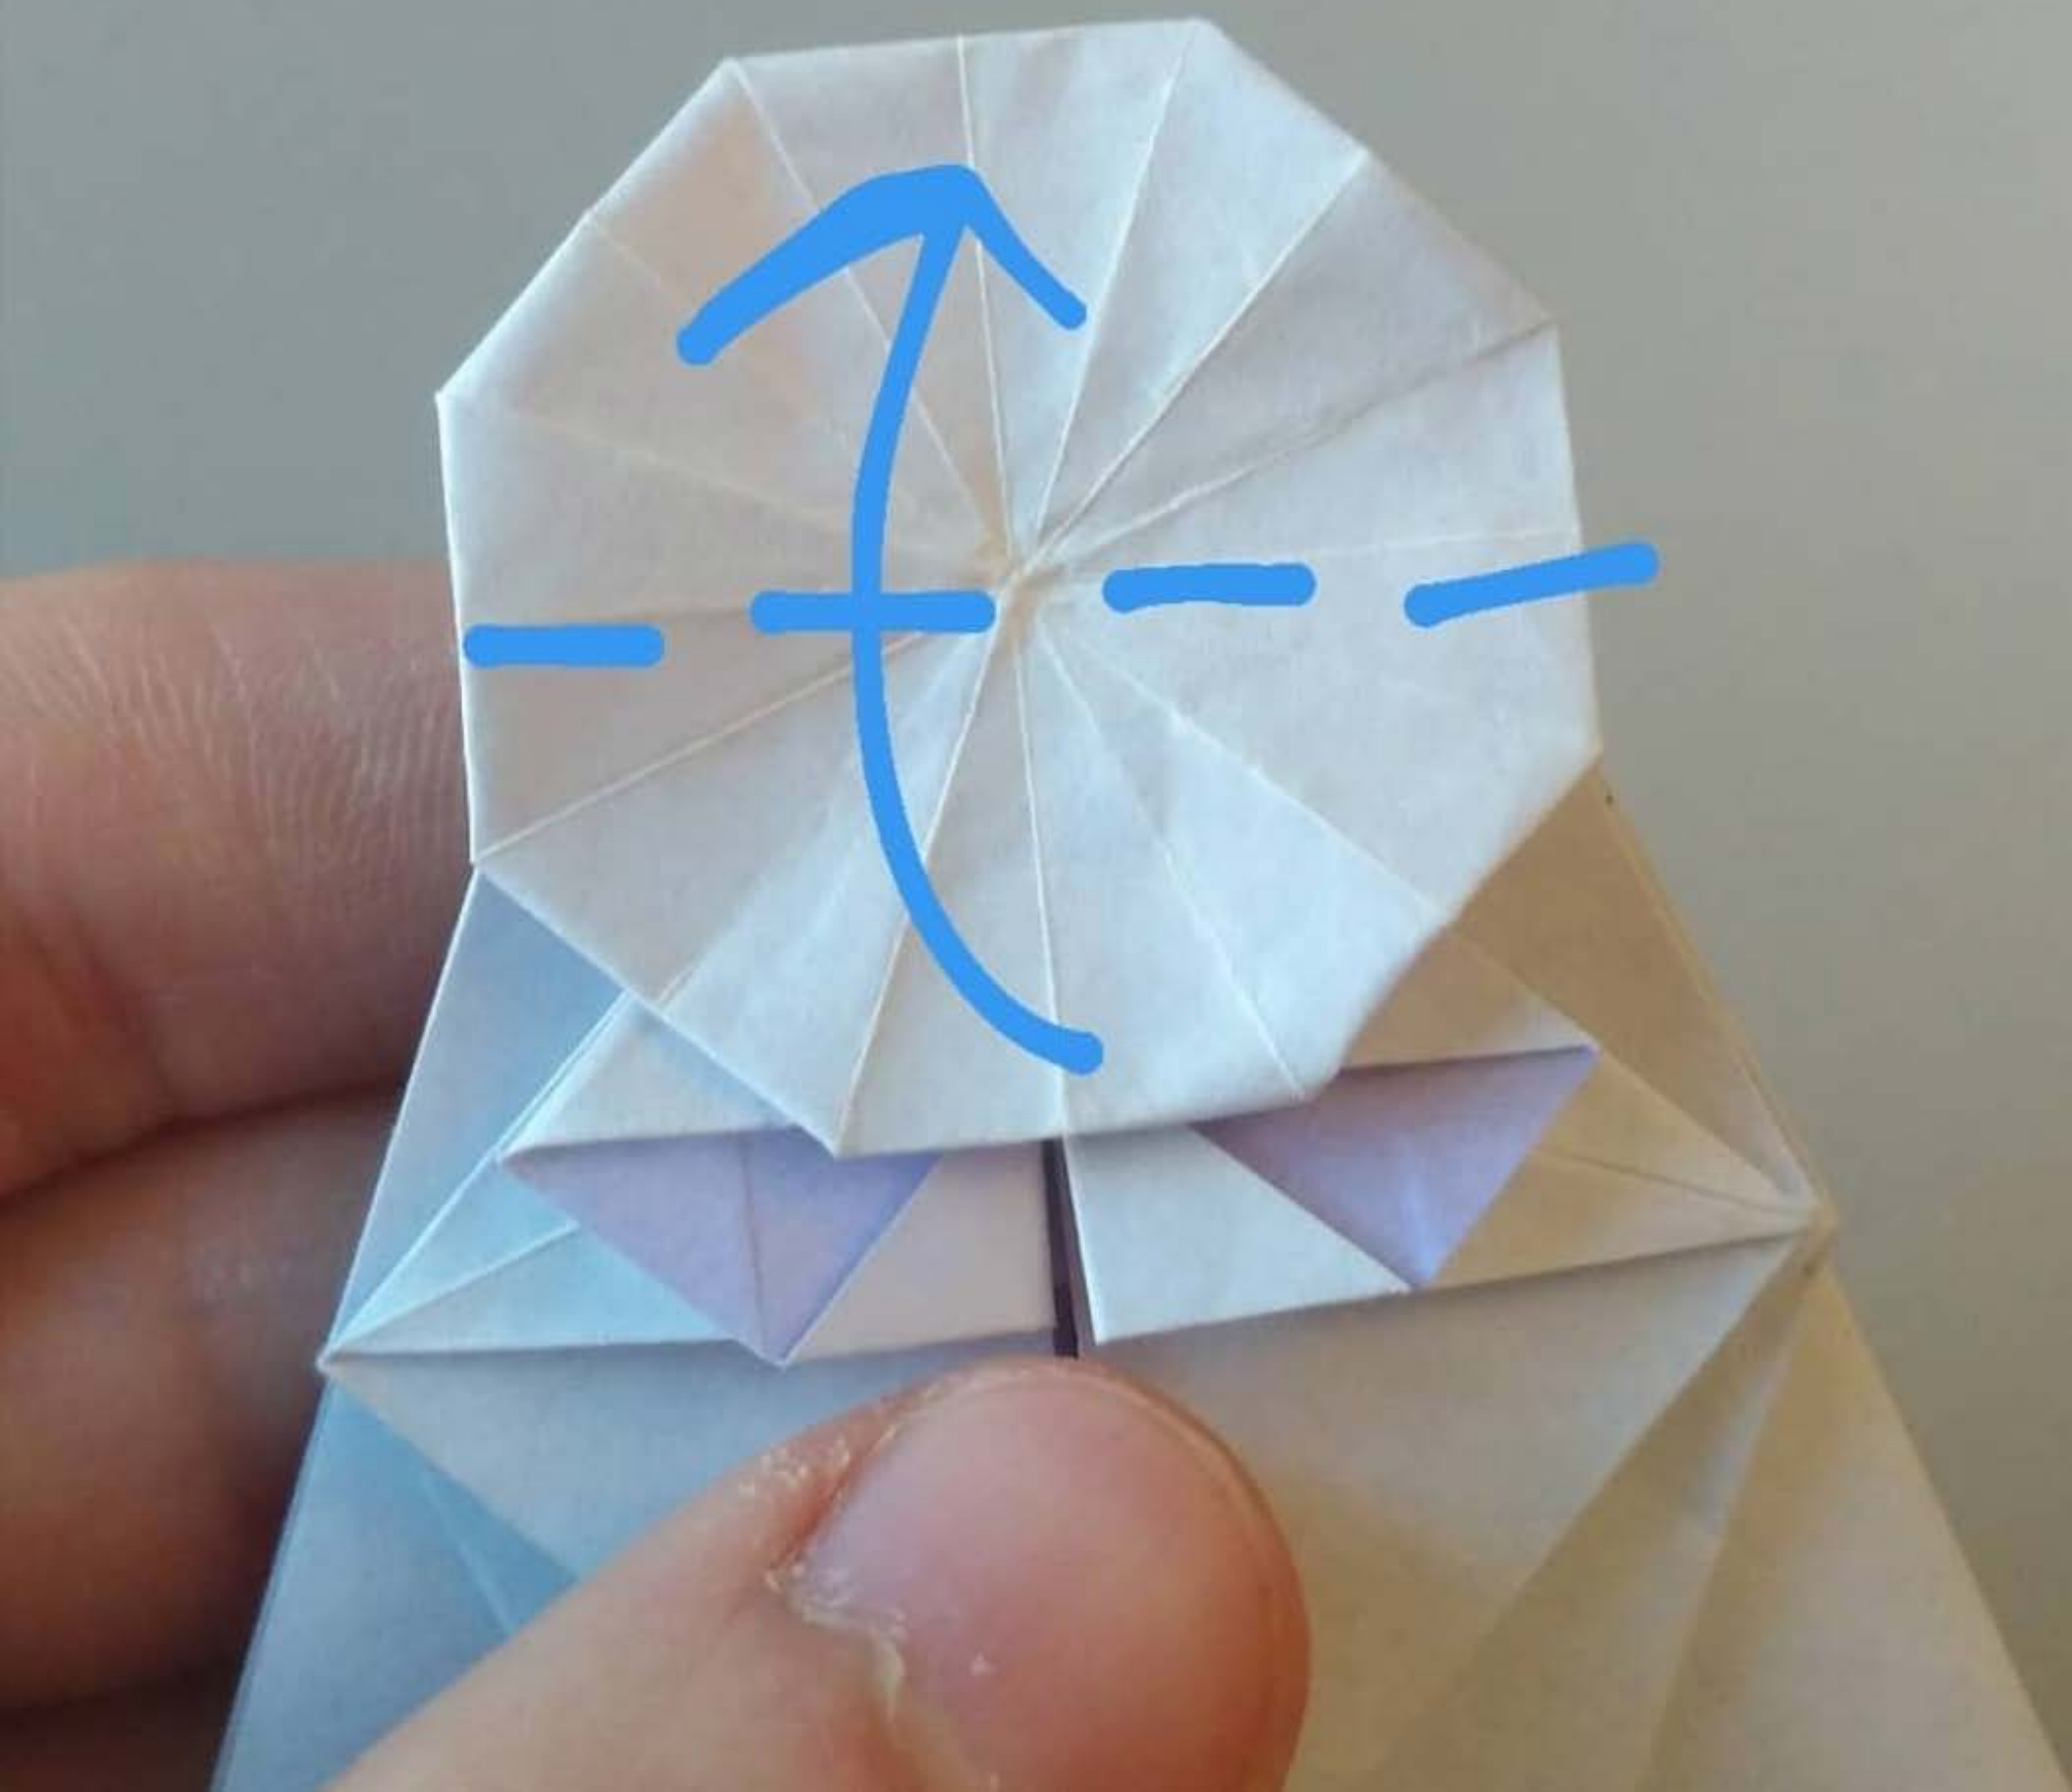

**...like this...**

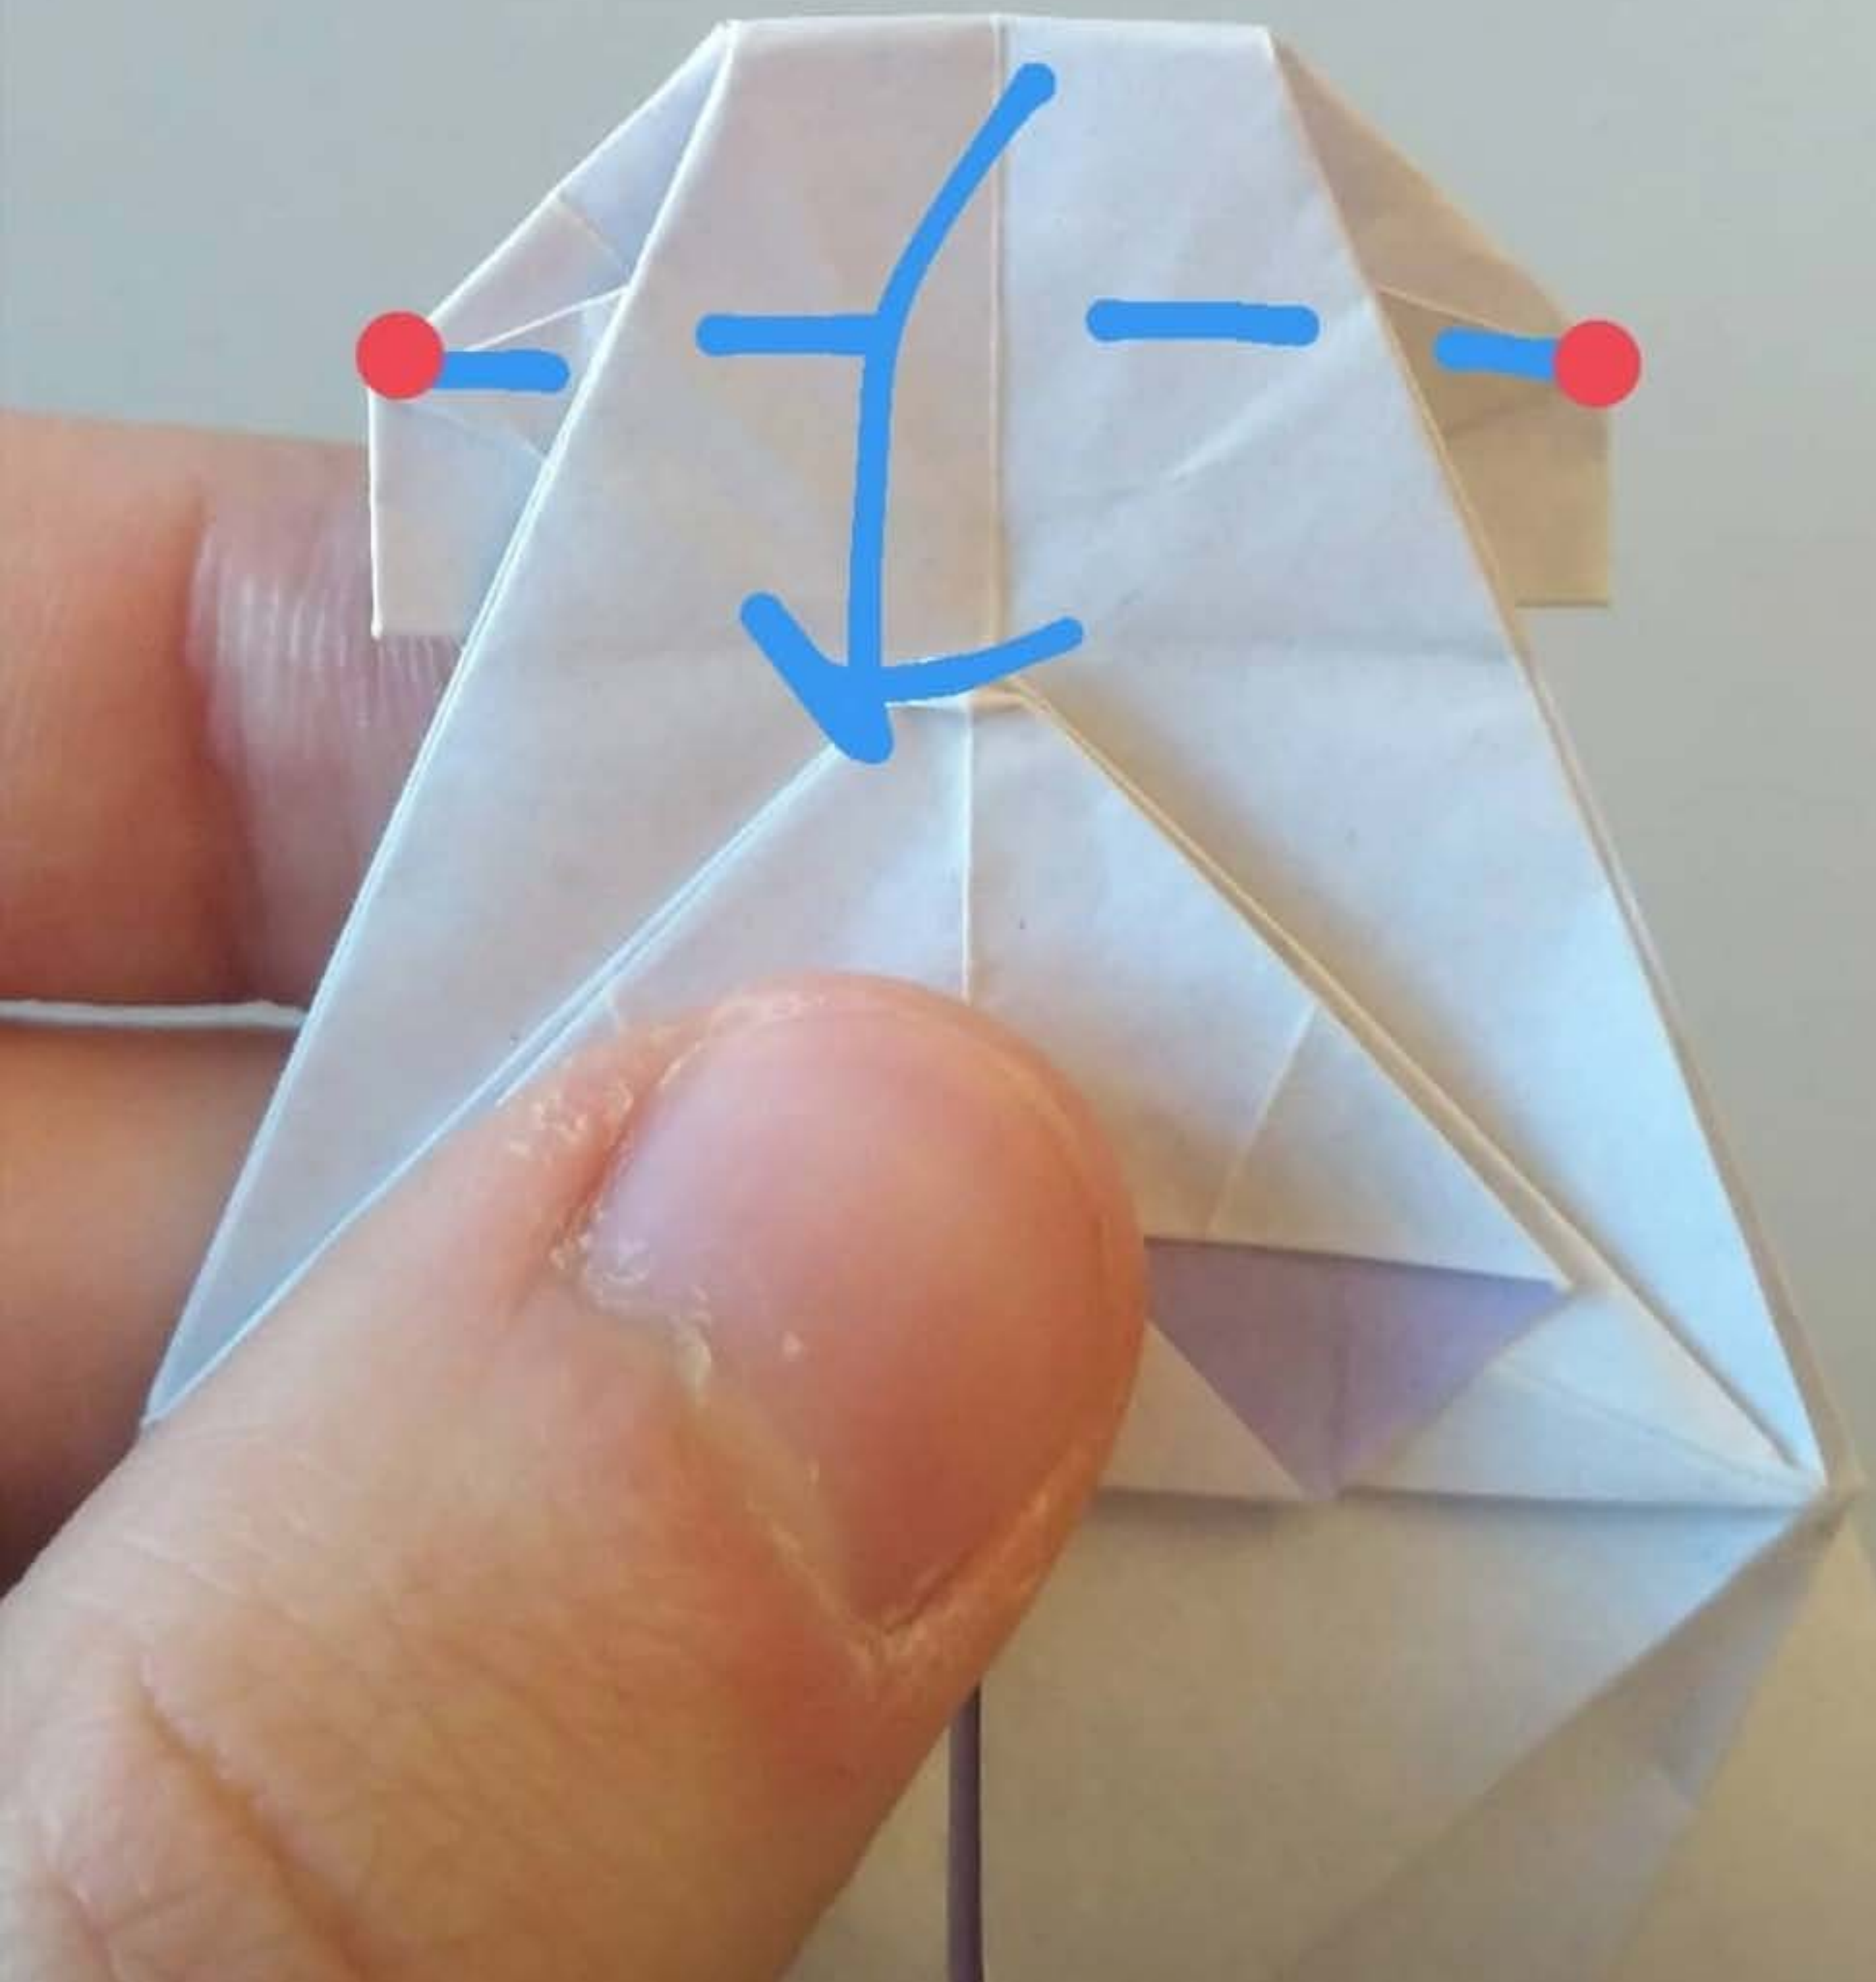

**...and flatten. Fold up in half**

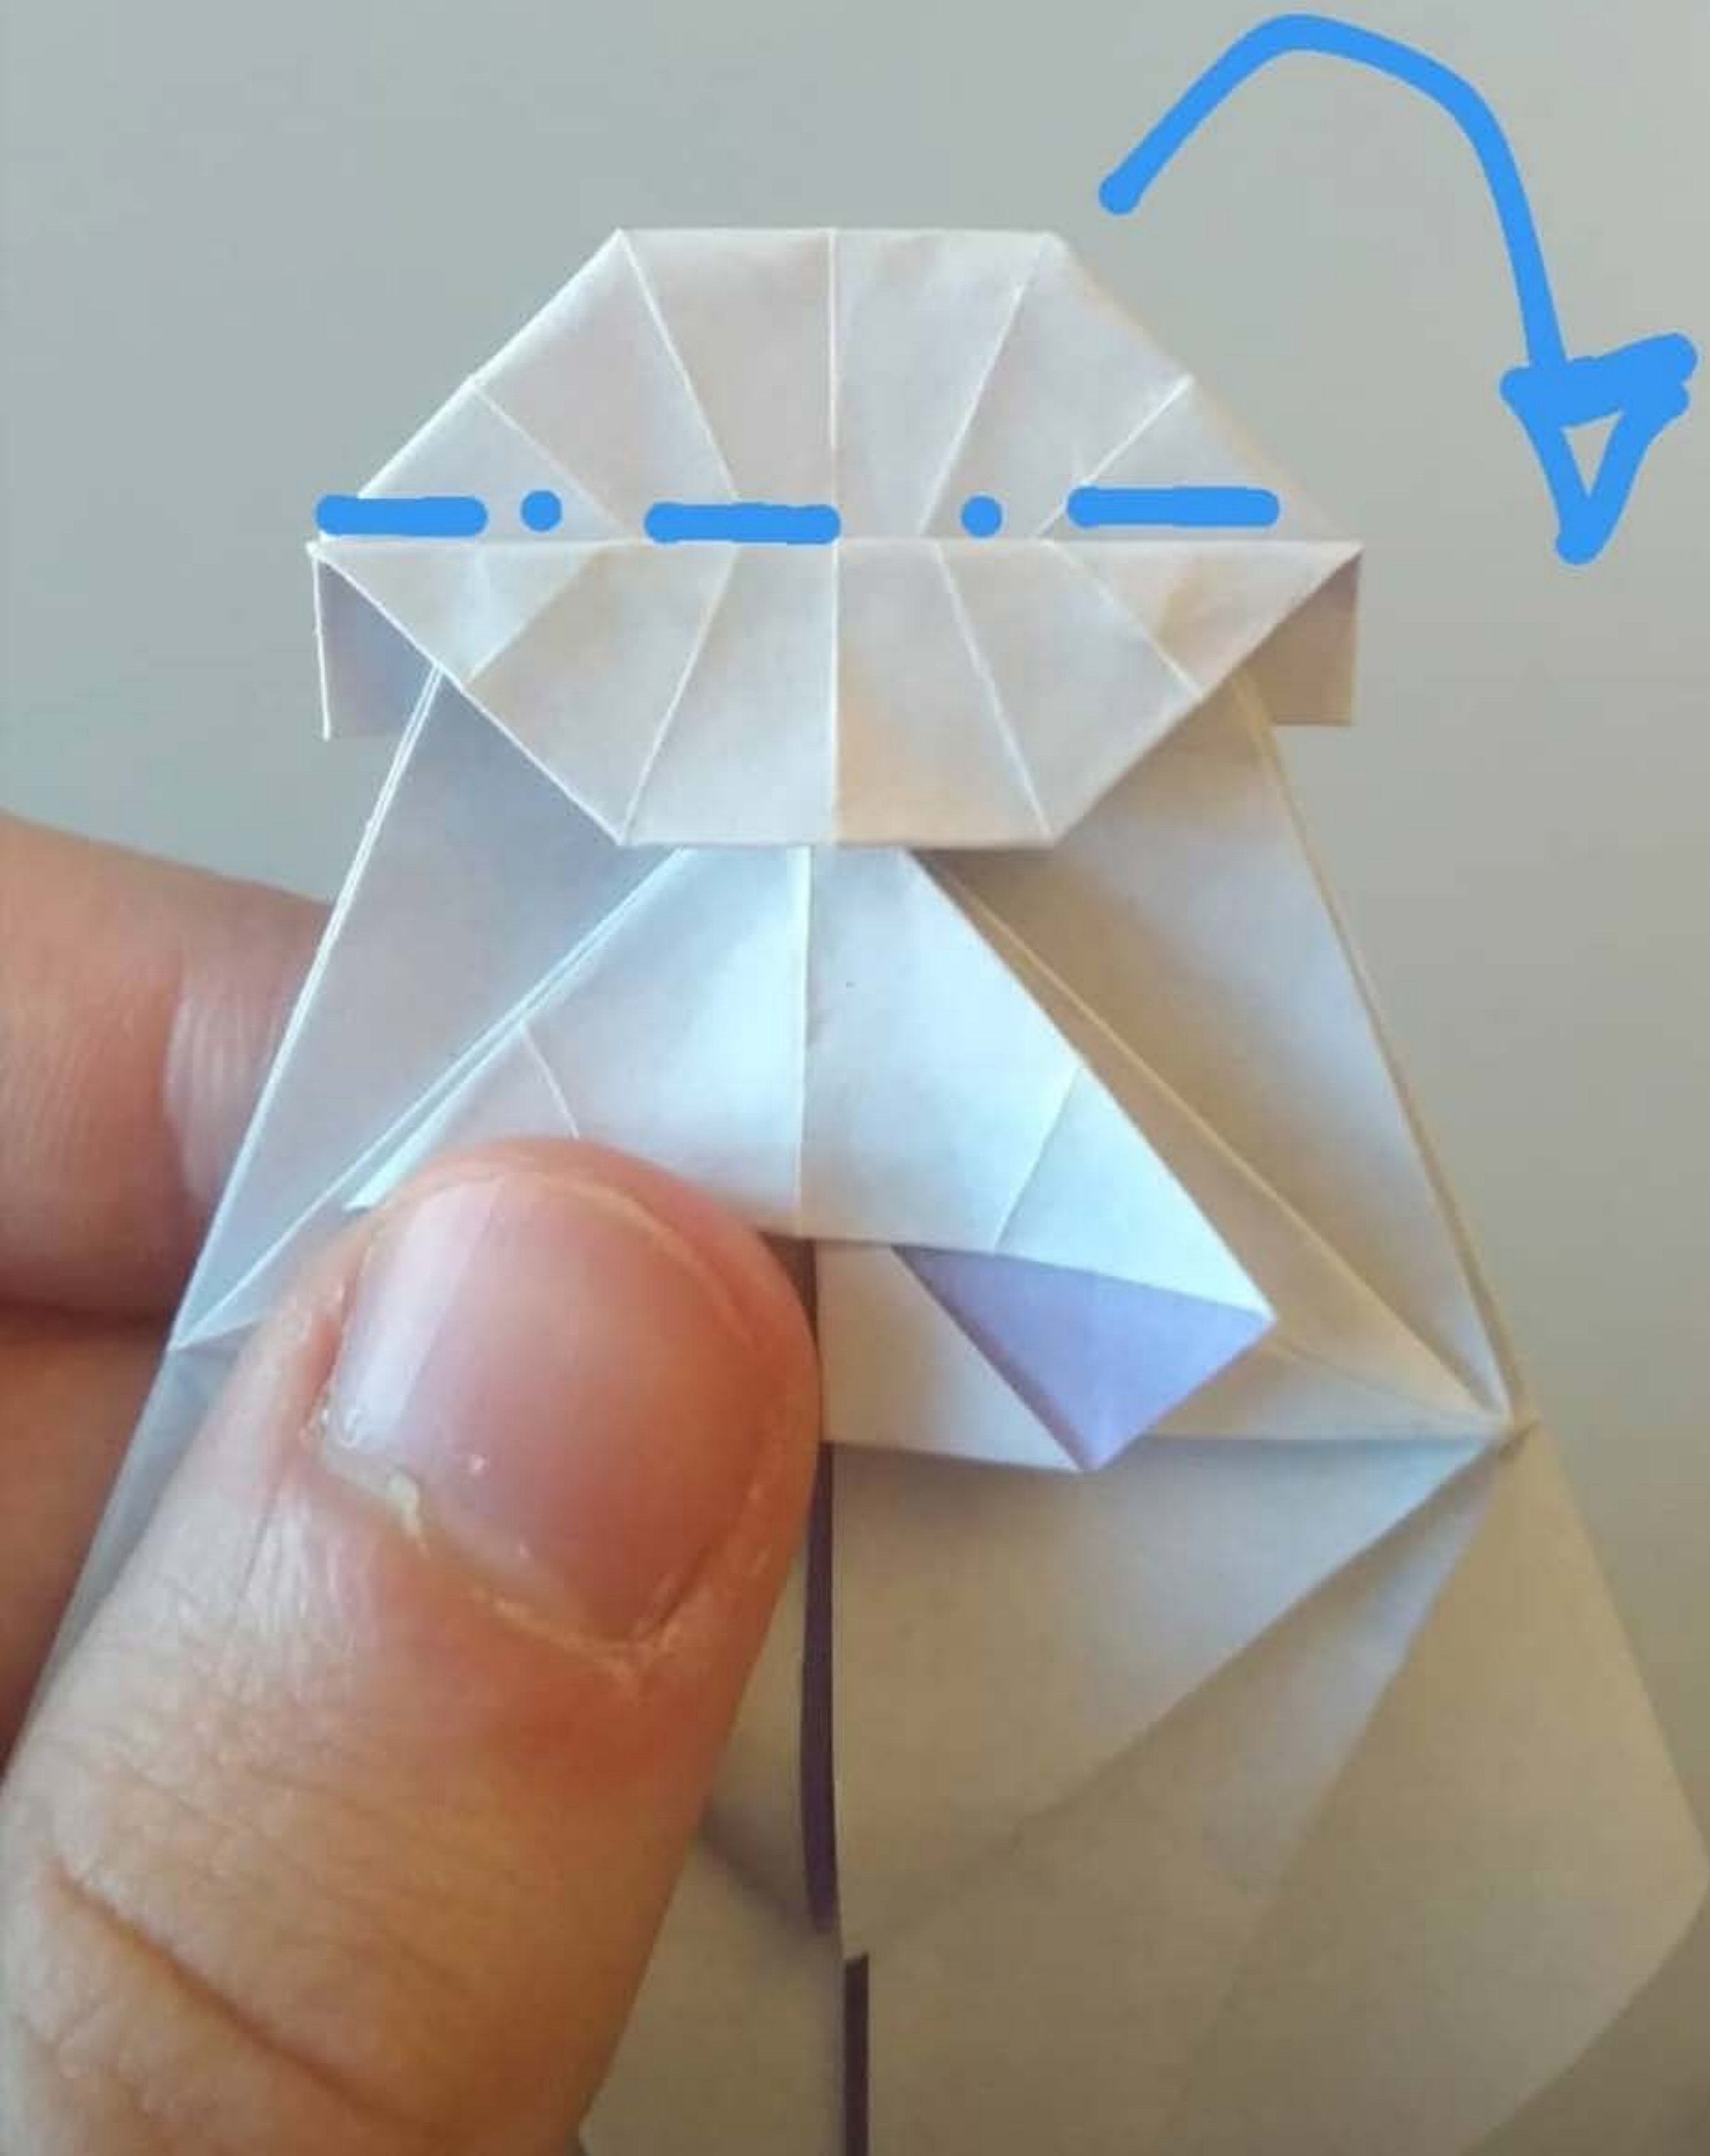

**Fold down as shown**

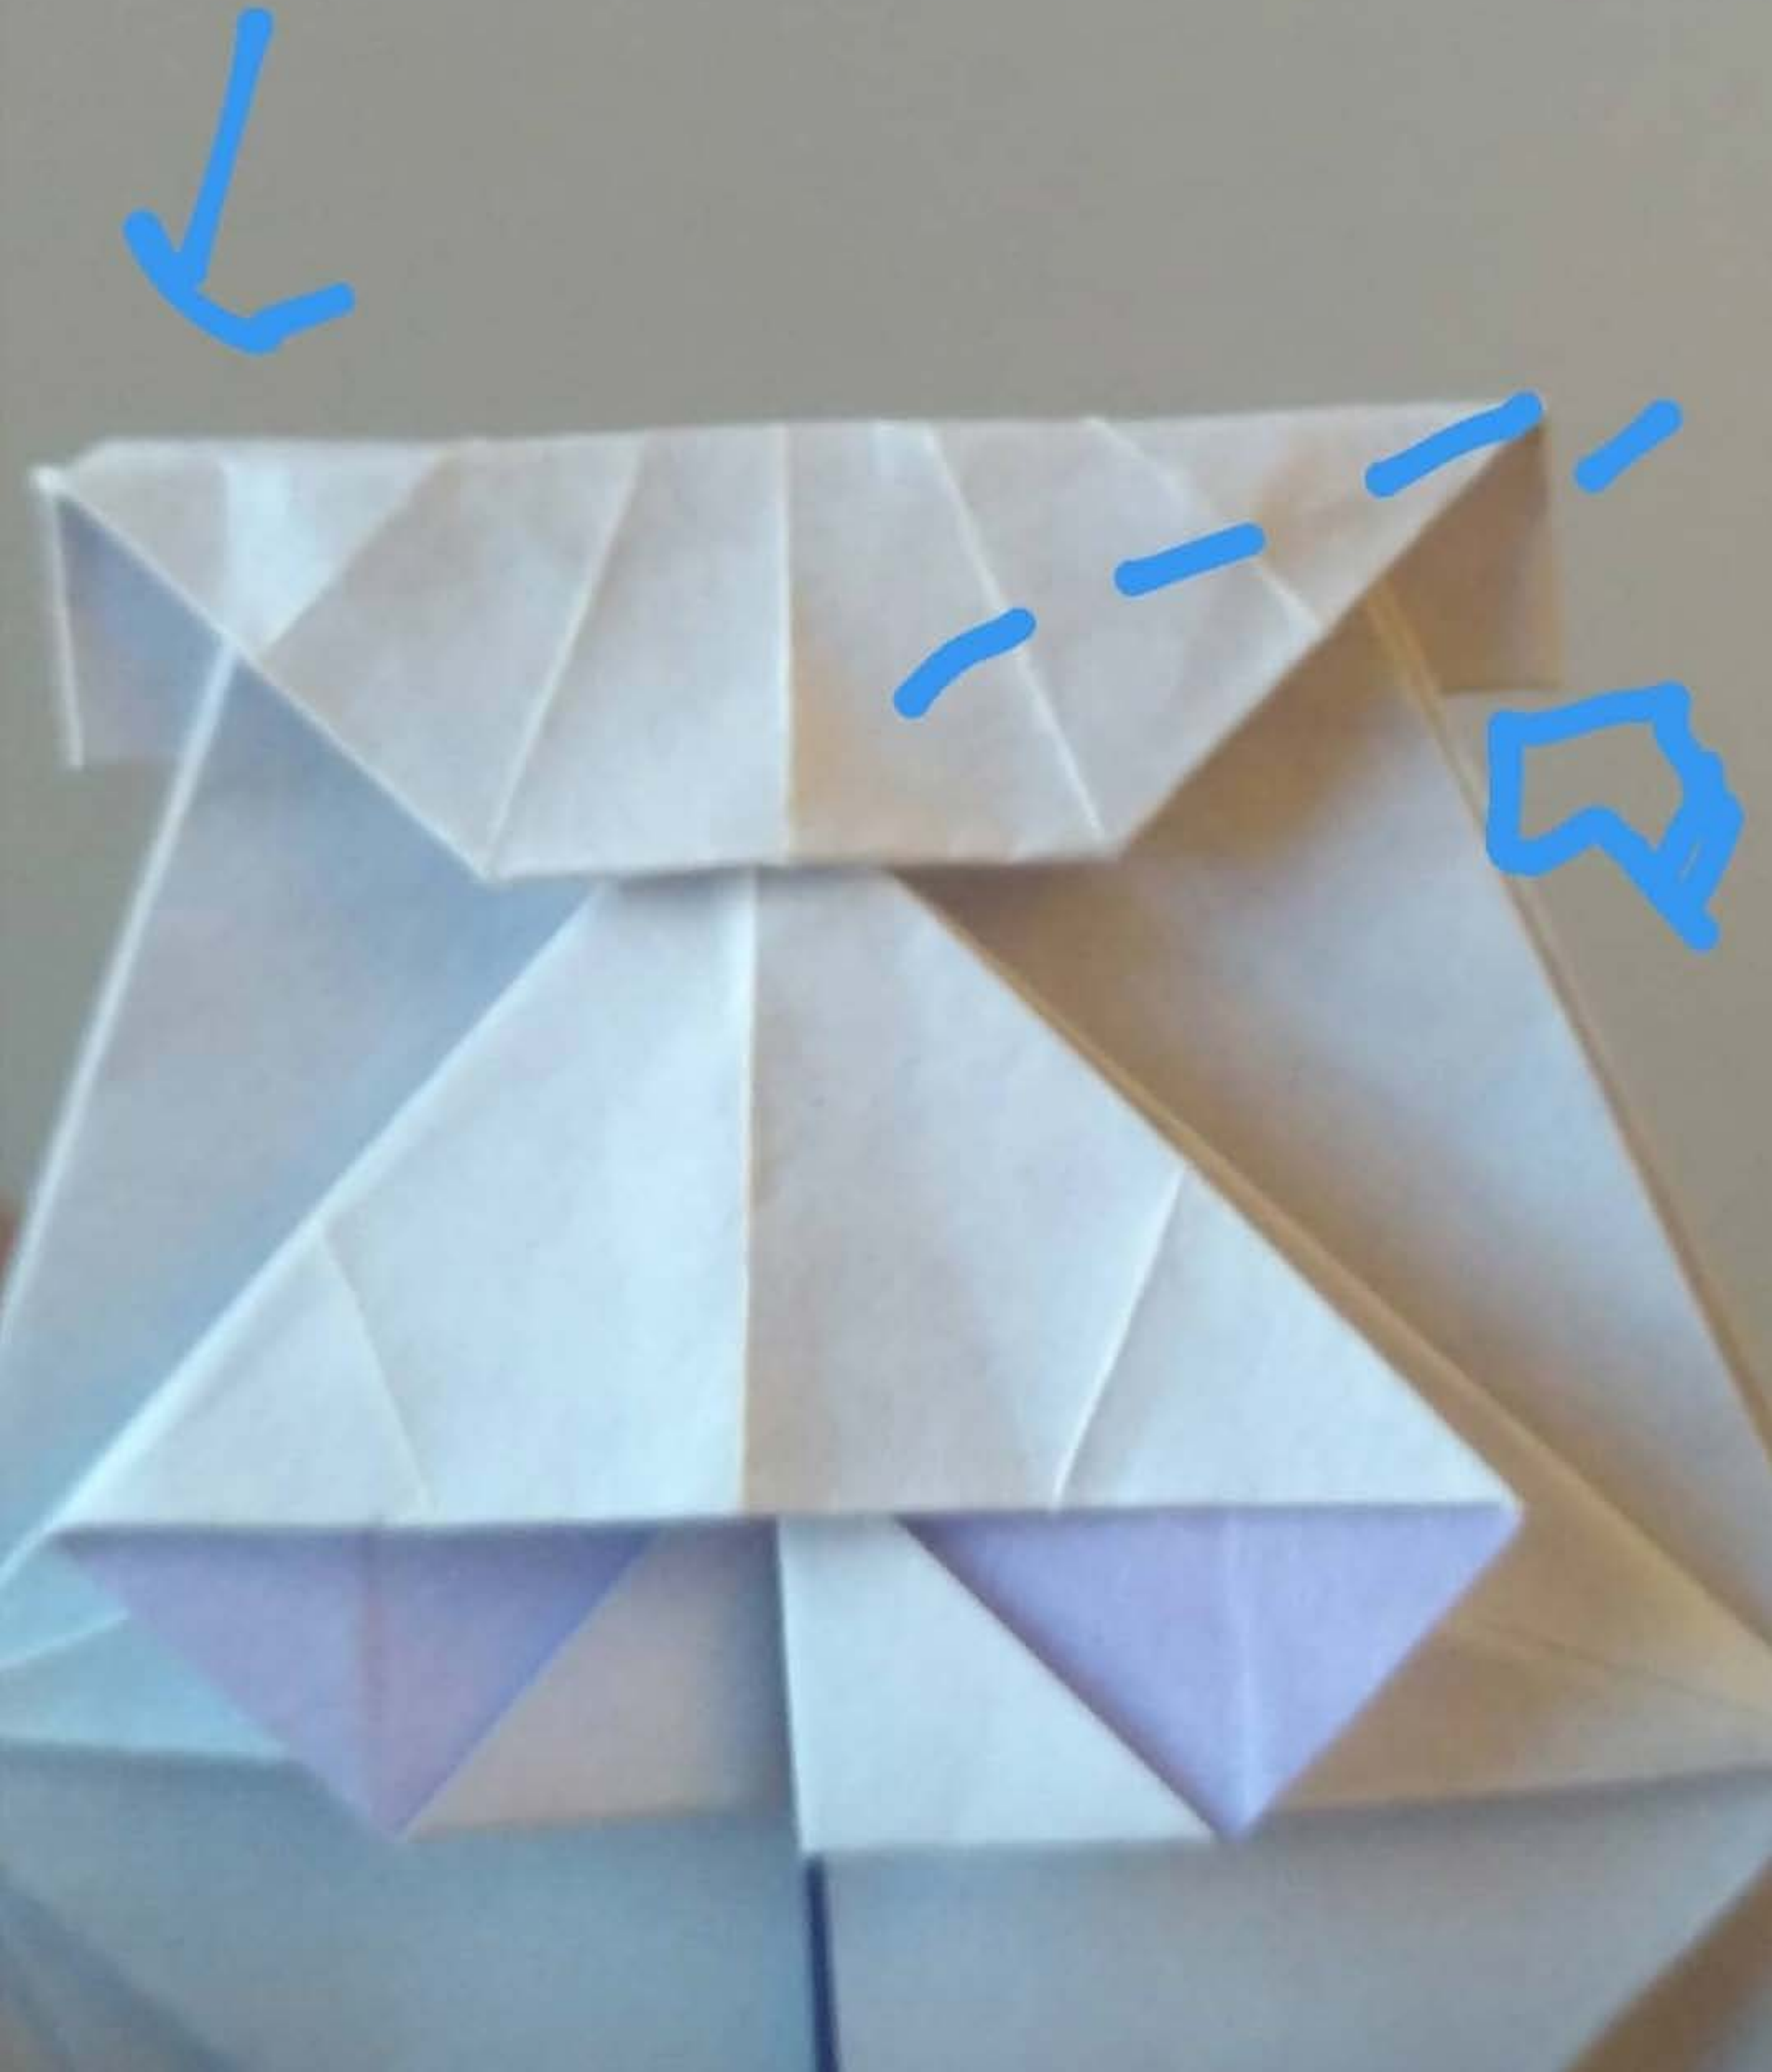

**Repeat behind**

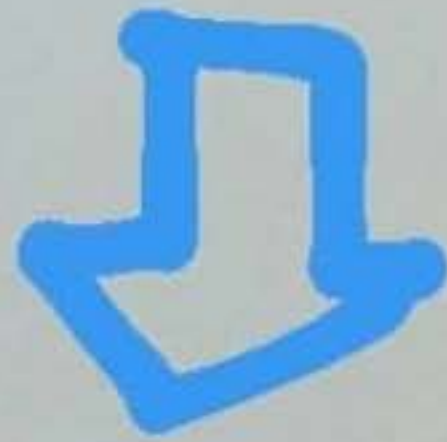

**Make an inside reverse fold on  
both sides**

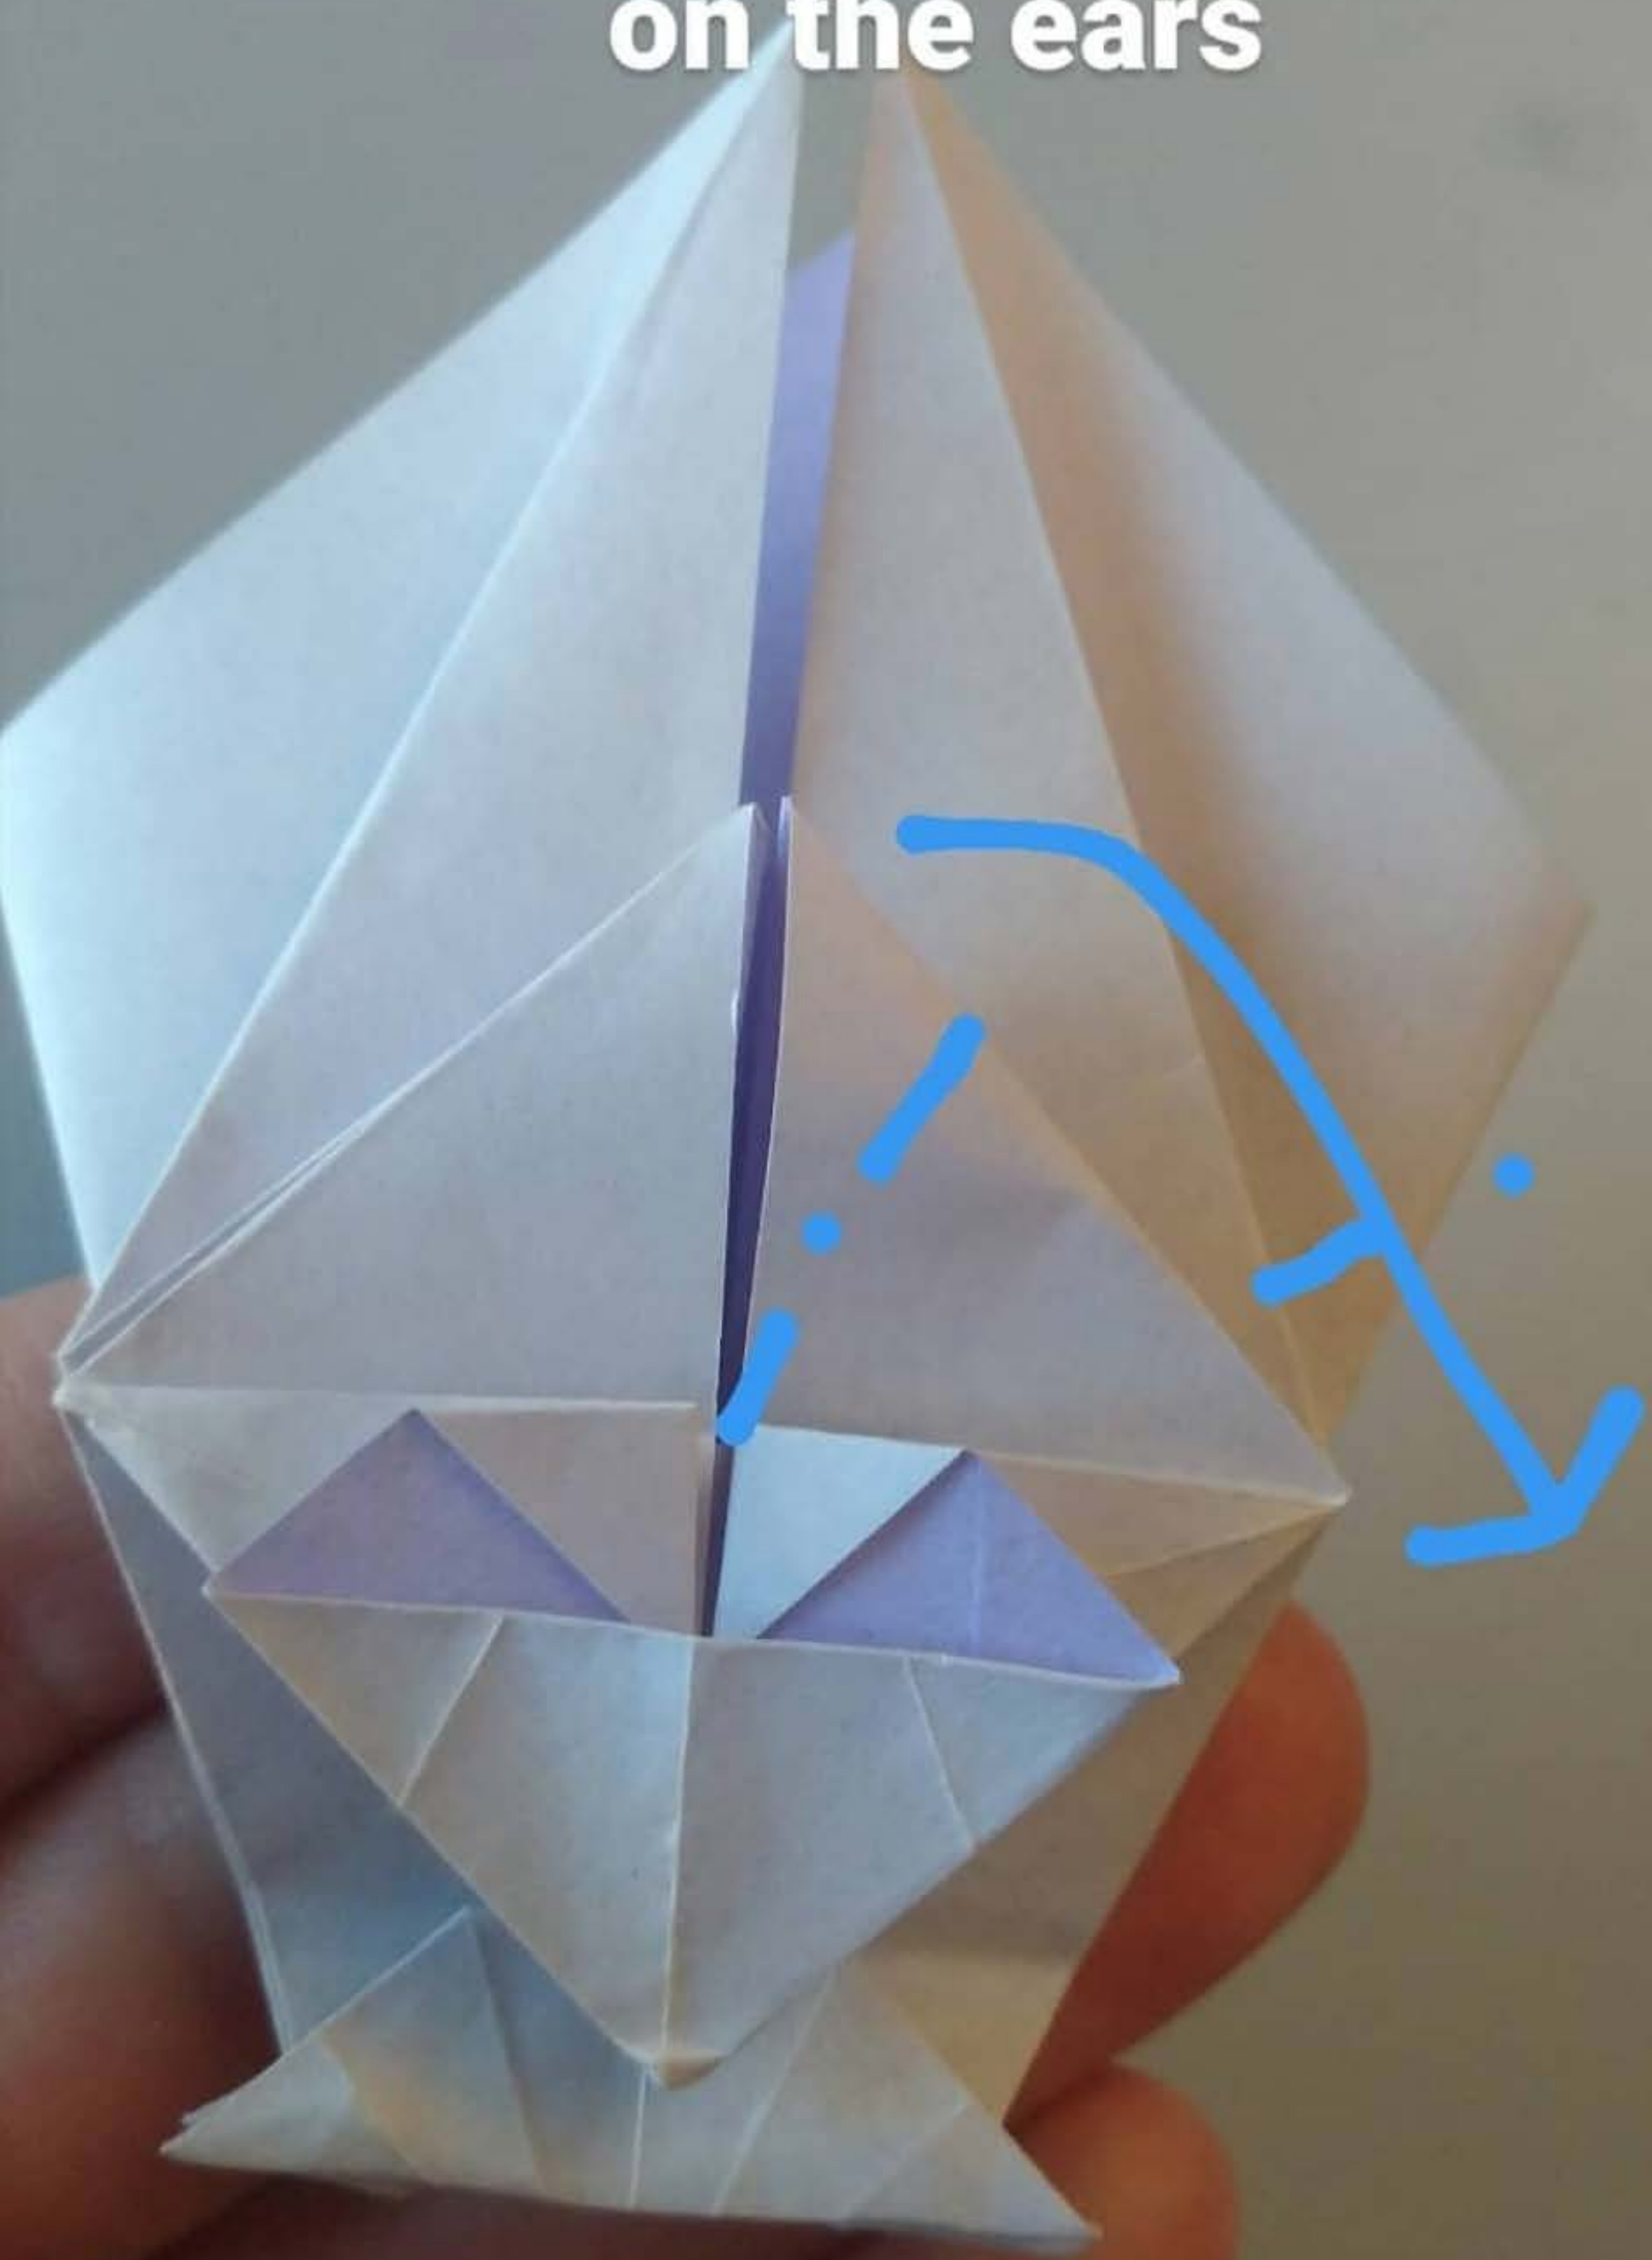

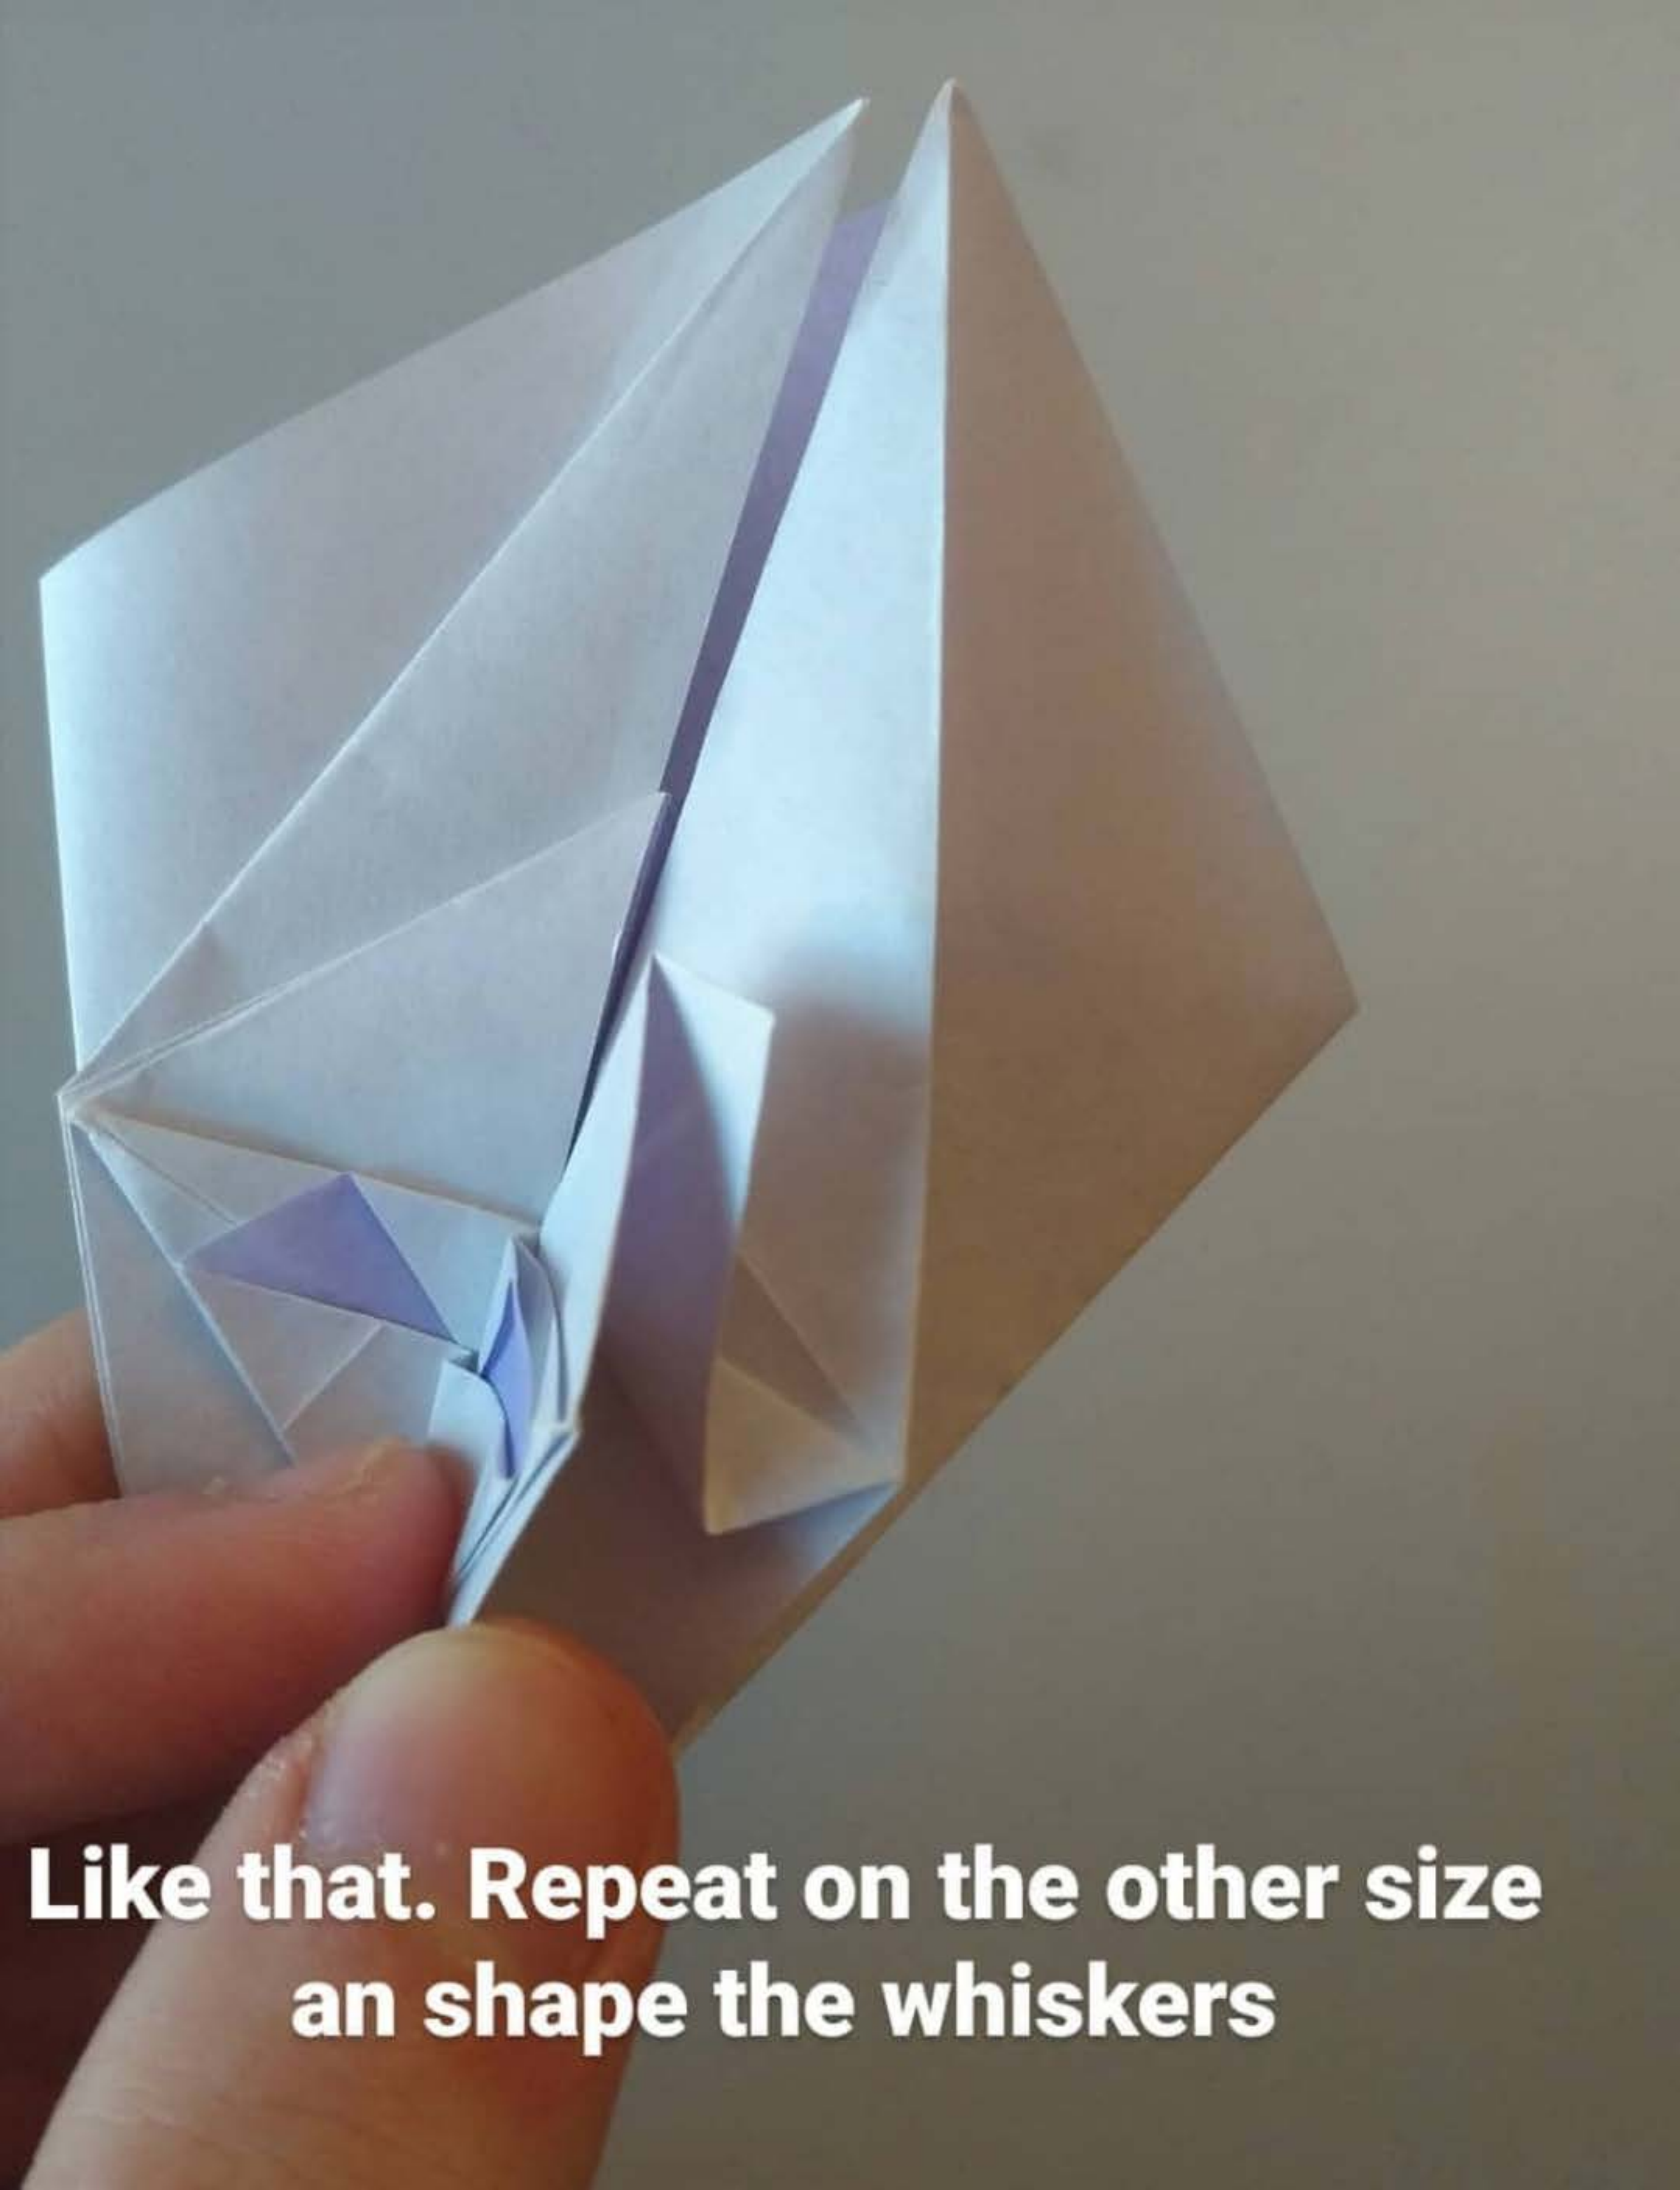

**And again. Repeat on the  
other side**

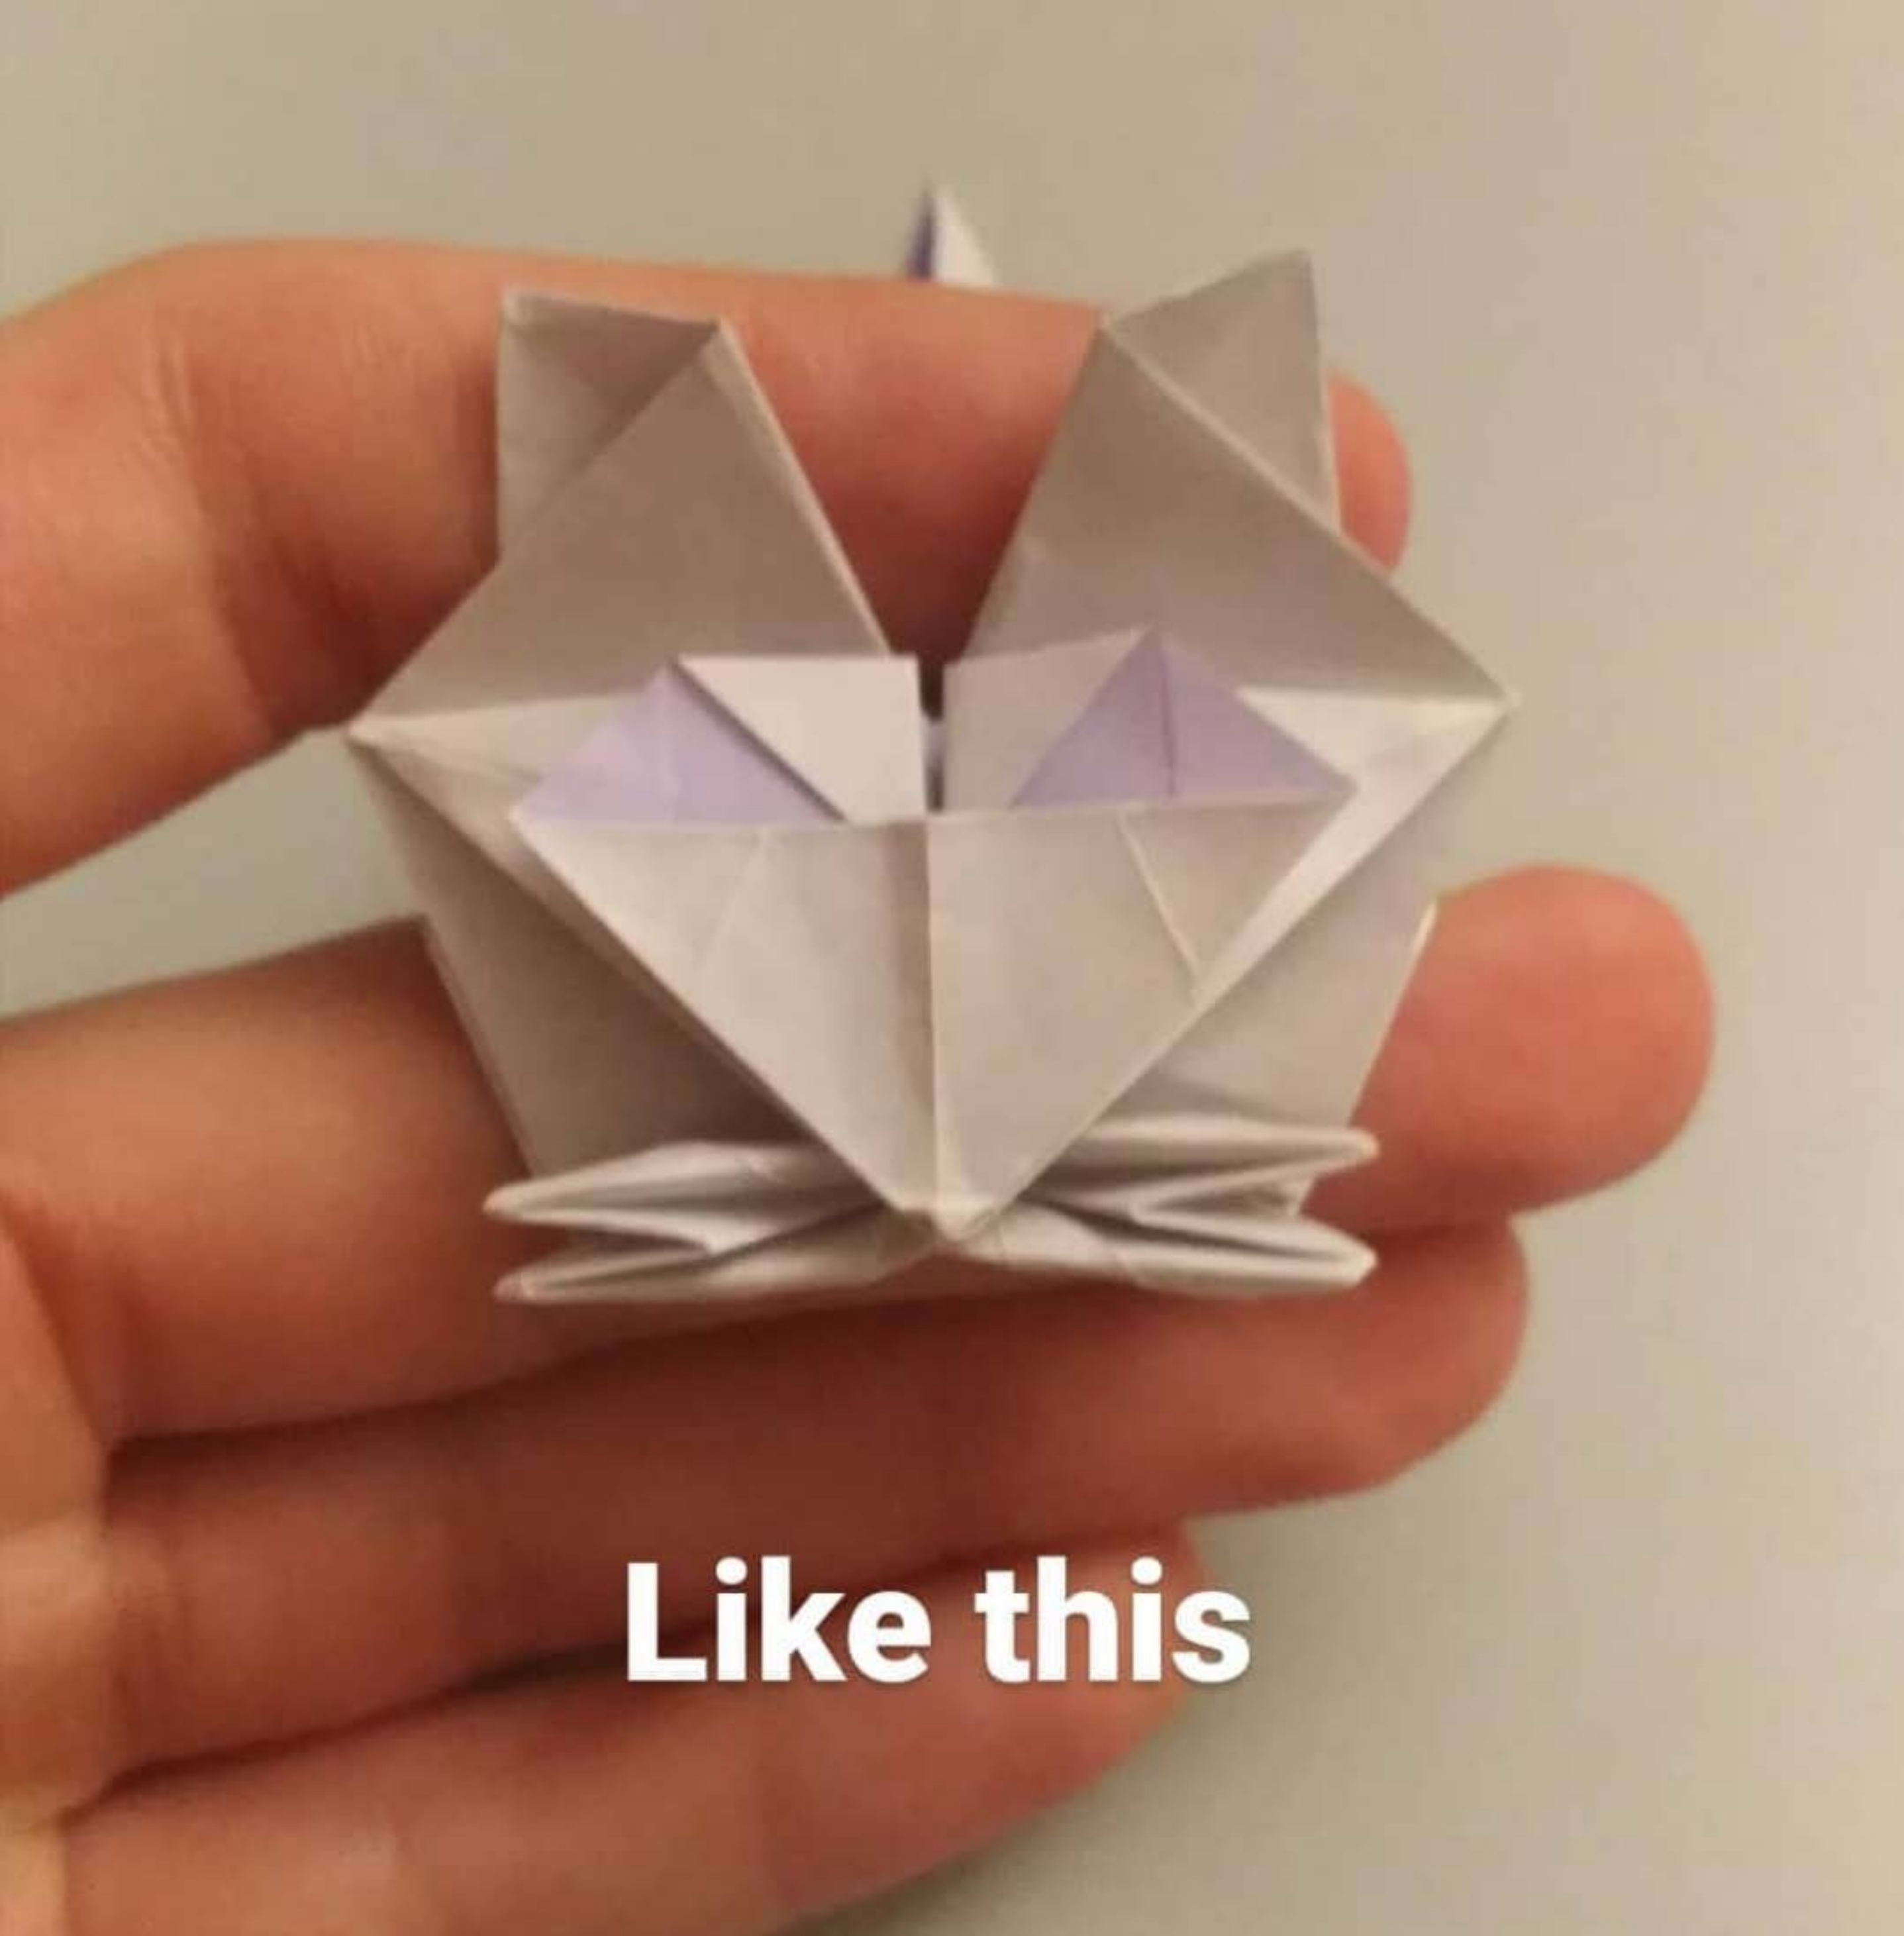

**Like this. Make a swivel fold  
on the ears**

**Like that. Repeat on the other size  
an shape the whiskers**

**Like this**

**Shape the legs and tail to  
your own taste**

**And post your fold using  
#damianmalickiorigami hashtag!**
