Full cp

The simplified cp I will  
be using

## Flap allocation

## Start with a square.

I recommend using a square that is 50cm.  
The square I am currently using is 40cm.

Foil is good for shaping but it may be difficult  
for beginners to collapse.

I suppose double tissue is good.

# Make a 48 grid

Done by dividing 3>6>48

Draw on the simplified  
cp

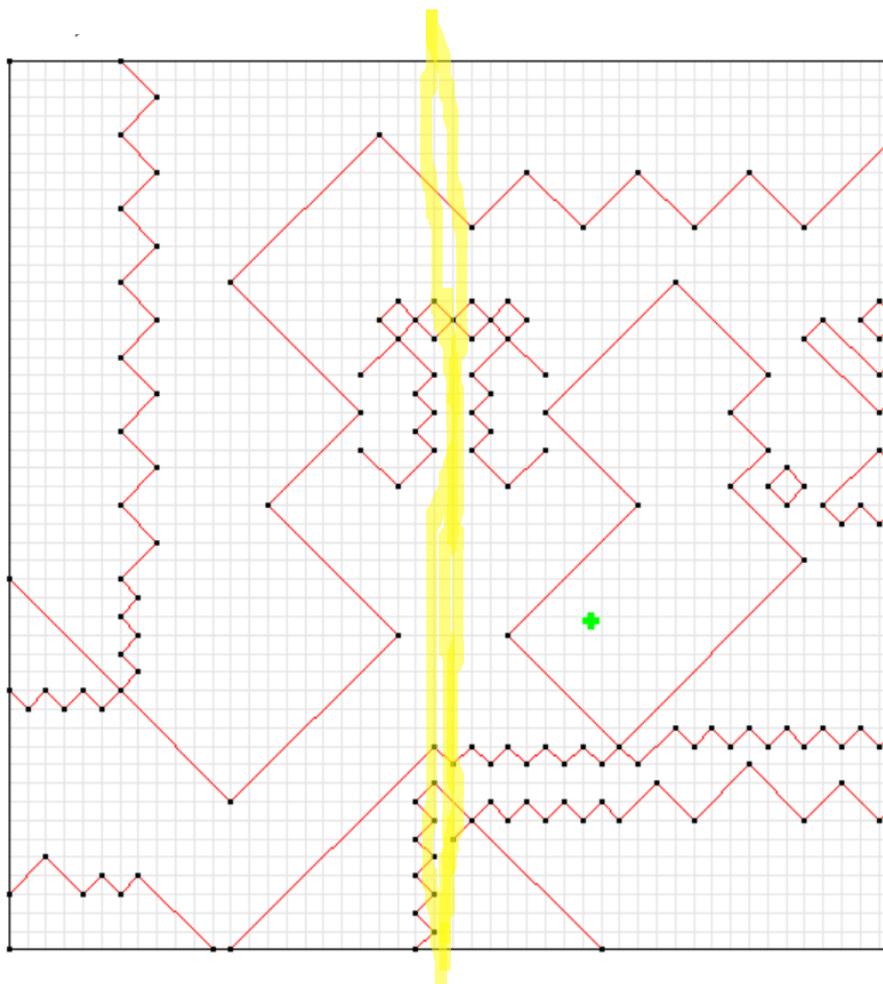

And precrease if you want to. (lol)

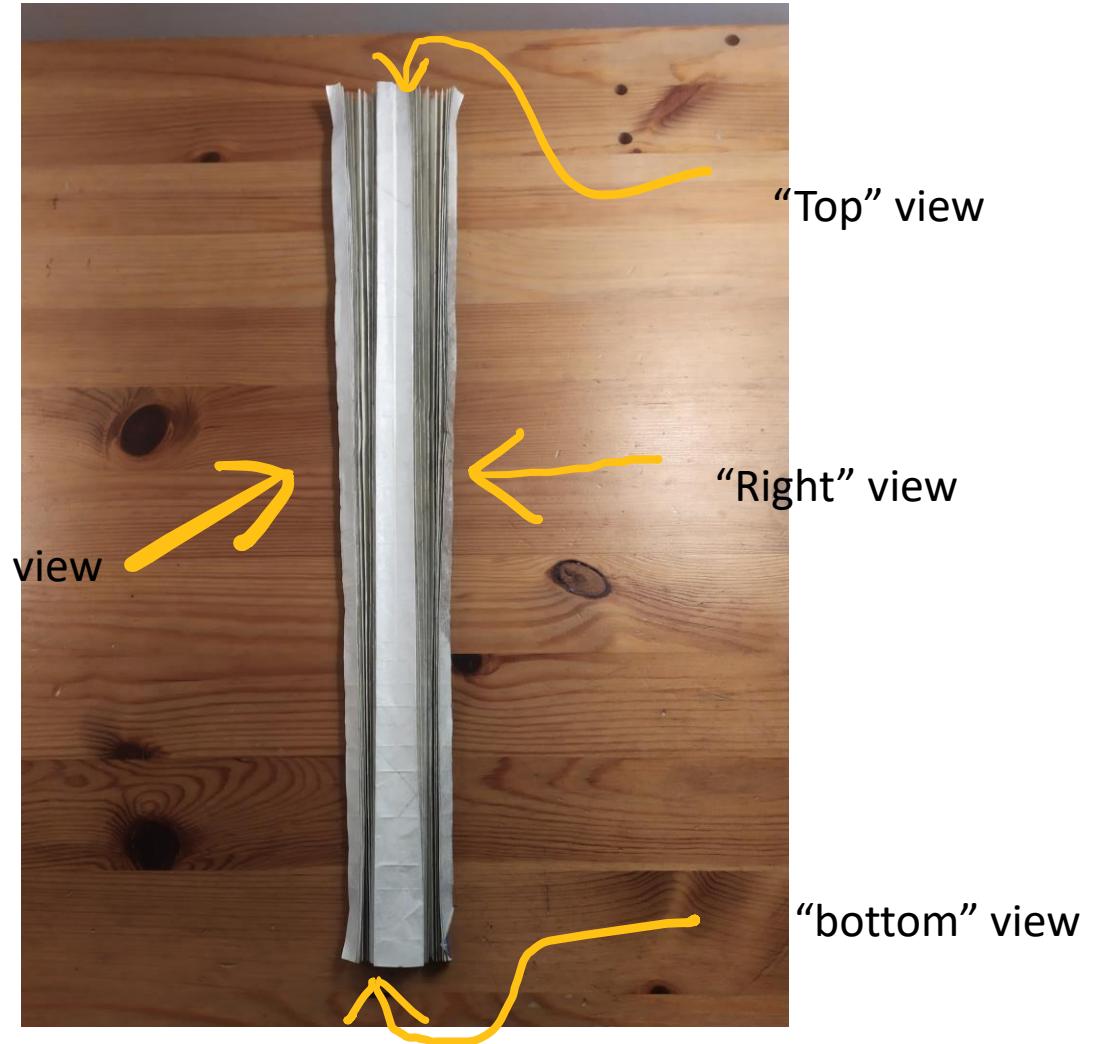

Accordion fold  
vertically

Unfold here

# Shaping the head

Open up the middle and fold the middle-most flap down.

Fold over a layer,  
opening up the right  
side

Fold down a flap

Close it back up.

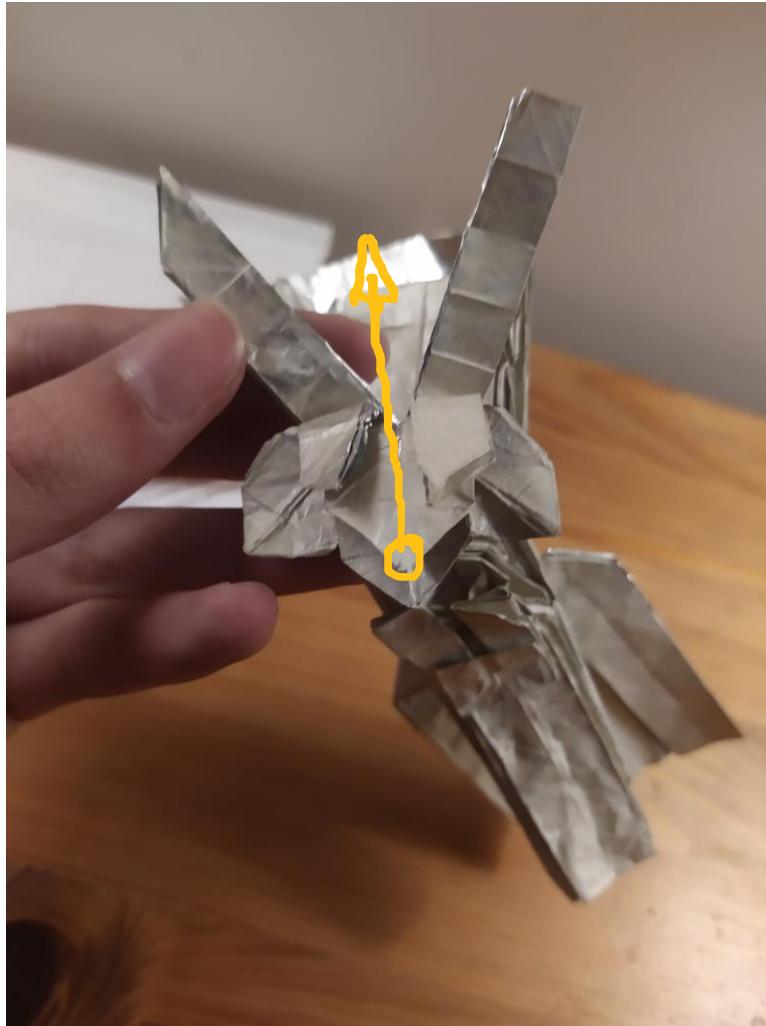

Repeat on the left

Fold down the 3 top flaps

Pull up this middle flap

Shape the hair

Round off the chin

Head finished.
